Original BMW accessories.

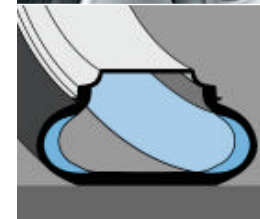

#### Designed for optimum ground contact. BMW wheels and tyres.

When developing new wheel designs, BMW engineers pay close attention to how the wheel will work with its tyre. So that you can enjoy driving your BMW in complete safety, all BMW wheel/tyre combinations undergo rigorous selection and testing processes, and every last detail of the design is optimized for use with the specific BMW model in question. A variety of tyres featuring runflat technology are available. These have strengthened sidewalls made from extremely heat-resistant rubber, which ensures the tyre retains its shape, so the car can keep driving for another 150 kilometres at up to 80 km/h, even after a complete loss of tyre pressure.

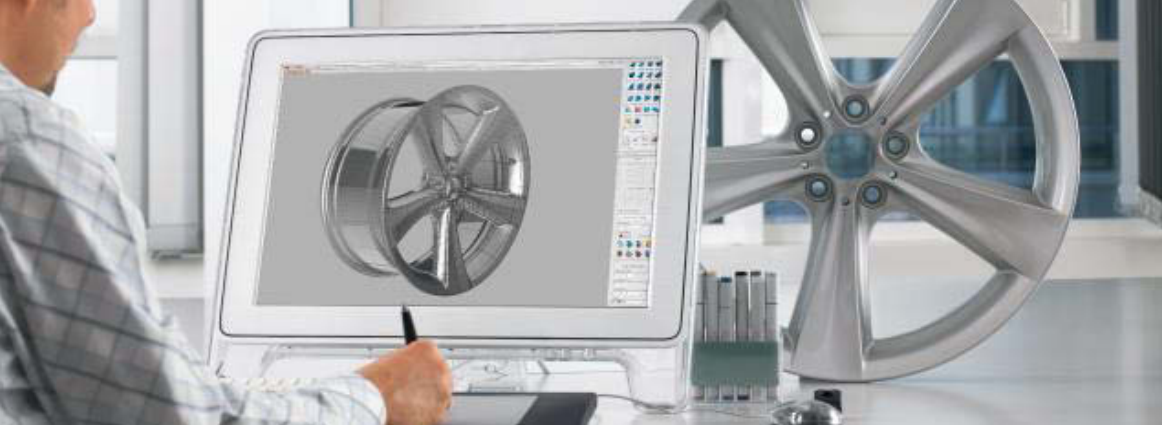

At any given moment, the part of a tyre that is in contact with the ground is not much larger than the palm of your hand. Yet this small area has to transfer all the power and performance of the car's engine and brakes onto the road. For this reason, it is vital that the wheel, tyre and chassis components all work together as effectively as possible.

At BMW, achieving this involves extensive simulations and a strenuous testing regime. The performance of all wheels and tyres is tested under all imaginable conditions, and a thorough analysis of the results is then carried out. Wheel and tyre combinations are also tailored to the spring damper units and electronic driver aids on the specific models they will be used with. In this way, dynamism, ride comfort and safety are all combined to ensure that unmistakable BMW driving experience.

Tyres that have been tested in this way and certified for compliance with BMW's strict quality standards are indicated with a five-pointed star after the tyre specification. The tyre specification itself – for example 225/40 R18 88W – gives information about the tyre's width in millimeters (225), height-to-width ratio expressed as a percentage (40), type (in this case, R for "radial"), rim diameter in inches (18), load rating (e.g. 88) and speed rating (in this case, W – suitable for speeds of up to 270 km/h). The star is only given to tyres that have been successfully tested for compliance with BMW standards on wheels of that size on the specific model in question. Runflat tyres are also indicated with the letters RSC (standing for "Runflat System Component").

**The perfect blend of form and function. Original BMW alloy wheels.**

Original BMW alloy wheels are tailored to your BMW in a number of different ways. Of course they fit in harmoniously with the overall look of the vehicle, but they are also adapted to it functionally as well. For example, the shape and placement of the gaps between the spokes has been carefully thought out to maximize ventilation of the brakes, and the thermal conductivity of the alloys used also contributes to the cooling process. Original BMW alloy wheels designed for use with runflat tyres have raised humps that prevent depressurized tyres from slipping out of position, even when cornering.

