

MEGANE RENAULT SPORT

RENAULT *SPORT*

MEGANE RENAULT SPORT 265 & GT 220

Renault Sport has forged a reputation for producing the most exhilarating high-performance vehicles that can be driven safely day-to-day and let loose on the racetrack.

MEGANE R.S. 265: MADE TO OUTFRAN AND OUTSMART

The Mégane R.S. 265 was first developed by Renault for some of the most demanding drivers in the world – the Gendarmerie Nationale, France’s rapid intervention police force. This specialised police squad require vehicles with the technology and power to achieve advanced performance in extremely high-speed vehicle pursuits with the protection of exceptional safety features.

The Gendarmerie selected the Mégane R.S. 265 Cup for its precise handling assisted by high-performance limited-slip differential and 18” tyres ensuring the best possible transfer of engine power.

MEGANE R.S. GT 220: FULLY LOADED

The Mégane GT 220 Special Edition Sportwagon delivers breathtaking performance, athletic style and practical versatility. A true testament to Renault Sport’s reputation, it has the same power-packed engine that drives the renowned Mégane R.S. 265 hot hatch, along with an impressive array of technology and performance features, as well as killer looks. Practicality has never been so much fun.

ARE YOU READY?

The Mégane R.S. 265 features a two-litre 16-valve turbocharged petrol engine that boasts maximum power of 265hp and peak torque of 360Nm. The Mégane R.S. GT 220 punches an impressive 162kW and 340Nm of torque.

Onboard technology and expertise derived from Renault Sport’s decades of experience in Formula 1® heighten the driving experience throughout the Mégane R.S. range. Renault Sport Dynamic Management in the Mégane R.S. 265 enables 3 modes of sports-tuned ESC function – ‘On’, (default), ‘Sport’ for less intrusive ESC action and the engine’s full 265hp, and ‘Off’ (complete disengagement).

MEGANE RENAULT SPORT 265 CUP & CUP+

HIGH-PERFORMANCE STYLE

The Mégane R.S. 265 Cup is not just an engineering masterpiece, it's also beautifully designed. Your music sounds incredible through the 3D Sound by Arkamys® system with fingertip controls and multimedia connection box. The styling is sleek and purposeful and the interior is uncompromisingly sporty, yet comfortable. From the snarl of its central exhaust pipe to the 18" Tibor alloy wheels and alloy pedals – perfectly positioned for high-performance heel and toe throttle control – this is a driver's car through and through.

The Mégane R.S. 265 Cup has Renault Sport cloth seats that hold you in the perfect position for control and cornering. Exclusive to Renault Sport, the R.S. Monitor takes its inspiration from the world of motor sport, with a central dashboard display that provides real-time engine performance information, gear change warning, and 0 – 100 acceleration. The renowned Renault 'Cup' chassis delivers handling that is as brilliant on the road as it is on the circuit. Red stitching on the steering wheel complements the red-trimmed dashboard with satin chrome details and red seatbelts in the Cup.

For those who want more, the Mégane R.S. 265 Cup+ will leave you breathless. The front bumper in high black gloss is brought to life by the red-trimmed front blade. Driver and front passenger heating adds another layer of comfort. The Mégane R.S. 265 Cup+ is the perfect combination of style, stature and sophistication. This variant is a limited run model and is only available while stocks last.

MEGANE RENAULT SPORT 265 TROPHY+

Overseas model shown

THE FUSION OF PASSION AND LUXURY

From its daytime-running LED lights at the front, through to the gloss black diffuser at the rear, the Mégane R.S. 265 Trophy+ is the ultimate combination of driving pleasure and luxury. The luxurious Renault Sport electrically-adjustable charcoal leather upholstered and heated sports seats for both driver and passenger are comfortable and very supportive. Tinted rear windows and a fixed glass roof allow light into the cabin and let nothing interrupt your private driving pleasure.

