LandCruiser 200

Oh what a feeling!

King off the road.

toyota.com.au

The 200 Series. Born into greatness.

For over 50 years, LandCruisers have been counted on to shoulder the load and go where no other vehicle could. This proud legacy forms the cornerstone of every new LandCruiser built. While the LandCruiser 200 might look a lot more refined than the workhorse LC20 of 1958, that same uncompromising DNA can be found in every inch of its latest incarnation – known as one of the toughest, best performing and most reliable 4WDs on the planet.

The power to take you anywhere.

When you're deep in the outback, every moment presents a new challenge. And it's in these moments – when it really comes to the crunch – that you discover the real meaning of power.

The LandCruiser 200 power comes in the choice of two awe-inspiring engines: the 4.6 litre V8¹ petrol with Dual VVT-i technology (Dual Variable Valve Timing with intelligence), and the 4.5 litre V8 Turbo—diesel. Whichever engine you prefer, it comes matched with a 6-speed Super ECT (Electronic Control Transmission) automatic transmission. Developed using the latest technology, it improves performance, fuel efficiency, smoothness and drivability, while ensuring the vehicle remains surprisingly quiet even at high speeds.

The thinking man's 4WD.

More than just good looks, guts and muscle – the LandCruiser has long been at the forefront of 4WD technology. It's loaded with some of the most technologically advanced 4WD and safety systems you'll find anywhere.

For added peace of mind on slippery and uneven road surfaces, CRAWL Control with Turn Assist² allows you to maintain a safe and consistent speed, whilst having the confidence to manoeuvre out of the tightest situations.

Vehicle Stability Control (VSC) increases safety in difficult road and weather conditions by preventing a loss of control in a sideways skid, while Active Traction Control (A-TRC) detects any lack of traction and automatically reduces torque to the affected wheels.

The upgraded Multi-Terrain Anti-Lock Braking System (ABS) not only helps prevent the wheels from locking under strong braking, it also detects off-road conditions such as dirt and sand and automatically switches to the optimum ABS control for those conditions – giving excellent braking in off-road driving.

So whether you're asking it to cross the city or the continent, LandCruiser 200 will do it – all without breaking a sweat.

- 1 Fuel consumption will vary depending on driving conditions/style, vehicle conditions and options/accessories. Source of fuel consumption data: ADR81/02 combined.
- Some vehicle dimension figures are approximate and may vary due to options and accessory fitment. Kerb, tare and payload weights are nominal and will vary depending on options and accessories.
- Gross Vehicle Mass (GVM) is the total permissible combined weight of the vehicle including
- occupants, fuel & cargo.
- Towing capacity subject to regulatory requirements, towbar design, vehicle design and towing equipment limitations. Askyour Dealer for details of Toyota Genuine Towbar capacity and availability.
- 6 Available from March 2013 production.

- 7 Reversing Camera/Park Assist is designed as a driver assist device only and should not be used as a substitute for skilled driving and/or safe parking practices. The area into which the vehicle is to be driven must be visually monitored by the driver.
- 8 The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle, it is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices.
- 9 iPod® is a trademark of Apple, Inc.
 10 Not all devices will be compatible and functionality will vary depending on the device.
- 11 The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.
- 12 Current navigation mapping database encompasses major capital and primary national road networks as well as offering some coverage in regional areas.
- 13 Paint featured is an optional extra at additional cost.
- 14 Available from October 2012 Production

Whatever life throws at you, conquer it in style with flexible seating configurations for up to eight passengers, enhanced interior comfort and advanced safety features.

Sahara and VX models provide unparalleled convenience with rain-sensing wipers, auto-retracting side mirrors, and front and rear parking sensors.¹

The luxurious Sahara offers Rear Seat Entertainment (RSE) including a roof mounted 9" LCD display and 3 wireless

headphones, a power back door and climate control front seats, to help ensure everyone arrives in unprecedented comfort.

Sahara is also equipped with an Electro Multi Vision (EMV) system which allows you to manage features from one central touch point, including air conditioning, audio, Bluetooth^{TM,2} and Satellite Navigation. This 7.1" LCD screen also displays the view from the four camera Multi-Terrain System⁴ enhancing visibility from the driver's seat.

Capped-price servicing.5

The LC200 comes with Toyota Service Advantage. That means you'll pay the same low capped price from one eligible logbook service to the next⁵. So you'll enjoy the peace of mind of knowing in advance what your maximum servicing costs will be. Better still, your Toyota will be serviced by Toyota-trained Technicians who know your vehicle inside out and use Toyota Genuine Parts. For the full benefits of Toyota Service Advantage consult a Toyota Dealer or visit toyota.com.au/advantage.

PLEASE NOTE: The loading configuration of your vehicle reduces the available payload for passengers, optional equipment, cargo and tow-ball download. When changing the mass configuration of your vehicle, it is necessary to consider total mass of the vehicle (including passengers, optional equipment, cargo, tow-ball download and trailer mass) and the distribution of the mass to ensure that Gross Vehicle Mass (GVM), Gross Combination Mass (GCM), maximum towing capacity, maximum tow-ball download and individual axle limits of your vehicle are not exceeded when the vehicle is in service. The configuration of different optional extras on your vehicle will cause different loadings on the front and rear axle. It is important to realise that additional equipment, seat position, passenger position, and other load factors may cause a shift in the loadings of the front and rear axles. It is important that this configuration change be taken into account when you are loading your vehicle. Reference to Gross Combined Mass (GCM) refers to the total permissible combined weight of the vehicle and trailer/caravan being towed including occupants, fuel and cargo.

- 1 Park Assist is designed as a driver assist device only and should not be used as a substitute for skilled driving and/or safe parking practices. The area into which the vehicle is to be driven must be visually monitored by the driver.
- 2 The Bluetooth™ word mark is owned by Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

- 3 Current Navigation mapping database encompasses major capital and primary national road
- networks as well as offering some coverage in regional areas.

 The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle, it is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices.
- 5 Maximum payable for standard scheduled logbook servicing (normal operating conditions) until first of 3 years or 60,000kms (whichever occurs first), up to the first 6 services. Excludes Government & Rental vehicles. Contact your Toyota Dealer or go to toyota.com.au/advantage for other exclusions, eligibility and full details.
