*A few words about our prices...*The accessories found on the following pages have been designed to have a wide range of applications on a variety of vehicles. Prices for these accessories will vary depending on your specific vehicle and application — due to differences in size, style, adapting kits, etc. Space will not permit us to list the specific price for the many possible applications of each accessory. Where a single retail price is suggested, that price will usually not be affected by different applications. Where a suggested retail price is listed as being "from" a given price, that price represents the lowest price within that product's range of application.

*How we can help you...*We'd like to assist you with your purchase in any way we can. So please feel free to see or call our parts manager for specific pricing and application information concerning any of the accessories found in this catalog.

*How you can help us help you...*When placing an order with our Parts Department, please include the special Ford Base Part Number assigned to the accessory you want. (These numbers appear at the end of each accessory description in this brochure.) We'll use the number as a cross-reference, to make certain you'll receive exactly what you've requested.

The prices, descriptions and specifications, in this book were in effect at the time it was approved for printing. Our policy is one of continuous improvement and we reserve the right to change specifications, design, or price without notice and without incurring obligation.

In fact, there's no drilling necessary (a permanent adhesive holds the mounting brackets directly on the rear window glass). The Louvers lift up for cleaning. Available for Escort Hatchback, EXP (except Turbo), and Mustang Hatchback (without rear window wiper). *Louvers*. Base Part Number: 44268. Suggested retail price: from \$164.70
