

TUCSON SANTA FE

WELCOME TO HYUNDAI

Our worldwide commitment to quality has led Hyundai to now being one of the world's fastest growing automotive brands. The success we have achieved over the past decade has come about by producing cars that embody quality, innovation and individuality... cars that are underpinned by quality in design, build, features and safety.

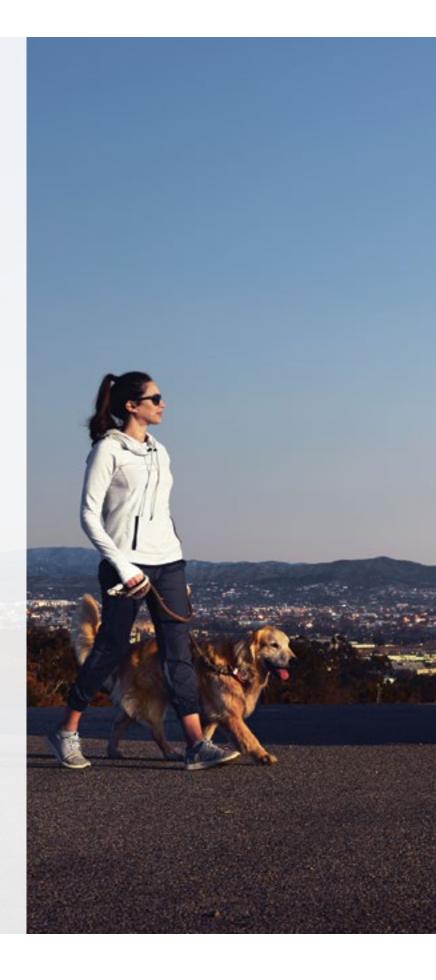

If these are the qualities you're looking for in your next vehicle, we warmly welcome you to Hyundai's vast global family of astute and highly satisfied drivers.

NEW THINKING. NEW POSSIBILITIES.

Each new Hyundai vehicle is the product of new thinking – of looking afresh and questioning the way things have been done in the past. And from new thinking comes new possibilities.

To realise the transformative power of this approach, we have invested in world-class manufacturing and recruited some of the world's best automotive engineers and designers. At every opportunity we have looked at how to use world-leading technologies to make your driving experience more comfortable, more enjoyable and safer than ever before.

In every way, and from every angle, each new Hyundai vehicle exemplifies this philosophy and demonstrates our total commitment to the concept of new thinking and new possibilities.

FLUIDIC DESIGN

Hyundai's Fluidic Design philosophy is inspired by nature and life itself. It blends the natural and fluid elements that surround us all with the more rigid surfaces and structures of each vehicle, to create an impression of constant graceful motion.

We consider it an integral part of our DNA, for although each Hyundai has its own individual character, Fluidic Design constitutes a common platform that connects each and every vehicle in the range via a distinctive and stylish look; one that is unmistakably Hyundai.

However, there is more to our Fluidic Design approach than meets the eye. The All-New Tucson and Santa Fe also incorporate advanced aerodynamics that translate directly into improved performance, at both high and low speeds, along with reduced fuel consumption.

LIFETIME SERVICE PLAN#

Protect your car with genuine servicing, flexible online bookings and competitive quotes for every Hyundai model.

ROADSIDE SUPPORT PLAN*

A helping hand when you need it – Roadside Assist for up to 10 years when you service with us at a Hyundai iCare Service Centre.

5 YEAR UNLIMITED KILOMETRE WARRANTY[^]

We're so confident in the quality of our passenger vehicles, we back them with a 5-year unlimited kilometre warranty.

SATNAV UPDATE PLAN+

For vehicles equipped with satellite navigation, you can stay on track with updated maps – refreshed twice in the first 3 years, when you service with Hyundai.

GENUINE SERVICING; GENUINE PARTS

Your Hyundai iCare Service Centre offers the assurance of factory-trained technicians, using Genuine Hyundai Parts.

CUSTOMER CARE CENTRE

Our Australian-based Customer Care Centre is available Monday to Friday between 8:30am and 7pm (AEST), on 1800 186 306. Feel free to call if you have any questions.

