Oh what a feeling!

**There's a spirit
that runs through
Toyota. It's a feeling
of achievement.
It pushes us. Inspires us.**

— It's what saw us mass produce the first dedicated hydrogen fuel cell vehicle, the Mirai, and what will see us define the very future of movement. Our Japanese founders called it 'Kaizen,' but we simply call it 'continuous improvement.' A relentlessness to always move forward, never settle for good enough.

And here's the exciting part, this feeling of achievement is yours to experience. Life changing moments, just waiting to be told. Whether it's the thrill of experiencing the latest in technology, venturing somewhere completely new or simply spending more time with your family. That sense of achievement, whatever form it comes in, will be a feeling you never forget.

This is a journey for which we don't know the destination, but looking back at how far we've come, it's safe to say tomorrow looks exciting beyond imagination.

“

We are a group of passionate perfectionists who can't let well enough alone...

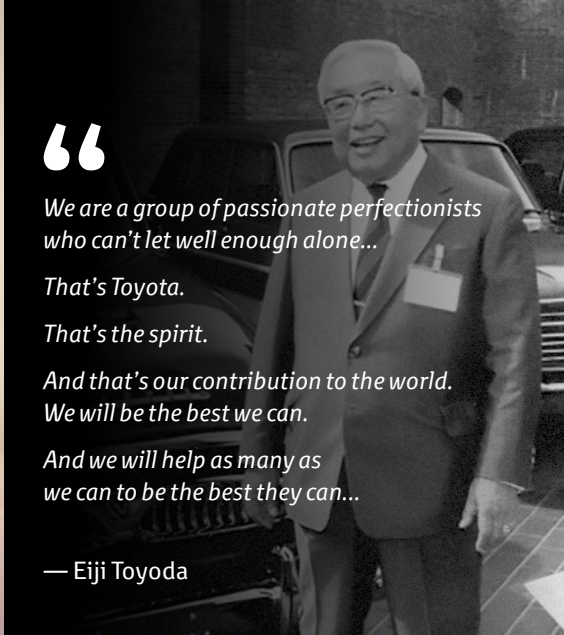

That's Toyota.

That's the spirit.

*And that's our contribution to the world.
We will be the best we can.*

*And we will help as many as
we can to be the best they can...*

— Eiji Toyoda

Your life, your car, your way

Meet the exciting and ever entertaining Yaris. It's the car that comes with the convenience and comfort you need, all within a fun sized package.

So whether it's your daily commute to work or a relaxing weekend at the beach, Yaris has you covered. Choose from three grades: Ascent, SX and ZR, each ready to make a big impression in its own way.

Make a statement

Yaris effortlessly catches the eye from every angle with its distinctive design and refined sporty feel.

Whether it takes you to your much loved local restaurant or on to brand new adventures together, Yaris announces your presence. Its cohesive lines exhibit a confident on road

presence, with the sleek rear spoiler on ZR to further add to its refinement.

The compact dimensions make it ideal for zipping around the city and finding the perfect parking spot. Not to mention, the convenience of a reversing camera¹ to help guide you.

Style with substance

ZR shown

Yaris is the car that gets you where you need to be, with the ability to zip around town whilst achieving outstanding fuel efficiency.

Stream your favourite tunes via Bluetooth®²

on the 6.1" colour touchscreen. On SX and ZR, you have the added benefits of Toyota Link³ for easy access to the latest weather and fuel price information plus much more all at your fingertips.

Small outside, spacious inside

Step into Yaris and you're in for a big surprise. Its compact yet spacious cabin packaging takes design to a whole new dimension.

There's generous legroom and plenty of headroom. Adjustable bucket seats in the front and a full-width rear seat for three, to ensure outstanding comfort and support. Yaris' versatility allows you to transform the interior into your own unique personal space.

You'll also find more storage space than you'd think possible in a car of this size, with a two-tier boot and convenient storage options such as separate lower and upper glove compartments.

Versatile 60/40 split fold rear seats – ZR shown

Agile and effortless

For a small car Yaris is big on convenience. Whatever your needs, gym bags, beach gear, there's plenty of room for it all, with the flexibility of 60/40 split fold rear seats.

Staying in control is easy with the integrated steering wheel controls for phone and audio. For added flexibility there is also USB connectivity available.⁴

Satellite navigation⁵ on SX and ZR can guide you with ease whenever you need it. Paired with SUNA™,⁶ traffic channel, it gives you helpful updates on traffic conditions.

Satellite navigation⁵ – Available on SX and ZR

Discrete upper level glovebox

On the open road, cruise control helps to take a load off the journey. Plus the Multi Information Display (MID) features all the information you need, such as outside temperature, trip data and other useful details for your journey.