BMW develops separate alloy wheels for all of its models. In the first stage of this highly complex process, a design brief is given to a variety of designers, and their sketches are subsequently evaluated by a panel comprising representatives of all the different areas involved in BMW wheel development. CAD is then used to create virtual models of the selected designs, which can then be tested on the BMW model in question. Finally, full-size Ureol models are made, and the design is fine-tuned to ensure that it compliments the overall look of the car.

A choice of manufacturing processes is available to turn the approved designs into a reality. Wheels are produced in accordance with strict BMW quality standards using either a low-pressure casting or a forging process, depending on which best suits the design. With some multipart, bolted alloy wheels, a combination of both methods is used. The entire design and manufacturing process is rigorously scrutinized and fully documented at every stage. Cast wheels are X-rayed to ensure there are no air bubbles in them, and only if they pass this test are they given a quality stamp on the back side.

Forged wheels, meanwhile, are rolled and beaten, making the walls thinner and thereby reducing weight to a minimum. The metal also undergoes an ultrasound scan before the forging process begins, to make sure it is free from defects.

What we have just described represents just two of the many stages that make up the BMW quality and safety assurance process. This ensures that every step of the manufacturing process is fully documented, right up to the moment the wheel is delivered.

This exhaustive multistage development and testing process ultimately results in Original BMW alloy wheels that meet the highest standards in terms of both form and function, whilst being perfectly tailored to your BMW. You will admire these wheels at first glance, and your admiration will only grow with every mile you drive on them.

Original BMW exterior accessories offer you a new outlook, with stylish options such as high-quality alloy wheels and powerful aerodynamic components. All of them have been specifically designed to complement the sporty and distinctive lines of the BMW Z4. Undergoing stringent tests on both the materials and design to ensure that each component meets BMW's strict quality standards. So you can be confident your BMW Z4 is as good to drive as it is to look at.

**1 Ellipsoid styling 107**

18-inch, cast.

**2 Star spoke composite wheel 108**

18-inch, casting/rolling technology. Two-part with titanium bolt. Burnished rim flange.

**3 Star spoke 241**

18-inch, cast.

**3 Wheel bolt locks** (see p. 5)

The special BMW locks offer excellent protection against theft. Bolts can only be removed using a special tool, which is supplied as standard with the wheels.

**Cross spoke composite wheel 78** (see p. 4+5)

18-inch, casting/rolling technology. Two-part with titanium bolt. Burnished rim flange.

**4 M double spoke 135**

18-inch, cast.

**5 M cross spoke composite wheel 101**

18-inch, casting/rolling technology. Two-part with titanium bolt. Burnished rim flange.

All wheels feature runflat tyres. For more information, see pp. 6-9.

**1 Headlights with white direction indicators**

Accentuate the distinctive lines of the BMW Z4. Available for vehicles manufactured up to January 2006.

**2 Double spoke 125**

18-inch, cast.

**3 Cross spoke 133**

17-inch, cast.

**4 Turbine styling 201**

17-inch, cast.

**5 Double spoke 103**

17-inch, cast.

**6 Star spoke 105**

17-inch, cast.

All wheels feature runflat tyres. For more information, see pp. 6-9.

**1 Star spoke 102**

16-inch, cast.

**2 Star spoke 104**

16-inch, cast.

**3 Double spoke composite wheel 71 (see front cover)**

17-inch, cast. Two-part with titanium bolt. Burnished rim flange.

**4 Mud flaps**

Protect your vehicle and the car behind you against dirt and loose chippings. Available for both front and rear wheels.

**5 Snow chains**

The snow chains have been specially adapted for use with BMW tyres. They are easy to fit, and offer optimum grip on snow and ice.

**6 Ellipsoid styling 202**

18-inch, cast.

All wheels feature runflat tyres. For more information, see pp. 6-9.

#### **1 + 2 Aerodynamic kit**

Emphasizes the racing pedigree of the Z4. The aerodynamic kit comprises a front apron, side skirts (Fig. 1), and either a **carbon diffuser** for vehicles manufactured from February 2006 onwards (Fig. 2, see also p. 51) or a rear apron in the case of vehicles manufactured up to January 2006.

#### **1 Star spoke 200**

17-inch, cast.

