Stretch out, relax and enjoy the bountiful space as you rediscover the road. Comfort and style: that's Crown Victoria LX. From the 8-way power driver and right-front-passenger seats and available driver and right-front-passenger power lumbar supports, to the available leather-wrapped steering wheel and the distinctive woodgrain-appearance trim, you'll revel in its luxurious touches.

Crown Victoria LX in Arizona Beige Metallic with available equipment

THE SKY'S THE LIMIT

With the available moonroof, you can soak up rays, bathe in starlight or just enjoy a pleasant breeze, all with the touch of a button.

THE GREAT EQUALIZER

Power-Adjustable Pedals - These available brake and accelerator pedals move so that tall and short drivers alike can find uncompromised comfort.

PERSONAL COMFORT ZONE

Electronic Automatic Temperature Control - This available feature allows you to select the air temperature that pleases you most.

VAST INNER SPACE

Full-Sized Trunk – Crown Victoria offers a spacious trunk with 20.6 cu. ft. of storage. Its low liftover height makes loading and unloading a breeze, while the available convenient storage compartment allows you to secure smaller items.

Remember when driving was fun? Well, it can be again with Crown Victoria LX Sport. Slip behind the wheel and take pleasure in the smooth, even ride, as the 239-hp 4.6L SEFI V8 engine supplies all the power and confidence you need. The clear analog instrumentation, center console shifter, and leather-wrapped steering wheel with speed control and secondary audio and climate controls all enhance your total driving experience. Luxurious leather-trimmed seating, Dual-Media audio system, Electronic Automatic Temperature Control, woodgrain and chromed accents, and overhead console with compass and map lights are included as well.

Crown Victoria LX Sport in Black

LIGHT IT UP

Overhead Console – Individual map lights are there for you and your front passenger. A digital compass will help confirm your course.

THAT CERTAIN GLINT

17" 5-Spoke Alloy Wheels – Standard on LX Sport, these machined-aluminum rims help seal the deal whether they're rolling or parked.

TWICE AS NICE

Dual Exhaust – Crown Victoria LX Sport comes with dual exhaust. Inside and out, LX Sport looks ready to run.

YOUR SAFETY IS OUR CONCERN

Personal Safety System® – Within milliseconds in certain frontal collisions, advanced sensors measure the severity of impact. Then they decide how to protect you and your right-front passenger. The system also employs a Front-Passenger Sensing System (FPSS) to determine whether the passenger airbag should be activated or not. FPSS detects if the right-front-passenger seat is occupied and automatically activates or deactivates the airbag accordingly.

AN ALL-STAR PERFORMER

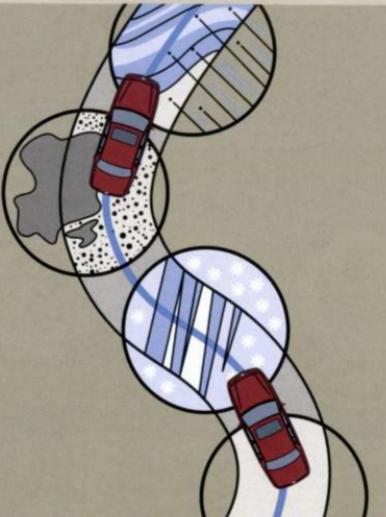

For 10 years in a row,* Crown Victoria has earned the 5-Star NHTSA frontal crash test rating for both the driver and right-front-passenger seating positions. That's the kind of protection you deserve. *1996–2005.

EASE OF MIND

Front-seat side airbags are available with the LX Premier Group and the LX Sport Handling and Performance Package.

ROAD-GRIPPING TECHNOLOGY

Available All-Speed Traction Control – This feature improves traction on slippery or loose surfaces by using a combination of brake and/or engine control to reduce wheel spin. It's nice to have on slippery roads, icy surfaces, and even when accelerating out of a turn.

THE STRONG, SILENT TYPE

State-of-the-Art Hydroformed Frame Manufacturing – This process creates precision tolerances so frame sections can be tightly bonded to the machined-aluminum crossmember. The finished structure is extremely rigid and contributes to Crown Victoria's legendary, hushed ride.

STEERING EASE AND CONTROL

Power Rack-and-Pinion Steering – This system varies its level of steering assistance based on vehicle speed. When parking, it provides maximum assistance to make turning the steering wheel easier. At higher speeds, it delivers less assistance for better road feel and more controlled response.

SPECIFICATIONS

STANDARD FEATURES

SAFETY/SECURITY

Personal Safety System* for driver and right-front passenger -With dual-stage airbags,* safety belt pretensioners, safety belt energy-management retractors, safety belt usage sensors, driver's-seat position sensor, Front-Passenger Sensing System, crash severity sensor and restraint control module
