They are useful in comparing the fuel consumption of different vehicles. They may not be the fuel consumption achieved in practice. This will depend on traffic and road conditions and how the vehicle is driven. Real life driving results will vary depending on a combination of driving style, type of journey, vehicle configuration, battery age and condition, use of vehicle features (such as heating and air conditioning), as well as operating, environmental and climate conditions. E10 Compatible. 7Subject to State regulations and towbar design. 8R-MDPS - Rack-mounted Motor Driven Power Steering. 9Safety technologies are supplemental systems and do not replace the need for the driver to exercise care and attention. ¹⁰EBD - Electronic Brake Distribution. ¹¹BA - Brake Assist. ¹²TCS - Traction Control System. ¹³The Road Traffic Code 2000 in WA prohibits people from driving a vehicle unless a person is behind the steering wheel and they have full control over the vehicle.
