2006
FUSION

Introducing something entirely new in midsize sedans: *ATTITUDE*. A muscular 3-bar chromed grille and sleek lines promise stirring athleticism, while 3 powertrain choices and independent front and rear suspensions deliver stimulating ride and handling. From its driver-oriented cockpit and spacious interior, you'll experience balanced, all-around performance that won't be mistaken for anything else in its class. Introducing the all-new 2006 Ford Fusion. It's sure to generate heat!

BUILT FOR THE ROAD AHEAD.

SLEEK STYLING

Up front, Fusion's distinctive 3-bar chromed grille and multi-element projector-beam headlamps announce this bold new entry. Side character lines and a high rear deck lid project an attitude of readiness. In the rear, chrome-tipped dual exhaust pipes are standard on the V6 high-series model. And under this sexy sheet metal, you'll find all the hardware for a stimulating driving experience.

QUIET CONFIDENCE

While Fusion will make a lot of noise in its class, engineers worked hard to make the cabin as quiet as possible. To reduce wind noise:

- Primary and secondary door seals help seal out the decibels
- Sideview mirrors are aerodynamically tuned to reflect air downward

FUSION IS GREEN

- A remarkable 86% of Fusion's vehicle content can be recycled
- Recycled material is used inside the vehicle, including interior trim and electrical components

DYNAMIC DRIVING

While Fusion's bold exterior design delivers quite a first impression, its stiff body structure pays dividends mile after exhilarating mile. Other ride and handling benefits come from:

- A fully independent front and rear suspension system that provides smooth, confident handling
- Front and rear anti-sway bars that limit body lean in the turns
- Performance tires on both Fusion wheels (standard 16"; available 17")
- Traction Assist available on V6 models that reduces wheel spin and helps the driver maintain control on loose or slippery surfaces

POWERFUL CHOICES

Fusion offers great flexibility with 3 powertrain combinations.

- A standard 160-hp Duratec 23 I-4 is teamed with a 5-speed manual transaxle
- A 5-speed automatic transaxle is available for the I-4
- An available 210-hp Duratec 30 V6 is mated to a class-exclusive 6-speed automatic

Both engines feature intake Variable Cam Timing (iVCT) for powerful low-end torque and responsive mid-range passing speed.

FUSION IS CLEAN

There's more to Fusion than just its good looks. Fusion will be the first midsize Ford sedan engineered to achieve a Partial Zero Emissions Vehicle (PZEV) rating in the "green states." In fact, when equipped with the Duratec 23 I-4 engine and 5-speed manual transaxle, Fusion is designed to meet California's Super Ultra Low Emissions Vehicle (SULEV) tailpipe emissions as well.

HARD BODY

Fusion's torsional rigidity, the foundation for exceptional driving dynamics, is designed to lead its class. This stiff structure helps Fusion stay firmly planted to the road, and allows the suspension to absorb more of the harshness of daily driving before it can reach the passenger compartment.

SAFETY SYSTEMS

Armed with the latest in safety technology, Ford Fusion features include:

- The Personal Safety System™ with Front-Passenger Sensing System (FPSS) that enhance both driver and front passenger protection
- Side-impact door beams anchored at the hinge and latch areas for maximum strength
- The Safety and Security Package with 1st- and 2nd-row side-curtain airbags for enhanced head protection for outboard occupants, front-seat side-impact airbags for enhanced chest protection, and an anti-theft perimeter alarm
- Tire Pressure Monitoring System

KEY FEATURES

PERFORMANCE/HANDLING

- 2.3L DOHC I-4 engine (160 hp* and 150 lb.-ft. of torque)
- 3.0L DOHC V6 engine (210 hp* and 200 lb.-ft. of torque)
- 5-speed manual transaxle
- 5-speed automatic transaxle
- 6-speed automatic transaxle
- 4-wheel disc brakes
- 4-wheel independent suspension - Front and rear
- Anti-lock Brake System (ABS)**
- Traction Assist**
- Performance tires

EXTERIOR

- 3-bar chromed grille
- Power sideview mirrors
- Multi-element projector-beam headlamps
- 16" wheels with premium covers
- 16" aluminum wheels**
- 17" aluminum wheels

INTERIOR

- Power windows and door locks
- Tilt/telescoping steering wheel with speed control
- Air conditioning
- Power moonroof**
- Leather-trimmed seats**
- AM/FM stereo with clock and single-CD player with MP3 capability
- Audiophile AM/FM stereo with 8 speakers and 6-disc in-dash CD changer with MP3 capability**

SAFETY/SECURITY

- Personal Safety System™ with Front-Passenger Sensing System
- Side-curtain airbags that cover 2 rows**
- Side-impact airbags - Driver and front passenger**
- Tire Pressure Monitoring System
- Remote keyless-entry system
- 24-hour Roadside Assistance

*Pending certification. Based on Ford preliminary data. **Optional features. Vehicles shown may contain optional equipment.
