

Camry

Breaking convention.

TOYOTA

toyota.com.au

Oh what a feeling!

There's a spirit that runs through Toyota. It's a feeling of achievement. It pushes us. Inspires us.

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

“

We are a group of passionate perfectionists who can't let well enough alone...

That's Toyota.

That's the spirit.

And that's our contribution to the world. We will be the best we can.

And we will help as many as we can to be the best they can...

— Eiji Toyoda

Front cover and this page: Camry SL Hybrid model shown

Welcome to the revolution.

Fresh, bold and different. Camry, Australia's favourite mid-size sedan, has been rebuilt and re-engineered from the ground up. Beneath its elegant and athletic exterior lines,

you'll find Camry is underpinned by Toyota's New Global Architecture, delivering heightened levels of comfort and driving performance. This universal design excellence is matched with the intelligence of the latest technology and safety features.

Settle into the luxurious interior and you'll quickly discover why Camry is redefining standards and raising the expectation of

what modern comfort should be. Under the sculptured bonnet you can choose from the progressive Toyota Hybrid system on Ascent, Ascent Sport and SL grades, a 2.5L 4-cylinder petrol engine available on all grades, or step into the V6 power of the sporty SX and SL.

The revolution has begun, and Camry is ready to prove that everyday excellence can be truly exciting.

The shape of brilliance.

Camry Ascent model shown

Sleek and seductive, the eye-catching exterior of Camry seamlessly blends brilliance into beauty. Centred upon Toyota's New Global Architecture, Camry is designed to not only heighten the senses, but also enhance the total driving experience.

As well as being aerodynamically efficient, the low, steeped bonnet line also provides clear visibility for the driver. Broad shoulders ground the vehicle,

demonstrating a strength and stability that flows effortlessly into the tapered rear bumper.

More than elegant, the stylish lines of Camry's lightweight body hide a highly rigid frame that's paired with double wishbone rear suspension to deliver more responsive handling and precise steering. The advanced exterior design also improves the quality and comfort of the drive as well as enhancing fuel economy.

Sitting beneath the distinctive wheel flares, stylish 17" alloy wheels are fitted as standard, rising to 18" alloys on SL, and 19" on SX grades.

Plus the full glass panoramic roof on SL petrol variants (and optional on SX), and the electric tilt and slide moonroof on Hybrid SL, both open yet another dimension of luxury and driving pleasure.

A smarter world of comfort.

Settle into Camry and you'll quickly appreciate the functional beauty that defines its interior.

From the ergonomic driving position to greater passenger space and elegant interior finishes, you'll experience Camry comfort that's engineered to impress through openness, simplicity, visibility and sound.

The 7" Multi-Information Display (MID) on Ascent Sport, SX and SL provides real-time trip, road and vehicle data information. With intuitive fingertip control you can display fuel consumption, satellite navigation¹ directions, audio settings and vehicle monitoring data. The multimedia function can also be used to bring up song titles, caller ID or voice recognition.²

The 4.2" MID on Ascent displays a selection of essential trip, vehicle and audio detail, all with fingertip control. Get behind the wheel of Camry SL and the Head Up Display (HUD)

projects driving information onto the bottom of the windshield, including speed, music and directions, as well as important driver warnings. The information shown can then be adjusted using the MID control on the steering wheel.

Together they make Camry a smarter way to drive.

Camry Ascent Sport model shown

Intelligent surroundings.

Camry Ascent Sport model shown

Step aboard, and allow Camry to change your perception of comfort and style. Enjoy the convenience of entering and starting Camry while the key remains in your pocket or bag with the smart entry and start system on Ascent Sport, SX, SL and standard across the Hybrid range.

Be surrounded by superb sound in the Ascent, thanks to the 6-speaker audio system with 7" colour touchscreen display. It includes Bluetooth®³ connectivity, voice recognition,

Mobile Assistant, Miracast, USB and AUX inputs.² This rises to an 8" display in Ascent Sport, SX and SL, and includes satellite navigation¹ and SUNA™ traffic channel⁴ updates.

You can also connect your smartphone² to all Camry audio units to open Toyota Link⁵ where you can receive travel information, directions, real time weather and more, and on SX and SL, the wireless phone charger⁶ removes the hassle of connecting charging cables.

On all grades, the single touch Electric Park Brake (EPB) adds an extra level of convenience, and in tight spaces the reversing camera⁷ with moving guidelines helps provide a clear view of what's behind.

Whatever the weather is doing outside, the air conditioning will maintain perfect comfort within, with dual-zone automatic climate control for Ascent Sport, SX, SL and across all Hybrid models.

Paddle shift controls – SX and SL only

Smart start engine button – Petrol variant shown

8" colour touchscreen display – Ascent Sport, SX and SL only

Dual-zone automatic climate control – Ascent Hybrid, Ascent Sport, SX and SL only

60/40 split fold seats

Ready to thrill.

