SILVERADO 1500

CHEVROLET

BIG CITY SLICKER.

With over 100 years of pickup truck know-how packed into one sophisticated 4x4, the all-new Chevrolet Silverado 1500 LTZ is the strongest, most advanced Silverado. Ever. From its chiselled hood, powerful 6.2L EcoTec3 V8 engine and

immense 4.5-tonne maximum towing capacity*, there's no mistaking the Silverado 1500's legendary Chevy truck bloodline and heavy-duty capabilities. But, with a refined 10-speed automatic transmission, luxurious perforated

leather-appointed seating and an impressive range of advanced driver-focused technologies, it effortlessly conquers the urban jungle too.

* Maximum braked towing capacity kg (using 70mm ball).

A PICKUP WITH PERFORMANCE.

Delivering a unique blend of performance and efficiency, the Silverado 1500 LTZ is powered by a 6.2L EcoTec3 V8 engine. This class-leading powerplant pumps out a crushing 313kW of power, delivers 624Nm of torque and comes standard with fuel-saving automatic stop/start technology and Dynamic Fuel Management. This immense power is channelled to the ground via 20" polished alloy wheels, Z71 suspension tune Rancho® monotube shocks and a highly efficient 10-speed automatic transmission that provides impressive refinement and performance, including enhanced acceleration and torque delivery while towing. Meanwhile, the 2-speed electronic Autotrac transfer case lets you effortlessly switch between 2WD and 4WD via the rotary dial control. They didn't stop there. Chevrolet took the hardest-working part of the truck and designed it to be lighter, larger and stronger. Durabed combines roll-formed, high-strength steel with more standard cargo bed volume than any other truck. There are also 12 standard tie-downs and innovative features like the available industry-first Power Up and Down Tailgate with power lock and release, helping Silverado offer the most functional bed of any pickup. When it comes to melding functionality with performance, the Silverado 1500 has no equal.

BIG ON COMFORT. BIG ON STYLE.

Inside the incredibly spacious cabin is where epic meets indulgence. The 1500 LTZ's Jet Black, perforated leather-appointed front bucket seats are a great place to start. These luxurious seats are both heated and ventilated and feature 10-way power adjustment with lumbar control and driver memory position. You'll be comfortable in any condition with a manual tilt and telescopic steering column, leather-wrapped heated steering wheel with audio and cruise control, and dual-zone automatic climate control as standard. Entertainment in the 1500 LTZ is provided via a Chevrolet Infotainment 3 Plus System with 8" diagonal HD colour touchscreen featuring a high-definition rear-view camera. Crystal-clear sound is delivered by a 7-speaker Bose® Premium Sound System with Richbass® woofer and, as you'd expect, voice-activation technology is included. There are two USB ports in the front providing power and connectivity for your mobile devices and two ports in the rear that support device charging. Or keep things cable-free with hands-free integration for your smartphone, Bluetooth® audio streaming, advanced voice recognition capabilities for Apple CarPlay™ and Android Auto™ compatible devices as well as wireless charging via the integrated charging pad*. Other thoughtful conveniences include keyless open, remote start, rear view auto-dimming interior mirror, power sliding rear window with defogger and an integrated trailer brake controller. The new Silverado 1500. The perfect mix of sophistication, comfort and style.

* For supported devices.

SAFETY IS OUR STRENGTH.

Whether you're taming the great outdoors or conquering the concrete jungle, the Silverado 1500 tackles the toughest driving conditions with ease. Featuring StabiliTrak[®], as standard, this highly sophisticated stability control system uses Proactive Roll Avoidance, Traction Control, Electronic

Trailer Sway Control and Hill Start Assist to keep you on track. Low Speed Forward Automatic Emergency Braking and Front Pedestrian Braking automatically assist you with hard braking and can even apply the brakes automatically at low speeds if needed. Along with other intelligent driver-

focused technology, including Hill Descent Control, Front and Rear Park Assist, Lane Change Alert with Side Blind Zone Alert, Rear Cross Traffic Alert, IntelliBeam[®] (high beam assist) and Adaptive Cruise Control, the Silverado 1500 owns the road.

TREMENDOUS TOWING ABILITY.

With a maximum 4.5 tonnes of towing capability*, there's no doubt this Chevy has the torque and transmission you need to pull heavy loads. What really separates the Silverado 1500 from the competition, however, is the peace of mind you get from integrated towing features that deliver confidence and make hauling big loads easy. Just about everything you

need to tow is found in the Advanced Trailering Package featuring Hitch Guidance with Hitch View# and an industry-first electric parking brake hookup assist. Also included are an integrated trailer brake controller, trailer theft alert and in-vehicle Advanced Trailering System that make towing simpler and safer. After a long day of towing, things get

even easier with features like Tow/Haul mode, Trailer Sway Control, Hill Start Assist and automatic engine braking that reduces the amount of conventional braking when towing a trailer down-hill. When it comes to towing, the Silverado 1500 has everything you're looking for and more.

* Maximum braked towing capacity kg (using 70mm ball). # Read the vehicle Owner's Manual for important feature limitations and information.

SPECIFICATIONS

	1500 LTZ
ENGINE AND TRANSMISSION	

6.2L EcoTec V8 engine with Dynamic Fuel Management	●
10-speed automatic transmission	●
Automatic stop/start	●
