

1990 PLYMOUTH

COIT

■ ■ You can count on Colt. ■ ■

And not just because this feisty compact comes in 15 different models. Colt has been around long enough to build an enviable reputation for reliability. That reputation is creating a growing demand for Colt.

For 1990, Colt again can be counted on for fun and versatility with a full selection of hatchbacks and sedans. Like this Colt 200 GT DOHC three-door hatchback, for instance. It comes standard with over 30 convenience, styling, and operational features, such as five-speed manual transaxle, a trip odometer, floor console, map pockets, rear window wiper/washer and colour-keyed bodyside mouldings with red striping. Plus, there are option packages that let you add special equipment items to suit your particular needs and tastes.

The bottom line: Count on Colt for value and satisfaction.

About this catalogue: Since the time of printing, some of this information may have been updated. Ask your Dealer for details before ordering. Some of the equipment shown or described may be optional and available only at extra cost.

Upward mobility.

From its clean aerodynamic profile to its wraparound lights, Colt 200 SX four-door, shown here with optional cast aluminium wheels, is every inch a trim sports sedan. Top-of-the-line along with its sister car, Colt 200 LX DOHC – which has a more luxury-oriented side to its character – both models come across as affordable cars with special touches. Standard features on Colt 200 SX include a 1.6-litre DOHC engine, close-ratio five-speed or optional sophisticated four-speed automatic, four-wheel disc brakes, sport suspension, precision power-assisted rack-and-pinion steering, and a tilt steering wheel. Comprehensive instrumentation, seating for five, rear outboard shoulder/lap belts, split fold-down rear seatbacks, heater ducts to the rear passenger footwells, and remote releases for the hood, trunk and fuel door add to the refinement and to the value.

Colt 200. Building on a reputation that has made Colt a favourite with two generations of Canadians.

Smooth performer.

No need to miss a beat with economical Colt 200 E or Colt 200 DL, four-doors (200 DL shown here). With a proven 1.5-litre fuel-efficient engine and a slick five-speed manual – or optional automatic – you can drive to the pulse of city traffic or to the rhythm of the open road.

The standard refrain is always Colt quality. From galvanized or zinc-coated steel – used for almost every major body panel – to front-wheel drive. From comfortable reclining front bucket seats to front side window demisters. From child-protection rear door locks to built-in provision for child-seat anchorage.

And with great backup. The reassurance of a 3-year/60,000-kilometre basic warranty (3-year/80,000-kilometre on powertrain), plus 7-year/160,000-kilometre Anti-Corrosion Warranty on outer body panels. See your dealer for details. And a service network of more than 550 dealers coast-to-coast.

Colt: a full chorus of values.

Versatile choices.

Real value is not a matter of simply spending less, but of getting what you want for what you can afford. Colt 200 three-door series offers a wide choice of versatile hatchbacks to fit a wide variety of driving lifestyles. You choose what you want without paying extra or what you don't need.

With the split fold-down rear seat, these hatchbacks let you carry people, packages, or a combination of both. Colt 200 E and GT feature the responsive 1.5-litre engine, while Colt 200 GT DOHC delivers its performance with – as its name suggests – a 1.6-litre double overhead camshaft power plant. A close-ratio five-speed is standard on all Colt 200 three-doors, with automatic optional – a smooth performance-maximizing four-speed in the case of 200 GT DOHC.

Colt 200 E, 3-door model features stripe knit cloth and vinyl low-back front bucket seats with head restraints.

A surprisingly high level of comfort and convenience touches can be found in the interior of the Colt 200 LX. Driver and passengers will enjoy the front luxury bucket seats in full-face velour cloth, with the driver's seat featuring a height adjuster as well as the usual adjustments. A full centre console with its handy storage area is standard, as are the door panel map pockets. The rear seat offers both the comfort of a folding centre armrest and the utility of split fold-down seatbacks to accommodate either cargo or passengers – or both.

All Colt 3-door models and the 200 SX 4-door sedans feature the convenience of split folding rear seats, so long loads and oversize parcels aren't a problem – and there can still be room for a rear seat passenger.

The tilt and telescope steering wheel, standard on 200 GT DOHC and on 200 LX and 200 SX 4-door sedans, assures that every driver can select a comfortable position.

Sporty but practical. The Colt 200 dash blends form and function with large, easy-to-read instruments. (Tachometer not included on E and DL 4-doors.) Sensibly laid out switches are easy to use, even at night.

Colt gives you the option of a modern 3-speed automatic transaxle (4 speed on DOHC models) with a convenient, sporty console-mounted shifter.

Hear your favourite music as it's never sounded before. Optional stereo system features a cassette deck to make the sound come alive. Version shown, with 9-band graphic equalizer, is optional on 200 SX only.

Spark of independence.

Colt 100 DL Turbo three-door hatchback. Igniting an independent lifestyle for all kinds of people from coast to coast. As a first car to run to college, as a second car for the family, as an easy-on-the-bank-account alternative after the kids have flown the nest.

Colt 100 three-door is a no-nonsense combination of quality engineering, practical design and affordable choices. Choices such as DL Turbo that gives you passing punch on the highway, combined with a level of comfort and convenience that belies its sensible price.

Take it to the corner or the cottage. With Colt 100. The right choices.

A cut above the ordinary.

Colt 100 LX four-door. A contemporary import, strong on tradition, with standard automatic transaxle, sedan comfort for five, an extended list of luxury features, and clean, understated styling. Options include power steering, AM/FM stereo cassette, and driver's seat height control. Also available are two-tone paint, air conditioning, a deck lid luggage rack, and turbo responsiveness.

Colt 100 E four-door (inset right) sports a generous list of standard items, plus, of course, the same durability and safety-oriented features as on its three-door counterpart. Or opt for Colt 100 DL four-door (not shown) to enjoy added luxury and comfort touches such as full wheel covers and full-face cloth upholstery.

Colt 100. Upholding the reputation for value, endurance, and reliability.

COLT 100

Colt 100 DL standard interior: full-face cord velour cloth seats with matching vinyl trim, low-back bucket seats with adjustable head restraints, and reclining seatbacks.

Driver's seat height adjustment. An item not found in many luxury cars, but available on Colt 100 DL and LX models.

The sporty Colt 100 DL Turbo 3-door and 100 LX 4-door feature an interior in velour cloth with vinyl trim, sport front bucket seats are contoured, rear seat has one-piece fold-down seatback on 3-door, split fold-down with centre armrest on 4-door.

Colt 100 dash - practical, informative, and handsome. All gauges and controls are close at hand and easy to use.