To learn more about the benefits available to Hyundai owners, simply go to www.hyundai.com.au/owners

- "Lifetime Service Plan: For the benefit of Hyundai owners, Hyundai provides online quotes, which specify the maximum price applicable for a vehicle's next scheduled maintenance service at a participating authorised Hyundai dealer and using genuine Hyundai parts (where required). Online quotes are available at www.hyundai.com.au, for a stated effective period only and may change after that effective period without notice. Standard scheduled maintenance services are of limited scope. The benefit of online quotes is available for all Hyundai vehicles for their lifetime.
- *Roadside Support Plan: Complimentary 12 months Roadside Support when you purchase a new Hyundai passenger vehicle (excluding rental buyers). Further Roadside Support extensions are available, each for 12 months from the date of a scheduled maintenance service at a participating authorised Hyundai dealer (unless vehicle is more than 108 months (9 years) from the original new car sale date, in which case entitlement to Roadside Support ends when vehicle reaches 120 months (10 years) from original new car sale date).
- ^5 year/unlimited km warranty: Applies to new passenger vehicles used for private/domestic purposes. Excludes vehicles used at any time for "commercial application" as defined in the vehicle warranty policy, for which a 5-year /130,000km (whichever occurs first) warranty applies. Refer to full warranty terms and conditions for details and exclusions.
- **+ SatNav Update Plan:** Only applies to new vehicles with factory-fitted satellite navigation.

Find out more about all Hyundai iCare plans and offers, including terms and conditions, by visiting www.hyundai.com.au

HYUNDAI SUV RANGE

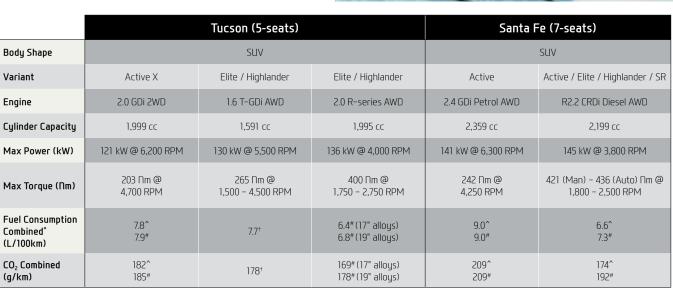

Game changing, stylish and strong

Hyundai has re-imagined the SUV, creating two exceptional vehicles that combine sophisticated styling with uncompromising engineering to deliver the highest levels of comfort and driving performance, both in the city and out on the open road.

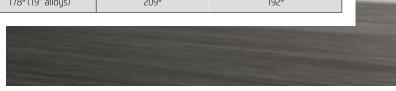

The agile and compact All-New Tucson is available in Active; Active X, Elite and Highlander variants, while the spacious and sporty Santa Fe is available in Active, Elite, Highlander and SR variants. The level of standard inclusions and specifications is exceptionally high, and across the range you have the choice of seven highly advanced Petrol or Diesel engines, and either two-wheel or all-wheel drives.

Whether taking the family across town, or heading off on roads less travelled, a Hyundai SUV offers brilliant comfort and an outstanding driving experience.

^{*}Source: Australian Design Rule 81/02 static laboratory combined average city and highway cycle test. Fuel consumption will vary depending on a combination of driving habits and the condition of the vehicle

^{*}Available from late 2015.

SUV RANGE

ENGINEERED FOR POWER & PERFORMANCE

When driving a SUV, you want the reassurance of an engine that delivers an abundance of power and torque, yet does so with great fuel efficiency and lower CO_2 emissions.

Hyundai's engineers have developed a line-up of responsive and durable, advanced technology powertrains, enabling you to choose the All-New Tucson or Santa Fe variant that best matches your family's needs and lifestyle.

CRDi 16'

Tucson Elite and Highlander Diesel engine shown

2.4 GDi Petrol engine

2.2 CRDi Diesel engine

SIX LATEST TECHNOLOGY PETROL OR DIESEL ENGINES

On two-wheel drive (2WD) models of the All-New Tucson, engine choices include an enhanced Nu 2.0 litre MPi petrol engine* (Active* and Elite) and an efficient 2.0 litre GDi petrol engine (Active X). All-wheel drive (AWD) variants are fitted with either a 1.6 litre Turbo GDi petrol engine (Elite and Highlander) or a 2.0 litre CRDi Diesel engine (Elite and Highlander), which is the most powerful in its category.

