Oh what a feeling!

Ignite Your Journey.

Stir your senses in a car where the journey is always more exhilarating than the destination.

With the intelligent combination of a potent 200kW from a 3.5 litre V6, and low fuel consumption of just 9.9L/100km#, the 2011 Aurion Touring demands to be driven. From the outside, 17" alloy wheels, a rear wing spoiler, sports headlamps and mesh grille mark this as a serious excitement machine. And once inside – with the premium steering wheel in your hands, the alloy sports pedals below, and 200kW under your foot – you'll find the Aurion Touring is as much about striking style as it is sports-bred performance.

Dual Zone Climate Control Air Conditioning ensures your comfort at all times, and a 6-CD Audio System* with a 4.3" colour LCD display, USB and MP3 connectivity^, plus steering wheel audio controls* means the perfect soundtrack is right at your fingertips.

Add to that the peace of mind of front and rear parking sonars and reverse camera, not to mention chrome exhaust diffusers, front sports foglamps and LED tail lamps – and you have a car that turns mere driving, into touring. And every destination, into a journey.
