LandCruiser 200

King off the road.

Getting the job done. That's been our motto for more than half a century. No matter the terrain, no matter the weather, no matter the load, our engineers' pursuit of perfection will ensure we meet our mantra. At Toyota, we know that every job matters and we know that the quality, durability and reliability we promise is crucial.

There through thick and thin.

We've done it tough since day one. Back in 1958, on the slopes of the Snowies, our very first LandCruiser was used as a tool for thousands of Snowy Mountain Hydro Scheme workers. It got them to their worksite, and home again, every day. Their back-breaking work on unforgiving and unpredictable land was shouldered by this unbreakable workhorse. No wonder it's known as the 4WD that built Australia.

Now, more than fifty years on, we're still at work building the nation. Our commercial fleet is still getting the job done everywhere and more Australians rely on us than ever before. From cattle drovers to camel catchers, boaties to brickies, our quality, durability and reliability is expected.

And still there's work to be done.

We boast the toughest, strongest, and smartest work vehicles ever made, because we've been there before. We work to bring you the best vehicles to tackle the toughest terrain on earth, and we'll continue to evolve and strive to make each Toyota better than the last.

Long live the King.

For all our forward thinking, the story of the LandCruiser goes back around fifty years. It is a true Australian icon, proving itself to generations of drivers in some of the toughest, most challenging terrain known to man. It's no secret that it's known to some as 'the 4WD that helped build Australia', thanks to its role in transporting construction workers across difficult terrain in order to build the Snowy Mountain Hydro-Electric Scheme.

That was back in 1957. Since then, it has become an important survival tool, driving thousands of Australians across rugged outback terrain – and back home safely again.

Building upon a rich heritage of proven credentials, today's LandCruiser 200 uses the latest in cutting edge technology, employing meticulous attention to detail inside and out. After years of research, development and innovation, we invite you to make your own piece of history with the LandCruiser 200.

Get ready to discover Earth's Greatest 4WD.

The 200 Series. Born into greatness.

For over 50 years, LandCruisers have been counted on to shoulder the load and go where no other vehicle could. This proud legacy forms the cornerstone of every new LandCruiser built. And while the LandCruiser 200 might look a lot more refined than the workhorse LC20 of 1958, that same uncompromising DNA can be found in every inch of its latest incarnation – known as one of the toughest,

best performing and most reliable 4WDs on the planet. And our finest LandCruiser yet.

Stronger. Smarter. Safer.

These days, it's not just about getting there – it's how you get there that matters. Packed with the latest driving, safety and off-road technology, the LandCruiser 200 is designed to go almost anywhere, from the red centre to the city centre, in style.

Conceived and crafted by the motoring world's foremost 4WD engineers, the LandCruiser 200 is not only a shining example of modern technology and design sophistication, it's a testament to what can be achieved when you accept nothing but the best.

The power to take you anywhere.

When you're deep in the outback, every moment presents a new challenge. And it's in these moments – when it really comes to the crunch – that you discover the real meaning of power.

In the LandCruiser 200 that power comes in the choice of two awe-inspiring engines: the 4.6 litre V8 petrol¹ with dual VVT-i technology (Dual Variable Valve Timing with intelligence), and the 4.5 litre V8 Twin Turbo-diesel. Both engines are capable of producing blistering power, matched with unsurpassed smoothness.

Strength in numbers.

The 4.6 litre V8 petrol engine¹ is nothing short of a modern masterpiece. Producing 227kW, it's seriously powerful. And with a maximum torque of 439Nm at 3400rpm, it pulls like a train too.

Amazingly, these increases in power and torque don't come at a cost at the fuel pump. Designed to comply with tightened EURO IV emissions regulations, this new engine offers improved fuel efficiency as well as superior performance.

The 4.5 litre V8 Twin Turbo-diesel engine with intercooler and direct injection is a serious powerhouse in its own right. Belting out 195kW of power at 3400rpm, and torque of 650Nm at 1600-2600rpm, it cruises effortlessly across this wide brown land.

Extreme power, gently expressed.

Whichever engine you prefer, it comes matched to a 6-speed Super ECT (Electronic Control Transmission) automatic transmission. Developed using the latest technology, it improves performance, fuel efficiency, smoothness and drivability, while ensuring the vehicle remains surprisingly quiet even at high speeds.

So whether you're asking it to cross the city or the continent, the LandCruiser 200 Series has the power to do it – all without raising a sweat.

At its best in the worst conditions.

To be crowned the 'King Off The Road', the LandCruiser has had to prove itself in some of the world's harshest conditions. Today, decades after first making an indelible mark on this land, the 200 Series continues to dominate the heart of Australia.

