

# PAJERO

PAJERO

# BUILT FOR ADVENTURE

Mitsubishi Pajero's high quality features, ultimate performance and revolutionary technology have made it a legend since 1983. With all the elegance and luxury you desire, its unstoppable nature has been tested to triumph over and over in the most gruelling conditions in the Dakar Rally. Whatever you put in front of Pajero, it will prevail. Comfortable and inviting, tough and reliable, Pajero will give you the confidence to go anywhere your heart and spirit desires. This is not just an SUV, it's a way of life.

## PAJERO, BUILT FOR THE TIME OF YOUR LIFE

Since 1917 Mitsubishi Motors has been at the forefront of technological innovation, having launched the innovative Super-Select 4WD system and the world's first Plug-in hybrid electric SUV our vehicles have been tested and triumphed in some of the most gruelling and toughest terrain on earth including the Dakar rally. These engineering milestones and our commitment to reliability and ingenuity set us apart from the competition. As we continue to move forward, pushing the boundaries of innovation, you can rest assured your Mitsubishi has been built for the time of your life.

**Pajero, is part of the all-thrilling, ever reliable Mitsubishi SUV range.**

**TO BE ACTIVE, YOU NEED  
PLENTY OF ROOM**

- + Smartphone Link Display Audio (SDA)\* - Pajero's Smartphone Link Display Audio (SDA) technology is a true extension of your smartphone via Android Auto™<sup>1</sup> or Apple CarPlay<sup>2</sup>. Connected to Pajero's 7" touchscreen, you can access your phone's compatible apps and get directions, make calls, send and receive messages and listen to music. To ensure safety while you drive, the primary call and music streaming functions can be controlled by voice command or by steering wheel controls, so your eyes stay focused on the road ahead.
- + Pajero GLS and Exceed's Rockford Acoustic Design™ premium sound system\* will turn your cabin into a concert hall. This system delivers an impressive 860 watts, with 12 surround-sound speakers and an integrated 10-inch subwoofer. It has HDMI and two USB inputs along with AM/FM/DAB radio to really amplify your driving experience.
- + Pajero offers generous head and leg room for up to seven occupants with versatile seating arrangements to match your carrying needs. Third row seats are easily stowed under the cargo floor to create a wide, flat storage space or removed completely to give you a convenient underfloor compartment. Second row seats can also be folded to provide space for nearly anything you want to bring along for the ride.
- + Both Exceed and GLS feature power adjustment and heated front seats for that extra piece of indulgence.
- + The silver and leather gearshift knob, meter detailing, soft dash panel, door trims and rich materials add elements of prestige.
- + The leather four-spoke steering wheel with cruise control, phone and audio controls provide effortless freedom for smoother driving.
- + The Multi-Information Display keeps you in touch with essential information including outside temperature, trip computer, average fuel consumption, altimeter, barometer, date and time.
- + Automatic climate control with rear seat controls allow passengers from the second row seats to set both air flow speed and temperature for the rear section, providing a more comfortable ride for everyone.
- + Electric sunroof\* with slide and tilt on Exceed makes the sky the limit, inviting in the light, space and awe of the great outdoors.

\*Smartphone Link Display Audio (SDA) supports Android 5.0 or higher/iOS 8.0 or higher for use with Android Auto / Apple CarPlay. Smartphone link Display Audio features requiring mobile data might lose functionality when there is limited or no service signal. Users are responsible for all charges incurred using smartphones and iPhones to connect to Android Auto and CarPlay respectively. Some functions may not be available for use depending on the user's location. Only compatible Apps can be used. 1. Android and Android Auto are trademarks of Google Inc. 2. Apple CarPlay and iPhone, are trademarks of Apple Inc., registered in the U.S. and other countries. \*Exceed model only.

# STYLE, PERFORMANCE AND ATTITUDE

Pajero is king of the road with its striking exterior featuring a chrome radiator grille, 18" alloy wheels<sup>#</sup>, side steps, a bold bumper, while integrated fog lights and LED Daytime Running Lights are intelligent companions in the most difficult terrain. This is a vehicle that looks as tough as the environment it rules, with style of its own that is at home anywhere.

- + LED Daytime Running Lights, two front fog lights, a rear fog light and HID main beam headlights with auto levelling help keep you visible and light the way ahead.
- + 18" alloy wheels<sup>#</sup> add to the appeal of Pajero's bold exterior.
- + Stylish and practical, side steps give you a welcome lift.
- + Chrome<sup>#</sup> heated door mirrors will clear fog, and approach lights and side turn-indicators clearly highlight your every move.
- + Pajero's keyless entry system makes it easier to lock and unlock the doors and tailgate and can even fold and unfold the door mirrors.

## Powerful fuel efficient common rail turbo diesel engine

As a Pajero driver you expect a responsive, reliable engine with enough strength and muscle to conquer the most punishing terrain. The advanced 3.2 litre Common Rail Direct Injection Diesel (DiD) engine gives you the power, in the most fuel-efficient way, to go anywhere quickly, smoothly and quietly delivering 141kW of power and 441Nm of torque.

## Monocoque body with built-in ladder frame

There are many benefits of owning a Pajero, not least the unprecedented combination of all-terrain control and luxury sedan comfort that the intelligent combination of a lightweight and highly rigid monocoque body with built in ladder frame delivers.

