

06 LINCOLN NAVIGATOR

LINCOLN

Powerful presence. The uncompromising luxury of Lincoln Navigator is artfully expressed via its remarkably refined ride and handling, stunning exterior and interior styling, and impressive array of innovative power features.

Start your travels on a positive note with the impressive off-the-line acceleration of Navigator's 5.4L SOHC 3-valve V-8 engine and 6-speed automatic transmission. The robust V-8 produces an impressive 300 hp, plus 365 lb.-ft. of torque, empowering you to pass with confidence and tow heavy loads with ease. In our quest to help provide you with the peace of mind and confidence every driver desires, we made AdvanceTrac® with Roll Stability Control standard on every Lincoln Navigator. AdvanceTrac is an electronic stability enhancement system that improves control on slippery surfaces like snowy, muddy, wet or gravel roads. Roll Stability Control detects potentially unstable situations and quickly engages AdvanceTrac to help you maintain control.

Lincoln Navigator's clean, modern appearance confidently commands attention everywhere you travel. And its luxurious use of technology gives you the freedom to live your life to its fullest. For instance, the class-exclusive,* power-fold 3rd-row seats, standard on Navigator Ultimate, disappear at the touch of a button to create a flat loadfloor. Press another button and watch as Ultimate's standard power liftgate raises or lowers on its own. Large, power-folding, heated sideview mirrors and power-adjustable brake and accelerator pedals are a few more of Navigator's exceptional standards. Another class-exclusive, Ultimate's available power running boards automatically glide out when the door is opened and retract when the door is closed.

Pamper yourself and your front passenger with available heated *and* cooled front seats. Standard on Navigator Ultimate, these class-exclusive seats offer 3 different warm and cool settings. To keep you entertained and informed, the available first-in-class Lincoln Soundmark® THX™ Certified Audio and Navigation System features a 6-disc in-dash CD changer, 9 speakers, 300 watts of power and 3 different listening modes. This sonic treasure is packaged with a Navigation System that understands over 170 voice commands. Add SIRIUS Satellite Radio** service to this system to receive over 120 channels of coast-to-coast music, news, sports and entertainment.