The Trophy+ takes technology up a notch, boasting integrated Sat Nav with a 7" screen, 2D/3D maps, turn-by-turn instructions and an SD card for easy map updates. Front and rear parking sensors with a rear camera make parking easier while automatic dual-zone climate control, the high-quality stereo system and Bluetooth® connectivity create the ultimate cabin ambience. The Trophy+ also features 19" STEEV alloy wheels.

MEGANE RENAULT SPORT GT 220 SPORTWAGON SPECIAL EDITION

HIGH PERFORMANCE MEETS THE FAMILY

Renault Sport is synonymous with high-performance driving and enviable sports styling, and the Mégane R.S. GT 220 Special Edition Sportwagon is no exception. It features the same breathtaking engine and performance tyres as the renowned Mégane R.S. 265, kicking 162kW of power and 340Nm of torque, with a sports chassis worthy of its racetrack heritage.

Designed to appeal to both your practical and wild sides, the versatile boot space suits large loads or family trips, with split-folding or reclining rear seats that deliver a huge load space of up to 1600L. The Mégane R.S. GT 220 is also the first to feature Stop & Start Technology for advanced fuel efficiency.

The Mégane R.S. GT 220 has killer looks to match its impressive equipment list, with the distinctive muscular Mégane R.S. curves, black roof bars, 18" gloss black alloy wheels, fog lights and LED daytime running lights.

It outperforms on safety too, featuring rear parking sensors, front, side and rear curtain airbags and cruise control with speed limiter as standard. The optional Premium Pack ups the ante with even more of the technology and features you desire including a panoramic sunroof, leather seats, integrated Sat Nav and rear camera, plus Visio System with Lane Departure Warning.

RENAULT'S MOTORSPORT LEGACY

FROM FORMULA 1® TO ROAD CARS

Since our very first race win in 1899, Renault has been driven by a competitive spirit and passion for all things motorsport. Renault's commitment to F1® since 1977 has been rewarded many times so far, including 11 Drivers' World Champion titles and 12 Constructors' World Champion titles.

Renault Sport F1®'s success stems from Renault's ability to develop innovative, powerful and reliable engines. These characteristics and the expertise we gain while building and testing engines for F1® are incorporated into the designs of our own road car range. You can experience this winning combination behind the wheel of any of our Renault Sport models.

RENAULT SPORT TECHNOLOGIES

1. RENAULT SPORT MONITOR

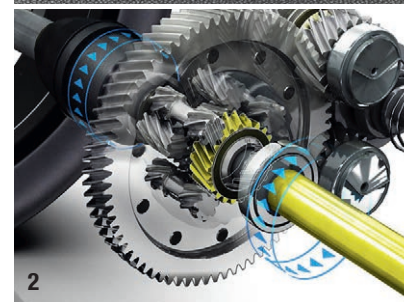

The Renault Sport Monitor, available across the Mégane R.S. range, provides the driver with real-time data on the road. This unique system is directly inspired by technology employed in motorsport. Drivers can scroll through the system's different functions using the steering wheel mounted controls. Information displayed on the dash-mounted screen includes:

- > data for the main engine functions including oil temperature and brakes plus real-time engine performance data (torque, power)
- > transverse and longitudinal g-force
- > lap timer with memory function
- > driving performance data, such as acceleration times

2. LIMITED-SLIP DIFFERENTIAL

Mégane R.S. 265 features Renault's renowned Cup chassis which, combined with a limited-slip differential, delivers outstanding traction and ensures greater stability when braking. In addition to improving the efficient transmission of power to the road and enhancing performance, the limited-slip differential delivers progressive, reassuring handling whatever the driving style. It kicks in immediately under hard acceleration and cornering to free up the car's full braking potential and allow for faster acceleration, sooner.

