THE GTS'S HALO RETURNS

6.2 LITRE LS3 GENERATION 4 V8 ENGINE

UP TO 325kW @ 6000rpm, 550Nm @ 4600rpm

1899mm

4988mm\*

\*Measurements and photography shown apply to GTS.

YOU'LL KNOW IN A HEARTBEAT THAT THE LS3 6.2 LITRE GENERATION 4 V8 ENGINE IS NO ORDINARY POWERPLANT. IT COMBINES IMPROVED FUEL EFFICIENCY ACROSS THE RANGE WITH 317kW OF POWER @ 6000RPM, AND TORQUE THAT SOARS TO 550Nm @ 4600RPM, ACROSS THE RANGE.

■ HSV E2 BUILD PLATE

■ COMPETITION MODE ESC, EXTENDED CRUISE CONTROL (ECC) AND LAUNCH CONTROL (MANUAL TRANSMISSION ONLY)

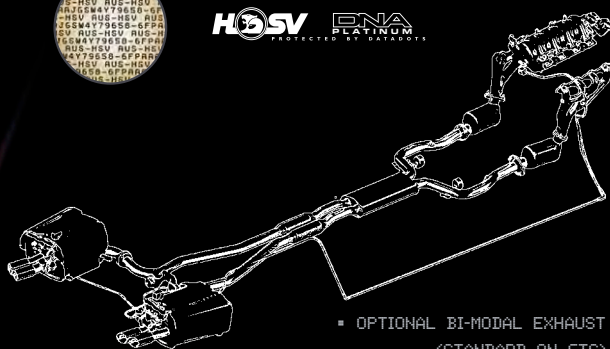

■ MAGNETIC RIDE CONTROL (MRC) SUSPENSION ADJUSTS EVERY 100TH OF A SECOND

■ 6-SPEED MANUAL TRANSMISSION OR OPTIONAL 6-SPEED AUTOMATIC

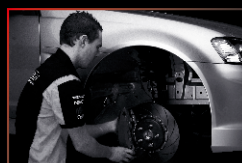

■ PROTECTED BY DATADOTS PLATINUM ANTI-THEFT TECHNOLOGY

HSV DNA PLATINUM PROTECTED BY DATADOTS

■ OPTIONAL BI-MODAL EXHAUST (STANDARD ON GTS)

#### FOR THE GTS, POWER INCREASES TO 325kW.

To maximise performance across the range, the intelligent engine control system adjusts every 6.25 milliseconds. It is as natural as breathing. The result can be breathtaking.

To enhance integration of driver and car, Electronic Stability Control (ESC) includes driver assist technology. Competition Mode ESC is an Australian production first offering greater feel through corners than traditional electronic stability settings. Extended Cruise Control (ECC), another example of technology leadership, modulates your speed to keep you legal through every rise and fall of the road.

# 325

From a slick city street to the open highway, you'll get more out of Australian roads when you're gliding on Magnetic Ride Control (MRC) suspension, featured on GTS, Senator Signature and Grange. The ride becomes instinctive and can match your mood at the touch of a button, offering the perfect balance of driving comfort and dynamic handling by selecting Track or Performance modes. This is car and driver working together to achieve the perfect driving experience.

Nothing can hold it back, except you. In a first for an Australian production car, Launch Control makes maximum acceleration become second nature in manual E2 HSVs, with total control all the way to the redline.

A unique human/machine relationship begins as your HSV E2 takes shape. Hundreds of new E2 components are fitted by the highly skilled technicians at our production facility in Clayton, Victoria. From the Daytime Running Lamps (DRLs) to the exhaust tips, much of your HSV E2 is assembled by hand. Before the finished product is allowed to leave our premises, every detail is checked by a uniquely precise instrument – the human eye. It's a state of the art process that elevates, rather than replaces, the importance of craftsmanship. Pride becomes a standard feature. Perfection becomes instinctive.

