Way of Life!

WAY OF LIFE!

Suzuki has built a reputation for engineering innovation. Whether it's high performance cars, motorcycles or marine engines, Suzuki is constantly evolving to meet our drivers' changing demands. We pride ourselves on building stylish, versatile vehicles that live up to the Suzuki stamp of quality, originality and reliability.

BEAT THE CITY

It's tough going in the big city. Hidden laneways. Tiny streets. All cutting between towering buildings and eternal traffic. But not for the rally-winning Swift. It's got the performance to handle anything the urban maze throws at it. And with fuel efficiency of only 6.3L/100km*, it's the ideal car to conquer the big city.

*ADR81/01 test results for Swift manual.

When you head out in the Suzuki Swift, you head out in style - with a European inspired exterior that turns heads wherever you go. The Swift also comes with an extensive list of features that makes every ride enjoyable.

SWIFT S

The Swift 'S' gives you even more including 15" alloy wheels, fog lamps and the added safety of four extra airbags - two side and two curtain. Wheels magazine awarded the Swift 'S' with the 'Gold Star' 2008 making it the best in its class.

Suzuki dominated the 2007 Junior World Rally Championship. It took both 1st and 2nd place in the Driver's Championship, while also winning the manufacturer's title. In fact, the Swift has always been dominant on the international circuit, showing electrifying speed and supreme handling on some of the world's most rigorous conditions. With this kind of breeding, the Swift can handle the city streets with ease.

2007 JWRC CHAMPION

FIRST RATE SAFETY

The Swift is first rate when it comes to safety. Incorporating the latest thinking in body rigidity, with side-impact protection and a highly sophisticated braking system that incorporates ABS with EBD and brake assist - protection is ensured for all passengers. The Swift has twin front airbags while the Swift S and Swift Sport have an additional two side and two curtain airbags.

■ Spacious design

■ Flexible storage

■ Twin front airbags

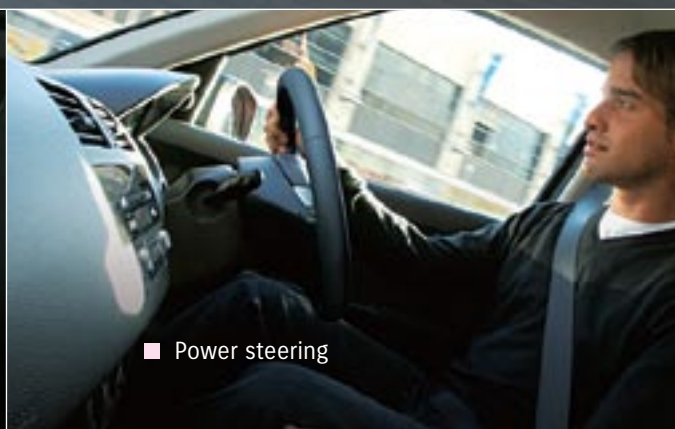

The interior has been crafted to complete the Swift's chic and dynamic feel. With a 6-speaker sound system that includes an MP3 enabled CD player and steering wheel controls - your music is only a touch away.

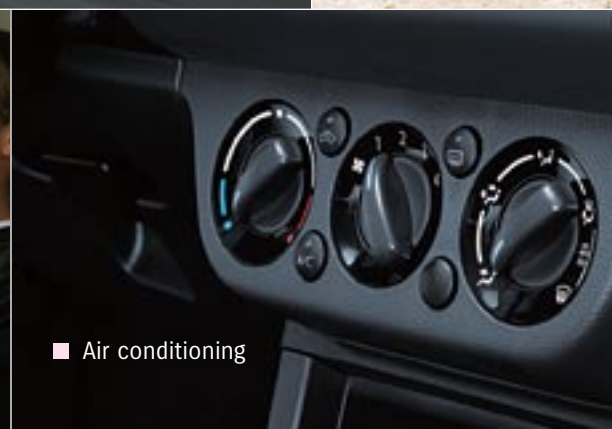

■ Steering wheel-mounted audio controls

■ MP3 enabled CD Player

■ Power steering

■ Air conditioning

SWIFT *Sport*

With a 1.6 litre engine and twin exhaust pipes, the Swift Sport is for those who want authentic rally styling. As soon as you jump in and fire up the engine, you sink into the professional bucket seats which hug your body at every turn. Grip the leather bound steering wheel and plant your feet on the solid alloy racing pedals - every drive's a rally drive in the Swift Sport's rally inspired cockpit.

Dashing through the city, things move quickly. People make mistakes. That's why the Swift Sport enjoys the added protection of dual front, side and curtain airbags, maximising protection in the event of a collision.

The Swift Sport is also equipped with Electronic Stability Program (ESP) technology, an advanced safety function which assists the driver to regain control of a sliding vehicle.

ESP is a computer controlled technology which uses inbuilt sensors. The sensors automatically apply braking to individual wheels and can help restore correct road alignment as soon as they detect any loss of control.
