1 With rear seats removed.

2 Cargo and load capacity limited by weight and distribution.

3 Maximum payload capacity includes weight of driver, passengers, optional equipment, and cargo.

4 Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers, and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevy dealer for additional details.

5 Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information.

6 Requires driver-side 60/40 swing-out doors.