## INVECS II with Sports Mode

The intelligent and Innovative Vehicle Electronic Control System (INVECS II) is Pajero's smooth, smart-thinking five speed automatic gearbox. When Sports Mode is engaged the transmission delivers the excitement of a manual shift with responsive, sporty and dynamic performance offering superior acceleration and overtaking with the touch of the shifter.

GLS model shown.

### Independent rear suspension

Pajero's rally-proven front double wishbone and multi-link rear suspensions use coil springs and stabiliser bars to ensure each wheel moves independently of its pair on the opposite side of the axle. The result is impressive road handling and great stability even over the toughest off-road conditions.

### 3 tonne towing

Towing your boat, caravan or trailer is a breeze with Pajero's impressive power and torque providing a comfortable 3,000kg<sup>^</sup> towing capacity.

## 4WD CAPABILITY

**2H (2WD High Range)**  
For normal road conditions.\*

**4H (Full Time 4WD)**  
For rough roads and hazardous conditions.\*

**4HLC (4WD High Range with locked centre differential)**  
For rugged terrain with low-grip surfaces.\*

**4LLC (4WD Low Range with locked centre differential)**  
For steep hills, sand, deep snow, etc.

## SUPER SELECT II 4WD

With its Super Select II 4WD system, staying in control is second nature to Pajero. Delivering performance under the most challenging driving conditions and rugged terrains, this advanced

technology provides the option of four driving modes: 2WD High Range, Full Time 4WD and High and Low Range 4WD with locked centre differential.

### Rear differential lock

For extreme and low traction surfaces including sand, thick mud, snow-covered or rocky ground, Pajero's rear differential lock delivers the traction and handling needed to prevent wheel slip and navigate treacherous situations.

<sup>^</sup>Subject to state regulations and towbar designs. A Weight Distribution Hitch (WDH) is recommended for towball downloads exceeding 135kg. For further information please refer to the Pajero Owner's manual.

\*Pajero's advanced SS4 II lets you shift between 2H, 4H and 4HLC modes at speeds of up to 100kph. 4WD operation requires special driving skills. Please read the owner's manual and drive safely.

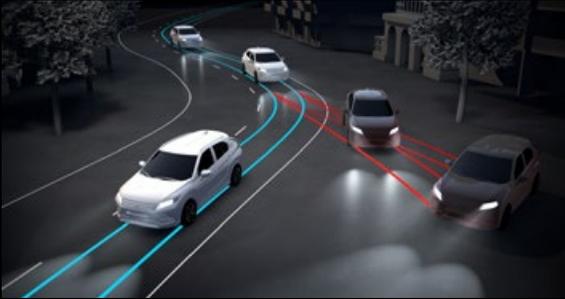

**GUIDE. PROTECT. CONNECT.**

# MiTEC

Mitsubishi Motors Intuitive Technology or MiTEC, is an integrated system^ of brilliant innovations in action, working in unison to guide and protect, alert and connect, even entertain. It thinks like you, reacts like you, before you even know it. MiTEC delivers unsurpassed safety and next generation features to the modern-day driver.

These significant safety features coupled with Mitsubishi's Reinforced Impact Safety Evolution (RISE) body have earned Pajero the maximum ANCAP safety rating of 5 stars so you can rest assured you're driving one of the safest cars on the road.

**Active Stability Control**

Mitsubishi's Active Stability Control intuitively recognises when you over-steer or under-steer and applies brake force to appropriate wheels to keep you stable through corners.

**Active Traction Control**

Mitsubishi's Active Traction Control helps maintain traction on most slippery or rugged surfaces. Active Traction Control automatically controls the engine output – so driving wheels are prevented from spinning. Sensing loss of traction in independent wheels it then applies braking force to that particular wheel and sends extra power and torque to other wheels with traction, to keep the vehicle moving and in control.

**Auto High Beam**

Mitsubishi's Auto High Beam detects both the headlights of oncoming vehicles and the tail lights of vehicles ahead, automatically switching between high or low beams.

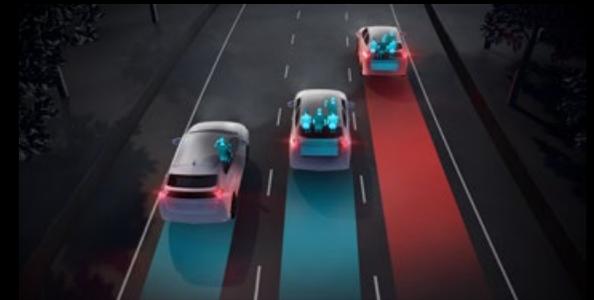

**Auto Dusk Sensing Headlights\***

Mitsubishi's Dusk Sensing Headlights automatically illuminate in fading light or when travelling through a tunnel, allowing you to keep your hands on the wheel and your focus on the road ahead.

**Auto Rain Sensing Wipers\***

Mitsubishi's Rain Sensing Wipers activate automatically when moisture is detected on the windscreen, allowing you to keep your hands on the wheel and your focus on the road ahead.

**Multi-mode ABS with EBD and EBA**

Pajero's Anti-lock Braking System is fitted with Electronic Brakeforce Distribution and Emergency Brake Assist ensuring even, efficient distribution of braking power to each wheel, regardless of cargo or passenger load and road surface. It's all about maximising braking power and driving stability for your care.

**Reverse Camera & Sensors\***

Mitsubishi's Reverse Camera and Parking sensors assist when parking in tight spots. Sensors detect and warn you if you're getting too close to objects behind you when reversing into a parking space.

\*GLS and Exceed only.
