308

## The right chemistry

When you choose a Peugeot, you're buying more than an elegant piece of design or a superb piece of engineering, you're buying a vision – our dream of a marque that embodies your desires and meets your expectations in every way. A vehicle that is the very personification of the Peugeot spirit.

This spirit, or essence, of our marque can be summed up in four words. Style, quality, dynamism and innovation – the values that every Peugeot is created around. So what does that mean to you? It means beauty, stunning design, pure Peugeot lines, the very quintessence of aesthetics as seen by top Peugeot designers.

Or roughly translated, a car that makes your heart beat faster every time you look at it.

It means a car that you can trust. Every new Peugeot is built to the very highest standards, ensuring technical excellence, superb handling plus peace of mind, and is engineered to achieve optimum active and passive safety.

It also means passion. Our passion for creating cars with real poise and precision, cars that communicate with the road and connect with you, lifting your spirits on every journey. Cars that reawaken your enthusiasm for driving.

And it goes without saying that it means intelligence. Innovative designs and features that answer your demands for better, safer, more comfortable and environmentally respectful vehicles (we've reduced emissions from our engines and every new car we build is at least 90% recyclable).

These are the strands of Peugeot DNA that you'll find running through every vehicle that bears our name today, and every car that we'll build tomorrow. Creating the perfect chemistry between you and your car.

# Built to perfection

How can you tell when you've achieved perfection?

When you've refined every detail until you can't improve it any further? When all the individual components come together to make one, beautifully balanced

whole, just as they do in the Peugeot 308?

One look at its sleek V-shaped bonnet, the wide, cat-like headlights, the distinctive, front grille with its aluminium louvres and the deeply recessed foglights,

and you don't have to be told that, in its class, this car can't be bettered.

You just know.

# Perfectly poised

Even at a standstill, the 308 looks poised, ready for action.

Its perfect balance of height and length, combined with a commanding, wide wheelbase give it a purposeful stance.

The taut body line running the length of its side from the rear shoulder to the front wheel arches gives it a feeling of momentum. And the pronounced, flat wheel arches plus the large wheels hint at the dynamic performance to come.

While from the rear, the wraparound window and muscular sports bumper with chrome highlights\* simply confirm its intentions.

If you like what you see on the surface of the 308, you'll be even more impressed when you discover what lies beneath.

\*XTE model.

## Quality in depth

### Control central

The 308's ergonomically designed dashboard puts every control you could need close to hand.

Want to skip a few tracks on the CD? Or maybe find a new restaurant via the Satellite Navigation\* system? How about

setting a different temperature for you and your front seat passenger via the ingenious dual zone air-conditioning system? You'll find all the controls neatly clustered together in the thoughtfully laid out console.

\*Available as an option on XSE and XTE models.

### Powerful connections

Slide into the stylish driver's seat and you'll discover everything is displayed for maximum effect.

The four chrome ringed dials are easy to glimpse, as is the central display\*. The aluminium gearknob is designed to feel comfortable

in the palm of your hand, and the trim around the gearstick gaiter echoes the V-shaped motif found throughout the cabin, including on the front courtesy light and the top of the seat cushions.

\*XSE and XTE models.

Beige leather – option on XSE and XTE models

## Destination perfection

When we designed the interior of the 308, we wanted it to provide truly superior comfort. So one of our top priorities was to make sure that everyone had plenty of space to stretch out in.

Part of our solution was to angle the dashboard by 30 degrees, freeing up space around the driver's and front seat passenger's knees. We also gave them comfortable yet slim-backed sports seats, which created a few valuable extra inches of leg room for the rear passengers.

But we didn't stop at giving the 308 more cabin space.

To boost comfort levels even higher, we raised the back seats – treating occupants to improved visibility. And just to make the car feel really spacious and airy we designed in a huge panoramic rear window.

More clever thinking went into ensuring that the interior of the 308 was a really calm place to be. We built in high levels of sound insulation. We fitted a photosensitive rear-view mirror\* to prevent the driver from being dazzled by the car behind. We even added a fragrance dispenser\* so that you can fill the cabin with your favourite, mind-soothing scent.\*\*

The little things were big priorities too. Like making sure that there were plenty of places to stow away all your family's bits and pieces, including a compartment in the parcel shelf\*\*\* that can be accessed from the cabin or the boot, another one in the centre armrest that's big enough to hold six CDs, plus a 10 litre refrigerated glovebox, a handbag hook and even a thoughtful glasses box.