Out here, 4WD isn't an option – it's a necessity. That's why a full-time 4WD system is standard across the LandCruiser 200 range. Whether it's on the road, crawling up muddy rivers, or driving through the bush, the 4WD transfer system featuring a Torsen Limited Slip Centre Differential with a front-to-rear torque distribution structure of 41:59 ensures you get performance and vehicle stability during acceleration and high-speed driving. And that means greater control, when you need it most.

CONTROL YOUR ENVIRONMENT.

KDSS:

Minimising body roll across a range of driving conditions is important to our 4WD engineers and drivers. To solve this problem, they designed the Kinetic Dynamic Suspension System (KDSS)¹, a flexible suspension system designed to improve driving dynamics off-road. Forgiving enough to give you supreme wheel articulation performance, flat riding comfort and unprecedented stability in even the roughest conditions, it's able to help suppress body roll and maintain rigidity at high speeds. This makes for outstanding turning performance and a smooth steering feel when cornering.

1 KDSS is not available on GX, is an optional extra on GXL Turbo-diesel and is standard on all other grades.

Multi-Terrain Select.

The LandCruiser VX and Sahara models are fitted with a five setting Multi-Terrain Select system, designed to provide the pinnacle of off-road performance when the going gets tough

No matter what stands in your way, you can choose the right mode to conquer it. Select from 'Rock', 'Rock & Dirt', 'Mogul', 'Loose Rock' and 'Mud & Sand' at the turn of a dial, to best control wheel spin and wheel lockup. This helps to give you the ultimate performance on even the steepest hills or bumpiest, slipperiest roads.

The thinking man's 4WD.

More than just good looks, guts and muscle – the LandCruiser has long been at the forefront of 4WD technology. And this latest incarnation is no exception. It's loaded with some of the most technologically advanced 4WD and safety systems you'll find anywhere.

Hill-start Assist Control (HAC) is standard across the range and helps ensure smooth uphill take-offs on even the steepest terrain. Vehicle Stability Control (VSC) helps increase safety in difficult road and weather conditions by helping prevent a loss of control in a sideways skid, while Active Traction Control (A-TRC) detects any lack of traction and automatically reduces torque to the affected wheels.

The Multi-Terrain Anti-Lock Braking System (ABS) not only helps prevent the wheels from locking under strong braking, it also detects off-road conditions such as dirt and sand and automatically switches to the optimum ABS control for those conditions – giving an excellent braking feel in off-road driving. ABS is used in conjunction with two intelligent systems: the Electronic Brake-force Distribution (EBD) function – which minimises stopping distances by optimally distributing braking force to all four wheels – and Brake Assist (BA) – which supplements braking power to help slow the vehicle more rapidly. Put together, it's clear the LandCruiser 200 is again setting the standard for intelligent safety.

Go where other 4WDs fear to tread.

It takes a lot to conquer the outback. Out here, survival depends not on who you know, but what you know. Head out into the unknown with the wrong equipment and this ruthless environment will defeat you, not in days but in hours. To be king of this country, the LandCruiser has shown time and time again that it can emerge victorious over everything this harsh land can throw at it. Today, the 200 Series doesn't just embrace the rugged Australian landscape, it completely dominates it.

Take the high road on style. Style and substance. Lightweight, durable bumpers include a standard towbar cover on all models, and together with body side protection on the Sahara, they can help protect against the everyday bumps from the great outdoors – Lighting the way to greatness. Bold headlamp styling on the 200 Series not only reflects traditional LandCruiser design, but also helps get you home safely. With Sahara and VX models featuring High Intensity Discharge (HID) headlamps incorporating six LED Daylight Running Lamps (DRLs), high mount stop lamps on all models help ensure of weather. and the inner lens of the rear side turn indicators.

Whether you're in the burbs or out bush, the LandCruiser 200's highly advanced technology can make life not just easier, but safer too.

Locking down security.

It's never been easy to force your way into a LandCruiser. But with all models fitted with a standard alarm system and engine immobiliser, breaking in just got a whole lot tougher. And while the LandCruiser will always be a tough nut to crack, its Smart Start and Smart Entry feature on the Sahara, VX and GXL makes rummaging for keys a thing of the past, ensuring that you're in and away in no time.

Park Assist System.¹

LandCruisers have always been able to get themselves into and out of the tight spots. But now the LC200 makes getting into tight parking spots easier too. The VX and Sahara models feature a Park Assist System¹ to help get you in and out of parking spaces with ease.

