QUALITY

The long road to perfection.

Mercedes-Benz light-alloy wheels not only boost your vehicle's looks, they also offer the ultimate in safety.

All wheels are precision-tailored to your vehicle in terms of load profile and dimensions. Before your light-alloy wheels are allowed to accompany you safely on your travels, they are subjected to an extensive development and testing programme. Each wheel design has to pass a variety of endurance tests, based on exacting Mercedes-Benz guidelines, all of which exceed statutory requirements. These include special test routines which simulate real challenges on the road and material tests in cutting-edge x-ray facilities.

High-shine wheels undergo additional tests such as exposure to highly corrosive salt spray or a 28-day variable climate programme. Only once all of the tests have been passed may the wheels be included in the range of genuine Mercedes-Benz light-alloy wheels. Add an individual touch to your vehicle with a tested and approved genuine Mercedes-Benz light-alloy wheel and head for the open road.

The perfect environment appeals to all of the senses. Here's the ideal starting point.

01 AIR-BALANCE package

The interior of the vehicle can be fragranced individually to suit your tastes with the aid of the AIR-BALANCE package (optional extra Code P21). There are four high-quality fragrances to choose from, designed to suit your personal preferences and mood. The intensity of the fragrance can be adjusted in three stages. The quality of the air can also be enhanced by ionising the oxygen and filtering the outside air.

Flacon, DOWNTOWN MOOD

Fragrance family: floriental, musk, fruity

Transparent, flowery combination of jasmine and lilac, with warm undertones of musk, ambergris and a cashmere note. Top notes include magnolia and rosewood for freshness, peach for softness and an intriguing metallic effect. A soft, sensual, atmospheric perfume with sex appeal.

Flacon, NIGHTLIFE MOOD

Fragrance family: woody, oriental, ambered

NIGHTLIFE MOOD is enriched with complementary wood notes that give the scent body. Cool spices such as cardamom and pink pepper give a freshness to the top notes. And the hint of a particular aldehyde balance adds a subtle cognac effect. In the base notes the wood tones combine with frankincense, ambergris and vanilla to create a soft, silky elegance.

Flacon, FREESIDE MOOD

Fragrance family: citrus, flowery, tea

Citrus elements combine with tea at the heart of this perfume, which is rounded off elegantly with flowery top notes. The base notes include hints of cedar, patchouli and ambergris. Overall: very rounded and harmonious.

Flacon, SPORTS MOOD

Fragrance family: green, flowery, citrus

This perfume is based on a harmony of lime tree blossom and fresh, light-green leaves. The lime tree blossom at the heart of this perfume is surrounded by light, flowery tones such as magnolia, gardenia and violet. The green top notes take their freshness and lightness from aspects of grapefruit and watermelon, while the base notes have a mossy nuance.

Empty flacon | not pictured

Would you like to use your own choice of fragrance? The empty flacon for the AIR-BALANCE package is the perfect solution.

02 Illuminated door sill panels

A distinctive, eye-catching accessory, whether in daylight or at night, with lettering illuminated in brilliant white.

Available from 3rd quarter of 2014.