On the award-winning Santa Fe, which features AWD across all variants, you have the choice of either a 2.4 litre GDi petrol engine (Active only) that utilises the latest gasoline direct injection technology, or the outstanding 2.2 litre CRDi Diesel engine (Active, Elite, Highlander and SR).

FINE-TUNED FOR AUSTRALIAN CONDITIONS

The suspension and steering systems of Hyundai SUVs have undergone rigorous testing and extensive local tuning to achieve a delicate balance between compliance and control on all Australian road conditions. Each vehicle incorporates an array of intelligent driver assistance technologies that ensure a smooth ride and assured road-holding, no matter where your adventures take you.

^{*}Available from late 2015.

DESIGN THAT DRIVES DESIRE

The Hyundai SUV range is characterised by elegant and athletic flowing surfaces, precisely calibrated proportions and crisp design lines, reflecting the evolution of our unique Fluidic Design philosophy.

Dynamic new features such as the next generation hexagonal grille, sleek headlamps and LED daytime running lamps integrated into the front bumper, provide an unmistakable look that is both high-tech and futuristic.

Setting new benchmarks in styling, the All-New Tucson and Santa Fe convey refined poise and contemporary sophistication when driven in the city, while at the same time embodying the robust and dynamic styling of a rugged open road performer.

SUV RANGE

SAFETY IS OUR FIRST PRIORITY

At Hyundai, ensuring the highest levels of safety for you and your passengers is our key focus throughout the design, engineering and production process of every Hyundai vehicle. That's why the All-New Tucson and Santa Fe incorporate a rigid, reinforced high-strength tensile steel chassis, numerous airbags and the latest driver assist technologies to assist you maintain – or regain – control in even the most challenging driving situations.

We are constantly researching and developing even better ways to help you avoid accidents and to provide maximum protection when a collision occurs. And once such new innovations and technologies have been tested and proven, we immediately look at ways to incorporate them into our next generation vehicles.

Santa Fe Highlander Smart Parking Assist and Rear View Camera

ACTIVE SAFETY

Hyundai SUV's are available with the following active safety technologies.

ANTI-LOCK BRAKING SYSTEM (ABS) WITH ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD)

To help keep you out of danger in emergency situations, ABS with EBD work to prevent the brakes from locking up, optimising braking pressure between the front and rear wheels to shorten braking distances.

BRAKE ASSIST SYSTEM (BAS)

BAS assesses how fast the brake pedal is pressed, then if an emergency is detected, instantly applies maximum force, thereby shortening braking distances.

VEHICLE STABILITY MANAGEMENT (VSM)

If you find yourself in a situation where your vehicle begins to skid away from your intended direction, VSM applies steering assistance, quiding you to the correct steering position to help you maintain control.

LANE DEPARTURE WARNING (LDW)

On the Highlander and SR variants, LDW uses a camera to scan the road ahead and will alert the driver if it senses the vehicle is unintentionally veering from it's current lane.

HILL-START ASSIST CONTROL (HAC)

When a vehicle is on a steep incline, HAC will temporarily hold the vehicle after you take your foot off the brake. This gives the driver extra time to apply the throttle and accelerate away without the vehicle rolling back.

FRONT AND REAR PARK ASSIST

When reversing, rear sensors (across all variants) together with front sensors (in Highlander) emit an audible warning sound to alert you to objects that might be outside your field of vision.

REAR VIEW CAMERA

To assist you while parking in tight spots and to help avoid accidents, a rear view camera displays the area behind the vehicle in the centre console LCD colour touch screen.

LED DAYTIME RUNNING LAMPS (DRL)

LED DRLs integrated into the front bumper moulding create a striking impression and increase visibility of the vehicle to other road users.