We didn't want you to be left in the dark when light levels started to fall either. That's why you'll find courtesy lights in the front and centre of the roof, as well as in the boot.

So, did we succeed in making the 308 one of the most comfortable places to be on the road? Well, we can honestly say we think you'll be impressed.

\*XTE models.  
\*\*Six fragrances available.  
\*\*\*XSE and XTE models.

### A touch of class

Part of the 308's beauty is in the details. Evidence of our commitment to quality can be found in features like the specially woven seat trim.

## See driving in a new light

Getting into the 308 for the first time is a very enlightening experience.

Not content with giving the 308 the largest expanse of window glass in its class (3.4 m<sup>2</sup>), for a virtually unobscured view of the road, we've also given it a huge, panoramic glass roof\* which lets light flood in from outside to give you an amazing sense of freedom

and space and increases the glass area to an incredible 4.66 m<sup>2</sup>. Stretching an incredible 1.26 m<sup>2</sup>, the roof effectively extends the stylishly raked windscreen right to the back of the passenger compartment, brightening up everyone's journey.

Worried about your passengers getting too much sunshine? Don't be. The heat-reflective, tinted glass

has been treated to filter out 90% of the sun's ultraviolet rays.

And if the sun really starts to scorch down, an electric sunblind is ready to cover up all or part of the roof at the touch of a button. There's even a thoughtful anti-pinch system to stop it operating if little fingers get in the way.

Yes, the 308 could seriously change your outlook on driving.

\*Standard on XTE, optional on XSE models.

## Extra thought that counts

At Peugeot, just 'good enough', has never been good enough for us.

Which is why we've put so much thought into equipping the 308 with technology designed to optimise your driving comfort.

If you're working your way across town, the variable speed limiter will keep you within the legal limit for as long as you ask it to, no matter how many times you need to use the brake or clutch.

Long motorway drive ahead of you? The variable cruise control enables you to maintain the same, constant cruising speed effortlessly. So you can relax and enjoy the ride.

You don't have to worry if you've forgotten to check the tyres recently either. The tyre under-inflation detection system\* has been designed to alert you to any slight drop in pressure and warn you immediately a puncture is detected.

But that's just the beginning. We've also given serious consideration to the problem of parking by adding clever rear parking sensors\*\* to give you an audible and visual warning of any obstacle in the vehicle's path.

Not that we've simply added gadgets for gadget's sake. Even the optional MP3 compatible RT4 multimedia system\*\*\* puts more than just a radio and CD player at your fingertips. It also turns your 308 into a communications centre, providing you with hands-free GSM phone access and satellite navigation at the touch of a button.

And just to help you keep your focus on the road, all the 308's audio and multi-media functions can be controlled via the 7" fold-away colour monitor (with Sat Nav option), the keyboard, buttons on the steering wheel-mounted stalks or voice recognition.

Now how's all that for a demonstration of inspired thinking?

\*XTE models.

\*\*XSE and XTE models.

\*\*\*Optional on XSE and XTE models.

# Optional RT4 Multimedia Satellite Navigation System\*

## Jukebox function

Whether you're into hard rock or easy listening, you'll appreciate the RT4's exclusive Jukebox function, which allows you to play your favourite CDs and MP3s and store up to 180 hours of music in MP3 format on its 10 GB hard drive.

Set your display up in any one of five graphic styles.

## Hands-free GSM phone system

Stay in touch, stay legal with the RT4's hands-free GSM phone. The voice recognition feature means you can answer and receive calls without taking your hands from the steering wheel – pull over and you can even text using the keypad. The system also comes equipped with infrared so you can upload address books from your mobile or PDA.

Make and answer your calls using the keypad on the central console, the control on the steering wheel stalk and the voice-recognition function.

## GPS satellite navigation system

Whether you're looking for a scenic route or a place to stay, the RT4's satellite navigation system will get you there by the best possible route. There's no need to overload your glove box with maps and CDs because the RT4 comes ready installed with detailed Navteq maps of Australia.

You can choose to view the map in 2D or 3D on the 7" colour screen. Take the 3D option and you'll be treated to a simulated aerial view of the route with the horizon in perspective.

\*Optional on XSE and XTE models.

Lead //

## The perfect driving partner

Settle down in the driving seat of the 308 and you know you're on the road to the perfect driving experience.

As if our knowledge and experience plus our passion for developing drivers' cars weren't invitation enough, the 308's rigid chassis, low centre of gravity and wide wheelbase positively beg you to put its outstanding driving dynamics to the test.

