

C-HR

A woman with long dark hair, wearing a brown patterned dress, is captured mid-jump on a trampoline. She is smiling and her hair is blowing in the wind. The background shows a park-like setting with trees and a fence, bathed in the warm, golden light of a sunset. The sky is a mix of orange and light blue.

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Made for movement

It looks like no other compact SUV. Cut like an angular diamond, with flowing lines and sporting features, this is a car with immediate visual appeal on-road, as well as when it's standing still. In fact, that was the artistic goal of the C-HR's chief designer – to create a car that appears like it is always in motion.

If you look beneath what's on the surface of the C-HR, you'll also find a whole lot more. A car that's not just good looking. It's also packed full of cutting edge safety features and has a wide range of in-built advanced technological features.

Whatever your future looks like, the C-HR is ready to take you there.

Style that speaks volumes

• • • • •

The C-HR takes the traditional compact SUV and pushes it further. Walk around one and you'll note a shape and a body that expresses style and class. With a sleek yet powerful front end, and a meaningful stance that's created for superior handling, the C-HR has it all in one compact, tapered package.

Further adding to its dynamic appearance are subtle contemporary touches. The hidden rear door handles, a stylish rear spoiler and angular rear tail lamps all blend neatly together. On GR Sport, you'll find an even more aggressively styled front bumper and grille. With an array of colour options available, including roof customisation options on Koba and GR Sport (see pages 20 and 21 for availability), this is a car that can be as distinctive as you. Combined with machine finished alloy wheels as standard and larger 19" alloys with GR badged brake calipers on GR Sport, you will have a look with a difference.

Although it's not just the most obvious things that make the C-HR outstanding, it's the details. The refined look and sleek features are defined by electrically retractable side mirrors, as well as the flowing LED tail lamp design on the GR Sport that features sequential turn lamps that light from inside to out. More than just cool, the tinted privacy glass on Koba and GR Sport rear and rear side windows helps to reduce the impact of sunlight as well as enhancing C-HR's stylish lines.

Up front, LED Daytime Running Lamps (DRLs) sit perfectly next to the headlamps creating a crafted appearance. The headlamps utilise Automatic High Beam, and on the C-HR Koba and GR Sport, LED technology is adopted for excellent light distribution. These are accompanied by LED front fog lamps available on all grades.

B Roof mounted spoiler – Koba grade shown

C LED rear tail lights – Koba grade shown

The image shows the interior of a Toyota C-HR Koba Hybrid car. The view is from the driver's perspective, looking towards the center console and the road ahead. The dashboard features a large, rectangular touchscreen display in the center, which is currently showing the Toyota logo. Below the screen are air vents and a control panel with buttons for various functions. The steering wheel is black with the Toyota logo in the center and 'SRS AIRBAG' text below it. The instrument cluster behind the steering wheel includes a tachometer on the left and a speedometer on the right. The car's interior is finished with dark materials, and there is ambient blue lighting visible on the control panels. The background shows a modern cityscape with tall buildings and a clear sky.

Flair on the inside

It's the thinking that's gone into planning the C-HR's interior that sets it apart. A seamless, expansive space that focuses on creating an exceptional driving and passenger experience.

The highly recognisable diamond design configuration we see outside the car also continues within it, extending right into controls and instrumentation. Along with the roof headliners, seat trim, door sills and speaker contours.

Inside the Koba you'll discover contemporary touches that include ambient blue mood lighting and cool blue backlighting on control panels and instruments. In GR Sport, the metallic highlighting, aluminium sports pedals and GR badged steering wheel further accentuate the effect. Combined with sleek black detailing throughout, the C-HR retains a premium feel that is uncompromising inside and out.

Functionality that performs

Carefully planned, an oasis of designer space and comfort, the C-HR brings big ideas and practical details together as one.

From clever storage space and convenient cup holders to carry your essential daily needs and precious possessions, right through to the 60/40 split fold rear seats that add greater storage and load carrying flexibility.

The seating has been arranged and created according to the Toyota New Global Architecture (TNGA) principles. Meaning you'll enjoy superior comfort on long and short drives, soft touch fabrics further enhance the driving experience.

In the Koba you'll be surrounded by soft leather accented trim, with heated front seats that add a level of cosiness for the colder days. Sculptured front seat designs also provide the necessary lumbar and side support to match C-HR's enviable cornering performance. The dedicated front sports seats in GR Sport also feature distinctive highlight silver stitching.

D Leather accented trim with perforated seat pattern
– GR Sport shown

Style with intelligence

The beauty of the C-HR is that it makes every journey effortless. Stepping into the C-HR is easy thanks to the smart entry and start system that allows keyless entry and engine ignition, providing a smooth start to any journey. On GR Sport you'll also find a specially badged, race inspired smart start engine button.

Once seated, your temperature is kept constant and comfortable thanks to automatic dual-zone air conditioning. On the Koba, you'll also find NanoE™,¹ air conditioning; a technology that sends moisture rich ions into the cabin to reduce odours, pollen and other allergens. It also reduces the dryness in the air that is affiliated with standard air conditioning systems.

