GET THERE

# GET A GENUINE 4X4

If you really want to get places, you can't just look the part. You need a genuine 4WD. The Suzuki Jimny is Australia's genuine small off-roader. A vehicle that will get you to the best places, comfortably.

Unlike many newcomers, Suzuki has been building tough, nimble 4WDs for years. In that time we've earned a reputation for reliability and comfort. Which is why you'll see our vehicles working in many remote areas, such as outback cattle stations.

The Jimny is agile enough for the tightest city streets, and will cruise highways comfortably. It will also out-perform many larger four wheel drives in demanding off-road situations. So wherever you want to go, you can depend on the Jimny's trusted capabilities to get you there.

\*Spare wheel disc cover not available as standard feature

## GET COMFORTABLE.

Wherever you're going, the Jimny will get you there in comfort. The sporty seats are large, comfortable and supportive - designed to hold you securely during the most spirited driving. Headroom and legroom are more than ample.

There's a robust airconditioning system, CD stereo, central door locking, remote keyless entry, electric windows, and power steering. Instruments are easy to read, and switches are logical and simple to use.

Passenger access to the rear seats is made easy by large front doors, low side sills, and a front passenger seat that folds all the way forward.

Slip behind the wheel of the Jimny, get comfortable, and dream about your next great holiday.

## GET AWAY.

In the city, on the beach, or in the bush, the Jimny is easy to live with. Light, manoeuvrable in traffic, and a breeze to park. Unlike heavy 4WDs, the Jimny is not a fuel guzzler.

Space-efficient interior design gives ample room for four adults. And when it's time to pack up, you'll be surprised at the flexibility of the Jimny's interior.

Both rear seats fold flat to give generous luggage space for your favourite gear. Or you can split the rear seat for more flexible load-carrying. There are plenty of storage compartments, and the tailgate allows full access to the rear of the vehicle. When you're ready to get away, escape in a Jimny.

## GET MOVING.

Ready to get moving? The free-revving aluminium 1.3 litre VVT engine and close ratio gearbox allow you to zip through crowded city streets.

When you hit the highways, fifth gear overdrive means comfortable and very economical cruising. And when it's time to go off-road, the Jimny's sturdy 3-section ladder frame and 3-link coil suspension with separate shock absorbers handles steep tracks, rocky slopes, sand, and mud with assurance and flair.

Suzuki's renowned Drive Action 4WD system with vacuum hubs lets you shift between 4WD (4H) and 2WD while driving. Generous approach and departure angles let you climb with confidence, while rigid full-width axles provide superior grip.

Do you like the feeling of being on the move? The Jimny is built for you.

## GET PEACE OF MIND.

Choose your ideal destination, and the Jimny will get you there safely. Dual SRS airbags are standard. Side door impact beams provide collision protection, and all seats are equipped with 3-point ELR seat belts. The Jimny's high performance braking system includes large diameter front discs and 'load sensing proportioning' to reduce unwanted wheel locking. Multi-reflector headlights help you see, and be seen. Excellent all-round visibility lets you see obstacles easily. Safe, tough and dependable. When you drive a Jimny, you're getting peace of mind.

# GET PERSONAL

The Jimny offers great experiences, and plenty of fun. So why not make your Jimny into something special? Suzuki offers a range of accessories that allows you to personalise your Jimny. To tailor your vehicle to your lifestyle. Choose from the accessories below and add style, comfort and flair to your Jimny.