AUTOMATIC DUSK SENSING HEADLIGHTS WITH ESCORT FUNCTION

To increase driving safety and the visibility of your vehicle to other drivers, headlights are automatically turned on as daylight begins to fade. When exiting the vehicle at night, the headlamps remain lit for a short period of time, illuminating the pathway ahead.

PASSIVE SAFETY

In the event of a high impact, a range of passive safety features will help protect you and your passengers.

RIGID BODY CONSTRUCTION

The chassis of the All-New Tucson and Santa Fe features a rigid construction that has been reinforced with high-tensile strength materials.

TUCSON

6-AIRBAGS

The All-New Tucson is equipped with a comprehensive six airbag safety system, including driver and front passenger airbags (to reduce head and neck injuries in the event of a head-on collision), nearside and offside curtain airbags (improving protection for the head in case of a side collision) and front side thorax airbags (to protect the chest and pelvis more effectively).

SANTA FE

7-AIRBAGS

In the event of a collision, a comprehensive system of up to seven airbags are designed to be activated, depending on the area of impact. This includes driver and front passenger airbags, driver and front passenger side (thorax) and side curtain airbags (front and second row) as well as driver's knee airbag.

KNEE AIRBAG

The Santa Fe also includes a knee airbag, which is installed just below the steering column and is designed to reduce the risk of serious injuries to the driver's leg and knee in the event of a frontal collision.

IN-DASH LCD TOUCH SCREENS

The focal point of each SUV's centre console is a high-tech LCD touch screen that controls the vehicle's multimedia system, displays images from the reversing camera, and in some variants incorporates a satellite navigation system.

BLUETOOTH® CONNECTIVITY

Each vehicle's audio system includes Bluetooth® connectivity as standard, providing you with a safe and convenient way to stay in touch with business, family and friends when out on the road.

STEERING WHEEL-MOUNTED AUDIO, PHONE^ AND CRUISE CONTROLS

To help you keep your eyes on the road, ergonomically positioned steering wheel-mounted switches, located near the thumb area, allow you to control audio, Bluetooth® and cruise control functions.

DUAL ZONE CLIMATE CONTROL*

The fully automatic climate control system offers dual zone functionality that allows the driver and front passenger to select separate temperature settings for maximum individual comfort.

PROXIMITY SMART KEY AND PUSH BUTTON START^

The proximity Smart Key system allows you to unlock and lock your vehicle without handling the vehicle's key and to turn on the engine by simply pushing the start button and depressing the brake pedal.

Santa Fe Dual Zone Climate Control

^{*}Not available in the Active† and Active X variants of the All-New Tucson and Active variant of the Santa Fe.

[^]Not available in the Active X variant of the All-New Tucson.

[†] Available from late 2015.

FIRST CLASS COMFORT AND STYLE

When it comes to crafting spacious interiors, Hyundai's ergonomic engineers know how to optimise the space afforded to passengers and luggage, and then ensure exceptional levels of comfort through the use of superior materials and finishes. Even on short trips you'll appreciate this attention to detail; however, on long journeys – or when driving on minor country roads – the meticulous planning behind every aspect of your Hyundai SUV's interior becomes even more evident and enjoyable.

Throughout the All-New Tucson and Santa Fe ranges, premium soft touch surfaces – that are also durable and tough – add an extra sense of style, while every control, button or handle has been logically positioned for ease of use.

ADJUSTABLE SEATS PROVIDE TOTAL SUPPORT

Across the Hyundai SUV range, driver comfort is maximised through electric lumbar adjustment that provides optimum lumber support and ensures the best sitting position to reduce stress and fatigue. Some models and variants include front seats with heating and/or cooling options, as well as electrically adjustable front passenger seats, and other comforts. Finishes range from long-wearing woven cloth through to leather appointed seats.*

PREMIUM STEERING WHEEL AND GEAR KNOB[^]

To make driving even more enjoyable and relaxing, the steering wheel and gear knob feature a premium cushioned finish that improves grip and provides greater control.

AN ABUNDANCE OF CARGO AND STORAGE SPACE

In addition to providing ample room for all occupants, the Hyundai SUV range offers generous cargo space and a myriad of storage compartments throughout each vehicle, ensuring there's a place for everything you need, for every journey.

[^] Not available on the Tucson Active variant.