The system uses ultrasonic sensors to let you know (both on the dash mounted Multi-Information Display and through audible warnings) of any obstacles in front or behind the vehicle. It's designed to improve your driving experience and to help you avoid any annoying scrapes.

Multi-Terrain Monitor.²

In order to give you the best view of your surroundings and improve safety, the Sahara model is equipped with a Multi-Terrain Monitor² to give you a view of those hard-to-see places around the vehicle. In GXL, VX and Sahara models there's a Reversing Camera¹ integrated into the back door to make reversing safer and easier.

- 1 Park Assist/Reversing Camera is designed as a driver assist device only and should not be used as a substitute for skilled driving (and/or safe parking practices.) The area into which the vehicle is to be driven must be visually monitored by the driver. Reversing Camera not available on GX model.
- 2 The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle, it is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices.

Harder on the outside. Softer on the inside.

LandCruisers have built their reputation on a rock solid exterior. But scratch the surface and it's easy to uncover their softer side. Because no matter how rough and tumble it gets outside, you should always feel safe on the inside.

Strategically placed throughout the cabin, the LandCruiser 200's raft of airbags help protect every occupant in the case of an accident. All models come equipped with driver and front passenger dual stage SRS airbags, knee and front side airbags for the driver and passenger, as well as curtain shield airbags for the front and second row passengers.

In the GXL, VX and Sahara, full-length curtain shield airbags have been added all the way into the luggage area to protect passengers in the third row. The VX and Sahara feature additional second row side airbags.

Safety from pillar to post.

Accidents happen. That's why the LandCruiser 200 has been engineered with some seriously modern safety hardware. In the event of a collision, the safety frame and Head Impact Absorbing Structure works with the upper body reinforcement to absorb and redistribute the impact even before the airbags

are deployed. While under the bonnet there's a range of features like impact absorbing beams and a vertical-frame structure designed to help protect pedestrians.

Ease the burden.

Trailer sway control eases the burden by automatically stabilising the trailer sway which is triggered by things like wind, bumpy roads and steering operation – often common when towing. This system works in a seamless way whereby the driver does not need to engage the Trailer Sway control – your vehicle will automatically do it for you!

1 Not available on GX model.

Room, with a view.

The LandCruiser 200 might be tough as nails on the outside, but inside you won't find the faintest trace of roughness. In fact, the very moment you step inside you can't help but notice the quality of the craftsmanship and materials throughout the luxurious interior. With three interior themes – Black³, Grey and Beige (with premium fabric options available on GX and GXL grades and leather accented interior available on Sahara and VX grades) – creating a soothingly comfortable environment, you'll find the rigours of the road feel a world away.

But of course, the LandCruiser 200 isn't just built for comfort; it's been designed for convenience too. From the smoothly designed surfaces of the instrument panel, to the cleverly concealed storage spaces and safety devices.

Take the short way home...

Whether it is Kakadu, or the corner shop, it's now easier than ever to reach your destination. GXL, VX and Sahara models are all fitted with Satellite Navigation,⁴ so there's no excuse for getting lost wherever you are. In the Sahara, the Satellite Navigation system operates through the EMV (Electro Multi Vision) system – a cleverly designed hub for all the vehicle's essential systems – the 9-speaker audio system, rear-seat DVD-system, pollen-filtered air conditioning and climate control.

In VX and Sahara models, the optitron meter allows the driver to constantly monitor important vehicle information like the trip meter, cruising range and fuel efficiency. Both VX and Sahara models are fitted with rain-sensing wipers, allowing you to focus on what matters – the road ahead.

...With room for the whole family.

Big trips – they're a LandCruiser specialty. And with a massive 8-seat capacity in the Turbo-diesel GXL and all petrol models, a generous 7-seat capacity in the Turbo-diesel Sahara and VX, and 5-seat capacity in the GX, no one ever needs to be left behind.

Perfect conditions, wherever you go.

Wherever you might be, you will find your ideal climate inside LandCruiser 200. GXL and VX models feature dual-zone climate control for passengers in the front seats, and cooler controls in the rear seats. The Sahara features 4-zone climate control airconditioning and vents for passengers in each of the three seating rows, as well as in-seat heating and air-conditioning for the driver and front passenger and second row in-seat heating.

Don't just drive. Explore.

A centre mounted cool box in the Sahara chills drinks while you're on the road, while the power back door system allows you to open and close the back door using the electronic key or a switch on the in-dash instrument panel. And if driving with the wind in your hair, or pulling over to gaze at the stars sounds appealing, a remote-operated moon roof is standard on VX and Sahara models.