WITH E2, THE HSV DRIVER CAN MAKE A STATEMENT MORE ELOQUENTLY THAN EVER. THE NEW FRONT END SIGNALS THE AWESOME POWER THAT LURKS WITHIN. THE NEW SHOCKWAVE GRAPHIC OF THE FRONT GRILLE PUTS THE UNIQUE HSV ATTITUDE RIGHT IN YOUR FACE. NEW DAYTIME RUNNING LAMPS, OFFERED FOR THE FIRST TIME ON AN AUSTRALIAN PRODUCTION CAR, SAP 85% LESS ENERGY THAN CONVENTIONAL LOW BEAM GLOBES, BUT ARE BRIGHTER, SAFER AND STRIKING TO LOOK AT, SO YOU'LL STAND OUT ON THE ROAD LIKE NEVER BEFORE. **YOU'LL WANT TO DRIVE ONE AT FIRST SIGHT – TRUST YOUR INSTINCTS.**

DRIVEN BY INSTINCT

Maloo R8 shown with SV Enhanced option – 20" Pentagon wheels in Millennium silver & Sport leather trim. GTS shown with SV Enhanced option.

THERE HAS ALWAYS BEEN THE CAR AND THERE HAS ALWAYS BEEN THE DRIVER. ONE HAS ALWAYS RELIED ON THE ABILITIES OF THE OTHER TO DELIVER THE RICHEST EXPERIENCE. THE NEW E2 IS NOT MERELY AN EVOLUTION OF THIS DRIVER CAR RELATIONSHIP. NOW MORE THAN EVER, TECHNOLOGY, DESIGN, AND PURE PERFORMANCE COME TOGETHER TO ACT AS ONE. E2 IS A HIGHER INTELLIGENCE. FROM THIS HIGHER INTELLIGENCE COMES A HIGHER EXPERIENCE.

**THE DRIVE HAS BECOME INSTINCTIVE.**

#### DESIRE IS A REACTION THAT NEEDS NO

explanation. But with the E2 GTS, looks definitely play a part. The 'shockwave' inspired shape of the front grille makes an unforgettable first impression that can't be ignored. The distinctive 'E' shape vents with integrated turn signals sit boldly above the GTS badge, which carries a legend built over four decades of Australian motoring history. Twin-intercepting LED tail lamps and the HSV Performance rear spoiler complete the look, while the Bi-Modal exhaust opens up under acceleration giving the GTS an awe-inspiring engine note.

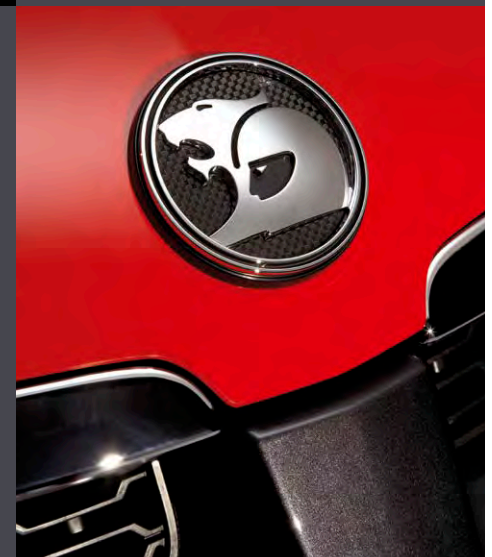

Even before 325kW of power is unleashed, the GTS driver will feel completely spoiled. HSV Performance seats with Onyx leather trim will embrace you as the vehicle's final, vital component. 8-way electric adjustment on both front seats will ensure that you fit perfectly, like every part of this hand-crafted Australian masterpiece. Welcome home.

When you're driving in a GTS, you'll feel connected to the road like never before. Sense the bitumen through wide 8.5" front rims, with unique Bridgestones specially designed for GTS and the Australian roads it travels.

Combined with a new lower, stiffer suspension and E2 Performance alloys, this achieves a degree of control normally experienced only on a racetrack.