SUV RANGE

THE ALL-NEW TUCSON

Bolder, bigger and even smarter

As one of Hyundai's most important models worldwide, the All-New Tucson has been redesigned from the ground up, to create a stronger, wider and more spacious compact SUV. It delivers a truly rewarding drive thanks to its superb level of appointments and exceptional use of innovative technologies.

Available in two-wheel drive 2.0 MPi engine (Active* and Elite variants not available until late 2015) and optional all-wheel drive, with four engine choices (including both petrol and diesel), and with either a manual (only available on Active* and Active X variants) automatic transmissions and DCT, there's an All-New Tucson variant that offers the power and performance you want from a compact SUV.

Special Note: The following pages include preliminary details of the Tucson Active variant, which will not be available until late 2015. Final specifications for the Active variant will be available from your Hyundai Dealer at that time.

TUCSON 5-SEAT SUV

A STYLE THAT SAYS CONFIDENT AND CAPABLE

From the first glance, the All-New Tucson makes an impressive statement. Its wide stance and long wheelbase provide the strong proportions of an SUV, while the dynamic design lines accentuate its sleek profile, giving the sense of constant motion. This unmistakable sense of agility sweeps all the way from the elongated headlamps through to the taillights.

Exciting to see, and fun to drive, this high-quality compact SUV has almost chameleon-like qualities. It looks equally at home on the driveway of a 5-star city hotel, as it does when generating a cloud of dust while heading down a dirt track, taking you on a weekend escape.

Designed to cheat the wind

Through improving the curvature of the A-pillar, adding a rear spoiler garnish, and optimising the underbody structure, the design of the All-New Tucson achieves an incredibly low drag coefficient, which enhances high-speed stability and reduces fuel consumption.

TUCSON 5-SEAT SUV

A GENEROUS AND ELEGANT SPACE

Built on a completely new platform that optimises cabin space, the All-New Tucson provides ample head, leg and shoulder room for five adults, in a refined and ergonomically designed interior that features soft-touch high-quality materials.

The inviting centre console features sweeping lines and a two-tier design. Every button, switch and control has been intelligently and intuitively placed, while the available 10-way electrically adjustable driver's seat with lumbar support (on Elite and Highlander), maximises comfort and reduces fatigue.

PATIORAMA GLASS ROOF

The twin-panel panorama glass roof, on the Highlander variant, floods every corner of the cabin with sunlight, and with a retractable blind, provides shade offering relief from the heat. At the touch of a button, the front roof panel opens for an open-roof driving experience, while a wind deflector helps minimise the vibration effects of the wind.

AMPLE ROOM FOR EVERYTHING YOU NEED

With a substantial 488 litres of luggage capacity, there's more than enough space for everything, from sports gear and camping equipment through to all the suitcases and bags you need for a week or two of holidays. Plus with 60:40 split rear seats, you can easily load longer cargo through the tailgate or dramatically increase carrying capacity by folding both rear seats down.

SMART TAILGATE[^]

When you are within a metre of the rear of the All-New Tucson with the smart Proximity Key in your pocket or purse, the smart power-lift tailgate will detect your presence, and with no extra movement, motion or effort on your part, will automatically open. This is particularly convenient when approaching with an armload of groceries or a big box.

[^] Only available on Elite and Highlander variants.

TUCSON 5-SEAT SUV

INTUITIVE SAFETY TECHNOLOGIES

In addition to the vast array of active and passive safety systems that are common across the Hyundai SUV range, the All-New Tucson Highlander variant also includes Sensory Safety Technology.

AUTONOMOUS EMERGENCY BRAKING (AEB)

Combining radar and camera data, the AEB system autonomously activates the brakes when it detects dangerous and sudden braking by the car ahead or pedestrians on the road.

LANE KEEP ASSIST SYSTEM (LKAS)

The system will assist by applying steering input to help keep the vehicle between the lane markings. It's designed to prevent those moments when a lapse of concentration can cause the vehicle to stray outside the lane.

BLIND SPOT DETECTION (BSD)

When driving at a speed of 30km/h or higher, the BSD function will alert the driver to blind spot objects in close proximity, including during lane changes.