Braking hard into a corner? You'll be pleased to know that the 308's brakes are the equal of the best in its class, featuring extra-large ventilated discs on the front for more bite and endurance without a hint of vibration.

Storm clouds looming? The 308's already ahead of you. As soon as the first drops hit, the intelligent sensor\* at the top of the windscreen will activate the wipers,

which speed up to match the intensity of the rain. And if the light levels start to fall too, the same sensor will turn on the headlights for you.

The 308 can also see you safely to and from your door at night. The headlights stay on to light your way for a few seconds after you've used the plip key to lock or unlock the car.

Equally important, the 308 can take care of itself. The fuel filler cap can only be opened with a key, and it has a coded anti-start device to discourage unwanted admirers.

\*Standard on XSE and XTE models.

The widened frame of the 308 increases its stability and improves its handling.

# A new world power

At Peugeot, we go to great lengths in the pursuit of perfection. Which is one of the reasons why we are now the world leader in direct-injection diesel engines, and why

we're pushing the boundaries of technology to produce more fuel-efficient engines and reduce emissions.

Our latest petrol and diesel engines are the result of that passion, offering the perfect combination of fuel economy, flexibility and driving pleasure.

## HDi diesel engines (High-pressure Direct Injection)

The success of our refined HDi diesels is a case in point. A Peugeot innovation, they incorporate a particulate filter (FAP) along with a pump that feeds fuel into a 'common rail' and they are renowned for their remarkable

fuel-efficiency, high levels of torque (even at low revs) plus their radically low CO<sub>2</sub> emissions. This very intelligent application of power also means that they are extremely rewarding to drive.

## Diesel engines

### 2.0 HDi

- a: Engine Speed
- b: Power (kW)
- c: Torque (Nm)
- d: Maximum Power: 100kW @ 4000 rpm
- e: Maximum Torque: 320Nm @ 2000 rpm

Performance			
Diesel engines	Maximum power (kW @ rpm)	Maximum torque (Nm @ rpm)	Maximum speed (km/h)
1.6 HDi	80 @ 4000	240 @ 1750	190
2.0 HDi	100 @ 4000	320 @ 2000	205 / 200

Clean, efficient diesel power is supplied by either the responsive 80kW, 1.6 HDi or the impressive 100kW, 2.0 HDi.

## Petrol engines – a Peugeot collaboration with the BMW Group

The 308's range of next generation petrol engines have been developed jointly with the BMW Group and boast a host of technological innovations to

give you an immediate response. More low end torque along with more constant torque throughout the rev range means you don't have to keep changing gear to

get the most out of the engines. Combining smooth power with high efficiency, these engines set new standards for performance, dynamism and CO<sub>2</sub> emissions.

Your choice ranges from the sporting 1.6 16vVTi 88kW to the spirited 1.6 16v turbo 110kW (103kW with automatic transmission).

## Petrol engines

### 1.6 turbo

- a: Engine Speed
- b: Power (kW)
- c: Torque (Nm)
- d: Maximum Power: 100kW @ 4000 rpm
- e: Maximum Torque: 320Nm @ 2000 rpm

The responsive, fuel injected 1.6 litre turbo engine develops 110kW (103kW for auto) of power and features variable valve timing (VVT). It delivers power exactly when you need it to ensure you can enjoy the 308's dynamic capabilities to the full. A precise, 5-speed manual or a Tiptronic automatic gearbox helps you make the most of its performance.

Performance			
Petrol engines	Maximum power (kW @ rpm)	Maximum torque (Nm @ rpm)	Maximum speed (km/h)
1.6	88 @ 6000	160 @ 4250	195 / 188
1.6 turbo	110 @ 5800 (man) 103 @ 6000 (auto)	240 @ 1400	213 / 202

## Peugeot and the environment

Fact: climate change is one of the biggest challenges facing the planet.

Sadly, we can't ignore the automobile's contribution to the greenhouse effect. Or turn back time.

So at Peugeot for some years now we've been concentrating on what we can do – to build vehicles with the future in mind.

Because we're genuinely committed to reducing CO<sub>2</sub> emissions, we've invested heavily in new technologies and innovations designed to make our cars more fuel-efficient (believe it or not, we've even been developing biofuels from plants that absorb CO<sub>2</sub> while they're growing).

We've also got on with the job of cleaning up the air. We pioneered the use of the FAP particulate filter in HDi diesel engines, significantly reducing the amount of polluting particles released in the air.

And our hard work's continuing to pay off. We've managed to reduce the CO<sub>2</sub> emissions from the 308's 1.6 HDi engine to just 130g/km in the combined cycle.