And because braking is the most instinctive reaction of all, stopping power can be given a massive boost from the SV Enhanced 6-piston front brakes – available exclusively for GTS owners.

**THIS IS E2 TIMES TWO. TWO DISTINCT SHAPES,** one thrilling drive. With the extra versatility of the Tourer wagon joining the ClubSport R8 stable, you're spoiled for choice. Both pack 317kW of power behind their shockwave inspired front grilles, unique driving lamps and surrounds, Daytime Running Lamps and Performance hood with dual scoops. In either, the driver is at one with the machine, connected through both the alloy faced pedals and the leather wrapped, multi function steering wheel, with critical information conveyed via the 6.5" multi-function colour LCD screen.

Driving is just one of the ways that you and your ClubSport R8 sedan become one. It also immerses you in 230 Watts of sound, played through 11 speakers including subwoofers – with the volume automatically matched to the vehicle's speed. It surrounds you in safety with six airbags, ready to protect you and your passengers in an instant.

The driver's seat offers 4-way electric adjustment, while for maximum comfort whether you're crossing the Nullarbor or hitting the ski fields, dual zone electronic climate control allows different conditions to be set for the driver and front passenger.

Stability  
Ctrl On

Competition  
Mode

Loading up becomes effortless with the ClubSport R8 Tourer's 60/40 split fold rear seats. The 2000 litre maximum cargo capacity swallows up bulky luggage with ease. The adjustable luggage net and retractable cargo cover keep everything securely in place. As an added safety feature Rear Park Assist with Reverse Camera comes standard, to make reversing as instinctive as driving forward. Machine and driver truly work as one.

AN INSTINCT FOR PERFECTION

- 10-WAY ELECTRIC ADJUSTMENT ON DRIVER'S AND FRONT PASSENGER'S SEAT
- 10 SPEAKERS, INCLUDING SUBWOOFERS, 220 WATTS

- SELF-LEVELLING XENON HEADLAMPS AND FRONT FOG LAMPS
- HSV GRANGE LUXURY SEATS WITH NAPPA LEATHER TRIM

- 317kW OF POWER, 550Nm OF TORQUE

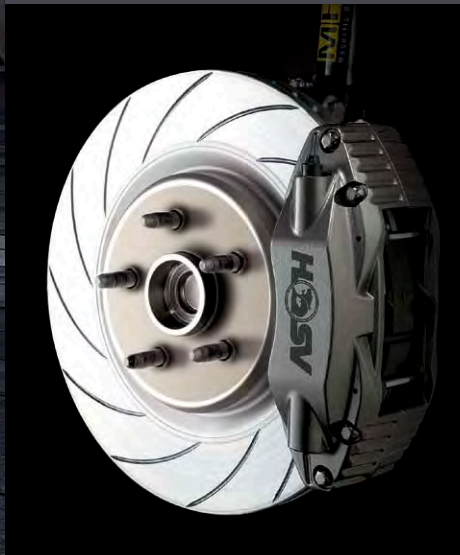

Photography shown top right is Senator Signature with optional HSV Performance seats in Nappa leather Urban trim. Photography shown bottom right is Grange interior.

**WITH SOPHISTICATED DESIGN AND** understated performance cues, these luxurious vehicles will suit the most discerning driver right down to the bitumen. Your eye for detail will enjoy the HSV Luxury body design and the Nappa leather interior. Your spine will appreciate the height and reach adjustable steering wheel and the stored driver's seat position for up to three drivers. And your right foot will appreciate the 317kW of refined power and Competition mode ESC that helps you leave ordinary cars far behind. The driver/car relationship has reached a higher plane.

An intuitive entertainment console makes controlling the Senator Signature's sophisticated technology feel like second nature. Bluetooth devices and the optional satellite navigation can be connected with ease.