LANE CHANGE ASSIST (LCA)

The LCA system provides a visual warning when radars detect a vehicle that is approaching rapidly from the rear. When the turn signal is being used, a flashing warning as well as an audible alert, notify the driver of the potential hazard.

LANE DEPARTURE WARNING (LDW)

A camera mounted on top of the windshield of Highlander variants, provides a cutting edge preventive safety mechanism by recognising lane departures that are not accompanied by a turn signal, and then initiating an alert to the driver.

REAR CROSS TRAFFIC ALERT (RCTA)

When reversing at a low speed, objects approaching on the left and right side of the vehicle are detected and an alert is given to safely navigate a potentially dangerous situation.

PARK ASSIST SYSTEM (PAS)

When parking, eight surround sensors emit an audible warning sound to alert you to objects that might be outside your field of vision.

KEEPING YOU CONNECTED TO YOUR WORLD

The All-New Tucson's hi-tech in-dash touch screen is a lifestyle, multimedia and navigation hub that keeps you switched on and connected with your world, wherever you're travelling.

Active[†] and Active X variants include a 7" touch screen audio system with MP3 compatability and six speakers. The system will support Apple[®] CarPlay from September 2015 plus Android Auto in 2016 (when connected to a compatible smartphone with mobile data access).

Elite and Highlander variants feature an 8" touch screen satellite navigation and audio system with MP3 capability and six speakers. The satellite navigation system incorporates SUNATM live traffic updates, and if you service your vehicle at any participating authorised Hyundai Service Centre, you will also be entitled to two complimentary annual HERE® SatNav updates."

[†] Available from late 2015.

[^]SUNA™ Traffic channel coverage is available in the following metropolitan areas: Adelaide, Brisbane, Canberra, Gold Coast, Melbourne, Perth and Sydney as well as the following regional areas: Geelong, Bendigo, Ballarat, Hobart, Darwin, Newcastle, Central Coast, Wollongong, Sunshine Coast and Ipswich.

[&]quot;SatNav Update Plan: Plan only applies to new vehicles with factory-fitted satellite navigation. HERE® is a registered trademark of Nokia Corporation. Maximum number of two updates, delivered on an annual cycle within 3 years of the vehicle's initial purchase. Complimentary map updates only apply if the vehicle completes a scheduled service at a participating authorised Hyundai dealer.

ELITE & HIGHLANDER

The All-New Tucson Elite and Highlander offer an even higher level of standard specifications and design touches that add further comfort and convenience for both passengers and driver.

The beautiful electroluminescent supervision cluster (Highlander only) incorporates a 4.2" colour TFT display, putting important driver information in clear sight. Likewise, the driver's 10-way adjustable power seat with two-way power lumber support, and the 8-way adjustable front passenger seat (Highlander only), optimise comfort no matter the length of the journey. In Highlander, the addition of ventilation and heating to the front seats makes for an even more luxurious experience.

Solar glass keeps the heat out of the cabin, while tinted rear privacy glass prevents prying eyes from seeing what you're carrying. Heated external mirrors (that fold electronically) make driving easier and safer on cold dewy mornings, while rain sensing wipers help you keep your focus on the road.

Exterior styling enhancements include a chrome effect on the front hexagonal grille as well as on the door frame, belt lining and door handles. Highlander is also fitted with ready-for-action 19" alloy wheels and chrome-coated twin exhaust tips, and offers even further distinction with a matte grey side sill moulding, chrome effect garnish on window switches and matte grey skid plates, front and rear.

ACTIVE* AND ACTIVE X

Every variant of the All-New Tucson, including the entry level Active[†] will surprise and delight you with its complete package of style and function.

For example, with its sportier look and powerful engine options, the newly created Active X variant takes the compact SUV driving experience up a notch, with a range of inclusions that underscore Hyundai's commitment to quality, innovation and individuality.

Immediately distinguished by its premium-look front fog lamps, the Active X is fitted with 18" alloy wheels and is available with the 2.0 litre GDi Petrol engine.

Adding an extra touch of luxury and style, the interior features leather appointed* seats as well as a premium steering wheel and gear knob.

