

CRX '89

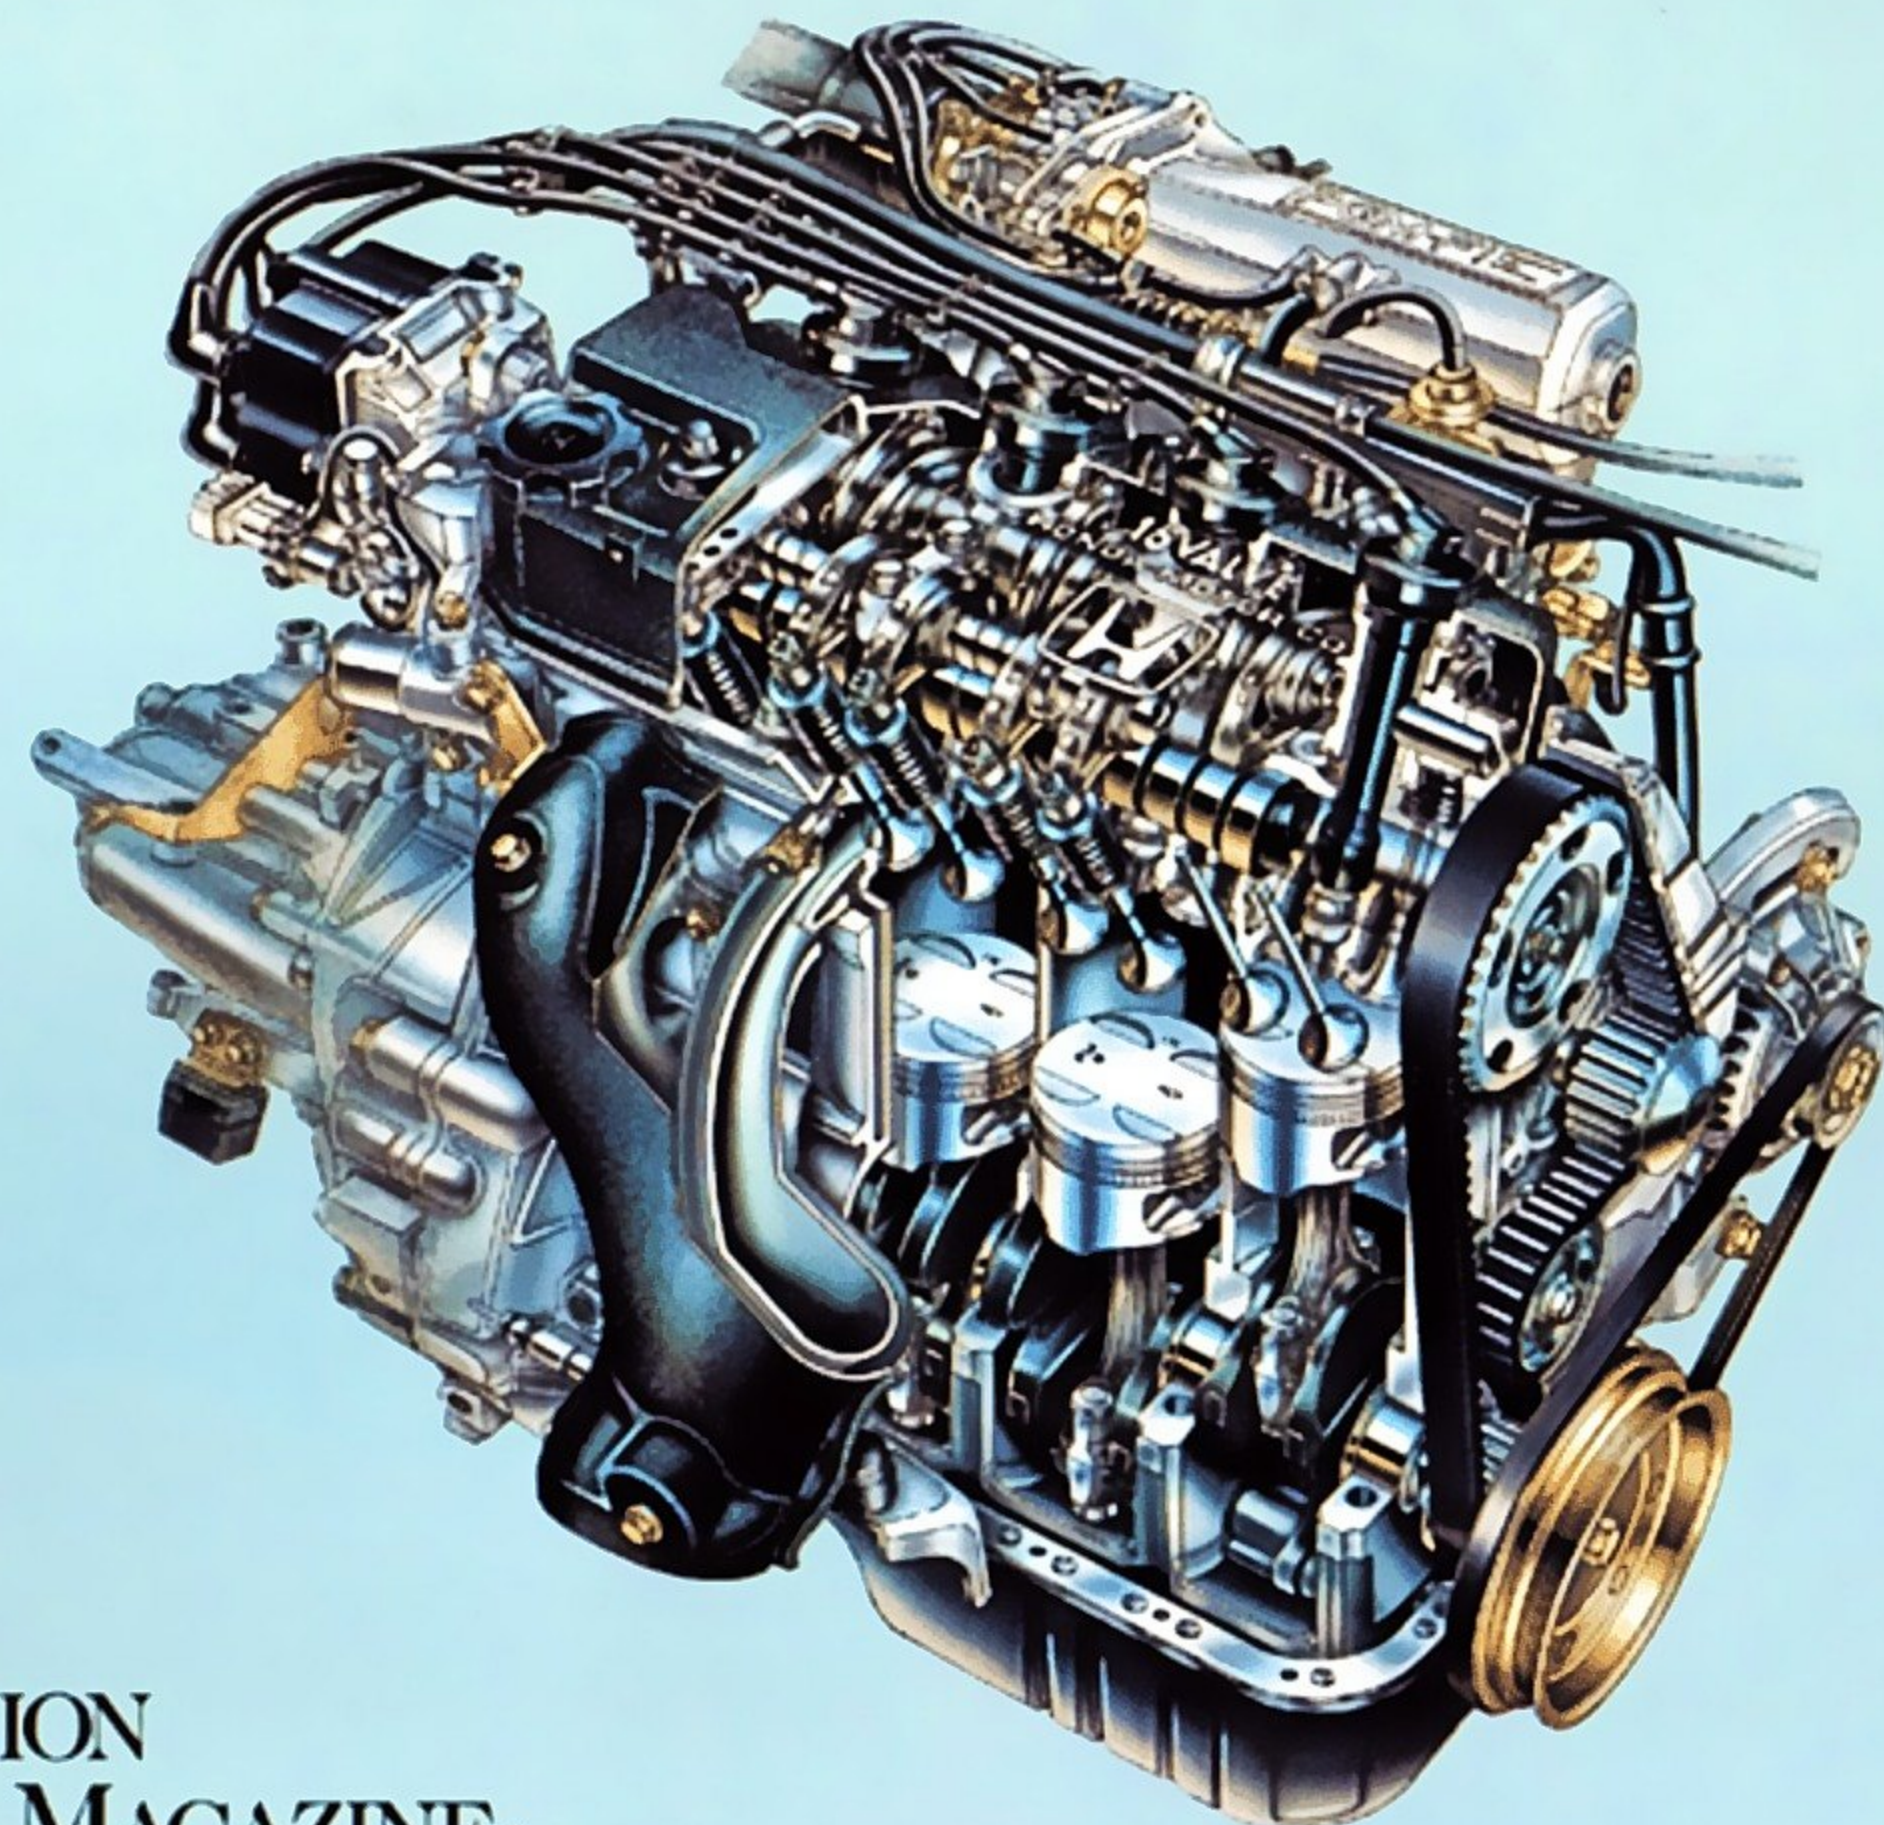

'89 CRX

When you have rave reviews
from the world's top automotive experts,
you don't need car catalogue writers.

"The winner: CRX... Import car of the year."

MOTOR TREND

AS THE EXPERTS AT MOTOR TREND MAGAZINE SO APTLY PUT IT:

"For the second time this decade Honda Motor Company has repeated its heretofore unprecedented 1-2-3 finish in the competition."