With a Blaupunkt entertainment system, including rear seat overhead DVD player, even a long highway drive can seem timeless. And at journey's end, Front and Rear Park Assist guides you through the tightest spaces without risking the elegant HSV Luxury body design, capped off with a new HSV badge on the front grille and a flush mounted Luxury rear spoiler.

The Grange driver enjoys the ride while passengers are entertained in luxurious surrounds. Dual LCD screens and wireless headsets will maximise enjoyment of the DVD player. All can share the pleasure of the MP3-compatible Bose Premium audio system and 6-disc in-dash CD player. But of course, the best entertainment of all is viewed through the front windscreen, brilliantly illuminated by self-levelling Xenon headlamps and front fog lamps. Then when you reach your destination, puddle lamps assist on exiting your elegant limousine.

▪ 6 AIRBAGS INCLUDING FRONT,  
SIDE IMPACT AND CURTAIN

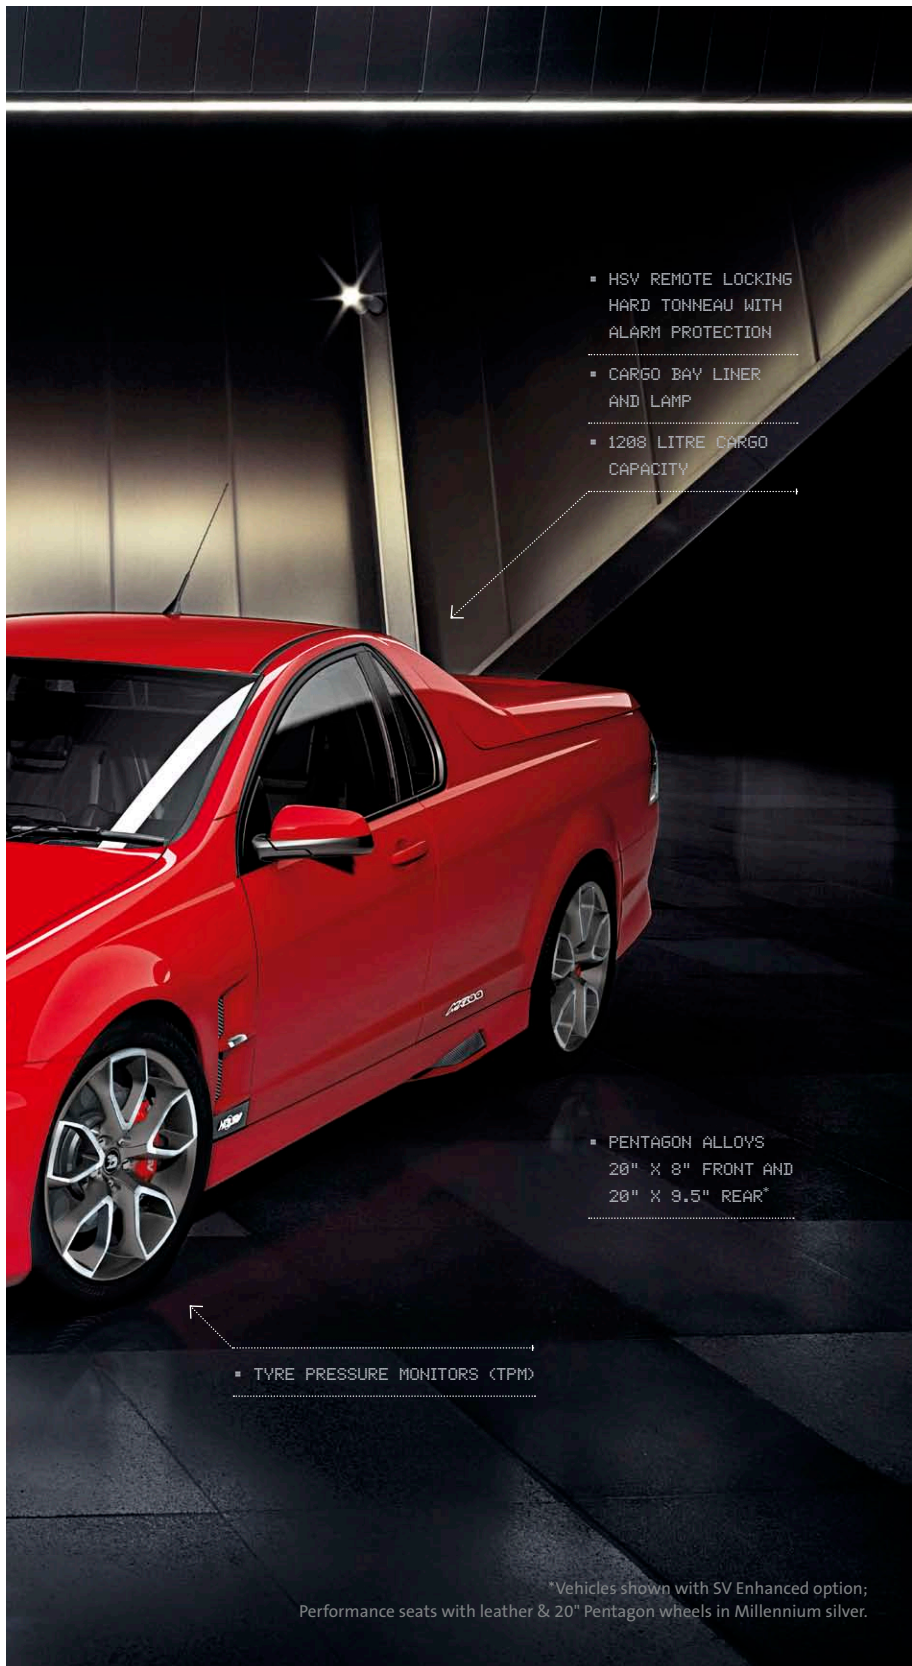

▪ EXCLUSIVE SMC (SHEET MOULDED COMPOUND) TAILGATE

