

The New  
**05 ESCAPE**

## > Escape With The Leader.

Everywhere from urban fast lane to rugged backcountry, Ford SUVs empower you with confident capability. Escape, Explorer Sport Trac, Explorer, Expedition and Excursion – each proudly proclaims its Ford heritage, yet each clearly makes its own statement. Already the best-selling SUV in its class,\* Escape just keeps getting better. With its updated exterior and interior styling, smart new technology and aggressive attitude, the new 2005 Ford Escape leads the pack.

\*Based on 2003 small sport utility sales.

### Keep Your "Feet" Firmly Planted

Independent Rear Suspension (IRS) – When making a sudden on-road maneuver or driving over an obstacle off-road, IRS helps keep you grounded by allowing each wheel to react independently. It flexibly counteracts the motion and delivers enhanced agility and control.

## > Escape Confidently.

Loose gravel. Fallen leaves. Uneven pavement. Loss of traction can occur unexpectedly. Escape's all-new available Intelligent 4WD System will get you through with confidence. The ultimate in 4-wheel-drive convenience, it smartly maximizes traction at all times, reacting to changing road conditions in the blink of an eye by automatically delivering torque to the axle that has the best traction. Incredibly complex, yet incredibly freeing, Escape's Intelligent 4WD System lets you keep your focus where it belongs – on the road.

### Free Yourself To Enjoy The Ride

Intelligent 4WD System – It's always on and always working. So no button, dial or lever is needed. This available system monitors traction (200 times per second – much faster than any person could) and automatically adjusts torque distribution as necessary. So relax and have fun – let Escape's Intelligent 4WD System do all the work for you.

### Extra Fun When You Get There

3500-lb. Towing Capacity – With Escape's Trailer Tow Package, you've got the power to bring your water toys (or other tow-behinds) along on your next vacation. Included in the XLT No Boundaries™ Package, available on all XLT models and Limited.

Shown with Trailer Hitch Drawbar accessory.

### Double Your Adventure Potential

No Boundaries™ Rack System – Load up to 100 lbs. of gear in its rooftop position. Or double your carrying capability when you unlock the top rack, pull it down, snap it in place and load up to 100 lbs. of gear – on each rack. Exclusive to the XLT No Boundaries Package. See your Ford Dealer for available accessories (JAC Vertical Bike Holder shown).

Escape XLT with XLT No Boundaries™ Package \_ Sonic Blue Metallic

#### Maximize Your Power

Duratec 30-3.0L V6 Engine – Refined for 2005, this mighty 200-hp engine and its automatic transmission feature smoother shifting, an improved launch-performance feel and a smoother idle. Towing capability is 3500 lbs. when properly equipped. Standard on all XLT models and Limited.

## > Driven To Deliver More Fun.

Escape's refined Duratec 30-3.0L V6 engine features a new processor that's over 5 times faster than previous designs, greatly improving its overall performance. Escape's all-new Duratec 23-2.3L I4, standard on XLS, is smartly designed to deliver a quieter, smoother, more powerful ride and higher towing capacity than ever before. Factor in Escape's remarkably responsive power rack-and-pinion steering and 4-wheel independent suspension, and you'll be having more fun than you can imagine.

#### Most Improved Player

ALL-NEW Duratec 23-2.3L I4 Engine – This superior engine delivers a full 153 hp and 152 lb.-ft. of torque. And it features a 1500-lb. towing capacity when properly equipped. It's also available with your choice of manual or automatic transmissions. Standard on Escape XLS.

#### It's Time To Floor It

ALL-NEW Floor Shifter – Escape's new centrally located shifter, included with the automatic transmission, is guaranteed to induce a sporty attitude in even the most reserved.

#### Stop 'Em In Their Tracks

4-Wheel Anti-Lock Braking System – Now standard on all Escape models, ABS with Quick Brake Assist can recognize hard braking and help deliver maximum braking power to achieve a shorter stopping distance.

Escape XLT Sport – Red Fire Metallic  
available power moonroof

### Get The Facts – Instantly

NEW Message Center – Escape Limited drivers can find out everything from their average fuel economy to the fact that they've got a lamp out somewhere, just by glancing at this LCD display tucked into the bottom of the tachometer.

## > Clearly In Command.

It's important to feel in control on the road. In the new Ford Escape, you will. We restyled its interior just to make sure. White backgrounds and clear lettering make the warm-steel-framed tachometer and speedometer easy to read. Large buttons and dials make it easy to control everything from the standard air conditioning to the standard 4-speaker, 6-disc in-dash audio system on all XLT models and Limited. And, we added a sporty new floor shifter accented in warm steel for automatic transmission models. Now you're ready to take control.

### Amazing Sound From Deep Within

MACH® 300 Audio System with 8" Subwoofer – This available 6-disc in-dash setup features 320 watts of peak power channeled through 7 strategically placed speakers, including an 8" subwoofer (tucked below the rear cargo area trim) that provides deep, powerful bass tones. It's also Sirius Satellite Radio\* capable.

\*See your Ford Dealer for activation details.

### Big Or Small, It Holds 'Em All

Dual Cupholder with Removable Insert – Not only did we make the cupholders deeper for a more secure fit, we also added an insert that can be removed to fit larger cups for those really big thirsts.

### Time To Tone It Down

Auto-Dimming Rearview Mirror – Standard on Limited, this smart mirror automatically darkens when it senses the harsh light of another vehicle behind you, saving your eyes from that nasty glare without any effort on your part.