3. DYNAMIC MANAGEMENT SYSTEM

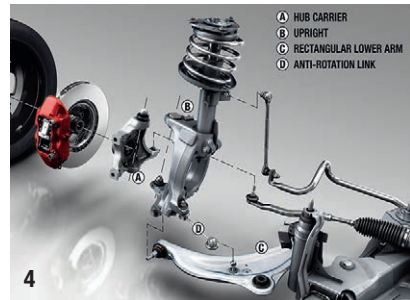

The Renault Sport Dynamic Management system on the Mégane R.S. 265 optimises the engine sound and allows the driver to choose the degree of electronic aid they want in different situations:

- > 'Normal' mode: ESC, ASR traction control and emergency brake assist are all activated. The pedal mapping ensures smooth acceleration, making this mode ideally suited to everyday use.
- > 'Sport' mode: for less intrusive ESC action. 'Sport' mode releases the 265hp and 360Nm torque for the ultimate driving experience. Although the ESC and ASR are still active, they intervene at a later threshold allowing sportier driving. The pedal mapping is modified to permit swifter engine response and provide extra torque at low revs.
- > 'Off' mode: for your unleashed driving pleasure, typically on a circuit. The ESC is fully disconnected, while the pedal mapping ensures instant response from the engine and delivers all available torque and over-torque at low revs.

4. PERFOHUB SUSPENSION

Renault Sport's 'PerfoHub' independent steering axis in the Mégane R.S. 265 ensures stable front suspension under hard acceleration or when applying a significant amount of steering lock, cutting torque-steer. Renault Sport Technologies' innovative independent steering axis front suspension has been engineered to overcome the drawbacks commonly associated with powerful front-wheel-drive cars subjected to high forces, such as self-steering input through tight corners and poor straight-line stability induced by torque steer.

5. STOP & START TECHNOLOGY

Stop & Start technology involves automatically cutting the engine when the vehicle is at a standstill, reducing fuel consumption and greenhouse gas emissions.

This innovative system will stop the engine (standby mode) when it detects a standstill (i.e. traffic jams and red traffic lights). Standby mode is activated when the gearbox is in neutral, when the clutch pedal is released and if the vehicle is travelling at less than 3 km/h.

The engine will restart when you press the clutch pedal and move into gear.

6. VISIO SYSTEM

Renault's Visio System is designed to increase driver safety. It works with a front camera located between the windscreen and the internal rear-view mirror. If the driver is distracted, the Lane Departure Warning (LDW) will warn the driver in case of involuntary crossing of a broken or unbroken line (if indicators are not used).

The 'automatic high beam lights' function adjusts the strength of the lights to suit the environment. It maximises illumination, whilst increasing safety by avoiding glare to oncoming or preceding traffic by automatically switching to low-beam mode.

OUR QUALITY – YOUR PEACE OF MIND

The most extensive European quality, convenience and expertise promise.

WHEN YOU PURCHASE A NEW VEHICLE, YOU WANT TO BE SURE IT WILL GIVE YOU YEARS OF ENJOYABLE, WORRY-FREE MOTORING, BACKED BY A TRUSTED AND RELIABLE BRAND. AND WHEN YOU CHOOSE A RENAULT, THAT'S EXACTLY WHAT YOU'LL GET.

GENEROUS COMPREHENSIVE WARRANTIES

Renault has been building and racing motor vehicles for more than 100 years, creating a legacy of invention, innovation and a competitive spirit that drives us to excel. The wealth of experience we've gained is reflected in the design, performance and quality of every vehicle we sell.

We're so confident that your new Renault will provide you with many years of reliable and enjoyable driving that we're backing our quality promise with competitive and comprehensive warranty terms on all of our vehicles.

24/7 ROADSIDE ASSISTANCE

Renault Roadside Assistance is a service Renault provides to you as a new Renault owner for the period of your new vehicle warranty, regardless of how many kilometres you travel.

You could run out of fuel, lose your car keys, have a flat tyre or an accident just around the corner or a long way from home. Just call **1800 009 008** and we'll arrange the assistance you need to get back on the road. The service is available 24 hours a day, 365 days per year and covers you right across Australia.