▪ QUAD EXHAUST OUTLETS

▪ 317kW OF POWER, 550Nm OF TORQUE

**MAZDA R8**

**AN INSTINCT FOR EXCITEMENT**

- HSV REMOTE LOCKING HARD TONNEAU WITH ALARM PROTECTION

- CARGO BAY LINER AND LAMP

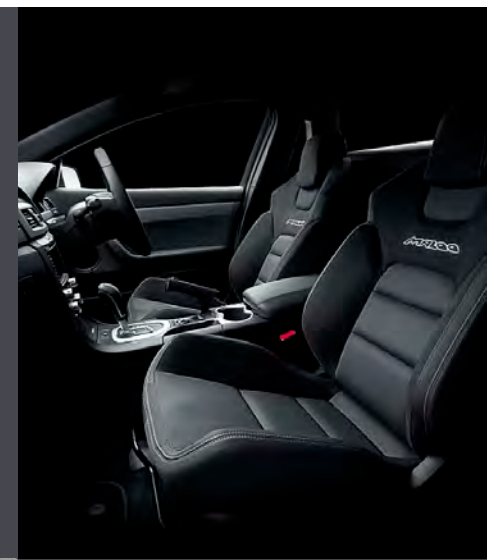

- 1208 LITRE CARGO CAPACITY

- PENTAGON ALLOYS  
20" X 8" FRONT AND  
20" X 9.5" REAR\*

- TYRE PRESSURE MONITORS (TPM)

\*Vehicles shown with SV Enhanced option; Performance seats with leather & 20" Pentagon wheels in Millennium silver.

**WHEREVER YOU DRIVE IN A MALOO R8,** heads will turn as if by reflex. With Daytime Running Lamps, front driving lamps, projector headlamps and a shockwave inspired front grille, this Maloo R8 is unmistakable, even from a distance. Up close, it's unforgettable. From the 19" E2 Sports alloy rims with wide Bridgestone tyres to the HSV unique Sheet Moulded Compound tailgate, and from the Performance engine hood with dual scoops to the HSV Performance sail plane with integrated brake lamp and twin-scoop hard tonneau, this is a ute like no other.