APPLE® CARPLAY AND ANDROID AUTO^

The All-New Tucson Active† and Active X models promise full compatibility with Apple® CarPlay from September (and also Android Auto in 2016). You can play music, compose texts, navigate or access your calendar using voice activation to control these and other functions through your phone. You need never take your eyes off the road – just plug in and go.

PANDORA

PANDORA® INTERNET RADIO

When connected to an iOS or Android smartphone, the inbuilt Pandora® app instantly launches personalised internet radio, based on your favourite artist, song or genre, providing you and your passengers with the music you love anytime and anywhere.

- † Available from late 2015.
- *Leather appointed seats mean parts of the seats have a combination of genuine and artificial leather, but are not wholly leather.
- ^ Apple® CarPlay functionality requires software update, scheduled to be available in September 2015. Apple® CarPlay requires iPhone 5 or subsequent model (lightning cable) in order to operate. Apple® and iPhone® are registered trademarks of Apple Inc.
- † Compatible with iPhone 5, 5c, 5s, 6 or 6 Plus.

Pandora, the Pandora logo, and the Pandora trade dress are trademarks or registered trademarks of Pandora Media, Inc. used with permission. SANTA FE

Built for every family experience

From the ground up, the bold and modern Santa Fe is rugged yet elegant and incorporates the features and performance you'd expect from a premium All-Wheel-Drive SUV. Lighter, stronger, nimbler and more fuel efficient than ever, it represents the very latest in advancements for today's SUVs.

Inside and out, quality engineering and finishes back up every detail of the Santa Fe's stunning and sophisticated looks. With comfortable seating for seven, everyone can enjoy a luxurious experience with an abundance of technologies that deliver easy driving and total enjoyment.

As with every Hyundai, safety remains top priority. For the Santa Fe, tough high tensile steel and numerous advanced safety technologies are constantly at work to protect you and your family. Just as importantly the Santa Fe delivers power with economy, without sacrificing responsiveness or driving fun.

Awarded the Australia's Best Cars award for AWD SUVs \$45,000–\$65,000 by the independent motoring associations of Australia, the Santa Fe has been designed and built for the way you and your family live.

SANTA FE 7-SEAT SUV

COMFORT WITH ROOM FOR ALL

The elegant and comfortable Santa Fe interior is highly functional and designed and equipped to maximise your enjoyment of every journey.

Special care and attention has been given to the finishes and trims, with a focus on premium soft-touch materials that are also tough and durable. A great deal of thought has also gone into making sure that driving is easy and stress free.

The many smart touches include air vents in every row, a 'wrap door' that keeps the cabin entry clean, the convenience of steering wheel-mounted controls for audio – and much more. The Elite and Highlander offer a 12-way power driver seat with lumbar support, a second row window blind, rain sensing wipers and headlights that turn on at dusk or in darkened areas. And passengers in the third row will enjoy their very own air vents, allowing them to enjoy the temperature-controlled comfort of the cabin. Take it for a drive and you'll soon discover even more clever inclusions.

VERSATILITY AND CONVENIENCE

Hyundai's interior engineers have crafted a flexible interior that offers exceptional versatility. There are numerous storage compartments in really handy places, and with 40:20:40 split second row rear seats, plus a generous cargo area with underfloor storage, you can quickly configure the Santa Fe to meet the carrying needs of every trip.

PATIORAMA GLASS ROOF

The twin-panel roof, on the Highlander variant, lets you fill the cabin with air and light. At the touch of a button, the front panel opens and a wind deflector activates for passenger comfort.

FLEXIBLE SECOND ROW SEATING

Second row seats offer the flexibility and convenience of sliding, reclining, one-touch folding from the rear, and being configured in numerous ways through their 40:20:40 split capabilities.

7 SEATS

Elegant and comfortable 7 seater interior design.

*Leather appointed seats means parts of the seats have a combination of genuine and artificial leather, but are not wholly leather.

SANTA FE 7-SEAT SUV

THE ULTIMATE DRIVING ENVIRONMENT

Santa Fe is equipped to meet your every demand and desire. From Bluetooth® and iPod® connectivity,* through to features that are designed for convenience – or offer a higher level of luxury – you'll discover loads of innovative and intuitive technologies that make it easier and safer to get to your destination faster.

