The New Mercedes-Benz Vito

The Vito is not just a van for business; it's a van for your business. Since the Vito was released in 1998, thousands of Australian customers have made the award-winning Vito their van of choice for business, leisure or both, and with the newly designed model entering the Australian market, there's even more reason to take a look.

There are three basic models in the Vito range, the Van, Crew Cab and Wagon. Within most models you have the option of different cargo lengths, roof heights, engines and interior fit-outs. For example the van is available in SWB and LWB. The Wagon from the people mover range, can accommodate between 5 to 9 passengers[^].

At the heart of the Vito is its second generation CDI Turbo Diesel engine. The 110, 113 and 116 feature a 2.2 litre 4 cylinder CDI engine. Standard transmissions vary depending on the model you choose. There's a 6 speed manual for the 110CDI and 113CDI and a 5 speed fully automatic for the 116CDI SWB Van.

Rounding out the engine line-up is our range topping V6 122CDI Turbo Diesel. The most powerful one-tonne diesel van available in Australia. The Vito 122CDI has 165kW of power and 440Nm of torque, its 3.0 litre V6 hails from the Mercedes-Benz passenger car range, where it's found in both the E-Class saloon and the ML-Class SUV. This milestone engine is mated to a smooth 5 speed fully automatic transmission.

So for work, play, or both there's bound to be a Mercedes-Benz Vito to suit your needs.

[^]Nine seats optionally available with a front passenger bench seat.

Mercedes-Benz Sprinter

The Sprinter is available with 3 engine outputs, manual or fully automatic transmission, 4 body lengths, 3 roof heights and 4 different weight variants. Along with Cab Chassis and Dual Cab Chassis versions there's sure to be a Sprinter combination to suit your needs.

Sprinter is powered by EURO 5 compliant CDI Turbo Diesel engines. Two variants are available; a 4 cylinder and a V6. The Sprinter can travel, on average, up to 30,000km on one oil change.* All Sprinters with a 4 cylinder engine come standard with a 6 speed manual transmission, while the 3.0 litre V6 models come standard with a 5 speed fully automatic transmission.

The Sprinter incorporates the latest Mercedes-Benz Van technology, safety and driving performance. It has the ability to negotiate peak hour traffic, congestion and narrow laneways that are normal in city driving. It also handles cruising on the freeway with ease. The suspension is tuned for greater handling without compromising ride quality or load carrying capability. The rear wheel drive layout is key to the Sprinters dynamic driving characteristics, by eliminating torque steer in the front wheels, ensuring the Sprinter retains its forgiving handling characteristics even with a full load.

So no matter what your requirements are, there's sure to be a Mercedes-Benz Sprinter to suit your needs.

*Oil change dependent on driving conditions.

Mercedes-Benz Vans. Love Your Work.®

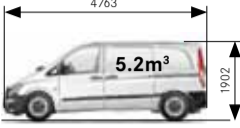

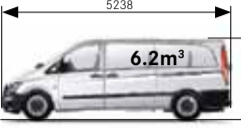

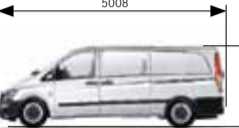

The Mercedes-Benz Vito and Sprinter have lifted van standards to another level. You shouldn't have to compromise, just because you drive a van. With the Vito and Sprinter, you don't have to.

The Vito and Sprinter give you a vast range of choices in models and variants to suit your specific needs, be that for a tradesperson, courier or recreational application. Whether you need your vehicle longer, higher, or with a greater payload capacity, the Vito and Sprinter can handle whatever is asked of them. And being from Mercedes-Benz, you know the build quality is exceptional.

Both models deliver a very high level of comfort, safety and functionality. For your peace of mind we've backed our vans with a 3 year/200,000 kilometre warranty and a 24/7 roadside assistance program, which can be tailored to suit your needs. Not to mention over 50 van specific dealers Australia-wide, as well as service only dealers in remote areas across Australia.

With advanced Common Rail Direct Injection (CDI) Turbo Diesel engines, the Vito and Sprinter offer great economy and power, whilst delivering low running costs without compromising performance. All Vitos and Sprinters are now EURO 5 compliant. With the added benefit of superior whole of life costs, great resale value, and the legendary Mercedes-Benz build quality and parts availability, the Vito and the Sprinter will make you, love your work.