Tough looks on the outside are no barrier to creature comforts on the inside. 4-way electric adjustment on the driver's seat ensures that you feel part of the machine from the moment you take the multi-function, leather wrapped Sports steering wheel.

A 6.5" multi-function colour LCD screen puts the information you need right where you need it. Maloo R8 comes standard with trip computer, climate control, headlamp and interior lighting time delay options as well as a 170 watt Blaupunkt sound system with 7 speakers. There's no mistaking that this is your turf.

Maloo R8 is built to earn its keep, so you can rely on it to handle a heavy workload with ease. The remote release hard tonneau keeps your valuable kit safe, with tray security and alarm protection. A cargo liner keeps your load in good shape, while the introduction of curtain airbags for the first time boosts protection for you and your passenger. And when you're pulling a load, the 317kW V8 engine makes towing feel like the norm, not a hindrance. Whatever needs doing, you and your Maloo R8 work as one to make an unbeatable team.

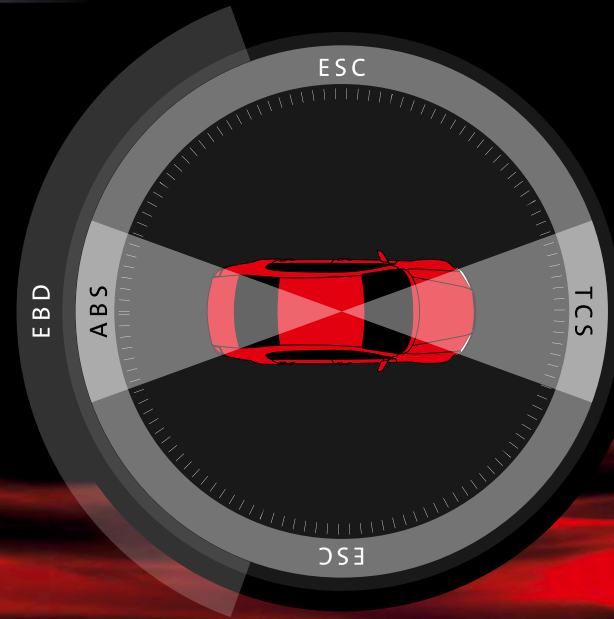

## SAFETY AN ADVANCED SURVIVAL INSTINCT

Like the typical HSV driver, E2 is bold without being reckless, exuding confidence from go to whoa. Launch Control gives you perfect command of manual transmission HSVs under maximum acceleration in any road conditions, while Electronic Stability Control (ESC) helps a spirited driver avoid understeer or oversteer through the curves. E2 ESC also integrates a full suite of safety enhancers including Anti-lock Braking System (ABS), Electronic Brake force Distribution (EBD), Electronic Brake Assist (EBA) and Traction Control System (TCS). Extended Cruise Control (ECC) has been introduced to keep you safe and legal on long Australian highways, especially when towing. It employs the ABS system to automatically control the brakes on descents, when the natural tendency is to accelerate downhill.

The Xenon headlamps on Grange, and the combination of projector headlamps and Daytime Running Lamps (DRLs) on all other E2 HSVs, create remarkable visibility. They also make it easier for oncoming drivers to judge your distance and speed. In the event of an accident, an E2 HSV protects all its occupants with six airbags ready to deploy in the blink of an eye, including dual-stage airbags for driver and front passenger, side impact airbags for driver and front passenger plus side curtain airbags, which are standard with Maloo R8 for the first time.

For the youngest HSV enthusiasts, there are three rear seat child restraint anchor points, while the driver and front passenger are embraced by lap/sash seat belts with load limiters, pyrotechnic pre-tensioners and height adjust. If the pre-tensioners are triggered by an impact, the onboard computer instinctively initiates Emergency Mode, turning the engine and fuel pump off. It also unlocks doors and turns hazard and interior lamps on, if battery power is available.