SATELLITE NAVIGATION AND PREMIUM AUDIO#

The high-tech in-dash 7" LCD colour touch screen satellite navigation system is paired with a premium audio system that features 10 speakers, including a sub-woofer, and is powered by an external amplifier to provide a better audio experience for all passengers. The satellite navigation system is loaded with HERE® Australian street maps and incorporates live SUNA™ traffic updates. You are also entitled to two complimentary annual HERE® SatNav updates when you service your vehicle at a participating Hyundai dealer.

FLEX STEER™

Hyundai's innovative Flex Steer™ system allows you to choose from three driving modes – Normal, Comfort and Sport – to match the level of steering assistance and feedback to your driving preferences.

AUTOMATIC DUSK SENSING HEADLAMPS AND RAIN SENSING WIPERS

When you leave the headlights on auto setting, they will automatically turn on as daylight begins to fade, or when you are entering darkened spaces such as tunnels or poorly lit underground car parks. In Elite and Highlander, the rain sensing wipers give you one less thing to worry about by automatically activating the wipers when moisture is detected on the windscreen.

DUAL ZONE CLIMATE CONTROL

Available on Elite and Highlander variants, the fully-automatic climate control system offers a dual zone mechanism that provides optimal comfort by allowing the driver and front passenger to select separate temperature settings.

Bluetooth® is a registered trademark of Bluetooth SIG, Inc. iPod® is a registered trademark of Apple Inc.

- *Please check your Bluetooth® device's capabilities to ensure compatibility. iPod and connection lead not included.
- † SUNA™ Traffic channel coverage is available in the following metropolitan areas: Adelaide, Brisbane, Canberra, Gold Coast, Melbourne, Perth and Sydney and the following regional areas: Geelong, Bendigo, Ballarat, Hobart, Darwin, Newcastle, Central Coast, Wollongong, Sunshine Coast and Ipswich.

- $^\infty$ Leather appointed seats means parts of the seats have a combination of genuine and artificial leather, but are not wholly leather.

STYLISH, STRONG, SPORTY

The Santa Fe sets a new benchmark for styling in an SUV

Developed at Hyundai's design centre in Southern California, the ready-for-action stance, sweeping bonnet line and aerodynamic silhouette built on Hyundai's signature Fluidic Sculpture design language create a sophisticated and contemporary family vehicle that combines great looks with high levels of comfort and versatility.

In addition, when you're heading off on an unforgettable adventure, you'll appreciate its dynamic character lines, low stance and athletic swept-back roof line that help cheat the wind and enhance its open road performance.

SANTA FE 7-SEAT SUV

BUILT TOUGH FOR A SMOOTH RIDE

The Santa Fe looks stunning when parked in your driveway or travelling through the city, but as an AWD SUV, it's been designed and engineered to take you on your next adventure. That's why we built the Santa Fe extra tough and included many innovative features that will help you make the most of driving beyond the city limits.

In building it, we utilised the latest manufacturing technologies (such as hot stamping and roll forming) as well as 10% more high tensile-strength steel in its body structure than the previous Santa Fe. These construction techniques improve both collision protection and overall durability.

Of course when you go off-road you'll notice all the other benefits of driving an SUV, such as tall ground clearance as well as 4WD lock and Downhill Brake Control, all of which let you go places you'd never dream of tackling in an ordinary family car.

FEATURES THAT MEET THE HIGHEST EXPECTATIONS

Each variant of the Santa Fe is packed with an exceptional level of features that add extra comfort, convenience and enjoyment to every family journey. On the outside, features such as the panorama glass roof, aggressive bar and rear spoiler, dial up the style and create an anticipation of excitement and adventure. Similarly, interior inclusions such as quality soft-touch finishing materials, multiple storage compartments and high-tech appointments, meet and exceed what you'd expect to find in a premium SUV. And if you're looking for the additional excitement of a sports body kit styling and performance, the Santa Fe SR delivers just that with its black, matte finish 19" Black OZ alloy wheels and sports kit, H&R performance springs, and Brembo performance brake package.