So we can all breathe easier, we're switching away from using paints containing organic solvents, opting instead for water-based alternatives that discharge nearly five times fewer volatile organic compounds into the atmosphere, yet still look as good and last as well as their

more noxious counterparts. We've even been looking at ways to replace the HFC used in our air-conditioning systems. Worried about landfill? So are we. That's why at least 90% of every new Peugeot is now recyclable, including the metal, glass, fluids, plastic materials and rubber. And we're well on the way to creating the fully recyclable car. Which brings us back to the 308. It's the latest in our ever-increasing line of highly fuel-efficient cars. And like every other Peugeot being built today, its petrol engines are already set up to run on a mix of 10% bioethanol.

It's not just the engines themselves that we've been busy refining either. More aerodynamic cars need less fuel to get moving, which in turn means they produce less pollution (a 10% improvement in aerodynamics ultimately results in a 2.5% drop in CO<sub>2</sub> emissions). Which is why we've designed the 308 to be as sleek and streamlined as possible, reducing its drag co-efficient to just 0.29%.

We may not be able to repair the damage that mankind has already done to the environment, but we are committed to doing everything we can to produce vehicles that work with it, rather than against. Are you with us too?

## FAP

Every diesel engine generates particles. At Peugeot, we should know. Because we pioneered the use of particulate filters (FAP) in our diesels. These filters reduce harmful emissions to barely measurable amounts (0.004 g/km), helping to preserve the environment without spoiling the performance of your 308.

Engines	Fuel consumption (litres /100km)			CO <sub>2</sub> (g / km)
	City	Highway	Combined	Combined
1.6	9.3 / 10.3	5.2 / 5.7	6.7 / 7.3	159 / 174
1.6 turbo	9.8 / 11.4	5.6 / 6.0	7.1 / 7.9	167 / 188
1.6 HDi	6.2	4.1	4.9	130
2.0 HDi	7.2 / 9.4	4.5 / 5.3	5.5 / 6.8	146 / 180

Protect //

# Perfect peace of mind

Anti-lock brakes (ABS)

Emergency Brake Assist (EBA)

## An entertaining ride is a safe ride

At Peugeot, we don't believe you should have to take risks to have fun on the road. That's why we've spent thousands of hours developing, testing and refining the 308 to ensure it can keep its composure on even the most demanding of roads.

Our engineers gave it a wide wheel track, and a redesigned, electro-pump steering along with McPherson front suspension and steel rear axle with a deformable cross member. What does that mean on the road? Pick your favourite bends and put the 308 through its paces, you'll find it strikes the perfect balance between solid stability and

extreme agility, even at speed. Driving in town? Then you'll find its variable, electric power-assisted steering makes it easy to park and manoeuvre in heavy traffic.

As you might expect, the 308 is also equipped with a powerful, durable braking system designed to help maintain the car's composure even in difficult situations. This includes:

**Electronic Stability Program (ESP)** which is standard on the XSE and XTE models, and optional on the XS models comprises:

- **Traction Control (ASR)** activates the braking and engine management systems to prevent each wheel from spinning in slippery conditions.
- **Dynamic Stability Control (DSC)** continuously monitors and compares data from the steering wheel sensor and the yaw sensor to detect any under or oversteer, then uses the braking and engine management systems to keep you on course.

**Anti-lock brakes (ABS)** to help you keep control of the steering and prevent the car from skidding under heavy braking.

**Electronic Brake Force Distribution (EBFD)** applies a different amount of braking force to individual wheels to keep the car stable – especially if you need to brake in a corner.

**Emergency Brake Assist (EBA)** hit the brakes hard in a hurry and the system will come to your aid, applying maximum braking power in milliseconds to bring you to a halt quickly and safely. This system automatically activates the hazard lights to warn other motorists.

## Your personal bodyguard

People come first with us. That's why we've taken all the features you can't see on the 308 as seriously as those you can.

Beneath its elegant, dynamic lines lies a passenger safety cell that's been designed with three impact absorption structures to soak up as much of the crash energy as possible if you're involved in an accident.

In the event of a head-on collision, you're protected by the main impact structure, as well as a new lower structure fitted on to the front subframe and extra reinforcements above the front wheel arches. So you and your

passengers are effectively cocooned in a protective cell.

A further safeguard is provided by the 308's collapsible steering column which retracts to prevent the engine and gearbox being pushed back into the cabin.

We've also designed in an active footrest which helps to prevent ankle injuries by absorbing as much of the shock as possible.