Camry SX model shown

The sporty Camry SX is ready and waiting for those who wish to elevate their driving experience.

From the purposefully flowing front end, to the powerful rear spoiler tipped tail, this is every part a machine designed and engineered to thrill.

Its suspension is tuned to provide sportier handling and is paired with 19" alloy wheels that feature V shaped spokes with accentuated edges and a bright machined surface, and are fitted with Dunlop SP Sport tyres.

The option of a powerful 3.5L V6 petrol engine promises even more scintillating performance and responsive power. Take hold of the sports steering wheel and you'll notice it's also home to crisp paddle shift controls for the 8-gear direct shift automatic transmission (8-speed available on V6 only).

The Camry SX is further enhanced with a high gloss sports grille, highlighting an athletic stance. The dynamic design cues continue inside with red or black leather accented sports seats that are shaped to provide extra support and comfort.

Camry SX. Ready to excite, when you are.

2.5L 4-cylinder Dual VVT-iE petrol engine with Toyota Hybrid Synergy Drive® (HSD)

2.5L 4-cylinder Dual VVT-i petrol engine

3.5L Dual VVT-iW V6 petrol engine

Sophisticated strength.

The Camry revolution puts the power into your hands.

With a choice of three different engines within the range, you're sure to find the perfect strength to match your sophistication.

The 2.5L 4-cylinder Hybrid engine is available

on Ascent, Ascent Sport and SL, and features reimagined hybrid power and efficiency. It seamlessly matches the response of a Dual VVT-iE (Variable Valve Timing – intelligent E) petrol engine with the latest Toyota Hybrid Synergy Drive® (HSD) technology. Together they deliver outstanding performance with enhanced fuel economy.

Available on all grades, the 2.5L 4-cylinder petrol engine incorporates the latest in lightweight design to deliver high performance. The Dual VVT-i (Variable Valve Timing –

intelligent) petrol engine optimises the intake and exhaust timing to realise excellent response and lower emissions.

A more powerful 3.5L V6 petrol engine is available on SX and SL models. It features both Direct fuel Injection (DI) and Port Fuel Injection (PFI) and automatically selects the best one to suit the driving conditions and deliver the best response. The Dual VVT-iW (Variable Valve Timing – intelligent Wide) system ensures the engine produces high orque at all engine speeds.

Efficiency, without compromise.

Built around the world's leading hybrid technology, Toyota's Hybrid Synergy Drive^{®8} (HSD) in Camry Hybrid models maximises fuel efficiency without compromising performance.

The intelligent energy management system seamlessly synergises the car's petrol engine with its electric motor so

each power unit either supports the other or takes over completely, depending on the driving situation.

And because the battery is kept charged through normal driving and recaptures energy from braking and deceleration, it will always maintain plenty of power for the electric motor.

HYBRID

4 key benefits

Quietness.

The peaceful performance of the electric 'EV' mode, combined with the high-performance soundproofing, delivers a uniquely tranquil driving experience.

Emissions.

By ensuring high-level fuel efficiency, Hybrid Synergy Drive® helps minimise the output of CO₂ and other harmful emissions. All of Toyota's hybrid vehicles are designed to comply with relevant global exhaust emissions regulations.

Fuel economy.

The aerodynamic styling of Toyota's hybrid vehicles, and clever pairing of an electric motor and robust petrol engine, delivers significant fuel economy. Vehicles also provide ongoing feedback via the Multi Information Display (MID), so you can actively evaluate efficiency and change the way you drive.

Power.

The Hybrid Synergy Drive® means your vehicle can be powered by electricity, petrol, or a combination of both, to deliver powerful, smooth acceleration – and it's discreet and seamless.

How the hybrid system works.

Starting off

The electric motor is used primarily and power stored in the battery is used to turn the motor.

Full acceleration

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

Deceleration

The electric motor functions as a generator during deceleration and braking to recharge the battery.

At rest

Braking at a traffic light, the petrol engine is cut off and the car is brought to a stop. The system automatically avoids idling to conserve fuel and reduce CO₂ emissions.

Safety by design.

Camry Ascent Sport model shown

Safety sits at the very heart of the Camry DNA and it starts with a body structure specifically designed to improve protection for everyone inside.

The driver and passengers are surrounded by the safety of 7 SRS airbags fitted as standard. On steep slopes or slippery surfaces, Hill-start Assist Control⁷ (HAC) can help you to start moving forward safely, while Vehicle Stability Control (VSC) counteracts any over or under steer when cornering.

When parking or manoeuvring in tight places, the front and rear clearance sensors⁷ on Ascent Sport, SX and SL help guide you with an audio alert.

On the open road in Camry SL, Blind Spot Monitor⁷ (BSM) uses radar to detect vehicles in blind spots and issue a warning through an indicator in the outer rear view mirror. When backing up, Rear Cross Traffic Alert⁷ (RCTA) uses the same sensors to detect vehicles approaching from either side and issues an audio and visual alert for the driver.