#### **1 Front grille**

With chrome surround and vertical kidney bars in graphite satin finish.

#### **3 Rear spoiler in carbon**

Gives a uniquely sporty touch to the rear of the BMW Z4 Coupé. This high-quality aerodynamic component is made by hand.

#### **4 Rear spoiler**

The rear spoiler accentuates the dynamic lines of the BMW Z4 Roadster.

#### **5 Rear lights with white direction indicators**

In addition to rear lights with white direction indicators and a third brake light in white (not shown), this kit also comprises white side direction indicators (not shown). Available for vehicles manufactured up to January 2006.

#### **6 Exhaust pipe finisher**

Sporty appearance, to complement the powerful sound of the BMW Z4.

#### **1 Hardtop**

Gives the car a distinctive profile, and increases in-car comfort in the winter months. The hardtop is made of fibreglass-reinforced plastic, painted in body colour, and fitted with a heated rear window of tinted glass. The integrated roof spoiler accentuates the Roadster's sporty appearance.

#### **1 Star spoke 203**

18-inch, cast.

#### **2 Side convertible top cover**

Elegantly conceals the convertible top frame when driving with the convertible top down. The cover is colour-matched to the interior trim.

#### **2 Wind deflector**

Reduces draughts and air turbulence inside the vehicle. The wind deflector is pulled over the roll bars and secured with hooks to the interior trim. When not in use, it can be stowed in a pocket in the luggage compartment.

#### **3 Wind deflector with rail**

Permanently installed rails in the roll bars mean that the wind deflector can be swiftly fitted and removed. When the net is not in use, it can be stowed in a special holder in the luggage compartment.

#### **4 Chrome Line rollover protection in anthracite**

Accentuates the car's distinctive looks and perfectly complements the **Chrome Line interior trim in anthracite** (see p. 25).

#### **5 Universal lift and adapter for hardtop**

Using the universal lift, the hardtop can be effortlessly fitted and removed by a single person, and stored under the garage roof.

#### **6 Hardtop storage**

A **hardtop roller carrier** and a **cover with integrated wall bracket** (not shown) are available.

### 1 - 3 Xenon headlights

Illuminate the road and the edge of the road clearly, evenly and over a broad area. For both dipped beam (Fig. 2, blue area in illustration) and main beam headlights (Fig. 3, blue area in illustration). The xenon headlights option also includes automatic headlight range adjusters. Only available in conjunction with the headlight washer system.

### 1 Fog lights

Throw a wider beam onto the road and also reduce reflective glare.

### 4 Headlight washer system

Clean headlights ensure that the road is optimally illuminated at all times.

### 5 + 6 Car covers

These washable car covers with their BMW logo are easy to handle and tailor-made for the BMW Z4. The silver **outdoor car cover** (Fig. 5) is both heatproof, and water- and dirt-repellent, and features ventilation openings. The **indoor car cover** (Fig. 6) is made of an easy-stretch, antistatic material.

### 7 "Tarpaulin" car cover

The "tarpaulin" car cover offers excellent protection against dust and rain. Can be used whether the convertible top is open or closed.

### 8 Suspension cross-brace

In addition to visually enhancing the engine compartment, the suspension cross-brace provides extra rigidity in the front area of the car.

Original BMW interior accessories let you put your personal stamp on the inside of your BMW Z4. Whether the look you prefer is elegant or sporty, the unmistakable quality of the design, materials and workmanship will impress even the most discerning of passengers.

**1 - 3 Interior trim strips in aluminium**

This option comprises trim strips for the dashboard, centre console and door handles. In **Cirrus aluminium** (Fig. 1+3), **Silver Grid aluminium** (Fig. 2) or **longitudinally ground aluminium** (see p. 22).

**1 Chrome Line decorative trim in anthracite for leather-covered sport steering wheel**

For steering wheels with and without multifunction option.

**1 Multifunction option for sport steering wheel**

Operation of the radio or telephone from the steering wheel.

**1 Leather-covered gear lever knob, black**

**4 Chrome Line interior trim in anthracite**

The sportily elegant interior trim comprises door handles (not shown) and belt guides (Fig. 4). Matching **Chrome Line rollover protection in anthracite** (see p. 19) is also available.