- 1 Overseas model shown.
- 2 Sahara model shown
- 3 Black interior not available on GX or GXL models.
- 4 Current navigation mapping database encompasses major capital and primary national road networks, as well as offering some coverage of regional areas.

Even the choices are tough.

GX

The LandCruiser GX is packed with an impressive number of features:

- 4.5L Twin Turbo-diesel engine
- 17" Steel Wheels
- 6-speed automatic transmission
- Full time 4WD
- Vehicle Stability Control (VSC)
- Active Traction Control (A-TRC)
- Hill-start Assist Control (HAC)
- Multi-Terrain Anti-skid Braking System (ABS)
- CRAWL with Off-Road Turn Assist1
- Five seats with cloth seat trim
- Barn Doors: dual vertical hinged tailgate with wiper²

- Air Intake with pre-cleaner and snorkel
- Vinyl floor covering²
- Air conditioning
- Cruise Control
- Tilt and telescopic steering wheel
- Driver's seat height adjustment & power lumbar adjustment
- Audio controls on steering wheel
- 138L fuel tank capacity (93L main + 45L subtank)
- Alarm and engine immobiliser

- Driver and front passenger SRS airbags
- Driver and front passenger side airbags
- Driver and front passenger knee airbag
- Front and 2nd row curtain shield airbags
- AM/FM radio with MP3 compatible singledisc in-dash CD player
- Bluetooth™,3 capabilities
- 4 speakers
- 3.5mm AUX input for portable audio players^{2,4}
- USB input for some iPod®/USB memory sticks4,5
- Power windows & mirrors

In addition to GX features:

- 4.5L Twin Turbo-diesel or 4.6L Petrol Engine⁶
- 17" Alloy Wheels
- Kinetic Dynamic Suspension System (KDSS)7
- Eight seats with cloth seat trim
- Horizontal split tailgate
- Rear spoiler
- Air intake with pre-cleaner and snorkel (option available on Turbo-diesel only)8
- Side steps
- Indicators integrated within both exterior mirrors
- Smart Entry & Start
- Dual-zone front climate control air conditioning with pollen filter and rear cooler
- 3rd row curtain shield airbags

- Privacy glass
- Single-disc CD player with 6.1" LCD touchscreen, MP3 compatibility and AM/FM tuner
- 6 speakers
- Satellite Navigation9
- Reversing Camera¹⁰
- 2 x 12V accessory connectors
- 220V rear accessory connector

- $1 \quad \text{Crawl Control} \ \text{is a driver assist technology and should not be used as a substitute for safe driving} \\$ practices. The area into which the vehicle is to be driven must be visually monitored by the driver.
- The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.
- Not all devices will be compatible and functionality will vary depending on the device.
- iPod® is a trademark of Apple, Inc. Petrol engine not available on GX model.
- KDSS is not available on GX, is an optional extra on GXL Turbo-diesel and is standard

In addition to GXL features:

- HID headlamps with 6 LED Daylight Running 8 seats (Petrol only) Lamps (DRL) with washers and auto levelling - 7 seats (Turbo-diesel only)
- Front fog lamps
- Moonroof with remote control
- Auto-retract exterior mirrors
- Leather accented and woodgrain-look interior Multi-Terrain Select

- Rain sensing wipers
- Front and rear parking sensors 10
- Multi-function Information Display (MID)

- Dusk sensing headlamps
- Second row side airbags
- Power adjustable driver and front passenger seats and power lumbar support

In addition to VX features:

- Electro Multi Vision (EMV) with 7.1" LCD touch screen, single-disc MP3 compatibility and DAB radio functionality
- 9 speakers
- Body side mouldings with chrome highlights
- Power back door

- Seat heating for front and second row rear seats
- Climate control front seats
- Four-zone climate control air conditioning
- Memory system (3 position) for drivers seat, telescopic steering and exterior mirrors
- Cooler box
- DVD Rear Seat Entertainment with remote control and three wireless headphones
- 4 Camera Multi-Terrain Monitor¹¹
- Electro-chromatic interior mirror

Available from March 2013 production as an optional extra on Turbo-diesel GXL, VX and Sahara grades.

Current Navigation mapping database encompasses major capital and primary national road

networks as well as offering some coverage in regional areas.

10 Reversing Camera/Park Assist is designed as a driver assist device only and should not be used as a substitute for skilled driving (and/or safe parking practices.) The area into which the vehicle is to be driven must be visually monitored by the driver.

¹¹ The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle, it is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices.

Individual brilliance.

