

The Vito.

Panel Van and Crew Cab.

Mercedes-Benz

Vans. Born to run.

The Vito. Runs on ambition.

Whether it's work or play, the Vito is purpose-designed to take care of your every need. It's a van built not just to fulfil the tasks it's set but make that all-important difference when it comes to flexibility, safety, economic efficiency and quality. This peace of mind is something you only get from a genuine commercial vehicle specialist.

Developed for users who are looking for 100% commitment, the Vito brings to the road the ultimate in versatility, comfort and dependable quality. With every kilometre, economical fuel consumption makes a difference to your long-term success, backed by our professional network of Mercedes-Benz partners, who offer a range of tailored services to assist to maintain your Vito's value and reliability. For maintenance and repairs, you can put your trust in the ones who know your vehicle inside out: your Mercedes-Benz Service Team. And to help you get where you want even more safely and reliably, it offers you a high level of standard-fit safety equipment, with numerous innovative assistance and safety systems such as ATTENTION ASSIST and Crosswind Assist. Whether front-wheel or rear-wheel drive - you can be confident you're choosing the best vehicle for your business. One thing is certain: your new Vito will be ready for anything.

Full power ahead. With two drive variants.

Whether delivering in the city or travelling long distances, the key to business success is dependability. By giving you the option of choosing between two drive system variants, we have made the Vito the first van in its class to be tailored to your needs, offering both front-wheel or rear-wheel drive. Complement that with the standard-fit electro-mechanical power steering system and optional 7G-TRONIC PLUS¹ transmission, and you have a vehicle that meets passenger car standards in efficiency, refinement and ride comfort.

The standard 6-speed manual transmission² is also designed to ensure an optimum balance between performance and consumption. Whichever drive variant you choose, its comfortable chassis set-up and independent suspension mean the Vito will keep you going where others can't.

¹ Optional on all 114 Van models. Standard on all 116 and 119 Van models, and all Crew Cab models.
² Standard on all 111 and 114 Van models.

Model with optional equipment shown.

Built to be challenged.

You need a van that's prepared for the road ahead.

In choosing the Vito, you're investing in levels of performance and quality only found in a Mercedes-Benz commercial vehicle. It is a van of action that has your back covered and makes that all-important difference to your business. With its fully galvanised body, this is a vehicle built to stay the course.

Before it joins you on the road, our engineers subject it to intensive quality and safety checks to ensure it offers the reliability and durability you'd expect of a Mercedes-Benz.

The bottom line? You can rely on the quality of the Vito – right down to the smallest detail.

Model with optional equipment shown.

Assured efficiency: from 6.1 l per 100 km.¹

With its fuel-efficient engines and innovative BlueEFFICIENCY technologies, the Vito achieves outstanding emissions figures, helping to give your revenue a boost.

Thanks to a combination of ongoing technical development and additional consumption-reducing measures, there is reduced fuel consumption compared to the previous equivalent model.* In addition, the Vito enjoys a service interval of 1 year or 25,000km.

Overseas model with optional equipment shown.

The BlueEFFICIENCY package reduces consumption and CO₂ emissions with the following measures:

ECO Start/Stop function temporarily switches off the engine when the vehicle is stationary

Fuel-efficiency alternator with enhanced efficiency

Alternator management with load-sensitive control, where alternator primarily charges battery when vehicle is decelerating or braking

¹ Combined fuel consumption (ADR81/02) applies to both Vito 116 and 119 SWB Van models.

*Based on VFACTS recorded combined fuel consumption figures (ADR 81/02) of current and previous equivalent models.

Achieve your goals. Safely.

With its pioneering safety systems, the Vito is designed not only to protect you, your passengers and your cargo, but other road users as well. For us, safety comes as standard thanks to innovative systems such as Crosswind Assist, ATTENTION ASSIST and the latest-generation Electronic Stability Program ADAPTIVE ESP®. For the first time in its class, the optional COLLISION PREVENTION ASSIST constantly monitors the distance between your van and the vehicle in front, emitting an audible and visible warning if there is a risk of collision. Mercedes-Benz also thinks ahead when it comes to protecting all of the vehicle's occupants with up to six airbags, including optional window airbags and thorax/pelvis side airbags for the driver and co-driver. The 114, 116 and 119 models come with a reversing camera as standard for extra peace of mind.

In terms of safety-related equipment, simply select from a variety of innovative options which set new standards to help you arrive securely at your destination.

01

01

COLLISION PREVENTION ASSIST combines a proximity and collision warning with Brake Assist BAS PRO.

02

02

Lane Keeping Assist can help to avoid accidents caused by an unintentional departure from your lane.

03

03

Blind Spot Assist can help to avoid accidents when changing lane, for example on freeways.

