

Prado

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly reimagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Go anywhere in style

When you consider the many challenges of a modern lifestyle, dropping the kids at school can now be as treacherous as negotiating a mountain pass. Which is why Prado has been designed to provide refined comfort, rugged dependability and smooth driving, whether in town, off-road or out on the highway.

Boasting bold, contemporary and head-turning style, Prado is also purpose built to give you plenty of 4WD muscle to handle the tough stuff. All smartly combined with an abundance of intelligent features and outstanding creature comforts to help make sure you arrive safe, refreshed and relaxed, whatever the destination.

VX model shown

Beauty never looked so tough

The highly refined exterior lines of Prado have not occurred by chance. Every element has been painstakingly designed to serve a specific purpose.

The Prado features a sophisticated chrome vertical grille to give an assured presence on the road. With powerful halogen headlamps on the GX, stylish LED headlamps on the GXL, VX and Kakadu and LED Daytime

Running Lamps (DRLs) standard across the range, the path ahead will be bright even on the darkest of nights.

Particular attention has been paid to refining Prado aerodynamics. Airflow is efficiently redirected around the front bumper, the tyres and wheel housings. It's channelled under the car and over the roof to smoothly exit behind the

vehicle while the aero-stabilising fins support airflow past the outer mirrors and rear lights. Even air flowing through the radiator is carefully deflected to reduce turbulence.

Then should the weather take a turn for the worse, the rain sensing wipers will automatically spring into action.

Find everything at your command

Cast your eyes forward from within Prado, and you'll notice every feature and control has been placed for maximum practicality and visibility.

On Kakadu models, the centre console incorporates the controls for all off-road functions, so it's easy to select what you need, precisely when you need to. At the flick of a switch, Kakadu's drive mode select lets you change between five different drive modes for optimum performance in all conditions.

Every switch is illuminated to catch your eye in all driving conditions. An electroluminescent combimeter with enhanced backlighting presents vital information to drivers in the GX and GXL, VX and Kakadu. It features a colour Multi Information Display (MID) with four separate zones of information, including trip information, ride and transmission settings, outside and travel conditions and details of many vehicle operations and drive functions.

All models come with satellite navigation¹ as standard, helping you get to where you need to go.

Comfort to master every situation

Whether in traffic, out in the wild, on holiday or a family weekend away, you'll always be travelling first class in Prado. It begins with the smart entry and start system, allowing you to unlock and get going while the key remains in your pocket or bag.

Gently grip the premium steering wheel on the GXL, VX and Kakadu, and you'll find the switches for cruise control, audio and phone functions at your fingertips.

You'll always stay comfortable in heated and ventilated front row seats as well as heated

second row outer seats in the Kakadu and VX (both also available on GXL with leather accented option pack). When things start heating up, air conditioning with a clean-air filter will keep you cool, featuring automatic 3-zone comfort on GXL, VX and Kakadu models, including a separate rear control panel.

With a minimum of nine and a maximum of fourteen speakers, Prado sounds as good as it looks. Experience breathtaking audio quality through Apple CarPlay,^{®3,4} Android Auto^{™,3,5} (speak to your Dealer about device compatibility)

and radio. As well as advanced connectivity via Bluetooth^{®3,6} with audio streaming or via a USB input. And all can be operated using simple touchscreen control.

Rear passengers in the Kakadu can also enjoy video entertainment provided by the integrated Blu-ray[™] player with a large 9" colour monitor, while listening on wireless headphones. The luxurious touches even extend to a refrigerated cool box in the VX and Kakadu centre console with space for four 500ml bottles.

Now go and get rough

When the time comes to farewell the bitumen and head off-road, Prado is built to take you there and safely back again. With Variable Flow Control (VFC) power steering, you'll experience the ideal feel and level of assistance to suit the conditions.

The double wishbone front and 5-link rear suspension provide excellent handling stability and comfort even when the going gets rough. The Kinetic Dynamic Suspension System (KDSS) on the Kakadu model hydraulically controls the suspension to provide gentler behaviour. The Adaptive Variable Suspension system (AVS) on the Kakadu also allows you to choose from three modes to dampen the shock absorbers to suit particular driving conditions.

You'll also appreciate the advanced off-road assistance of Active Traction Control (A-TRC) to help eliminate wheel spin on slippery surfaces by automatically distributing the power to the tyres with the best grip. When faced with heading up or down steep slopes, Hill-start Assist Control (HAC) and Downhill Assist Control (DAC) will help reduce rolling backwards or descending too fast and getting out of shape.²

The Kakadu also features crawl control to allow you to maintain a low constant speed on challenging surfaces by automatically and independently controlling both engine power and brake input to each wheel.² The Multi-Terrain Select system (MTS) on Kakadu is an evolution of the A-TRC function and allows you to select grip assistance according to the terrain. Plus the rear differential lock, available on GXL, VX and Kakadu, can be activated to further optimise grip.

