S N

For generations, the American family sedan has
been epitomized by the large, less-than-nimble
automobile. A car whose operating efficiency was
secondary to its pretentious appearance and boulevard
ride. Dodge has changed that—without compromising those
traditional values that will always be in character with the
highest standards of automotive excellence. On the following
pages, you will become acquainted with a car whose technology
and design give new meaning to the term "family sedan." An
automobile conceived, engineered, and built for the times in which we
live. And the roads on which we drive. A car named Dynasty.

For generations, the American family sedan has
been epitomized by the large, less-than-nimble
automobile. A car whose operating efficiency was
secondary to its pretentious appearance and boulevard
ride. Dodge has changed that—without compromising those
traditional values that will always be in character with the
highest standards of automotive excellence. On the following
pages, you will become acquainted with a car whose technology
and design give new meaning to the term "family sedan." An
automobile conceived, engineered, and built for the times in which we
live. And the roads on which we drive. A car named Dynasty.

Redefining the American Family Sedan.

Here you witness a unique new-size contemporary six-passenger automobile. All-new from custom-made tires to classic, crisp roof line, Dynasty orchestrates front-drive efficiency, exceptional performance, ride dynamics, and handling prowess in a masterpiece of modern styling and luxurious interior comfort. Elegant, contemporary, and loaded with a wealth of amenities, this all-new sedan allows you to indulge your own good taste.

If you're looking for the only all-new family sedan in the world that gives you the unique combination of comfortable six-passenger seating, responsive handling, available overhead cam V-6 performance* and antilock brakes, the superior traction of front-wheel drive, plus our 7/70 Protection Plan as described on page 20...it's gotta be a 1988 Dodge Dynasty LE.

*See engine chart on page 19.

ABOUT THIS CATALOG. SINCE THE TIME OF PRINTING, SOME OF THE INFORMATION YOU'LL FIND IN THIS CATALOG MAY HAVE BEEN UPDATED.
ASK YOUR DEALER FOR DETAILS.

SOME OF THE EQUIPMENT SHOWN OR DESCRIBED THROUGHOUT THIS CATALOG IS AVAILABLE AT EXTRA COST.

A New Dimension Of The Dodge Legend.

Return with us now to the days when cars were <u>automobiles</u> and the name Dodge represented the finest driving sedans on the road. Sedans with performance to spare, style that reflected the latest innovation and roominess to accommodate your pleasure. That time is here again.

This is Dynasty for 1988. The latest reflection of the long and proud Dodge heritage. An automobile with classic yet contemporary lines. Modern, smooth styling, yet a fresh, crisp appearance. A look that gives it an elegant profile whether it is on the road or at rest in your driveway.

Here are the look and the feel of luxury sedans costing considerably more, but with an abundance of standard features. Every feature, from Dynasty's aerostyle halogen headlights and luxury wheel covers to its spacious carpeted 16.5-cubic-foot trunk, tells you that every inch of this Dodge

is an automobile of serious character.

This is a fully spacious six-passenger sedan designed for adults who demand mature comfort and luxury while traveling. The Dynasty features a cloth bench seat complete

with a fold-down center armrest. Controls and instrumentation have been thoughtfully positioned about the driver. The
available power windows and door locks are conveniently
located right on the door armrest. A spacious threepassenger rear seat and amenities such as adjustable
reading lights enhance the convenience of the rear lounge.

Dynasty is obviously an automobile of distinction. With flush windshield and backlight, cornering lights, dual remote outside mirrors, and painted upper body and deck lid strips. Even its aircraft-style doors are as much a part of form as they are of function. They wrap over the roof to aid in entry and exit while improving aerodynamics. Tinted glass all around and a standard rear window defroster and intermittent windshield wipers help to improve visibility.

Beneath Dynasty's refined good looks is a network of

performance sophistication to rival that of any world-class touring sedan. Here's real-world performance in a standard fuel-injected 2.5-liter engine, automatic transaxle, and responsive front-drive. It's a combination that provides the torque, passing power, and responsive handling for that extra margin of safety during merging and passing situations. And with standard rack-and-pinion steering, an available four-wheel antilock disc brake system that automatically helps prevent brake-lock and skids during emergency stops or on wet and slippery surfaces, and specially designed and "tuned" radial dual-striped white sidewall tires, Dynasty redefines total balanced performance. To increase your performance, you can choose the available multipoint fuel-injected 3.0-liter V-6 engine.*

Dynasty LE is shown above and at left in Bright White.

*See engine chart on page 19.

Excite Your Senses. Indulge Your Pleasure.

It started with an inspiration. Design an extremely pleasurable environment for six passengers in a spacious interior.

Establish priorities. Such as utmost comfort and conve-

nience, luxurious amenities, full visibility, and real security. Now, savor the exceptional results.