The all-round protection continues with reinforced side panels to take the brunt of the force if you're hit from that angle, plus an aluminium alloy impact bar at the back to safeguard the

cabin and the petrol tank.

If you do find yourself in a dangerous situation, it's reassuring to know that the 308 is fully equipped with 3-point seatbelts with force limiters, which complement the restraining effect provided by the pretensioner in the driver and front seat passenger's belts.

The 308's final line of defence is provided by six airbags:

- Two adaptive driver and front passenger airbags for head and upper body protection, which adapt their level of inflation to match the severity of the impact.

- Two front side airbags safeguard the driver and front passenger's chests and bodies.

- Two curtain airbags, to protect both the front and rear passengers' heads.

For when you have children on board the rear side seats are fitted with ISOFIX mounts with three anchor points so you can carry tiny VIPs safely and securely in compatible child seats.

## Peace of Mind

# 308

When you choose Peugeot, you have the reassurance of knowing that your vehicle has been designed and manufactured to give you years of worry-free motoring. What's more, as a Peugeot owner, you can rely on a comprehensive range of customer care services from your Dealer. So you can be sure that you're talking to a specialist who'll listen to you, understand your problems and respond efficiently – someone who also has the expertise to maintain your Peugeot correctly, using trained technicians, Peugeot Diagnostic Equipment and Peugeot Original Equipment Parts.

### **Driving down the costs of servicing**

Peugeot petrol and diesel engine cars need servicing every 20,000 kms or every 12 months, whichever is the sooner. This reflects a recent lengthening of the schedule and with less time spent in the maintenance bay and fewer service visits, Peugeot has passed on the benefits of technology in engine design and lubrication. While Peugeot can predict the maintenance needs of engine and other major components, the wearing of certain components such as tyres and brake pads is less predictable and is affected by driving style and conditions.

### **3 year /100,000 km warranty**

Should any part of the vehicle require repair or replacement as a result of a manufacturing or material defect within the warranty period, the part will be repaired or replaced completely free of charge by your authorised Peugeot dealer, regardless of any change of ownership during the period covered. The warranty does not

cover items replaced during normal service and maintenance operations, which are subject to wear and tear. During the period you will also automatically receive Peugeot Assistance cover for complete peace of mind (subject to the conditions outlined in the Warranty Maintenance Book).

### **12 year anti-corrosion warranty**

Peugeots are renowned for their durability and longevity. This is due in part to the sophisticated measures which are taken during the production process to optimise long-term protection from the elements. Peugeot backs this advanced technology with a 12 year warranty against corrosion-perforation of your car's bodywork – one of the longest body warranties in the world today (subject to conditions in the Warranty Maintenance Book).

### **Peugeot assistance**

Whatever it takes to get you going again, in the unlikely event of a breakdown or emergency, it only takes one free phone call.

Peugeot Assistance is free for Peugeot new car owners. The programme includes 24-hour roadside assistance, vehicle recovery, technical advice, message service, home assistance and accident or theft co-ordination. Your Peugeot Dealer has full details of all terms and conditions.

### **Peugeot genuine parts promise**

If your car is in for a service or repair, the parts required to keep your car on the road are Peugeot genuine parts. Using specifically designed and manufactured parts ensures your Peugeot can operate at peak performance at all times.

### **Important notice**

Peugeot Automobiles Australia offers this brochure as a general guide to product specifications. Photographs and illustrations in this brochure are for illustrative purposes only and do not necessarily represent final production models for Australia, or modifications made to meet Australian standards or requirements. All data in this

brochure is believed to be correct as at February 2008. However, as development is an ongoing process, changes may occur from time to time which will not necessarily be reflected herein. Therefore, Peugeot Automobiles Australia reserves the right to change specifications without notice. Accordingly, this brochure should not be regarded as an infallible guide to correct specifications, nor does it constitute an offer for sale of any particular vehicle. So now you've been introduced to the 308. You've got an idea of what it's all about, what it can do. And you've had a glimpse of how it could fit into your lifestyle.

Along the way, we hope you've been impressed by the innovative design, superior safety and pure driveability that make the 308 the car of 2008.

And as part of the journey, you're sure to have gained an insight into the way we think and how our values are continuing to shape the marque. We also hope you've come to trust the quality and value that the Peugeot brand represents.

But the ride doesn't have to stop here. If you'd like to get to know the 308 better, either go to [www.308.com.au](http://www.308.com.au) or visit your nearest Peugeot dealer to book a test drive. And see just how attractive adventure can be.

ENGINEERED TO BE ENJOYED