Keeping you in touch with the situation, the Multi-Terrain Monitor (MTM) on VX and Kakadu allows the driver to get a close look at the conditions right around the vehicle.²

Safety throughout

Wherever your Prado takes you, an incredible array of safety features will protect you. The 'Safe T-Cell' body is designed to take impact from the front, rear and sides. Seven SRS airbags, including full-length side curtain-shield airbags, help provide you with all round protection.

Vehicle Stability Control (VSC), Anti-Lock Braking System (ABS) and Traction Control (TRC) work together to help correct any potential oversteer or understeer when cornering, while Electronic Brake-force Distribution (EBD) automatically puts more braking force on the wheels that need it most.² If you're towing, Trailer Sway Control (TSC) uses sensors to suppress sway triggered by elements including wind, bumpy roads and the steering operation.²

The reversing camera provides clear vision of what's behind,² with a Back Guide Monitor (BGM) on the VX and Kakadu. On the GXL, VX and Kakadu, parking sensors give an audible warning to help avoid certain obstacles when parking. Blind Spot Monitor (BSM) uses radar to provide a visual warning if another vehicle is detected in a blind spot,² while Rear Cross Traffic Alert (RCTA) warns you of approaching traffic detected when reversing out of a parking space.² The Panoramic View Monitor on the VX and Kakadu also provides a handy bird's-eye view display of the areas around your vehicle, making manoeuvring a breeze.²

The added active safety benefits of Toyota Safety Sense are also available as standard.

Toyota Safety Sense

Toyota
Safety
Sense

At Toyota, we believe it's simply not enough to say "safety comes first" – we prove it. That's why, in our ongoing pursuit of creating ever safer cars, now and into the future, we developed Toyota Safety Sense² (TSS). A suite of active safety features designed to help support safe driving and help protect you and your passengers.

Prado features TSS driver assistance technologies, aiming to recognise and help avoid certain hazards and collisions, giving you and your passengers greater peace of mind wherever you're headed. Prado TSS features are standard across all models and grades. Please visit toyota.com.au for vehicle and specification information.

Pre-Collision Safety system with pedestrian detection

Pre-Collision Safety (PCS) system² with pedestrian detection was developed to help reduce the likelihood of a frontal collision with cars or pedestrians. Forward Collision Warning (FCW) uses radar to help alert you to imminent threats. During braking, Brake Assist (BA) can help to slow the vehicle by applying additional force. If the driver has not applied the brakes and if the system detects a collision may be unavoidable, Autonomous Emergency Braking (AEB) can apply the brakes to help mitigate the impact.

High Speed Active Cruise Control

High Speed Active Cruise Control² is designed to help keep a constant distance between vehicles. It uses a milliwave radar to monitor the gap between your vehicle and the one in front, automatically accelerating or slowing down when needed to help you maintain a set distance.

Lane Departure Alert

Lane Departure Alert² (LDA) is designed to help prevent vehicles drifting from their lane, by monitoring road markings, and providing a visible and audible alert should it detect any deviation from the lane.

Automatic High Beam

Using a camera to sense either approaching headlights or the taillights ahead, Automatic High Beam² (AHB) aims to help maintain safe and considerate driving by switching between high and low beam as needed.

Road Sign Assist

Road Sign Assist² was developed to help recognise certain road speed signs and provide information to you. It displays the most recently recognised speed limit on the Multi Information Display.

The power and the glory

.....

The refined Prado is equipped with an impressive 2.8 litre turbo diesel engine, delivering 150kW of direct-injected power and 500Nm of torque, so you'll have the grunt to tackle the muddiest trails. Make the most of Prado's 3,000kg braked towing capacity,⁸ with peace of mind that you've got all the muscle you ever need for all your adventures.

