1987

## NISSAN MULTI

The 1987 Multi is just about anything you want it to be.

It's a station wagon with plenty of room for the family and all their gear.

Then again, when you fold up that rear seat and take a look at those wide sliding side doors, isn't Multi a van, too?

Take yet another point of view - from behind the steering wheel and Multi seems more like a car. It's compact. Handles like a dream. And it's loaded with creature comforts. Power

steering, power brakes, dual power driving mirrors, tinted glass, AM/FM 4-speaker stereo, cruise control, tilt steering wheel - they're all standard Multi features. Features some luxury cars would be proud to boast.

Perhaps the best way to understand just how well Multi fits into your life-style is to spend a Saturday with one.

At 8:00 AM, Multi is off to the arena with the kids for a round of pee wee hockey. By 10:00, it's pulling into the lumber store to pick up some planks for

a shelving project. Just fold the rear seats forward and load up.

After lunch, Multi is off to the market for groceries. Multi's compact size slips easily into the crowded lot. And the sliding side doors make loading quick and easy.

Later that night, Multi glides silently up to the front doors of a quaint little French restaurant to begin a well earned night on the town.

Sound like a day in your life? Then Multi is the car, van, wagon for you.

Want to travel in elegance? Travel in Multi. The front 'captain-style' seats recline for comfort and have separate centre armrests. Both the front and rear seats are upholstered in handsomely woven cloth and

the rear seat also has a fold down centre armrest. Under foot and in the cargo area is thick, cut-pile carpeting. That's style. That's Multi.

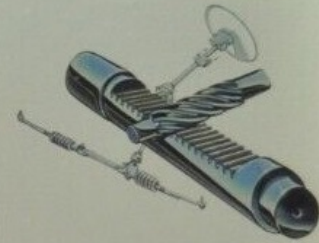

## NISSAN MULTI

Multi's electronic fuel-injected, overhead-cam 2 litre engine puts out 97 horsepower. It's a smooth performer with a small thirst for fuel and very long legs.

Multi features power-assisted front disc brakes to make driving easier and stopping safe and sure.

Power rack-and-pinion steering is yet another reason Multi is just a joy to drive. It's light, precise and gives plenty of 'road feel'.

## NISSAN MULTI 4WD

If weather conditions or your driving habits require additional traction, Multi 4WD may be the answer. Multi 4WD takes a good idea and makes it even better. Four-wheel-drive gives you added security when driving in the wet or on snow-covered,

icy roads. With all four wheels driving, traction and stability are greatly improved. And that translates into extra safety as well as the ability to get through ruts and drifts that would leave other vehicles spinning their wheels.

To put Multi into 4WD, just press the button on the shift lever. A

light on the dash indicates the 4WD mode. To return to regular front wheel drive, just press the button again. Multi 4WD is now also available with an optional automatic transmission.

Multi 4WD. Yet another of Multi's friendly faces.

## NISSAN MULTI

Driving is serious business and Multi treats it that way with an instrument panel that is clean, functional and attractive. All the instruments are placed for

quick reading by the driver. Controls all fall readily to hand for convenience and safety.

Multi's steering wheel tilts to suit your most comfortable driving stance. It swings up and out of the way for easy entry and exit.

## NISSAN MULTI

Multi drivers adjust the outside driving mirrors with power remote control. It's quick and convenient.

Multi comes with an electronic tuning AM/FM 4-speaker stereo. The sound surrounds you with spectacular fidelity and true concert quality. (Cassette deck option).

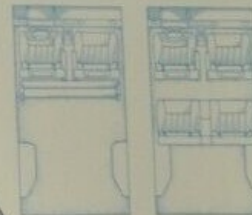

Multi's dash-mounted digital clock keeps time to help keep you on time.

Cruise control lets you set the speed, then relax. Intermittent wipers are great for those days when it only sprinkles and you just want an occasional wipe.

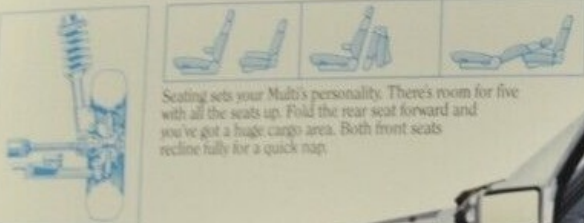

What'll it be, parcels or passengers? Multi lets you decide with plenty of room for both.

Multi's rear hatch opens high and wide for easy loading and unloading. There's no annoying lifting over high sills.

Rear window defroster is standard. Switch is mounted on the dash for convenience. Rear door child-proof safety locks are also standard Multi equipment.

Seating sets your Multi's personality. There's room for five with all the seats up. Fold the rear seat forward and you've got a huge cargo area. Both front seats recline fully for a quick nap.

Four-wheel, independent suspension gives Multi a smooth ride and excellent handling.

Multi standard equipment also includes mud flaps and All-Season steel belted radial tires.

# ACCESSORIES AND OPTIONS

Reduce wind noise and drafts by including an attractive wind deflector with your optional electric sunroof. Top it all off with Multi's versatile roof rack.

The rear air deflector for the Multi is designed to improve the aerodynamics of your vehicle while keeping the rear window free of dirt and dust for safety and visibility.

Protect the luxurious interior of your Multi from dirt and salt with these attractive colour co-ordinated floor mats.

## NISSAN "CUSTOMER FIRST"

What is 'Customer First'? A statement. An attitude. It's a way of doing business for Nissan and its dealers. Customer First is Nissan's long term commitment to ensure that all your needs, wants and expectations will be given first priority.

Your satisfaction and loyalty cannot be bought, it must be earned! The way our vehicles are designed, manufactured, and distributed is based on this premise. Further after-sales components like the Nissan warranty, Nissan's Added Security Plan, Quality Circle Owner's Surveys, Genuine Nissan Parts and Service, Dealer Excellence Programs, Master Technician Awards and even a Customer Arbitration System

show Nissan is determined to satisfy you, the customer, long after you've driven off the lot.

Bottom line. Customer First means that Nissan and its dealers are determined to keep you satisfied.
