THE BMW X3. ORIGINAL BMW ACCESSORIES.

JOY HAS BOUNDLESS POSSIBILITIES.

EXPERIENCE THE POWER OF INNOVATIVE IDEAS.

Original BMW accessories for the BMW X3 combine original thinking and stylish design with a high degree of practicality. Over the next few pages, you will read about some of the Original BMW exterior and interior accessories, communication and information systems, and transportation and luggage solutions available. Every Original BMW accessories product sets new standards, offering unrivalled flexibility, sports-inspired style and maximum versatility.

BEAUTY THAT'S MORE THAN SKIN-DEEP.

ORIGINAL BMW EXTERIOR ACCESSORIES.

1+2 Double spoke 150
Cast alloy wheel, 19-inch size.

3 Star spoke 146
Cast alloy wheel, 19-inch size.

4 Star spoke 147
Cast alloy wheel, 19-inch size.

5 Star spoke 128
Cast alloy wheel, 19-inch size.

From vision to reality: first initial sketches, then 3D computer designs, followed by life-size clay models which the BMW designers can fine-tune by hand. Only after aerodynamic optimization in the wind tunnel and extensive testing on the road and in the lab are the BMW aerodynamic components finally ready to grace your vehicle.

1 Aerodynamic kit I + II

Front and rear aprons accentuate the powerful and dynamic appearance of the BMW X3. The kits are rounded off by an attractive trim for the tailgate. Aerodynamic kit I is also available with side skirts and flared wheel arches, emphasizing the sporty styling of the vehicle.

1 Black Line rear lights

Set in a fine grey casing, they give the rear end a particularly imposing feel.

1 M aerodynamic kit

M front apron, M side skirts and M rear apron give the BMW X3 a sportier appearance.

1 Roof railing

Perfectly matched to the overall design of the BMW X3.

2 M Y-spoke 191

Cast alloy wheel, 19-inch size.

3 M double spoke 192

Cast alloy wheel, 18-inch size.

CREATE YOUR OWN ATMOSPHERE. ORIGINAL BMW INTERIOR ACCESSORIES.

1 Interior trim strips in light variegated poplar

The exclusive, expertly crafted fine wood trim consists of trim strips for the dashboard, centre console and doors.

1 Decorative trim in light variegated poplar for leather-covered sport steering wheel

The perfect complement to the other trims in this fine wood.

2 Leather-covered selector lever grip with decorative strip in light variegated poplar

An elegant interior detail.

1 Leather-covered sport steering wheel

With multifunction option. Diameter 385 mm. Also available with steering wheel heating.

1 Leather-covered selector lever grip with decorative strip in pearl-effect chrome

Makes a tasteful addition to the interior trim strips in longitudinally ground aluminium or ground cloud-effect aluminium.

2 M leather-covered gear lever knob

A sporty interior detail.

3 Aluminium pedal pads

Sporty looks, and extra grip for the feet.

3 City floor mats

Dirt-repellent and water-resistant. Available in anthracite, grey and sand beige.

4 Sun screen

Quick and easy to attach to the rear side windows, luggage compartment windows and rear windscreen. When not in use, it can be stored in the bag supplied.

4 BMW junior seat II-III

Suitable for children weighing 15 to 36 kg (aged approx. 3 to 12 years). The seat can be quickly and easily secured in place with the three-point belt. The height of the seat and position of the headrest and side bolsters are manually adjustable, and the seat offers excellent lateral support. The recline position makes the BMW junior seat II-III ideal for long journeys, and the removable cover is machine-washable. A rucksack to carry the seat when not in use is available separately.

Adherence to safety standards is all well and good – but BMW designers see this as a bare minimum requirement, not a maximum one. Which is why BMW child seats go far beyond even the tough specifications of the ECE-44/04 safety standard, to ensure that younger passengers can enjoy the best possible protection.

Take for example crash tests. BMW doesn't just carry out the mandatory frontal impact testing; in addition, it also subjects all Original BMW child seats to simulated side barrier impacts, with collision speeds of up to 50 km/h. The design is then modified based on the results.

And these are just two of a whole battery of tests, ensuring that BMW child restraint systems offer maximum safety in every situation.

STAY ENTERTAINED, STAY INFORMED.

ORIGINAL BMW COMMUNICATION AND INFORMATION ACCESSORIES.

1 BMW Advanced DVD system

Consists of two 7-inch colour monitors built into the front seat backs, two cordless stereo headphone sets, two infrared remote controls and a 6-slot multimedia changer built into the luggage compartment. An AV socket also supports the connection of devices such as games consoles. The tilting monitors provide a brilliant picture; they are non-reflective from every angle and can also be operated independently of one another. Dependent on the equipment package chosen, audio can be output through the BMW radio loudspeakers, with video playback on the on-board monitor. The BMW Advanced DVD system is also available for vehicles with comfort seats and/or a factory-fitted DVD system preparation in the rear.

2 TV function

Depending on the vehicle's equipment levels, analogue and digital (DVB-T) TV programmes can be watched on the on-board monitor. The TV function can only be activated when the vehicle is stationary, and operation is via the on-board monitor. Passengers in the rear seats can watch digital TV programmes on the monitors of the BMW Advanced and BMW Portable DVD systems even during the journey, thanks to the DVB-T set-top box. The system is operated via infrared remote control. Detailed information available on request.

3 iPod interface

Enjoy all your favourite music on the road. The interface connects the iPod™ directly to your vehicle's audio system, allowing you to select five individual playlists – as well as functions such as skip track and shuffle – by quickly and easily using the BMW radio or the multifunction steering wheel. The iPod™ is stored securely in the glovebox, and the battery is charged during playback through the vehicle's electrical system.