Driver and front passenger airbags activate in two stages.

Airbags inflate in 55 milliseconds.

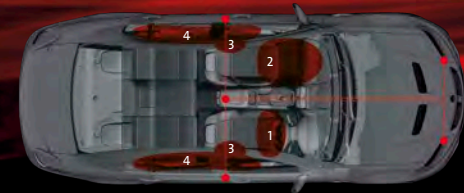

Seatbelts anchor to cabin floor to hold occupants firmly in seats.

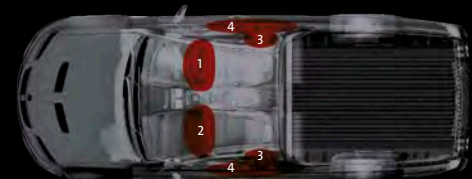

Head restraints tilt forward to minimise whiplash.

## PASSIVE SAFETY FEATURES

- Crash sensors
- 1 Driver's front airbag
- 2 Front passenger's front airbag
- 3 Side airbags
- 4 Curtain airbags
- 5 Front crumple zone
- 6 Passenger safety cell
- 7 Rear crumple zone

- 1 Driver's front airbag
- 2 Passenger's front airbag
- 3 Side airbags
- 4 Curtain airbags
- 5 Front crumple zone
- 6 Passenger safety cell
- 7 Rear crumple zone

## ELECTRONIC STABILITY CONTROL (ESC)

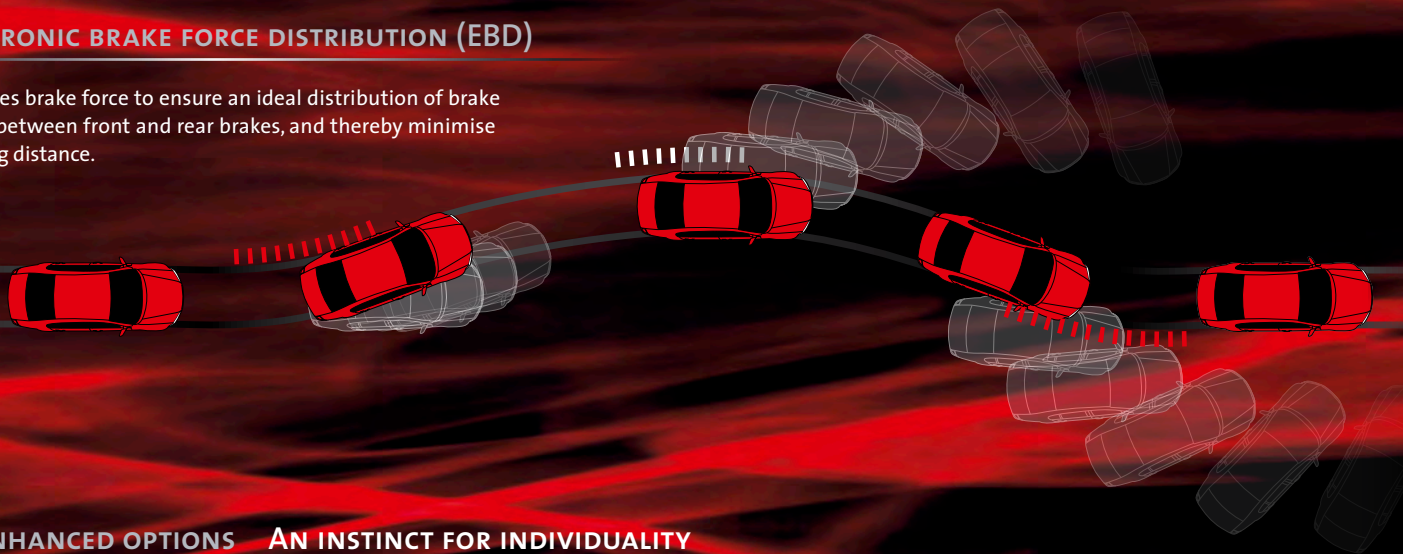

Exclusively calibrated by HSV, ESC monitors steering wheel angle and speed to make turning and corners safer. If skidding occurs, ESC activates to apply brake pressure to individual wheels and, if necessary, reduces engine power.