04

04

The **reversing camera** shows a photorealistic image of your surroundings with dynamic guide lines and an indication of the direction of travel. Standard on all 114, 116 and 119 models.

05

The **LED Intelligent Light System** adjusts the headlamps to suit the light, road and weather conditions.

06

The standard **Crosswind Assist** function helps prevent lateral displacement in the event of gusting side winds.

Model with optional equipment shown.

Sit back and love your work.

The Vito combines a stylish functional interior with impressive ride comfort. With its spacious design, improved seat ergonomics and robust, high-quality materials, the interior offers everything you need in order to work more efficiently. Your business needs to be within easy reach, so we have equipped the Vito with numerous practical stowage compartments to help you keep things tidy.

When it comes to keeping in touch, the Vito's information and communication systems include an SD card slot and USB port, as well as a practical multifunction steering wheel with trip computer and standard-fit electromechanical power steering.

Diverse range of equipment:

3-spoke multifunction steering wheel with trip computer

Twin co-driver's seat (optional)

Functional stowage facilities and compartments

TEMPMATIC air conditioning

Cruise control with SPEEDTRONIC

Driving light assistant

Audio 15 sound system and Bluetooth® handsfree system

Overseas model and equipment shown.

Your advantage: up to 1285 kg¹ in payload capacity.

The Vito offers all the space you need – and more. With three vehicle lengths and two wheelbases, there are plenty of options when it comes to adding individual and specialist features to make it the perfect fit for your needs.

With its large door openings and low load compartment sill, the Vito also makes child's play of everyday tasks, making loading and unloading more convenient, more efficient and even safer.

Whether your day involves transporting people, cargo or both, no two jobs are the same. That's when the Vito Crew Cab can be the ultimate choice. Partially glazed, with comfortable access and adaptable seating for up to six, it combines both functionality and comfort.

¹ Applies to the Vito 111 SWB with 3050 kg GVM.

A load capacity that holds weight: the Vito Panel Van.

The Vito Panel Van takes everything in its stride. Designed as a professional vehicle for demanding jobs, it is ideally suited for whatever business you're in. Specially built for loading cargo, it can take plenty more on board when others have to shut their doors.

With a load compartment length of up to 3061 mm and a maximum load volume of 6.9 m³, the Vito Panel Van can transport up to 1302 kg in its load compartment.

Even more impressive is how easy it is to load. The Vito Panel Van has three load access doors with low compartment sills that make packing your cargo a breeze, while the load-securing rails on the floor of the load compartment and the lashing rails on the side wall, offer flexible and safe options when it comes keeping everything secure.

Maximum load capacity of 5.8m³ for the SWB version and 6.9m³ for the LWB version

Payload of up to 1302 kg for vehicles with front wheel drive

Full bulkhead with fixed window is available as an option

Load compartment floor with load-securing rings

Optional equipment shown.

The Vito Panel Van is available in two vehicle lengths (SWB or LWB) depending on the space requirements.

The driver and co-driver seats' open-backed seat base offers additional space for longer loads. Optional wooden floor.

The robust wooden floor is very hard-wearing and makes loading and cleaning the load compartment easier. Optional equipment shown.

Optional 3.2t GVM upgrade (114, 116 and 119 Van models only) offers additional payload.

Load-securing systems to help reliably secure your cargo.

The two rear doors can be opened back to the side walls and secured, making loading and unloading easier. Optional equipment shown.

Room for everyone: the Vito Crew Cab.

Designed with the motto “one for all” in mind, the Vito Crew Cab makes life easy. If you need to transport people and cargo at the same time, you couldn't find a more economical, versatile and reliable partner.

Optionally equipped with a comfort front passenger bench seat and with a standard 3-seater bench seat in the passenger compartment, it will carry up to six people to your work site. The side windows bring light and visibility into the passenger compartment and an air vent in the footwell refreshes the interior, ensuring that passengers in the second row have a comfortable journey too.

There is still plenty of space for materials and equipment behind the bench seat – space you'll find a million uses for. As an option, a partition wall with window at the C-pillar also protects the passenger compartment against dirt and dust from the load compartment and offers additional protection from the payload.

The passenger compartment with optional comfort front passenger bench seat allows up to six people to be carried
Choice of MWB or LWB models
3 seater bench first row with folding outer seat
Full-width partition wall with window at C-pillar available as an option
Robust wooden floor with load-securing rings

● Load compartment area of 3.6m³ (MWB model) or 4.1 m³ (LWB model). Optional equipment shown.

● Standard front seat configuration: 5 seater. Optional equipment shown. Seat handles are only available with the optional Comfort Seat Pack.

● The windows between the B-pillar and C-pillar bring light into the passenger compartment and allow passengers to see out. Optional equipment shown.

