Limited Warranty Information

Ford Motor Company will repair or replace any properly dealer-installed Lincoln accessory found to be defective in factory-supplied materials or workmanship during the warranty period, as well as any component damaged by the defective accessory. The accessory will be warranted for whichever provides you the greatest benefit:

- 12 months or 12,000 miles/20,000 km (whichever occurs first), or
- The remainder of your new vehicle limited warranty.

This means that Lincoln accessories purchased along with your new vehicle and installed by the dealer are covered for the full length of your new vehicle's limited warranty—4 years or 50,000 miles/80,000 km (whichever occurs first). Contact your dealer for details and a copy of the warranty.

NOTE: The product descriptions, specifications and pricing were correct at the time this material was being prepared for printing. Our policy is one of continuous improvement and we reserve the right to change design or specifications or pricing at any time without notice and without incurring obligation.