"Now further refined and endowed with numerous mechanical improvements to match its sleek new aero looks, the second generation CRX is destined to keep turning heads and winning hearts well into the 1990s."

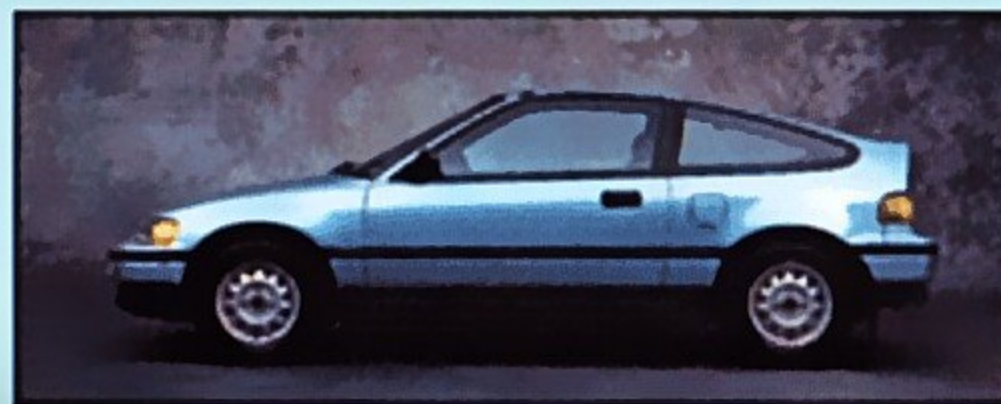

"We express our congratulations to team Honda on another splendid winning effort. It's an honor well deserved for one of today's most innovative auto makers."

AND NOW FOR A SECOND OPINION FROM THE WORLD OF WHEELS MAGAZINE:

"The CRX Si is definitely in the running as the best automotive buy in today's market place."

"If you can arrange the appropriate conditions zero-to-100 kph (60mph) will take a little over eight seconds. The CRX will cruise all day at 140 kph effortlessly."

"And the little rascal is just an outright gas to drive." There. They've pretty well said it all.