On the Koba, the front seats are heated with three separate settings across two heated zones. A 4.2" Multi Information Display (MID) comes standard across all models, providing a broad range of driving functions and information at your fingertips.

The intuitive menu system allows the driver to switch between details such as fuel consumption, trip information, vehicle data, drive mode, Lane Departure Alert and more.

The 6-speaker audio system is controlled through an 8" colour touchscreen display, along with satellite navigation² and the myToyota³ app, which allows you to enjoy a range of travel services and real-time information updates. The 8" colour touchscreen also displays the reversing camera, front and rear parking sensors⁴ and Panoramic View Monitor⁴ on the Koba, designed to help you park safely.

Every C-HR also has the latest Apple CarPlay^{®5,6} and Android Auto™,^{5,7} functionality, which means seamless integration with your smartphone. You can get directions, make calls, and listen to music, all in a safe way that allows you to keep your focus on the road (speak to your Dealer about device compatibility).

Responsive to your every move

GR Sport Hybrid two-tone shown

Get in, grip the wheel and get ready. The C-HR driving experience is every bit as stunning for a compact SUV as it looks, which is just what you'd expect from a vehicle designed by a chief engineer with a passion for motor racing.

The high rigidity tensile steel body and chassis combined with class leading suspension underpin the C-HR's exceptional driving dynamics, whether you choose a 2WD or AWD petrol model or a 2WD Hybrid model. On GR Sport, a floor centre brace has been added to help provide greater body rigidity and optimise the handling response as well as the suspension being further tuned to maximise the performance of the 19" wheels and the 2WD Hybrid power.

C-HR comes equipped with Continuously Variable Transmission (Auto CVT). Its high torque is designed to provide impressive acceleration. Coupled with this, the engine configuration has been setup to deliver impressive fuel economy.

The C-HR also enjoys a higher ride aspect, so you can easily see around you. This is the compact SUV that's certain to get noticed.

What makes C-HR's engine construction outstanding is its highly advanced 4-cylinder 1.2L turbo-charged petrol engine. Combined with a 16-valve DOHC and VVT-i (Variable Valve Timing with intelligence), you'll get all the power you'd expect from an aspirated engine of a much

larger size. The engine also delivers peak torque at low RPM, resulting in excellent acceleration responsiveness.

Even if you're in town, engine noise is reduced, and the C-HR's configurations mean the stop-start of urban traffic is no issue. Best of all, C-HR drivers can use their 4.2" Multi Information Display to select between driving modes to become as high performing or as highly economical as desired; switch between ECO, NORMAL, or SPORT. The Continuously Variable Transmission (Auto CVT) performs impressively and in SPORT mode gear changes are simulated to add to the powerful, authentic driving experience.

Hybrid: consume less, enjoy more.

The 1.8L Hybrid engine has joined the C-HR family and is available on Koba and GR Sport. If you've never experienced it, quite simply Hybrid engines give you the best of both worlds. Not only in petrol power, but also highly efficient electric power. Importantly the Hybrid technology available in C-HR provides an impressive 90kW (combined), along with the added benefit of combined fuel consumption as low as 4.3L/100km.⁸

Designed to recharge as you drive, Hybrid technology means you never need to be plugged in, and your car works neatly with the smooth response of Auto CVT. Utilising a progressive Auto CVT transmission, your new Hybrid will not only reward you in low fuel costs, but also in its next generation responsiveness and feel on-road. For over 23 years, Toyota has led the way in Hybrid technology, and the C-HR represents yet another leap forward. While driving, you'll be able to benefit from the ability to travel up to 1,000km⁸ completely uninterrupted. That's a next level road trip.

The Hybrid System

Four Key Benefits

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

Quiet

The quieter and calmer experience in a Toyota Hybrid is proven to deliver one of the most satisfying and enjoyable drives on the road, with no compromise on vehicle responsiveness. It's why millions of hybrid drivers choose never to go back to petrol-only engines once they've made the switch.

Reliable

Toyota's Hybrid System offers the reliability and quality you can always expect from Toyota. Tested and trusted for 23 years – so no matter where you go, you'll have peace of mind in every drive.

Powerful

Experience an uncompromising drive in a Toyota Hybrid with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

Starting off

The electric motor is used primarily. Power stored in the battery is used to turn the motor.

Full acceleration

Power is provided by the petrol engine in addition to the electric motor. Output is maximised for acceleration.

Braking and deceleration

The electric motor functions as a generator to recharge the battery by itself. No fuel is used, so there are minimal CO₂ emissions.

Normal driving

A mix of petrol and electric is used for best economy, depending on the conditions. The battery is recharged where possible.

At rest

With the car brought to a stop, the petrol engine cuts off. The system automatically avoids idling to conserve fuel and reduce CO₂ emissions.

A high-angle, top-down view of a car's interior. The image shows the front and rear seats, which are upholstered in a dark grey or black material. Several white airbags are deployed, including the driver's side airbag, the front passenger airbag, and the side-impact airbags. The dashboard and center console are visible on the left side. The overall lighting is soft, highlighting the textures of the seats and airbags.