## TRACTION CONTROL SYSTEM (TCS)

For maximum grip in wet and icy conditions, TCS activates to reduce slippage by adjusting drive and brake force, greatly reducing wheelspin.

## ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

Regulates brake force to ensure an ideal distribution of brake torque between front and rear brakes, and thereby minimise stopping distance.

## ANTI-LOCK BRAKING SYSTEM (ABS)

Reduces wheel lock under heavy braking situations by momentarily releasing brake pressure at the wheels required. This improves stopping distances on most surfaces, improves braking efficiency and enables better steering in demanding braking conditions.

## ELECTRONIC BRAKE ASSIST (EBA)

In emergency braking situations few people apply the required pressure to the brake pedal. EBA activates to optimise the maximum brake pressure performance.

## SV ENHANCED OPTIONS AN INSTINCT FOR INDIVIDUALITY

When you add your own touches, the driver/car relationship becomes even more personal. So with SV Enhanced options, marked by the distinctive SV Enhanced badge, you can create a finish that feels intuitively right for you. For E2 this includes: a Bi-Modal exhaust that keeps noise levels low when you're cruising or idling, but delivers uninhibited power and an awesome engine note when you put your foot down; Performance suspension for an even sharper ride; and massive SV Enhanced 6-piston front brakes for GTS.

Choosing any of these SV Enhanced options automatically entitles you to SV Enhanced badging – a mark of true customisation and performance motoring.

### YOU CAN CHOOSE FROM THESE SV ENHANCED OPTIONS:

#### CLUBSPORT R8

- Performance suspension
- Bi-Modal exhaust
- Performance suspension & Bi-Modal exhaust
- Sport leather & 20" Pentagon wheels in Millennium silver
- All of the above

#### CLUBSPORT R8 TOURER

- Bi-Modal exhaust

## EXTERIOR COLOURS

\*Not available with Red Hot interior. \*\*Available from late 2009.

A word about this catalogue. We have tried to make this catalogue as comprehensive and factual as possible. However, since the time of printing some of the information you'll find here may have been updated. Also, some of the equipment shown or described throughout this catalogue may have been changed and/or is available at extra costs. Further, GM Holden Ltd. and HSV reserves the right to make changes at any time without notice, in prices, colours, materials, equipment and models. Your HSV Dealer has details, and before ordering you should ask them to bring you up to date. No HSV Dealer or other person is authorised or permitted to give or make any statement, assertion or undertaking in relation to the quality, performance characteristics, descriptions or fitness for any purpose of any GM Holden Ltd or HSV product which is at variance with any written statement, assertion or undertaking on any of these subjects given or made by GM Holden Ltd. A.B.N. 84 006 893 232 or General Motors-Holden's Sales Pty Ltd. A.B.N. 80 004 688 831 in its published sales literature, and neither company accepts any liability for such unauthorised action. GM Holden Ltd., General Motors-Holden's Sales Pty. Ltd. and HSV have authorised Dealers in many parts of Australia for the sale of service parts and the provision of service to owners of HSV's products. Every endeavor is made to ensure that such Dealers carry adequate stocks of service parts but neither HSV, GM Holden Ltd. nor General Motors-Holden's Sales Pty Ltd. makes any promise other than that contained in the New Vehicle Warranty given by GM Holden Ltd. and HSV that such parts or service facilities will be available at any specific location or at any particular time. Express warranties offered for GM Holden Ltd and HSV products are subject to the conditions set out in all vehicle handbooks. Details are also available from GM Holden Ltd and HSV on request.