Even with such impressive performance, this engine also delivers sufficient fuel efficiency with 7.9L/100km.⁹

Prado GX

Smart entry and start system

17" alloy wheels

3,000kg braked towing capacity⁹ – tow bar, tow ball and trailer wiring harness sold separately

- 2.8L turbo diesel engine
- 6-speed automatic
- 17" alloy wheels
- Halogen headlamps and LED Daytime Running Lamps (DRLs)
- 150L fuel tank – 87L main tank, 63L sub tank
- 3,000kg braked towing capacity⁸
- Smart entry and start system
- 4.2" colour Multi Information Display
- Rain sensing wipers
- Reversing camera
- 9-speaker audio system with AM/FM tuner, USB input and Bluetooth^{6,11} connectivity
- 9" colour touchscreen display with Apple CarPlay^{3,4} and Android Auto^{TM,3,5} – speak to your Dealer about device compatibility

Sophisticated space inside

When travelling in any environment, on any driving surface, the seating in Prado means you'll always be riding in style.

The 7-seat configuration (optional on the GX) features a 40/20/40 split sliding second row and a 50/50 split fold flat third row to allow a wide range of configurations to handle all types of loads – from seven

Black leather accented seats – Kakadu model shown

people to everything for a family adventure and anything in between. The folding third row seats and the reclining seatbacks are all power operated on Kakadu. Second row passengers will also enjoy excellent legroom and there's easy access to the third row thanks to the slide and walk in functions. And in the VX and Kakadu models (and optional on the GXL), you'll also enjoy the luxurious appeal of leather accented seats as well as the style of double outer stitching.

Start your adventure now

Because Prado feels right at home in virtually any location or situation, we've developed a range of Toyota Genuine Accessories¹⁴ to perfectly match your lifestyle. Make the most of Prado's offroading capabilities and protect it from the elements, all the while looking ruggedly stylish.

Toyota Genuine Accessories¹⁴ have undergone extensive development to ensure a perfect fit with your Prado. Drive safe in the knowledge that your bullbar has been rigorously tested,

including computer modelling and physical testing to replicate a large animal impact, and crash testing to ensure correct airbag deployment with a bullbar fitted. You can enjoy a safer towing experience with the Toyota Genuine tow bar, tow ball and trailer wiring harness.

We've optimised the entire range of Toyota Genuine Accessories to our strict quality and performance standards, so your accessories are better equipped to withstand all the

adventures you throw at them.

Go to toyota.com.au/prado/customise to find out more.

The Toyota Advantage

When you join the Toyota family, you get so much more than a new car feeling. You get a lifetime of benefits keeping you moving now and well into the future.

Discover your Toyota lifetime of advantages at toyota.com.au

Discover the freedom of Toyota Access¹⁵

Toyota Access puts you in complete control when buying a new car, with lower monthly repayments.¹⁶ Drive out of the Dealership with a clear road ahead then drive back a few years later with more options at your disposal than ever before. Whatever stage you're at in life, Toyota Access puts you in the driver's seat with flexibility and assurance. To discover Toyota Access for yourself, visit toyota.com.au/access

Capped price servicing¹⁷

A new Toyota means you don't have to worry about unexpected service costs. Every Toyota comes with a low, capped price service cost for a set number of years/kilometres. Pay the same low capped price from one eligible logbook service to the next for up to 3 years or 60,000km, whichever occurs first (including Toyota Genuine parts, labour and fluids). For the full benefits, consult a Toyota Dealer or visit toyota.com.au/advantage

Toyota Warranty Advantage

Every new Toyota is built to exceptional standards, and from 1 January 2019, Toyota vehicles are backed by a 5-year/160,000km warranty.¹⁸ If your vehicle is properly serviced and maintained per its Warranty and Service Book, we'll extend your engine and driveline warranty for an additional 2 years,¹⁹ giving you peace of mind for years to come. In the event of a claim covered by warranty, you are covered by a 60-day

money back guarantee and 7 years emergency assistance including expenses related to car hire or towing if required. For more information, visit toyota.com.au/owners/warranty

Finance to get you going

If you need a little help, Toyota Finance²⁰ can offer you a wide range of vehicle financing options. With Toyota Finance, you'll have the peace of mind of dealing with one of Australia's leading vehicle finance corporations with over 30 years experience. And with a range of flexible products and services to suit almost every need and circumstance, Toyota Finance can help find the right package for you or your business.

Insurance options

Our Comprehensive Motor Vehicle insurance policy is packed with great benefits including; agreed value cover, new vehicle replacement if your Toyota is written off within the first 3 years, use of Toyota Genuine Parts, and a Lifetime Repair Guarantee on repairs authorised by Toyota Insurance.²¹ And our Factory Approved Extended Warranty Insurance also provides benefits, for more information, visit toyota.com.au/insurance

Extend your peace of mind

Whether it's a flat tyre, lost keys or a flat battery, Toyota Extra Care Roadside Assist²² is never more than a phone call away. Available 24 hours a day, 7 days a week, our technicians are there to help you get back on the road.