**5 Leather-covered gear lever knob with Chrome Line decorative strip in anthracite**

**6 Leather-covered selector lever grip with Chrome Line decorative strip in anthracite**

**1** Leather-covered selector lever grip with decorative strip in plane wood

**2 - 6** Interior trim strips in fine wood

The exclusive handcrafted fine wood trim consists of trim strips for the dashboard, the centre console and the door handles. It can be specified in **maritime mahogany** (Fig. 2), **light variegated poplar** (Fig. 3), **brown variegated poplar** (Fig. 4), **natural poplar** (not shown) and **plane wood** (Fig. 5+6).

**6** Wood/leather-covered steering wheel with decorative trim in plane wood

**6** Leather-covered gear lever knob with decorative strip in plane wood

**1 M leather-covered sport steering wheel with decorative trim in black**

With and without multifunction option (see p. 25). Diameter 358 mm.

**1 Individual interior trim strips in black Piano varnish**

Give a real feel of exclusivity to the interior. This option comprises trim strips for the dashboard, centre console and door handles.

**2 Illuminated door entry strips**

The pattern of the aluminium strip is subtly illuminated and has a chrome appearance in daylight.

**3 - 6 Floor mats**

Dirt-repellent, water-resistant and perfectly fitted. Available in a choice of colours.

**City floor mat** (Fig. 3)

**Velour floor mat** (Fig. 4)

**Rubber floor mat with textile inlay** (Fig. 5)

**Maritime floor mat** (Fig. 6)

**6 Pedal pads, stainless steel**

A stylish detail in the footwell.

2

3

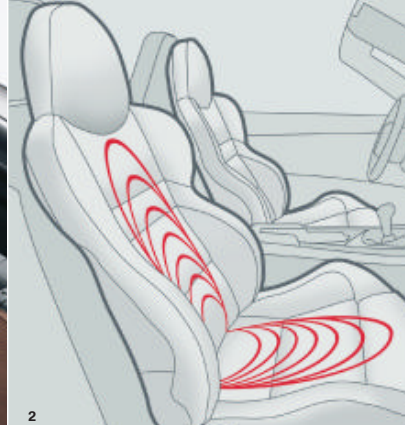

4

5

6

#### 1 M sport seat

Seat height, seat inclination and thigh support can be individually adjusted. Side bolsters hold the occupant firmly in place, even when cornering.

#### 2 Seat heating

The seat surface and back begin warming up a short way into your journey. Three switch settings allow variable heating.

#### 3 Halogen reading lamp

Suitable for map reading. The bending arm allows you to adjust the light beam in any direction.

#### 4 LED torch, rechargeable

This pocket-sized torch can be connected to the 12-volt socket for charging.

#### 5 Independent heating/independent ventilation

Generates very comfortable warmth inside the car before starting a journey in the winter months. During the startup phase, the engine is protected and fuel consumption reduced by the preheated cooling circuit. In summer, independent ventilation provides a significantly more pleasant temperature by exchanging the heated air even before the car is driven. It can be activated with **ThermoCall, remote control** and the **multifunction clock**.

#### 6 Automatic climate control

Gives drivers precise control over the interior temperature, which can be adjusted in increments of 0.5°C. Once set, the desired temperature is quickly achieved, and then maintained.

#### 7 Cruise control

Keeps the car moving at a speed set by the driver (from approx. 30 km/h upwards). Can be deactivated either manually, or by touching the brake. The set speed can be resumed at the touch of a button.

#### 8 Drinks holders

Two pop-out drinks holders can be fitted underneath the left- and right-hand air vents.

The BMW range of user-friendly child seats are all upholstered in breathable, moisture-wicking fabric, and offer outstanding ease of use and comfort. They are available in a choice of a Formula 1 design or various colours, and feature an embroidered BMW logo.

**1 BMW baby seat 0+, with/without ISOFIX**

Designed for children weighing between 3 and 13 kg (aged up to around 18 months). A seat reducer is also available. The baby seat is mounted facing away from the direction of travel on the front passenger seat (the passenger airbag must be deactivated). The shell can easily be detached from the reboard frame, and used separately as a carrycot. With detachable sun screen.

**Passenger airbag deactivation** (not shown)

The passenger airbag can be deactivated with the ignition key. A warning light indicates when the airbag is not operational.