CAPPED PRICE SERVICING

Fantastic Renault value doesn't end once you've got your new vehicle home – you'll enjoy the benefits of lower maintenance costs for your first 3 years or 30,000km (whichever occurs first) behind the wheel thanks to Capped Price Servicing.

The Capped Price Service program covers the cost of all genuine parts, lubricants and labour required for standard scheduled maintenance services.

And, because you're busy, Renault vehicles are designed to require servicing only once per calendar year – not every six months like many other manufacturers.

RENAULT SPECIALIST TECHNICIANS

Only Renault authorised dealerships have registered Factory Trained Technicians. Known globally as COTECHs, they're trained by Renault to perform all factory-recommended servicing and repair operations. This ensures your car always receives the quality attention it deserves.

COTECHs use specialised service tools and equipment to ensure your vehicle continues to provide optimum performance, safety, economy and emissions. When you combine this technical expertise with the very best Genuine Renault parts, lubricants and accessories, you can be sure your car is in the safest of hands.

REPAIR & SERVICE COURTESY CARS

Renault quality extends to our customer service.

To minimise your inconvenience while your vehicle is undergoing maintenance or repairs, our authorised Renault Dealers have low cost loan vehicles ready and waiting for you. Simply book a loan vehicle in advance when you book your Renault in for service with your dealer.

Alternatively, most Renault Dealers offer a drop off service to local destinations or to the nearest public transport.

GENUINE RENAULT PARTS

Genuine Renault parts, lubricants and accessories are of the highest quality, and specifically designed for Renault vehicles. They are purpose-built to our exacting specifications, guaranteeing fit, function and performance first and every time. They are also covered by our 1-year unlimited kilometres warranty.

Authorised Renault Dealers keep high stock levels of commonly used genuine Renault parts to ensure continuous availability.

RENAULT DEALER NETWORK – THE BENEFITS

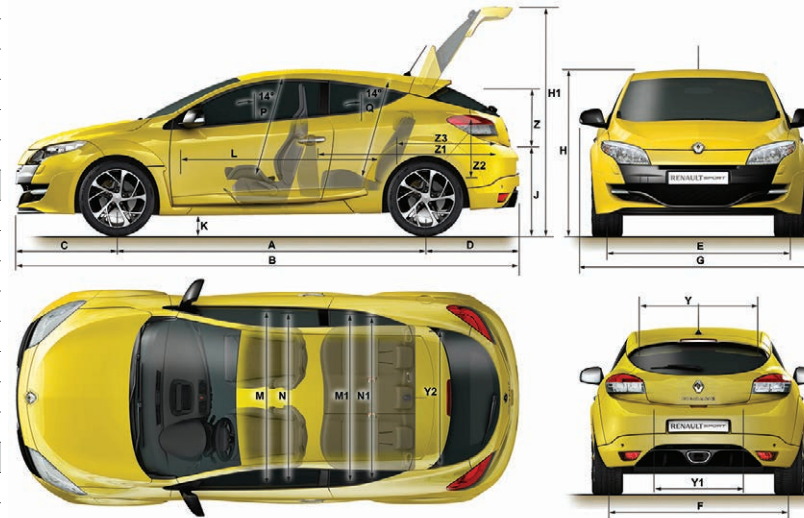

Everywhere, at every stage in your car's life, the Renault dealer network is with you, providing quality service, including:

- > Personalised reception and advice
- > The use of only Genuine Renault parts
- > The Renault 1-year parts and labour guarantee for all repairs carried out by a Renault dealership
- > Equipment and tools specially designed for your Renault
- > Simple, clear and transparent pricing structures, so you can always have your car serviced or repaired with confidence

Colours shown are indicative only. It should be noted that printing limitations do not permit the subtle paintwork shades on these pages to be shown with absolute accuracy. Only personal inspection of the Mégane R.S. GT 220 Sportwagon at your Renault Dealer will reveal it in its true colours. From time to time changes are made to the colour range. Please check availability with your Renault Dealer.

MEGANE **RENAULT SPORT**