With all these benefits it's easy to see why Yaris should be your number one choice.

Ready when you are

Whether you're dashing around town or cruising on the open road, you'll find Yaris gives you enough power to zip around.

The 1.3L engine on Ascent and 1.5L engine on SX and ZR feature Variable Valve Timing with intelligence (VVT-i) technology delivering dynamic performance and greater fuel efficiency. This engine uses continual variations to the intake valve timing to improve drivability, performance and efficiency.

And with a low fuel consumption, it's a great choice when it comes to filling up at the pump.

Wherever you're heading, Yaris allows you to enjoy a smooth ride with a 4-speed automatic across the range or choose 5-speed manual in Ascent and SX.

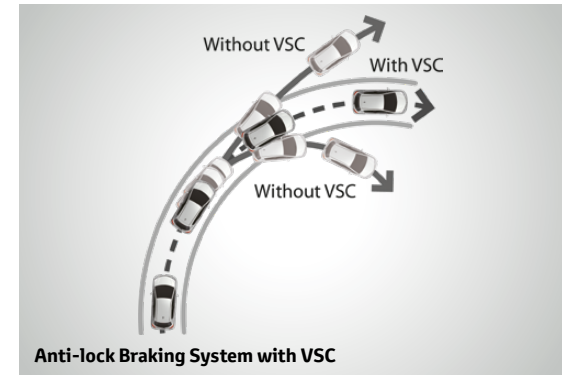

Yaris stands tall when it comes to safety, awarded with the highest 5-star ANCAP safety rating (awarded November 2017) and equipped with a reversing camera and 7 SRS airbags.

When driving you'll appreciate the control of Brake Assist¹ (BA) which provides extra brake force during an emergency situation. The Anti-lock Braking System (ABS) prevents wheel lock-up and skidding, and Electronic

Brake-force Distribution (EBD) maximises braking efficiency by automatically increasing the brake force to the wheel(s) that need it most.

Vehicle Stability Control (VSC) helps control any oversteer or understeer you may have during cornering. While Traction Control (TRC) automatically controls the throttle or applies the brakes to any wheel that's detected slipping on slippery surfaces or where there's variable grip.

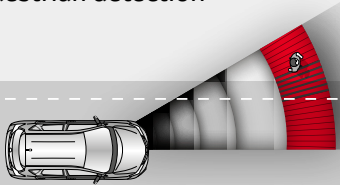

For even more added safety, Emergency Brake Signal (EBS) alerts trailing vehicles if you're forced to make a sudden stop.

Additional safety technology Toyota Safety Sense (TSS) also comes standard on the ZR and is available as an option on SX and Ascent.

Toyota Safety Sense

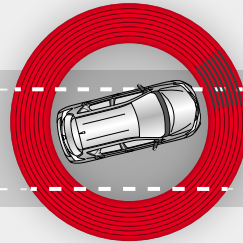

At Toyota, we constantly strive to create a safer driving environment for everyone. That's why we developed Toyota Safety Sense (TSS),¹ available as standard on Yaris ZR and optional on Yaris Ascent and Yaris SX, a multi-feature active safety package designed to support safe driving and help protect you and your passengers. TSS incorporates Lane Departure Alert, Pre-Collision Safety system with pedestrian detection and Automatic High Beam. With automated pre-collision warning and braking at its core, TSS aims to recognise specific hazards and help avoid certain collisions, providing greater reassurance to the driver and extra protection for passengers across a varying range of driving speeds and conditions.

Pre-Collision Safety system with pedestrian detection¹

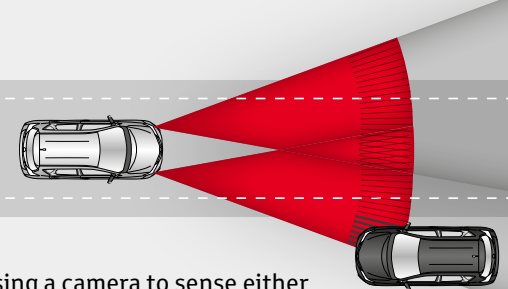

Pre-Collision Safety system with pedestrian detection is developed to help reduce the likelihood of a frontal collision with cars and pedestrians. It includes a visible and audible alert of possible collisions, additional braking force to assist when you're braking, and if a collision is judged to be unavoidable, automatic braking to help mitigate the impact.

Lane Departure Alert¹

Lane Departure Alert is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane.

Automatic High Beam¹

Using a camera to sense either approaching headlights or the tail lights ahead, Automatic High Beam is designed to help you maintain safe and considerate driving by switching between high and low beam as needed.
