accessories that
accentuate your vehicle —
and your lifestyle!

Think back to the reasons you bought a Ford. Chances are, your reasons included a reputation for reliability, sleek styling, quality, outstanding engineering, built-in versatility and a strong manufacturer's warranty. You looked at the competition, but you decided that a Ford product best fit your needs.

Well, all of these same reasons apply to genuine Ford Accessories. They're rugged, they look good, they're styled to complement the lines of the vehicle, they're engineered to fit exactly, and they're backed by a strong manufacturer's warranty.

There are a lot of stores and catalogs that offer accessories for your Ford product. But none of these competitors can offer the quality, styling, engineering and warranty that you get when you go with genuine Ford accessories. Your basic car or van is top-of-the line — keep it that way with genuine Ford accessories!

All Ford accessories are available from your local Ford dealer. Prices shown in this catalog are manufacturer's suggested retail prices only — actual prices may vary by dealer. Prices shown in this catalog do not include installation, labor, painting (if required) or taxes.

Limited Warranty Information

Ford Motor Company will repair or replace any properly dealer-installed Ford Accessory found to be defective in factory-supplied materials or workmanship during the warranty period, as well as any component damaged by the defective accessory. The accessory will be warranted for whichever provides you the greatest benefit:

- 12 months or 12,000 miles/20,000 km (whichever occurs first), or
- The remainder of your new vehicle limited warranty.

This means that Ford Accessories purchased along with your new vehicle and installed by the dealer are covered for the full length of your New Vehicle's Limited Warranty — 3 years or 36,000 miles/60,000 km (whichever occurs first). Contact your dealer for details and a copy of the warranty.

Be sure to ask for the following accessories also available through your local Ford Dealer

73. Daytime Running Lights These lights help make your vehicle more visible to other drivers. The system automatically activates the low beams at 75% of their normal operating power whenever the ignition is in the "on" position. Studies show that DRL's can reduce collisions. Dealer installation recommended.

Available for Focus, Escort ZX2, Mustang and Crown Victoria.

74. Automatic Headlamp System Never touch your headlight switch again. This system automatically switches the headlights on whenever darkness is sensed. Also features a time delay that leaves the lights on for a pre-set amount of time after parking the car. The daytime running light feature can be activated during installation. Engineered for complete integration with vehicle electrical system. Dealer installation recommended.

Available for Focus, Escort ZX2, Mustang.

75. Engine Block Heater Get a quicker start even in the coldest weather. Just connect this heater to a grounded extension cord (not included), and plug into any 110-volt power source. Your engine block will stay warm for easier starting, faster warm-ups, less fuel waste and less battery drain.

Available for all models.

76. Air Filtration Upgrade your vehicle's existing heating/air conditioning system with an O.E.-design air filtration kit. Great for use in dusty environments, it filters over 90% of mold spores and other airborne particles larger than 3 microns. Special design helps keep the filter from clogging — maintaining heating, ventilation and A/C efficiency. Filters both incoming and inside recirculated air. Replacement filters also available. Dealer installation recommended.

Available for Focus and Taurus.

77. Seat Anchor Covers When you fold-up or remove the seats from your Windstar, the seat anchors in the floor are open to collect dirt and small items. When the seats will be out for extended periods, cover the holes in the floor with our seat anchor covers. Two sizes are available for either front or rear anchors, and they're offered in colors to complement the vehicle's interior.

Available for Windstar.

78. Chrome Exhaust Trim Put a finishing touch on your Focus with a chrome trim piece on the exhaust. Slips on over the end of the tailpipe and adds a classy look to the car. Constructed of nickel-plated steel for long life. Easily installed, no drilling necessary.
