**HUMMER®** LIKE NOTHING ELSE.™

**NOTE 1:** Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information. **NOTE 2:** One-year OnStar Safe & Sound Plan is standard on the H2. OnStar services require vehicle electrical system and analog wireless service to be available and operating for features to function properly. Call 1-888-4ONSTAR (1-888-466-7827) or visit [www.onstar.com](http://www.onstar.com) for system limitations and details. **NOTE 3:** RDS operates only when stations broadcast RDS information. **NOTE 4:** Trailer tongue weight should be 10-15% of total loaded trailer weight, up to 700 lbs. Do not exceed the maximum allowable tongue weight for your vehicle. Gross Combination Weight Rating (GCWR), which is the total allowable weight of the completely loaded vehicle and trailer including any passengers, cargo, equipment and conversions, is 14,000 lbs. If you'll be pulling a trailer that, when loaded, will weigh more than 5,000 lbs., be sure to use a properly mounted, weight-distributing hitch and sway control of the proper size. If your trailer weighs more than 2,000 lbs. loaded, then it needs its own brakes, and they must be adequate. Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your HUMMER dealer for additional details. **ADDITIONAL NOTES:** Bose is a registered trademark and AudioPilot is a trademark of Bose Corporation.