1 Rear View Camera

Ensures maximum safety when reversing. When reverse gear is selected, a 131-degree wide-angle camera in the luggage compartment lid starts filming the area behind the vehicle. The feed from the camera is shown on the on-board monitor.

2 Top View Camera

A camera integrated into the wing mirror covers the road around the driver's door in a 131-degree angle. The video feed is displayed on the on-board monitor.

3 BMW Portable navigation system Pro

Fits in your pocket, and designed for use both in and outside the car. The high-resolution 4.3-inch touch screen display offers 2D and 3D map views, and the device is packed with features such as pre-installed maps covering 33 European countries, voice recognition, built-in TMC function, MP3 player and USB connection. It slots neatly into a special mounting in the dashboard, which also recharges its battery.

The new-generation version of the BMW Portable navigation system is designed to integrate seamlessly with your BMW. This goes far deeper than its stylish looks; the device also undergoes extensive crash testing to ensure it fulfils the strictest safety standards. A model-specific mounting ensures the device poses no safety risk, and also does away with the problem of unsightly trailing wires. So now you can enjoy all the benefits of a portable navigation device, without foregoing the BMW quality you've come to expect.

SOLUTIONS TO MEET EVERY NEED.

ORIGINAL BMW TRANSPORTATION AND LUGGAGE SOLUTIONS.

1 Bicycle holder for trailer tow hitch, lockable

The bicycle holder and bicycles are secured against theft. For carrying one or two bicycles. An extension set for a third bicycle is available.

2 Interior bicycle holder

One or two bikes can be fastened securely to the lashing rails in the luggage compartment with a special anti-theft attachment kit for safe transportation. More information about the maximum wheel size of bicycles that can be transported available on request.

1-3 BMW base support system, lockable

Maximum permissible roof load: 75 kg. The support bars are made of high-strength aluminium tubing and are fastened to the roof railing. The BMW base support system is equipped with an anti-theft feature and complies with the most stringent safety requirements.

1 BMW roof box 460

Capacity: approx. 460 l. L x W x H: 230 x 82 x 37 cm. Easy to load, thanks to an innovative system that opens from both sides. Features anti-theft triple central locking on both sides for additional peace of mind. Includes ski rests. Available in silver or black.

2 Luggage rack

High load-carrying capacity. Made of lightweight, high-strength aluminium.

3 Ski and snowboard holder, lockable

Suitable for carrying two snowboards and two pairs of skis, or up to six pairs of skis. Poles can also be carried.

The more comprehensive the testing, the better the results. Traditionally, only front crash testing is carried out on roof boxes, but at the BMW Research and Innovation Centre, they are subjected to side and rear impact testing as well – the only facility in the world where this takes place. And that's not all. They also undergo climatic and impact strength tests, and corrosion testing over many days in a salt-spray chamber.

BRILLIANT IDEAS, SPARKLING RESULTS.

ORIGINAL BMW CLEANING AND CARE PRODUCTS.

An extensive range of cleaning and care products is available for your BMW, helping to keep it looking its best. All of them are environmentally friendly, and there are specific products to protect and care for all of the surfaces found in BMW cars, including leather, fabrics, glass and paint – so you can be proud to be seen in your BMW everywhere you go in it.

For example, Original BMW hard wax with nano-technology keeps paintwork looking just as good as it did in the showroom, while rim cleaner gel keeps Original BMW alloy wheels free of brake dust. There are even Original BMW Care Products to keep you safe, by meeting the specific requirements of different times of the year; Original BMW clear glass, for instance, ensures that windscreens stay clean and smear-free, in summer and winter alike.

A selection of cleaning and care products can be found in the range overview on page 33.

* For more information about the full range of Original BMW cleaning and care products available, please speak to your BMW Service Centre.

JOY IS KNOWING THAT YOU ARE IN GOOD HANDS.

To ensure your BMW performs at its best every day, your BMW Service Centre does much more than just give you advice on which Original BMW Accessories to choose and offer a professional fitting service.

BMW TeleServices – your BMW automatically informs you when it's due for a trip to one of our 3,300 BMW Service Centres. The on-board Condition Based Service system tells you of any upcoming maintenance and servicing required, and BMW TeleServices* communicates this information to your BMW Service Centre. A service employee will then ring you to make an appointment. The BMW Service Centre keeps a full range of Original BMW Parts in stock – so it's able to repair any problems quickly and effectively. In short, quality and safety are at the heart of everything we do.

BMW Service Inclusive – you pay a fixed price, and depending on the package you choose, routine maintenance, wear-and-tear repairs and even out-of-warranty repairs are covered for a defined time period or mileage.

BMW Mobile Service – a breakdown service from BMW which, in the unlikely event of a breakdown, is on call any time, day or night. The BMW TeleService diagnosis* transmits all the relevant details to BMW Service headquarters. This allows a BMW Service specialist to identify the problem so that they can help you to resolve the issue yourself, send a BMW breakdown recovery vehicle to your assistance, or fix the problem remotely using the BMW TeleService help.*

For more information on BMW Service, please contact your BMW Service Centre or visit www.bmw.com/service

BMW SERVICE.

* BMW TeleServices are available in all BMW vehicles with the exception of the BMW X3. However, the optional Bluetooth mobile phone interface (option 633 or option 644) must be fitted and, on certain models, the BMW Professional radio in conjunction with the control display (BMW Business navigation system (option 606) or the Professional navigation system (option 609)) must also be fitted.
