

THE NEW HOLDEN APOLLO.

**YOU'RE NOT JUST BUYING A CAR,
YOU'RE BUYING PEACE OF MIND.**

There's something all Australians want from a 4 cylinder family car – the confidence it will take them wherever they want to go. And more importantly, the confidence it will bring them home safely. The new Apollo satisfies both those needs, and more.

Whether you choose the SLX or well appointed GS, the sedan or spacious wagon, you can rest

assured that it's much more than just a 4 cylinder family car you're buying. It's total peace of mind.

The new Apollo now comes with Independent Rear Suspension, disc brakes standard on all four wheels or, for a little more, you can have the latest

Anti-lock Braking System and the life-saving technology of a driver's airbag. And every Apollo now has a keyless entry security system which automatically disables the engine, centrally locks the doors and sets the alarm.

The new Apollo is also built to perform. With 16 valve double overhead camshaft technology and an electronic fuel injection system, Apollo's 2.2 litre engine can summon an impressive 93kW of power and 185Nm of torque, making it the most powerful 4 cylinder Holden family car ever.

But if it's even more power you're after, there's also the choice of a highly advanced 3.0 litre quad cam multi-point fuel injected V6, complemented by a smooth 4-speed electronically controlled automatic transmission.

If you enjoy your creature comforts, then you can't go past the Apollo GS. Where, for a little extra, you can enjoy a list of luxuries too numerous to mention.

THE APOLLO EDGE.

The new Apollo is now covered by a 2 year or 50,000km Warranty, which ever comes first. But the 'Apollo Edge' is something more. It's the most reassuring customer satisfaction program ever seen in Australia.

For starters, if you're not genuinely satisfied with your Apollo, simply return it* and Holden will give you a no obligation credit on any other Holden vehicle.

The 'Apollo Edge' also includes 12 months or 20,000km free factory scheduled maintenance service, whichever comes first. For even more protection, the new Apollo is covered by a 3 year or 100,000km Powertrain Warranty, whichever comes first, on

the engine, transmission, clutch, axles and safety restraints.

And in the unlikely event of a breakdown, it's comforting to know assistance is only a toll-free phone call away, 365 days a year, 24 hours a day.

As an overall package, the new Apollo is very impressive, combining plenty of room to move, effortless performance and extra power, with a level of safety you've come to expect from Holden.

For more information, see your nearest Holden Dealer or call 1 800 035 464 for a brochure.

*To be eligible for the guaranteed exchange, your new Holden Apollo must be returned within 14 days or 500km of delivery, whichever comes first, to the selling dealer where the vehicle will be inspected for damage and excessive wear. If non-warranty repairs equal to or greater than \$300 have been performed or are necessary, the vehicle will not be eligible for exchange. If less than \$300, the repair damage estimate will be deducted from the credit amount. The credit itself is equal to the full 'on road' price of the vehicle including any options and genuine Holden accessories fitted by the dealer. Vehicles modified in any way or fitted with non genuine accessories are ineligible. Naturally only one vehicle exchange is permitted for each vehicle purchased per customer. Government or rental vehicles are excluded, as are demonstrator models.

HOLDEN
Apollo

There's nothing quite like a Holden.