**2 + 3 BMW junior seat I-II, with/without ISOFIX**

Suitable for children weighing 9 to 25 kg (aged approx. 9 months to 7 years). The seat features a restraint cushion (Fig. 2) and a height-adjustable back. The use of the ISOFIX function is permitted for children weighing up to 18 kg. Children weighing more than this should be secured without the restraint cushion, using the seat belt (Fig. 3).

**4 BMW junior seat II-III**

Suitable for children weighing 15 to 36 kg (aged approx. 3 to 12 years). The seat can be quickly and easily secured in place with the three-point belt. The height of the seat and position of the headrest and side bolsters are manually adjustable, and the seat offers excellent lateral support. The recline position makes the BMW junior seat II-III ideal for long journeys, and the removable cover is machine-washable. A rucksack to carry the seat when not in use is available separately.

Original BMW communication and information system accessories combine state-of-the-art technology with total flexibility. Whether you want a navigation system that can guide you directly to your destination, excellent telephone links, or just a little entertainment, there's a BMW accessories solution here that's right for you. So your journey can be whatever you want it to be.

#### 1 + 2 Professional navigation system

Utilizes a 16:9 on-board monitor and GPS to guide you swiftly, accurately and reliably to your destination. The splitscreen function (Fig. 1) allows both route maps – to various scales – and indicator arrows to be displayed at the same time. Voice instructions are available at all times. The dynamic route guidance system can suggest an alternative route when the radio receives information on traffic congestion via TMC.

#### Voice input system (not shown)

Voice input for the Professional navigation system makes life easier for the driver, enhancing safety, convenience and ease of use.

#### Digital roadmaps (not shown)

The computer uses digital roadmaps to work out the route in no time at all. Available as a DVD, CD or CD set in eight country versions.

#### 3 TV function

Makes it possible to receive both analogue and digital (DVB-T) TV signals, in brilliant picture quality. Only works when the car is stationary. Operated via the on-board monitor.

### 1 Bluetooth hands-free kit

Compatible with most Nokia, Sony Ericsson and Motorola mobile phones. Using a phone-specific and easily interchangeable **snap-in adapter**, drivers can make calls on their phone via the hands-free kit and charge their phone at the same time. Operation of the hands-free kit can be handled via the on-board monitor, multifunction steering wheel or integrated voice control. An external aerial enhances telephone reception while dissipating any radiation outside of the vehicle's interior.

### 2 iPod interface

Enjoy all your favourite music on the road. The interface connects the iPod directly to your vehicle's audio system, allowing you to select five individual playlists – as well as functions such as skip track and shuffle – by quickly and easily using the BMW radio or the multifunction steering wheel. The iPod is stored securely in the glovebox, and the battery is charged during playback through the vehicle's electrical system.

### 3 CD changer

Fitted in the storage compartment between the seats. For six CDs.

### Aux connection (not shown)

Permits connection of an additional CD, MC or MP3 player. For models manufactured up to October 2006.

### Aux connector cable (not shown)

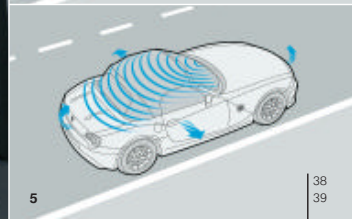

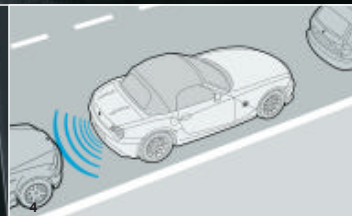

With gold-plated 3.5-mm jack plug. Two lengths available.

### 4 Park Distance Control

Makes parking and manoeuvring the vehicle easier. Obstacles closer than a distance of roughly 1.5 m are detected and signalled by an acoustic warning. The Park Distance Control sensors are built into the rear bumper.

### 5 Alarm system

Electronic monitoring system which responds to any unauthorized opening of the doors and engine/luggage compartments with acoustic and visual alarms. With remote control.

Original BMW accessories offer a wide choice of transportation and luggage compartment solutions. Everything, from roof rack systems to solutions for the luggage compartment and interior of the car, is designed especially for the BMW Z4, and is extremely user-friendly – so you can use the car for whatever activity you want with a minimum of fuss.

**1 Boot lid railing**

These elegant rails are permanently mounted on the boot lid, and are used to accommodate such transportation options as the luggage rack or the ski and snowboard holder.