Dynasty. More than just an interior. Here's an intimate,

personal setting that accom-

modates not merely people but also a sense of indulgence.

Settle in. Make yourself comfortable. Look ahead.

The first thing you notice is the fully accessible onboard

instrument cluster. Its easy-tosee rectangular motif features
an electrically driven speedometer and a trip odometer.

A full complement of analog
gauges provides instant infor-

mation on vital conditions. There's a convenient graphic message center to supply you with important reminders.

Notice the Cheyenne Hickory woodtone trim, the standard AM stereo*/FM stereo electronically tuned radio and soft-rim steering wheel specially tailored to your grip.

In Dynasty LE you'll relax in individually adjustable 50/50 cloth seats with center armrests. Even the rear seat has a folding center armrest. You'll appreciate the soft-touch trim panels on the doors. They even feel rich.

Glance overhead and discover the convenient console.

You'll find dual individually operated map/reading lights

and provision for the available power roof switch. You'll also

notice nice touches of attention such as door courtesy lights.

Yet there's so much more. Fully carpeted passenger compartment. Rear window defroster. Lockable glove box with removable coin holder and trunk release button. Dual visor vanity mirrors. Retractable cup holders. This Dynasty LE interior is shown in Taupe.

*Some AM stereo broadcasting may not be compatible with this radio.

The Achievement of Engineering Perfection.

Providing the American automobile buyer with the best allaround combination of classic styling, luxury, comfort and real-world performance didn't just happen. It evolved. It was the coming together of a knowledgeable heritage and the technological possibilities of the future. Computer-aided design and manufacturing techniques helped ensure that it would be a vehicle of accuracy and perfection. And it was the expertise and experience of professional designers and engineers that brought it all together.

Case in point. Consider the newly designed available 3.0-liter V-6 engine.* It is a powerhouse of improved performance that is capable of generating instant acceleration when you need it and with an eye on efficient performance at all times. It features the latest in modern design trends, with an overhead camshaft for each bank of the engine

and multipoint electronic fuel injection to improve hot starting and acceleration and to maximize fuel efficiency. For those interested in performance, it can develop 136 horsepower at 4,800 rpm and 168 pounds-foot of torque at 2,800 rpm. The engine also features a single-module engine controller to monitor engine operation. As you would expect in a car of this integrity, the convenience of an

automatic transaxle is standard.

Another case in point. Dynasty LE's available antilock brake system. This four-wheel power-assisted disc brake system is electronically controlled to provide driving stability during braking on wet or slippery surfaces. If a sensor detects a wheel locking up or going into a skid, the system automatically "pumps" the brakes up to 15 times per

second. To determine when antilock action is required the control unit senses the speed at each of the wheels.

True comfort and driving pleasure are also dependent on a sound suspension system. Dynasty's front and rear suspension has been specially designed to provide a comfortable, controlled ride. In addition, an automatic load leveling system is available. It senses the height of the rear shock absorbers and automatically adjusts to the proper ride height when passengers or luggage are on board. Specially designed and "tuned" P195/75R14 tires that decrease rolling resistance in tandem with Dodge's frontwheel drive technology contribute to the smooth ride, allweather traction, and responsive handling. Available 14-inch cast aluminum wheels enhance its elegance. Even Dynasty's trunk has the special touch of carpeting on floor and sides to pamper over 16.5 cubic feet of luggage.

The Dynasty shown at the left is in Black Cherry Pearl Coat with an elegant Bordeaux interior. *See engine chart on page 19.

The More You Need, The More Dynasty Offers.

Optional Infinity Sound Systems. Infinity II (late availability) and Infinity I Sound Systems can add live concert audioability to your interior environment. Eight strategically located speakers, cassette tape player, and electronic tuning. Joystick speaker balance control, seek/scan toggle control tuning and volume control, and AM* stereo/FM stereo capabilities are featured. The Infinity II System, shown at top, also features a 20-station pushbutton memory and five-band electronic graphic equalizer with pushbutton control for even more convenience.

Dual rear seat phone jacks. To enhance listening pleasure while traveling, headphone jacks are provided for rear seat passengers with the available Chrysler Infinity I and II Sound Systems. When the headphone jacks are in use, the rear speakers are shut off. A volume control lets passengers regulate sound level from the radio output to their personal listening tastes. The jacks accept two standard mini-plug stereo headphones of your choice.

Standard message center. Just so you don't forget, Dynasty will remind you with a visual alert when windshield washer fluid is running low or when a door or trunk lid are ajar. Optional air conditioning.† A four-speed blower enables you to adjust the level of comfort inside Dynasty with this system...no matter how hot the weather outside.

