

**WHAT DOES IT TAKE TO EARN THE  
RIGHT TO BE YOUR NEXT F-150?**

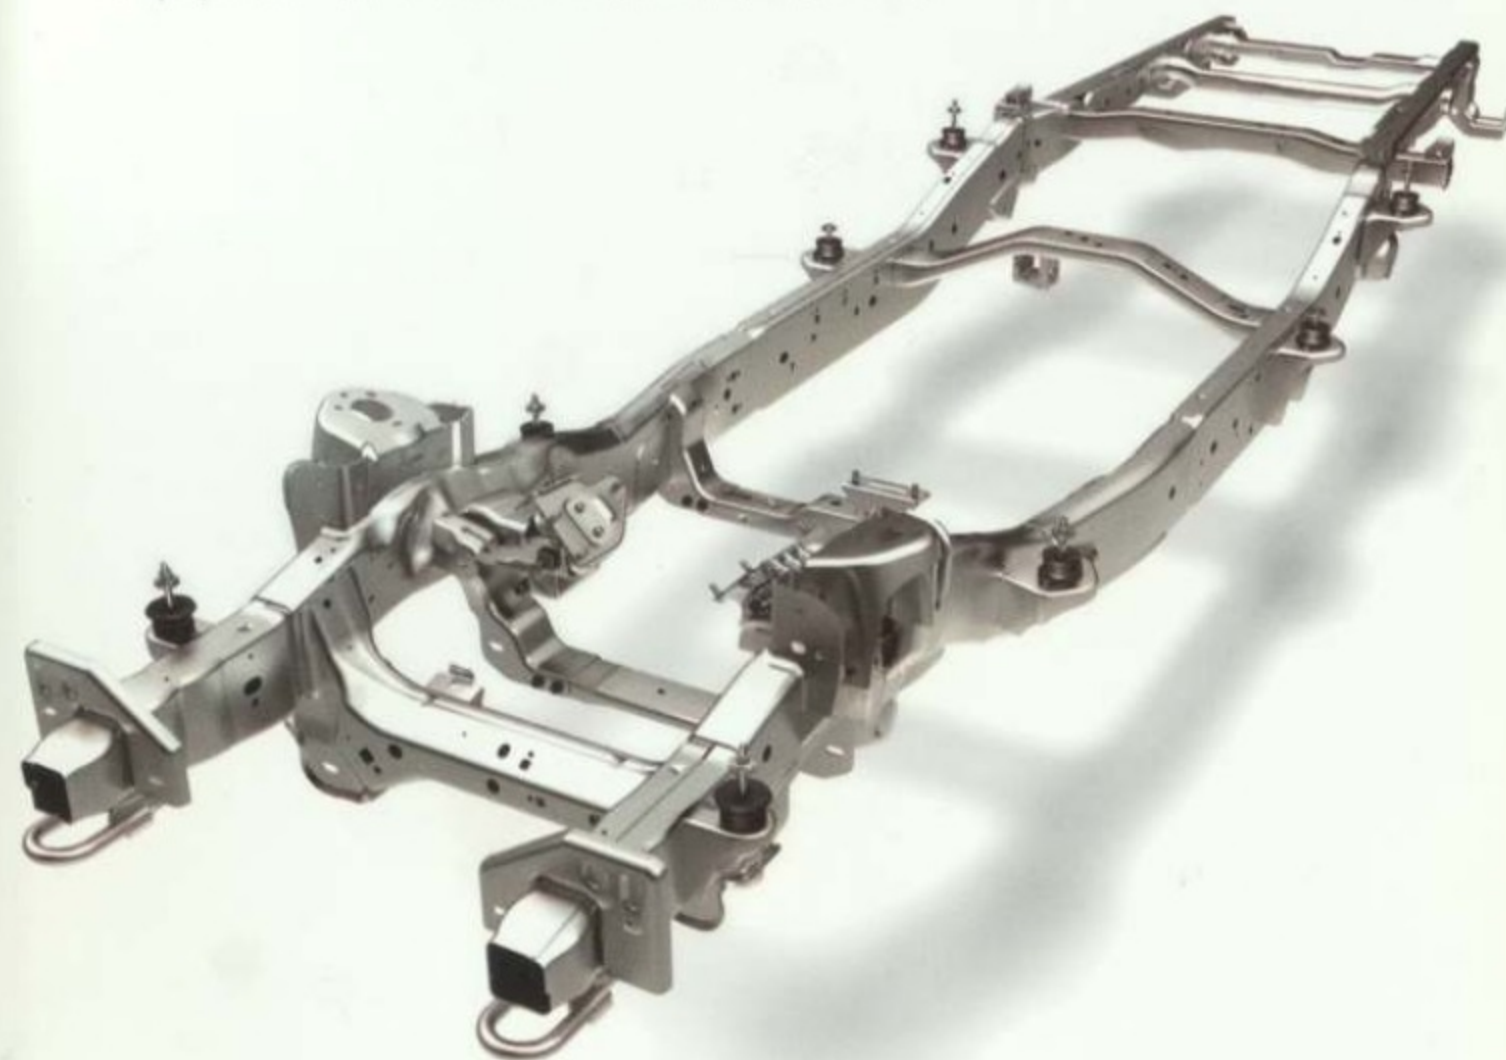

### THE MOST LOW-END TORQUE.

We added an extra intake valve to the new 5.4L 3-valve Triton® V8 to let more air into each cylinder. Since combustion is now more efficient, this engine gives F-150 the most low-end torque\*\* in its class.\* And that makes it easier for you to pull heavy loads from a dead stop.

### THE STRONGEST FRAME OF ANY FULL-SIZE PICKUP.

When we began building the strongest F-150 yet, we had to start with the frame. Why? Because things like handling, towing capacity and safety all depend on the strength of a truck's backbone. No one else has a frame like this. Maybe that's why no one else can tow 9,900 lbs. or handle 3,000 lbs. of payload - all in a truck that's safer than ever.

### EXCLUSIVE OUTBOARD REAR SHOCKS.

The new F-150 is the only truck in its class\* with rear shocks placed outside the frame rails. The result is a more surefooted stance, reduced body lean and a truck that remains on track and in control, even while towing on washboard roads.

### THE QUIETEST INTERIOR IN ITS CLASS.\*

F-150 is the only truck to use Quiet Steel® laminate in the dash - a technology that helps keep engine sound out of the cabin. New air extractor vents, thicker side glass and special magnesium valve covers also help isolate the cabin from road noise. After a long day, that's something you'll appreciate.

Quiet Steel is a registered trademark of Material Sciences Corporation. \*Class is full-size pickups under 8,500 GVWR, starting below \$45,000. \*\*The 5.4L Triton® V8 achieves 80% of peak torque by 1,000 rpm.

## THE NEXT LEVEL OF BUILT FORD TOUGH.

From the strongest frame of any full-size pickup to revolutionary, new interiors, we've built the toughest F-150 ever. And from this truck, we've built the most versatile lineup in its class.<sup>†</sup> Take a closer look at some of the F-150 highlights listed inside. See which model has earned the right to be yours.

\*The 5.4L Triton® V8 achieves 80% of peak torque by 1,000 rpm. \*\*When properly equipped.  
†Class is full-size pickups under 8,500 GVWR, starting below \$45,000.
