## PURE MOTORSPORT CHARACTER. IT'S IN THE BLOOD.

The history of BMW motorsport is shaped by great racing cars. In 1929, the 3/15 took the first victory for BMW at the prestigious Alpine Rally, completing every one of the five daily stages from Munich to Lake Como in record time. In the following decades, legendary racing cars including the BMW 328, BMW 3.0 CSL, BMW M1 and the BMW M3 defended their places among the motorsport elite, celebrating countless victories and major titles. Among them, the first overall victory in the history of the DTM German touring car series in 1984, a WTCC hat-trick from 2005 to 2007 and the spectacular 2010 victory at the Nürburgring 24 Hours race. And in 2012, when BMW returned to the DTM for the first time since 1992, the occasion was marked with yet another hat-trick. Bruno Spengler took the driver's title and BMW scored top positions in the manufacturers' championship and the team rankings.

The power of M, evidently, is unbeatable. It is also continuing apace with absolute high performance on race tracks all over the world in 2013. As the driver of a BMW M model, you know exactly what that means when it comes to maximum sportiness but also uncompromising everyday practicality. All features embodied by BMW M Performance Accessories.

## SPORTING STATEMENTS.

Visually, titanium and stainless steel both make a clear and uncompromising motorsport statement. That said, they offer much more than compelling and sophisticated looks. The use of both materials, for instance, contributes to enormous weight savings while also complying with all current safety standards. And even at the most extreme temperatures, they impress with their high corrosion resistance.

## THE FINEST QUALITY MATERIAL FROM ITALY.

Alcantara is a microfibre cloth usually seen in higher trim levels for cars – in particular, in sports cars because it is considerably lighter than leather.

Producing Alcantara is both elaborate and labour-intensive. The microfibre cloth is today manufactured exclusively in the Umbrian province Terni and is extremely durable, easy to clean, flexible and breathable.