Optional automatic power door locks. Conveniently located in front door armrest to allow driver and front passenger to automatically lock and unlock doors for added safety and security. Door locks have an automatic speed-sensitive system that automatically locks doors at 15 mph.

Optional dual power remote control mirrors. Power remote

of a convenience feature like this on a car like Dynasty. 15:00 DNR AUTO REVERSE

control mirrors simplify adjustments when a different driver is behind the wheel. The mirrors are also electrically heated to clear fog, ice, and snow during inclement weather. Fingertip location of controls on the door panel allows you

to keep your mind on driving. (Available in the Power Convenience Features Package only.) Optional power windows. You would expect the availability

Controls are built right into the driver's armrest for easy access. The power windows include a lock feature for added convenience and security. (Available in the Power Convenience Features Package only.)

Standard map/reading lights. Dynasty is a well thought-out automobile—as evidenced by the overhead map/reading lights. They're located in the overhead console. For rear seat passengers, reading lights are located in the roof pillars.

Standard cup holder. Here's a convenient touch for morning rush hour traveling. Pull on this innocent looking handle and you'll slide out a handy cup holder. Pull more and you'll discover a second cup holder for your passenger.

window areas. Illuminated mirrors available in package. Optional tilt steering wheel. Provides easy entry and exit as

Standard sun visors. Sun visors/vanity mirrors for both front

well as allowing you to adjust the wheel six ways to the most comfortable angle for you when driving. (Available in the Deluxe Convenience Package only.)

Optional wheel covers. Enhance the classic appearance of your Dodge Dynasty or Dynasty LE with the 14-inch wire wheel covers shown at top. They include locks and are available with the Popular Equipment Discount Package. The Dynasty LE comes handsomely equipped with standard 14-inch premier wheel covers. Shown at the bottom are the standard Dynasty luxury wheel covers.

Standard electronically heated rear window defroster. Controlled from the instrument panel, the defroster keeps the rear window clear of snow, ice, and fog.

Chrysler Purchase Assistance Program for the Physically Challenged

Cash rebates up to \$500 are available for qualified adaptive driving devices on 1988 Chrysler Motors cars and trucks. For further information, contact your dealer or the PHYSICALLY CHALLENGED RESOURCE CENTER at 1-800-255-9877.

^{*}Some AM stereo broadcasting may not be compatible with this radio.

[†]There are special engine cooling requirements for field-installed air conditioning. Failure to follow these requirements may invalidate warranty. See your dealer for details.

Consider Leasing

Many of today's new car prospects are wisely considering leasing as an alternative to buying. Leasing a new Dodge Dynasty usually involves a small security deposit and a first month's lease payment. Monthly payments are usually less than financing a new car purchase. Ask your dealer for details.

MOPAR parts are engineered by Chrysler Motors for use in your new Dodge Dynasty. When replacement is necessary, be sure to specify MOPAR parts. Used by professional mechanics all

All product illustrations and specifications are based upon current information at the time of publication approval. Although descriptions are believed correct, accuracy cannot be guaranteed. Chrysler Motors reserves the right to make changes from time to time, without notice or obligation, in prices, specifications, colors and materials, and to change or discontinue models. See your dealer for the latest information.

Litho in U.S.A.

"There is a new spirit at Dodge. A spirit to create the very best total performance automobiles built in America. This new enthusiasm is visibly apparent in the excitement and dedication shared by all who are associated with the name Dodge. Building on the remarkable achievements of the past, Dodge is constantly redefining automotive concepts with daring and exciting new approaches in transportation.

This spirit is also reflected in the complete confidence we have in the products we sell. Our unprecedented 7/70 Protection Plan* is testimony that our ultimate goal is to satisfy you with our products, our attitudes, and our service.

If you are a person who enjoys the driving experience, there is a whole new spirit of excitement awaiting you behind the wheel of a 1988 Dodge automobile."

Lee a Sacona

*7/70 Power Train Limited Warranty

Upon expiration of the basic 12-month or 12,000-mile limited warranty, coverage is extended on power train components to seven years or 70,000 miles, whichever comes first. A deductible applies. See your dealer for a copy of the warranty. Government, law enforcement, limousine, taxi, and export vehicles excluded.

7/100 Anti-Corrosion Limited Warranty

Your dealer will repair or replace at no charge outer body sheet metal panels found to have developed perforation (rust-through) in normal use up to seven years or 100,000 miles, whichever comes first. See your dealer for a copy of the warranty.

Optional Service Contract

Chrysler Service Contracts provide you with additional peace of mind protection for your new vehicle. Chrysler Motors offers a variety of plans to meet your needs. Plan coverage begins after your vehicle's basic warranty expires. A deductible applies. Allowances for car rental and towing are also included.

Buckle up for safety.