Escape Limited \_ Ebony Black Interior  
available Limited Luxury Comfort Package

## > Escape At Its Finest.

The stylish comfort of Escape's redesigned interior makes every journey fun. When you're headed out with family and friends, everyone'll have plenty of room to relax. Thanks to Escape's wide stance, you get a full 100 cu. ft. of passenger space. Those up front can kick back in dual reclining seats and take advantage of the 41.6" of leg room, plus 40.4" of head room. Escape Limited drivers will love the new premium leather-trimmed seats with perforated inserts and the 6-way power-adjustable driver's seat. Standard, of course.

### Just Say "Ahhh"

Heated Driver and Front-Passenger Seats – There's nothing better than the radiating warmth of heated seats on a chilly morning commute. Included in the available Limited Luxury Comfort Package.

### Keep Things Tidy

NEW Floor Console – Redesigned to deliver even more convenience, Escape's handy floor console features CD storage space within the padded armrest, new cupholders with a removable insert, an essential power point and another storage bin up front.

### Lighten Up

Power Moonroof – Catch a breeze on sunny summer days or search for the Big Dipper on cool, cloudless nights – with the push of a button. Includes mini-overhead console with storage bin and map lights. Available on all XLT models and Limited.

Escape XLT – Medium/Dark Pebble Interior  
available leather-trimmed seats

### Supporting Your Adventures

NEW Premium Cloth Seats – Advanced pressure-mapping technology was used to redesign Escape's sporty, dual reclining bucket seats, delivering more comfort and support. 6-way power driver's seat shown in new Medium/Dark Pebble cloth, also available in Medium/Dark Flint cloth. Standard on Escape XLT and XLT Sport.

Escape XLT 4WD – Black  
available side step bars

## > Freedom Meets Flexibility.

Escape's capability enables you to make the most of life, and its adaptable interior helps you enjoy the journey. Craving the adventure of a road trip? Or would you rather just run around town? With the rear seats folded down, a cavernous 62.5-cu.-ft. cargo area gives you room to gear up for a week-long vacation on the waterfront or a weekend of do-it-yourself projects. And even with the seats up, you still have 29.3 cu. ft. of space behind the 2nd row to fill with fun stuff. Either way, the new Ford Escape's got you covered.

### Take A Load Off

Dual-Access Rear Cargo Area – Raise the entire liftgate to load large items easily, or keep it closed to hold existing cargo in place while you stow small stuff quickly through the separate flip-up liftglass.

### Echoes With Possibility

Cavernous Interior – With both sides of the 60/40 split-folding rear seats down, Escape gives you a full 62.5 cu. ft. of cargo space to fill with gear for your upcoming adventure or bounty from your next shopping trip.

### Quick-Change Artist

Standard 60/40 Split-Folding Rear Seats – Need to cart your latest find back home or over to a friend's place? These seats make it fast and easy to reconfigure Escape's spacious rear cargo area.

### Keep It Under Wraps

Retractable Cargo Area Cover – The heavy-duty vinyl construction of this available cover helps keep the contents of your rear cargo area confidential. Standard on Limited and available on all other models.

Escape XLS – Norseia Blue Metallic  
available aluminum wheels, side step bars and roof-rail crossbars

## > Escape The Unexpected.

We can't always anticipate what'll happen next in life. Fortunately, the new Escape offers you peace of mind. Every Escape starts with sturdy unibody construction, combining body and chassis components to form a single, rigid structure that's lightweight, yet incredibly strong. And every door gets ultra-high-strength steel reinforcement for extra protection in side-impact collisions. For 2005, we've advanced Escape's historic emphasis on safety with the standard Personal Safety System™ and available Safety Canopy™ System.

### "Sees" Where You Can't

Reverse Sensing System – This helpful system audibly alerts you to objects behind the vehicle when backing up. The closer you get, the quicker it beeps. Included in the available Limited Luxury Comfort Package.

### Help From Above

NEW Safety Canopy™ System – Our available, patented Safety Canopy Side-Curtain Airbags deploy from the headliner on both sides of the vehicle to cover most of the glass area along both rows of seating. Segment-exclusive rollover sensors direct deployment in the event of a rollover or side impact. They also remain inflated longer than the front airbags to help further protect occupants.

### Your Best Defense Is A Good Offense

Head Restraints and 3-Point Safety Belts – Escape has both features standard in all seating positions. Plus, the driver and front passenger get height-adjustable shoulder belts.

### Let These Bear The Brunt

Crumple Zones – Strategically placed at the front and rear of every Escape, these areas help absorb the force of an impact and direct it away from you and your passengers.

### Keeping Things Secure

Essential Security Features – Our SecurILock® passive anti-theft system and remote keyless entry with panic alarm are both standard on every Escape. Another great standard feature, our Battery saver with headlamps-off delay, "saves" your battery from running down by shutting off any lights (interior or exterior) accidentally left on after you've exited the vehicle. A perimeter alarm in the available Convenience Group helps deter would-be thieves.

### Tailor-Made Protection

NEW Personal Safety System™ – Standard on every 2005 Escape, this innovative system enhances protection for the driver and front passenger. Utilizing a network of smart sensors, it customizes the deployment level of the dual-stage front airbags based on 4 criteria: whether a front passenger is present and his/her weight range; the position of the driver's seat; whether the front safety belts are in use; and the overall severity of the crash. These details help the system deploy the front airbags in just the right manner, at just the right time. A clever little indicator light (shown at right) illuminates to let you know the front-passenger airbag has been automatically disabled if there's something (or someone) small on the front-passenger seat. It's just another reminder that we're passionately committed to delivering outstanding vehicles that can truly improve your life.

Always wear your safety belt and secure children in the rear seat.