Safety that looks after you

Overseas model shown⁹

With all the features built into C-HR, safety is one that remains paramount. Every time you drive, you and those with you are surrounded by seven SRS airbags. The Panoramic View Monitor⁴ on the Koba grade provides 360 degree imagery of the outside of the C-HR, which helps make you more aware of what's happening both inside and outside the car.

On the open road, Vehicle Stability Control⁴ (VSC) manages the braking and engine output to help counter oversteer or understeer when

cornering. Electronic Brake-force Distribution⁴ (EBD) will balance the brake force between different wheels to compensate for different loads or when cornering.

When starting on an uphill incline, Hill-start Assist Control⁴ (HAC) will prevent rollback by applying and briefly holding the brakes to make it easier for the driver to apply power. On uneven or slippery surfaces, Traction Control⁴ (TRC) will automatically control wheels that are spinning and losing grip, helping you maintain directional control.

When reversing out of a blind car space, Rear Cross Traffic Alert⁴ (RCTA) can help warn of vehicles approaching from either side and is designed to avoid collisions. In the Koba grade, it is designed to automatically apply the brake if a collision is imminent. The side mirrors are also heated to clear condensation and include Blind Spot Monitor⁴ to help alert the driver to vehicles in the blind spot nearby. All this, plus Toyota Safety Sense, makes the C-HR a vehicle with safety built at its core.

Toyota Safety Sense

Toyota believe in not just saying “safety comes first” – it’s something we actively built into our vehicles and the reason behind our development of Toyota Safety Sense⁴ (TSS). TSS is a suite of safety features that help support safe driving, assisting to protect you and your passengers.

The C-HR has TSS driver assist technologies; features and innovations that are aimed at recognising and helping to avoid certain hazards and collisions, for added peace of mind. For more details on TSS specifications and how they apply to a range of our vehicles, visit toyota.com.au

Pre-Collision Safety (PCS) system with pedestrian and daytime cyclist detection

Pre-Collision Safety system with pedestrian and daytime cyclist detection is a multi-stage warning system. Using an integrated camera and radar to help detect other vehicles in front of you, the PCS is designed to assist the driver where there is a likelihood of frontal collision with cars and pedestrians during day or night, or cyclists during the daytime. PCS includes a visible and audible alert of possible collisions, additional braking force to assist when you’re braking, and if a collision appears to be unavoidable, automatic braking to help mitigate impact.⁴

Lane Trace Assist

When driving on highways and freeways, Lane Trace Assist uses a camera to detect lane markings when cruise control is active. It is designed to alert you and provide steering assistance to help avoid drifting, and keep you centred in your lane.⁴

All-Speed Active Cruise Control

Active Cruise Control is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.⁴

Road Sign Assist (speed signs only)

Road Sign Assist is designed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.⁴

GXL

- 1.2L turbo petrol engine (85kW, 185Nm) – not applicable to GR Sport
- Continuously Variable Transmission (Auto CVT)
- 17" alloy wheels
- LED Daytime Running Lamps
- LED fog lamps
- Electronic Park Brake
- Premium gear lever and steering wheel
- Sporty black fabric front seats
- Tilt and telescopic steering wheel
- Dual-zone automatic air conditioning
- One touch power windows
- Auto-dimming rear view mirror
- Heated and electrically retractable side mirrors
- 4.2" Multi Information Display
- 8" colour touchscreen display
- 6-speaker audio system
- Satellite navigation²
- Reversing camera
- Apple CarPlay^{®5,6} and Android Auto^{™,5,7}
- Rain sensing wipers
- Blind Spot Monitor and Rear Cross Traffic Alert
- Front and rear parking sensors – not applicable to GR Sport
- Hill-start Assist Control
- 318L boot capacity
- Smart entry and start system
- Road Sign Assist⁴
- Toyota Safety Sense⁴ – including Lane Trace Assist, Automatic High Beam, Pre-Collision Safety system with pedestrian and daytime cyclist detection and All-Speed Active Cruise Control

The Toyota Advantage

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Discover the freedom of Toyota Access

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.¹³ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance.^{13,14} To discover Toyota Access for yourself, visit toyota.com.au/toyota-access

Capped price servicing

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 5 years or 75,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids).¹⁵ For the full benefits, consult a Toyota Dealer or visit toyota.com.au/advantage

Toyota Warranty Advantage

Every new Toyota is built to exceptional standards, and from 1 January 2019, Toyota vehicles are backed by a 5-year/unlimited kilometre warranty. If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years, giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day money back guarantee and 7 years emergency assistance including expenses related to car hire, towing or even accommodation if required.^{16,17} For more information, visit toyota.com.au/owners/warranty

Your battery goes further

The Hybrid battery used by Toyota requires no maintenance, charges automatically while you drive and never needs to be plugged into a power supply. From 1 January 2019, Toyota Hybrid batteries are backed by a 5-year/unlimited kilometre warranty. Complete an annual hybrid battery health check according to Toyota specifications during routine maintenance, and we'll extend your Hybrid battery warranty to 10 years.¹⁸

Finance to get you going

If you need a little help, Toyota Finance can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.¹⁹

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²⁰ For more information, visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Roadside Assist is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road.²¹ For more information, visit toyota.com.au/insurance/roadside-assistance