The added benefits of Toyota Safety Sense+ (TSS+) are standard on every Camry, actively assisting the driver to avoid accidents and reduce damage in the unlikely event of a collision.

- A. Hill-start Assist Control⁷ (HAC)
- B. Vehicle Stability Control (VSC)
- C. Blind Spot Monitor (BSM) – SL only
- D. Rear Cross Traffic Alert⁷ (RCTA) – SL only

Toyota Safety Sense

The road is an unpredictable place – you can never be certain of what dangers may lie ahead. Which is why we developed Toyota Safety Sense+ (TSS+), a multi-feature active safety package to help keep you and your passengers out of harm's way.

TSS+ incorporates Lane Departure Alert, Pre-Collision Safety system,

Automatic High Beam and Active Cruise Control.

With automated pre-collision warning and braking at its core, TSS+ uses intuitive technology to sense danger, providing greater reassurance to the driver and extra protection for passengers across a varying range of driving speeds and conditions.

Lane Departure Alert⁹

In the event that your car drifts from its lane, this presents a serious safety hazard. This is where Lane Departure Alert (LDA) helps. It provides a visible and audible alert should you inadvertently deviate from your lane, helping keep you, your passengers and other vehicles safe.

Pre-Collision Safety system⁹

Pre-Collision Safety system (PCS) helps keep you safe, with Forward Collision Warning (FCW) using radar to identify any threat up ahead and issue an alert. During braking, Brake Assist (BA) applies additional force, and if necessary, Autonomous Emergency Braking (AEB) will activate to reduce speed and mitigate impact.

Automatic High Beam⁹

Leaving your headlights on high beam can be a hazardous distraction to other drivers. By using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam (AHB) will switch between high and low beam as needed to help you maintain safe and considerate driving.

Active Cruise Control⁹

Keeping a constant distance between vehicles helps make driving safer. By using a milliwave radar to constantly monitor the gap, Active Cruise Control (ACC) will maintain a set space from the vehicle in front, automatically accelerating or slowing down to compensate for the vehicle in front varying its speed.

Camry Ascent

- 2.5L Dual VVT-i 4-cylinder petrol engine
- 6-speed automatic transmission (petrol only)
- 17" alloy wheels
- Bi-LED auto-levelling headlamps, LED tail lamps and Daytime Running Lamps (DRLs)
- Electric Park Brake
- Driver's seat power adjustable lumbar support
- 4.2" full colour Multi Information Display (MID)
- Steering wheel controls for MID, telephone and audio

- 7" colour touchscreen display with Bluetooth®³ and Toyota Link⁵
- Audio system with 6 speakers, AUX and USB input for iPod®¹⁰/portable audio players²
- Reversing camera with moving guidelines
- 7 SRS airbags
- Toyota Safety Sense+ including Pre-Collision Safety system, Lane Departure Alert, Automatic High Beam and Active Cruise Control

Exclusive to Hybrid:

- 2.5L VVT-iE petrol engine with Hybrid Synergy Drive®
- Continuously Variable Transmission
- Dual-zone automatic climate control
- Smart entry and start system

Camry Ascent petrol shown

The Toyota Advantage.

Every Toyota gives you a lifetime of advantages. That's what makes it a Toyota. You'll enjoy legendary Toyota value from the moment you drive away, and you'll continue to appreciate the quality, safety and innovation that's engineered into each model, every day you drive.

Discover the full range of products and services and find your nearest Dealer at toyota.com.au

A smarter way to buy.

Toyota Access puts you in complete control when buying a new car.¹⁴ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with ongoing flexibility and assurance. To discover Toyota Access for yourself visit toyota.com.au/access

Capped price servicing.¹⁵

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to five years or 75,000km, whichever occurs first (including Genuine parts, labour and fluids). For the full benefits consult a Toyota Dealer or visit toyota.com.au/advantage

We've got your back.

Every new Toyota is built to exceptional standards, backed by a three year/100,000km¹⁶ warranty, giving you the peace of mind to feel confident for years to come. In the unlikely event that you need them, every Toyota Service Centre is committed to providing any warranty repairs you may need. They have the technology, the tools, and the skilled personnel to keep your Toyota in excellent condition.

Your battery goes further.¹⁷

The Hybrid battery used by Toyota, requires no maintenance, charges automatically while you

drive and never needs to be plugged into a power supply. The battery is disposable, recyclable and your Toyota Dealership can arrange recycling at no extra cost.

Finance to get you going.

If you need a little help, Toyota Finance¹⁸ can offer you a wide range of vehicle financing. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Even more protection.

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, Genuine Parts Promise and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.¹⁹ And our Toyota Insurance Factory Approved Extended Warranty Insurance provides protection that continues after your Toyota New Vehicle Warranty ends.

Extend your peace of mind.

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist is never more than a phone call away. Available 24 hours a day, seven days a week, every day of the year, you'll have peace of mind, whatever your emergency.²⁰
