WHAT MAKES A CADILLAC A CADILLAC

It all began in 1902. A commitment to quality and excellence. As a result, for the past 37 years, more car buyers in North America have chosen to own Cadillac than any other luxury car.

Today, that commitment remains obvious in such traditional areas as fit, finish, materials, appointments and craftsmanship.

But it now becomes evident, too, in state-of-the-art and leading-edge developments in safety and technology.

Traditional or advanced, however, the ultimate test of Cadillac quality and excellence is simply this: Does it contribute significantly to owner satisfaction?

That's what makes a Cadillac a Cadillac.

COMMITMENT TO

General Motors recognizes that taking delivery of your new vehicle is a significant event. To ensure that your delivery experience contributes to your overall satisfaction, we have implemented a "Commitment to Excellence" Delivery Procedure.

This procedure includes a thorough new vehicle inspection by both the service technician and salesperson, a full tank of fuel, and a follow-up survey to determine your satisfaction with the delivery experience.

General Motors "Commitment to Excellence" is yet another excellent reason to "Look to GM Today".
