**SUBARU**  
ALL 4 THE DRIVER™

# THE BIRTH OF AN ICON

A compact sports coupe with dynamic handling characteristics and stunning sports style.

The Subaru BRZ is a unique demonstration of the benefits of the Boxer engine and a low centre of gravity, achieving superior fore and aft weight distribution. A vehicle unique in the Subaru range, with a performance driven rear wheel drive design and Subaru's renowned engineering soul.

BRZ is Subaru at its most elemental. A stripped back, authentic sports car driving experience. All Boxer engine. All low-centre of gravity. All raw feeling. All 4 the Driver. **BRZ is real Subaru.**

# AN ENGINEERING OBSESSION

The classic sports design of the Subaru BRZ reveals an engineering obsession that's all about the drive. With a sleek bonnet design and sweeping curves flanked by muscular front fenders, dynamic side flares and striking 17-inch alloy wheels.

The large rear diffuser aids Subaru BRZ's advanced aerodynamics, designed to cut through the air with minimal resistance. The aggressive nose, signature Subaru hexagonal lower grille and low-slung body hint at the performance within, while the front and rear overhangs have been shaved to a minimum, adding to the sporty appeal.

# TOTAL CONTROL

The heavily bolstered sports bucket seats are available in sports cloth or optional luxurious leather<sup>1</sup> with alcantara, and sit low to give the driver a true feel for the road. The sophisticated style is carried through to the cockpit with the sport tachometer and integrated digital speedometer placed at the centre of the gauge layout. Everything has been positioned for exceptional driver control.

# BEAUTY AND THE BOXER

Accessory wing shown.

The Subaru BRZ is powered by Subaru's own legendary horizontally-opposed Boxer engine. The high-revving 2.0-litre four cylinder Boxer engine features both direct and port injection technology, producing 147kW of power and 205Nm of torque, for a throaty engine roar that's pure adrenaline. To deliver dynamic sports car driving, the two transmission types focus on delivering a rewarding shift feel and quick response. The six-speed manual has a crisp sporty feel for lively driver-controlled gear changes, while the six-speed automatic offers Sports-mode with higher shifting response and M-mode for manual shifting. Steering wheel paddle shifts are also there to give you full control behind the wheel. Only Subaru could engineer, manufacture and deliver this unique driving experience.

# LOW IS THE NEW HIGH

It took a lot of convincing for Subaru's engineers to rewrite the rules when they designed the Subaru BRZ. However given that the first Subaru produced in 1958 featured rear wheel drive, the opportunity to develop a rear wheel drive sports car was not to be missed.

The starting points were the ideal engine mounting position and the driving position. These dictated all other design parameters; Subaru BRZ is an unapologetic sports car in the classic tradition.

By mounting the Subaru BRZ's Boxer engine as low as possible within the chassis and closer to its centre, it has achieved one of the lowest possible centres of gravity in the world. The driving position ensures the driver has a great feel for the car and the driving conditions.

The rear wheel drive dynamics and suspension geometry combine with a light weight, highly rigid body structure to deliver a responsive drive – achieved by adapting technical concepts drawing on Subaru's aircraft design heritage.

# SAFETY WITHOUT COMPROMISE

Because you never know what's around the corner, Subaru have made safety an integral part of every vehicle. By incorporating the very latest safety technology, every vehicle in the Subaru range proudly carries the maximum five-star ANCAP\* crashworthiness rating for occupant safety. The ring-shaped passenger cell is made from high-tensile strength steel, which directs impact energy around the passenger compartment, not through it.

Thanks to Subaru's electronic driver assist system, called Vehicle Dynamics Control (VDC), a range of stability and braking technologies step in to maintain safety in extreme situations. By automatically acting on information transmitted from a sophisticated array of sensors, the factors influencing the Subaru BRZ's stability are constantly monitored to help the driver stay in control.

Subaru Vehicle Dynamics Control incorporates:

- > Electronic Stability Control (ESC)
- > Traction Control System (TCS)
- > TCS Limited Slip Device (LSD)
- > Anti-lock Braking System (ABS)
- > Electronic Brakeforce Distribution (EBD)
- > Brake Assist
- > Multi-mode VDC operation (normal mode; traction mode; off mode)

Active safety features on the Subaru BRZ are complemented by an optimum blend of passive safety features, designed to enhance driver and passenger protection:

- > The Boxer engine sits low in the engine bay to help protect occupants by sliding below the cabin - not into it - in the event of a severe frontal collision.
- > Ring-shaped passenger safety cell combines rigid reinforced sections with crumple zones designed to absorb impact energy and reduce injury.
- > Seven SRS airbags - dual front, dual front side, curtain and driver's knee airbags.
- > Front seatbelts feature pretensioners and load limiters.
- > Height adjustable front seat headrests.
- > Safety pedals - brake, clutch / footrest (A/T).

## DATADOT<sup>TDs</sup><sup>®</sup>

Every Subaru is fitted with advanced engine immobilisers and the DataDot Theft Deterrent System - DATADOT<sup>TDs</sup><sup>®</sup>. Approximately 7,000 microscopic dots are laser-etched with your vehicle's unique Vehicle Identification Number (VIN) - making your Subaru a much less attractive target for potential thieves. DATADOT<sup>TDs</sup><sup>®</sup> is a theft deterrent not a theft prevention mechanism. Through publicity, word of mouth and stickers on the vehicle, thieves are discouraged from stealing Subaru vehicles due to the higher chance of successful prosecution when the vehicle or part is found.

## SUBARU ASSURED USED VEHICLES

Owning a Subaru that has already traversed highways and byways is like travelling with an old friend. Every Subaru Assured Used Vehicle has passed a 116-point quality inspection and comes with a one year unlimited kilometre Subaru Assured Warranty - to complement the balance of a new vehicle warranty or the statutory warranty that remains - from participating Subaru Assured Retailers.