Just like every driver, every LandCruiser And to help customise your new 200 Series vehicle there is an extensive range of Toyota to prepare it for the most extreme off-road adventures, increase its storage capacity, or tow a trailer, there's a genuine accessory

Steel Bull Bar^{1,2} RALLYE FF 4000 COMPACT DRIVING LIGHTS (Sold separately)

lloy Nudge Bar^{2,3} wailable for GX and GXL grades only

Alloy Bull Bar^{1,2} RALLYE FF 4000 COMPACT CHROME DRIVING LIGHTS (Sold separately)

Superwinch – 9000lb capacity Requires Steel Bull Bar (Sold separately)

18" Alloy Wheels

IMPORTANT NOTICE: Some Toyota Genuine Accessories are not applicable to all models/grades. Note: Toyota Australia reserves the right to vary and discontinue from time to time the interior and exterior colours, trims and colour/trim/model combinations currently available. Colours and trims displayed here are a guide only and may vary from actual colours due to printing/display process. See your Toyota Dealer to confirm colour/trim/model availability when ordering your vehicle.

- $1\quad \text{Fuel consumption will vary depending on driving conditions/style, vehicle conditions and options/accessories. Source of fuel consumption data: ADR81/02 combined.}$
- Some vehicle dimension figures are approximate and may vary due to options and accessory fitment.
- Kerb, tare and payload weights are nominal and will vary depending on options and accessories. Gross Vehicle Mass (GVM) is the total permissible combined weight of the vehicle including
- occupants, fuel & cargo.
 Towing capacity subject to regulatory requirements, towbar design, vehicle design and towing equipment limitations. Ask your Dealer for details of Toyota Genuine Towbar capacity and availability.
- 6 Available from March 2013 production.

- 7 Reversing Camera/Park Assist is designed as a driver assist device only and should not be used as a substitute for skilled driving and/or safe parking practices. The area into which the vehicle is to be
- driven must be visually monitored by the driver.

 The Multi-Terrain Monitor does not provide a comprehensive view of the area surrounding the vehicle, it is designed as a driver assist device only and should not be used as a substitute for skilled driving and safe parking practices. iPod® is a trademark of Apple, Inc.

- 10 Not all devices will be compatible and functionality will vary depending on the device.

 11 The Bluetooth™ word mark is owned by The Bluetooth SIG, Inc. Not all devices will be compatible and functionality will vary depending on the device.

 12 Current navigation mapping database encompasses major capital and primary national road
- networks as well as offering some coverage in regional areas.
- 13 Paint featured is an optional extra at additional cost.
- 14 Available from October 2012 Production.

The Toyota Advantage.

Capped-price servicing.1

The LC200 comes with Toyota Service Advantage. That means you'll pay the same low capped-price from one eligible logbook service to the next¹. So you'll enjoy the peace of mind of knowing in advance what your maximum servicing costs will be. Better still, your Toyota will be serviced by Toyota-trained Technicians who know your vehicle inside out and use Toyota Genuine Parts. For the full benefits of Toyota Service Advantage consult aToyota dealer or visit toyota.com.au/advantage

We've got your back.

Every new Toyota is built to exceptional standards, which is backed by a 3 year/100,000km² warranty, giving you the peace of mind to feel confident for years to come.

Finance to get you going.

Sometimes you need just a little help to get up and running. Toyota Finance³ can offer you a wide range of vehicle financing. From personal loans to leasing for all kinds of business, we can help.

Even more protection.

Everyone needs vehicle insurance, but take out our Comprehensive Motor Vehicle insurance and you'll get a policy packed with a great range of benefits.

- Where your Toyota becomes a total loss, is under 3 years old and has less than 100,000km on the clock, we'll replace it with a brand new Toyota vehicle.
- We'll also promise to use genuine new Toyota parts to repair your vehicle if it is less than 5 years old.
- And we'll guarantee the quality of workmanship on all authorised repairs as long as you remain the owner of the vehicle.

Toyota Insurance also offers Finance Gap Insurance, Payment Protection Insurance and Extended Warranty Insurance.⁴

Extend your peace of mind.

Extend your original factory warranty by up to 3 years with the Toyota Extra Care Extended Factory Warranty. Available on most new and used Toyotas, it will give you extra peace of mind – as will membership to our Roadside Assist service, offering breakdown assistance 24/7. Rest assured should your vehicle be immobilised by a roadside breakdown or accident, help is never more than a phone call away with Toyota Extra Care Roadside Assist.

Discover the full range of Toyota products and services and find your nearest dealer at toyota.com.au

- 1 Maximum payable for standard scheduled logbook servicing (normal operating conditions) until first of 3 years or 60,000kms (whichever occurs first) up to the first 6 services.
