

What's
been
Missing
in Small
Cars?

The All New Barina

Until now, small cars were noted for their fuel efficiency and their practicality.

But they were often lacking in equipment levels, safety features and performance.

The all new Holden Barina is about to change all that.

Because instead of small car compromises, the all new Barina gives you big car thinking.

BIG CAR FEATURES.

This big car thinking is obvious as soon as you open the door of the all new Barina, even in its most affordable form. The seats are covered in cloth, not vinyl, and even the cargo area is carpeted.

And every Barina comes standard with intermittent rear

wiper, a six speaker AM/FM stereo radio/cassette player and a Multi Function Display that tells you the date, the time - and even the outside temperature.

The Swing, Joy and GSi models also

have power steering standard.

In the all new Barina, small car no longer means less car.

SAFETY IN NUMBERS.

When it comes to safety, the all new Barina has plenty to say,

with a big list of genuine safety features, including a safety cage, side impact protection, collapsible steering technology and seat belt pre-tensioners.

The all new Barina even has a full-size driver's side airbag

standard on the GSi, and optional on the Swing and Joy models.

Swing interior with optional airbag.

And an Anti-lock Braking System is standard on the GSi.

EURO STYLE & PERFORMANCE.

It's hard to define what makes a car feel European.

It's a combination of style, performance, agility, handling and comfort. And the all new Barina has them all.

Fantastic styling that says, "Let's go." A choice of 3 fuel injected engines, including a 16 valve 1.6 litre version.

A responsive suspension system.

A choice of 5 speed manual transmissions, or a 4 speed automatic with 3 modes - Economy, Sport and Winter. And what the designers call 'ergonomics' - a comfortable feeling that everything is in the right place.

To put it simply, the all new Barina feels great to drive.

And Real Choice.

In addition to big car thinking, the all new Holden Barina also offers some big choices: 3 or 5 doors, 3 engines, manual or automatic transmission - and 4 very individual models. **SWING**. The practical 5 door car that is much more than a practical 5 door car. It's not just big car thinking, it's a big car feeling. With lots of room - and lots of features.

CITY. The most affordable new Barina. Some would call it our basic model, but when you see the array of features it offers, you'll know there's nothing basic about it. It's still unbeeepable.

JOY. It's a 3 door Barina, with a healthy dose of flair and individuality. A dash of style, a touch of class - and a bold statement about you.

GSi. The true driver's car. With 16 valve engine, spoilers, ABS, close ratio 5 speed manual, leather

SWING

CITY

JOY

GSi

sports steering wheel with driver's airbag, sports seats, alloy wheels - the lot.