**2 Luggage rack**

For swift and problem-free attachment to the boot lid railing.

**3 Hard-sided case**

This lightweight case is specially designed for the luggage rack and can be fitted in moments. The multifunction handle locks and secures the case to ensure protection against theft.

**3 Inner pouch for hard-sided case**

A removable inside pouch made of durable material is available for the hard-sided case.

**4 Ski and snowboard holder, lockable**

Secured to the boot lid railing. Up to two pairs of skis or two snowboards can thus be safely transported.

**5 + 6 Rear-mounted carrier**

With holders for carrying two pairs of skis, two snowboards or two bicycles. When transporting bicycles, their front wheels are stored in the luggage compartment. The rear-mounted carrier is quick and easy to attach to the car, and can be folded out of the way so the boot can be opened. If desired, the bicycle holder can be combined with the ski and snowboard holder.

#### 1 Fitted luggage compartment mat

Non-slip, precision-fit mat made of durable plastic. Oil and solvent-resistant.

#### 2 Collapsible box

Waterproof, quick to assemble, and held together with Velcro-type fasteners. For loads of up to 20 kg. Available in two different sizes.

#### 3 Luggage compartment floor net

Secures objects of varying sizes quickly and safely. Attaches to the eyelets that are fitted as standard to the floor of the luggage compartment.

#### 4 Loading sill protective mat

This padded non-slip mat folds out over the loading sill to protect it against damage. It also provides a place to sit.

#### 5 Net for seat back

Provides additional storage space in the rear.

#### 6 Coat-hanger

Easy to attach to the headrest. With built-in storage compartments.

#### 7 Clean bag

This textile bag with a removable plastic liner can be attached to the storage net in the front passenger footwell.

#### 8 Coolbag

CFC-free electric cooler which chills its contents to approx. 20°C below the temperature inside the vehicle. Capacity: 14 l.

#### 9 Storage net in footwell

Mounted on the left-hand side in the front passenger footwell. Available in a choice of two versions, one divided in two and supplied with a **warning jacket** (Fig. 9), and one without any subdivision (not shown).

#### 10 Umbrella bag

With matching BMW umbrella. Installed in the front passenger footwell for ease of use.

**Cleaning and care products from BMW – a sparkling performance.**

An extensive range of cleaning and care products is available for your BMW, helping to keep it looking its best. All of them are environmentally friendly, and there are specific products to protect and care for all of the surfaces found in BMW cars, including leather, fabrics, plastics, glass and paint. All these products are easy to use, and keep materials in outstanding condition, so you can be proud to be seen in your BMW everywhere you go in it.

BMW's cleaning and care products ensure that your BMW remains a pleasure to drive, all year round, and for many years after you bought it. The range includes products to suit every task, including the upkeep of the convertible soft top.

Sparkling rims and gleaming paint will maintain the exclusive look of your car. For example, rim cleaner gel keeps Original BMW alloy wheels free of brake dust while Original BMW Hard wax with nano-technology keeps the car's paintwork looking as good as it did in the showroom – its near molecular-size particles seal the paint up to 300 per cent more efficiently than products without nano-technology.

The use of carefully selected, high-quality materials in the interior of your BMW gives it an exclusive atmosphere, and cleaning and care products will ensure that it stays that way. They clean and care for its surfaces, so that you can, for example, enjoy the smell and texture of the characteristic leather upholstery for many years.

And as well as keeping your BMW looking good, BMW's cleaning and care products also keep you safe, with products designed to meet the specific requirements of different times of the year. For example, Original BMW clear glass ensures that windscreens stay clean and smear-free, in summer and winter alike. It even smells good too.

An overview of all the cleaning and care products available can be found in the index.

**The right accessories, the right service.**

The excellence of BMW cars is matched only by the quality of its service. When you visit your BMW dealer, you can expect expert professional advice from highly trained staff working with the very latest in diagnostic technology. All work on your car – from the fitting of accessories to the retouching of paintwork – will be carried out to the highest quality and environmental standards, and BMW's global dealer network means help is always at hand, wherever you are in the world. Because the quality of service you get off the road should be as memorable as the Sheer Driving Pleasure you get on it.

For more information on what is available from BMW Service, please contact your BMW Service Centre, or visit [www.bmw.com](http://www.bmw.com)