● The air-duct to the passenger compartment provides the rear passengers with temperature-controlled air.

○ The full-width partition wall with window at the C-pillar helps keep the passenger compartment clean and offers additional protection from your cargo. Optional equipment shown.

○ The comfort front passenger seat with adjustable headrests and 3-point seat belts offers space for two co-drivers. Available for both panel and crew cab. Optional equipment shown.

● Standard equipment ○ Optional equipment

The Vito highlights.

For a long, reliable partnership.

You're certain to appreciate your Vito as a work partner because we do all we can to ensure this becomes an enduring relationship. Taking delivery of a Mercedes-Benz means you can rest assured it has undergone extensive testing and passed with flying colours.

The Vito is also designed to cope with the tough demands placed on a commercially used vehicle. Its extensive corrosion protection with fully galvanised body ensures that, even after years of use, it still leaves a good impression of your business.

Ready when you are.

In choosing the Vito you're choosing a vehicle you can rely on – 365 days a year, 7 days a week, 24 hours a day. A vehicle that offers the ultimate in availability, supporting you around the clock, wherever your work takes you.

For us, "Mercedes-Benz Vans. Born to run." isn't just a slogan, it's a promise.

 www.mercedes-benz.com.au/vans

Getting more out of every journey.

When it comes to fuel consumption, the Vito proves exceptionally hard to beat. Extensive BlueEFFICIENCY measures have significantly improved efficiency and reduced consumption, compared with similar engines in our previous model series.

The Vito keeps costs in check with high product quality as well as improved ease of repair – and with a long service interval of 25,000 km, maintenance costs come down too.

Playing it safe.

When it comes to safety, it's good to know you have a specialist on your team. The first-class standard-fit safety equipment in the Vito includes features such as Crosswind Assist and ATTENTION ASSIST. In addition to the standard airbags for the driver and co-driver, optional thorax/pelvis sidebags are available for the front seats.

As an option, your safety can be further increased by adding COLLISION PREVENTION ASSIST (unique to this market), Lane Keeping Assist and Blind Spot Assist.

Flexible whichever way you look at it.

Along with everything else, you can even choose between two drive variants in the Vito depending on your needs and the vehicle's use profile. Both front-wheel and rear-wheel are on offer with the corresponding engine.

 www.vans-driveaway.mercedes-benz.com.au/

A van for today. With the drive system of tomorrow.

The two 4-cylinder diesel engines with common-rail direct injection and turbocharging form the heart of the Vito's economical and sustainable power. The 1598 cc engine is available in one output rating and the 2143 cc in three. Depending on the engine variant, there is a choice between front-wheel and rear-wheel systems.

There is a choice of power outputs ranging from 84kW to 140kW to cater to every need. Thanks to BlueTEC technology, the 100kW, 120kW and 140kW variants also comply with the demanding Euro 6 emissions standard. With the help of the AdBlue® additive in a selective catalytic reduction process, harmful nitrogen oxides in the exhaust gases are converted into water and nitrogen.

The engines for the Vito Panel Van and Vito Crew Cab at a glance:

84 kW (114 hp), 1598 cc, 270 Nm, front-wheel drive

100 kW (136 hp), 2143 cc, 330 Nm, rear-wheel drive

120 kW (163 hp), 2143 cc, 380 Nm, rear-wheel drive

140 kW (190 hp), 2143 cc, 440 Nm, rear-wheel drive

The OM 651 4-cylinder diesel engine rated at 140 kW (190 hp) combines agile performance with a high level of environmental compatibility.

Paintwork and seat cover.

Non-metallic paint finishes

Arctic white (standard)

¹ Metallic and non-metallic colour paint finishes available as options at extra cost.

Standard equipment.

The reversing camera shows a photorealistic image of your surroundings with dynamic guide lines and an indication of the direction of travel. Excludes 111 models.

Cruise control helps to maintain a set speed, making the driver's job easier. *Overseas model shown.

ATTENTION ASSIST can use a variety of parameters to detect typical signs of tiredness and alert the driver. *Overseas model shown.

The 7G-TRONIC PLUS automatic transmission offers outstandingly smooth gear changes and tremendous potential for saving fuel. Standard on all 116 and 119 Van models and 114 and 119 Crew Cab models.

Optional equipment.

The Becker® MAP PILOT transforms the Audio 15 radio into a high-quality, intuitive navigation system.

The optional halogen fog lamps improve the driver's visibility in fog.

The LED Intelligent Light System adjusts the headlamps to suit the light, road and weather conditions.

The two rear doors can be opened back to the side walls and secured, making loading and unloading easier.

Interior chrome package. Chromed trim on the ventilation outlets, the air conditioning thumbwheels, steering wheel and the door insides further enhance the interior. Excludes 111 models. *Overseas model shown.

The Crosswind Assist function helps to reduce lateral displacement in the event of gusting side winds.

Audio 15 features a high-resolution 14.7 cm (5.8-inch) TFT display and numerous connection options.

The airbags for driver and co-driver form part of the extensive range of standard-fit safety equipment. The optional thorax-pelvis sidebags in the front offer additional protection.

COLLISION PREVENTION ASSIST combines a distance and collision warning with Brake Assist BAS PRO.

Active Parking Assist helps the driver find somewhere to park and assists when reversing into or out of a parking space.

Blind Spot Assist can reduce the risk of accidents when changing lane, for example on freeways.

Lane Keeping Assist can reduce the risk of accidents caused by unintentional departure from your lane.

Genuine accessories.

Standard basic carrier bars. Set of 2 (Optional 3rd Crossbar available). Also available are handy ladder rack attachments designed to safely transport ladders and the loading roller - a plastic roller designed to be attached to the tailgate hinge for easily loading long items. All these items are available individually (ladder not included).

CLASSIC velour mats. Elegant, high-quality tufted velour mats with embroidered Mercedes-Benz lettering.

Towbar. Increase your carrying capacity by adding the 2t or 2.5t rated towbar and wiring harness.

Rear Steps with rear lamp protection (with or without towbar). With a dual purpose this installation provides a sturdy step on the back of the van with the added bonus of rear lamp protection. Available with or without towbar.

Rear Technician Step and Towbar Combination. Mercedes-Benz galvanised Technician Steps are an anti-slip option for access to the rear of your van, and assists in mounting cargo onto the roof, they also act as added protection to your rear bumper. Available with or without towbar.

Side window wind deflector tinted, acrylic glass. Protects against wind and water when window is slightly open.

Mercedes-Benz quality – in every area.

Servicing and repairs.

The Mercedes-Benz Vito has a 25,000km or 1 year (whichever comes first) service interval. All Mercedes-Benz authorised workshops are staffed and equipped for excellence and will assist in keeping your Vito operating as intended. Our Mercedes-Benz technicians complete training every year to ensure they are up-to-date with current technology. Mercedes-Benz Genuine Parts undergo rigorous material and functional testing and are engineered to fit your vehicle perfectly and remain available for 15 years after the end of series production. All Mercedes-Benz Genuine Parts have a 2 year parts warranty.

Your Vito is covered.

Warranty. Our comprehensive Mercedes-Benz Vans Warranty means peace of mind for three years or until the vehicle has travelled up to 200,000km. You're covered for parts and labour charges incurred whilst rectifying a manufacturing defect relating to materials or workmanship.

Roadside Assist. In the unlikely event of needing assistance, all you have to do is call. Mercedes-Benz Vans Road Care is designed to provide you with assistance in case of a breakdown anywhere in Australia – 24 hours a day, 365 days a year. Standard cover comes at no extra cost on your Vito during the manufacturer warranty period and is designed to provide real peace of mind motoring.

For further information please see the Vans Road Care brochure for terms and conditions or visit www.mercedes-benz.com.au/vans

Vans ServiceCare Offers.

Our flexible 'Pay as go' and 'Pay Upfront' servicing options are designed to provide real peace of mind to protect your vehicle and your business from unexpected service and maintenance costs.

Vans ServiceCare Promise. This 'Pay as you go' servicing offer provides transparent servicing costs and peace of mind with a maximum price promise on basic routine scheduled servicing. (* Available from April 2018 at participating Dealers only)

Vans ServiceCare Plans. This 'Pay Up-front' option provides excellent value and the ability to tailor your service and maintenance requirements based on your mileage and term. The Mercedes-Benz authorised dealer network carries out maintenance and repairs according to an agreed schedule and pre-determined costs.

Finance solutions.

Vito MWB Crew Cab	3.6
Vito LWB Crew Cab	4.1

IMPORTANT! This brochure has been compiled by Mercedes-Benz Vans Australia Pacific Pty Ltd to provide a general indication of the models available in Australia. Some of the features, optional extras and/or colours shown may not be available in Australia or may only be available in a different specification. Additionally, some models, features, optional extras and/or colours may only be available in combination with others. Some equipment depicted either on vehicle illustrations or separately may be non standard or options and may, where applicable, be available at an additional cost. For current information on the availability, design features and prices of all models, features, optional extras and/or colours available in Australia, you should contact your authorised Mercedes-Benz Vans Dealer at www.mercedes-benz.com.au/dealers or go to www.mercedes-benz.com.au/vans

All of the information contained in this brochure was correct as at April 2018. However, the manufacturer reserves the right to discontinue, make changes to design and specifications to vehicles or optional equipment without notice.
