

2007 FUSION
SE, SEL

Built for life in Canada

Distinctive 3-bar chrome grille

Multi-element halogen headlamps

Leather-trimmed seats with contrast stitching (optional on SEL)

Fusion SEL V6 in Dark Blue Pearl Metallic with optional rear spoiler.

Most appealing

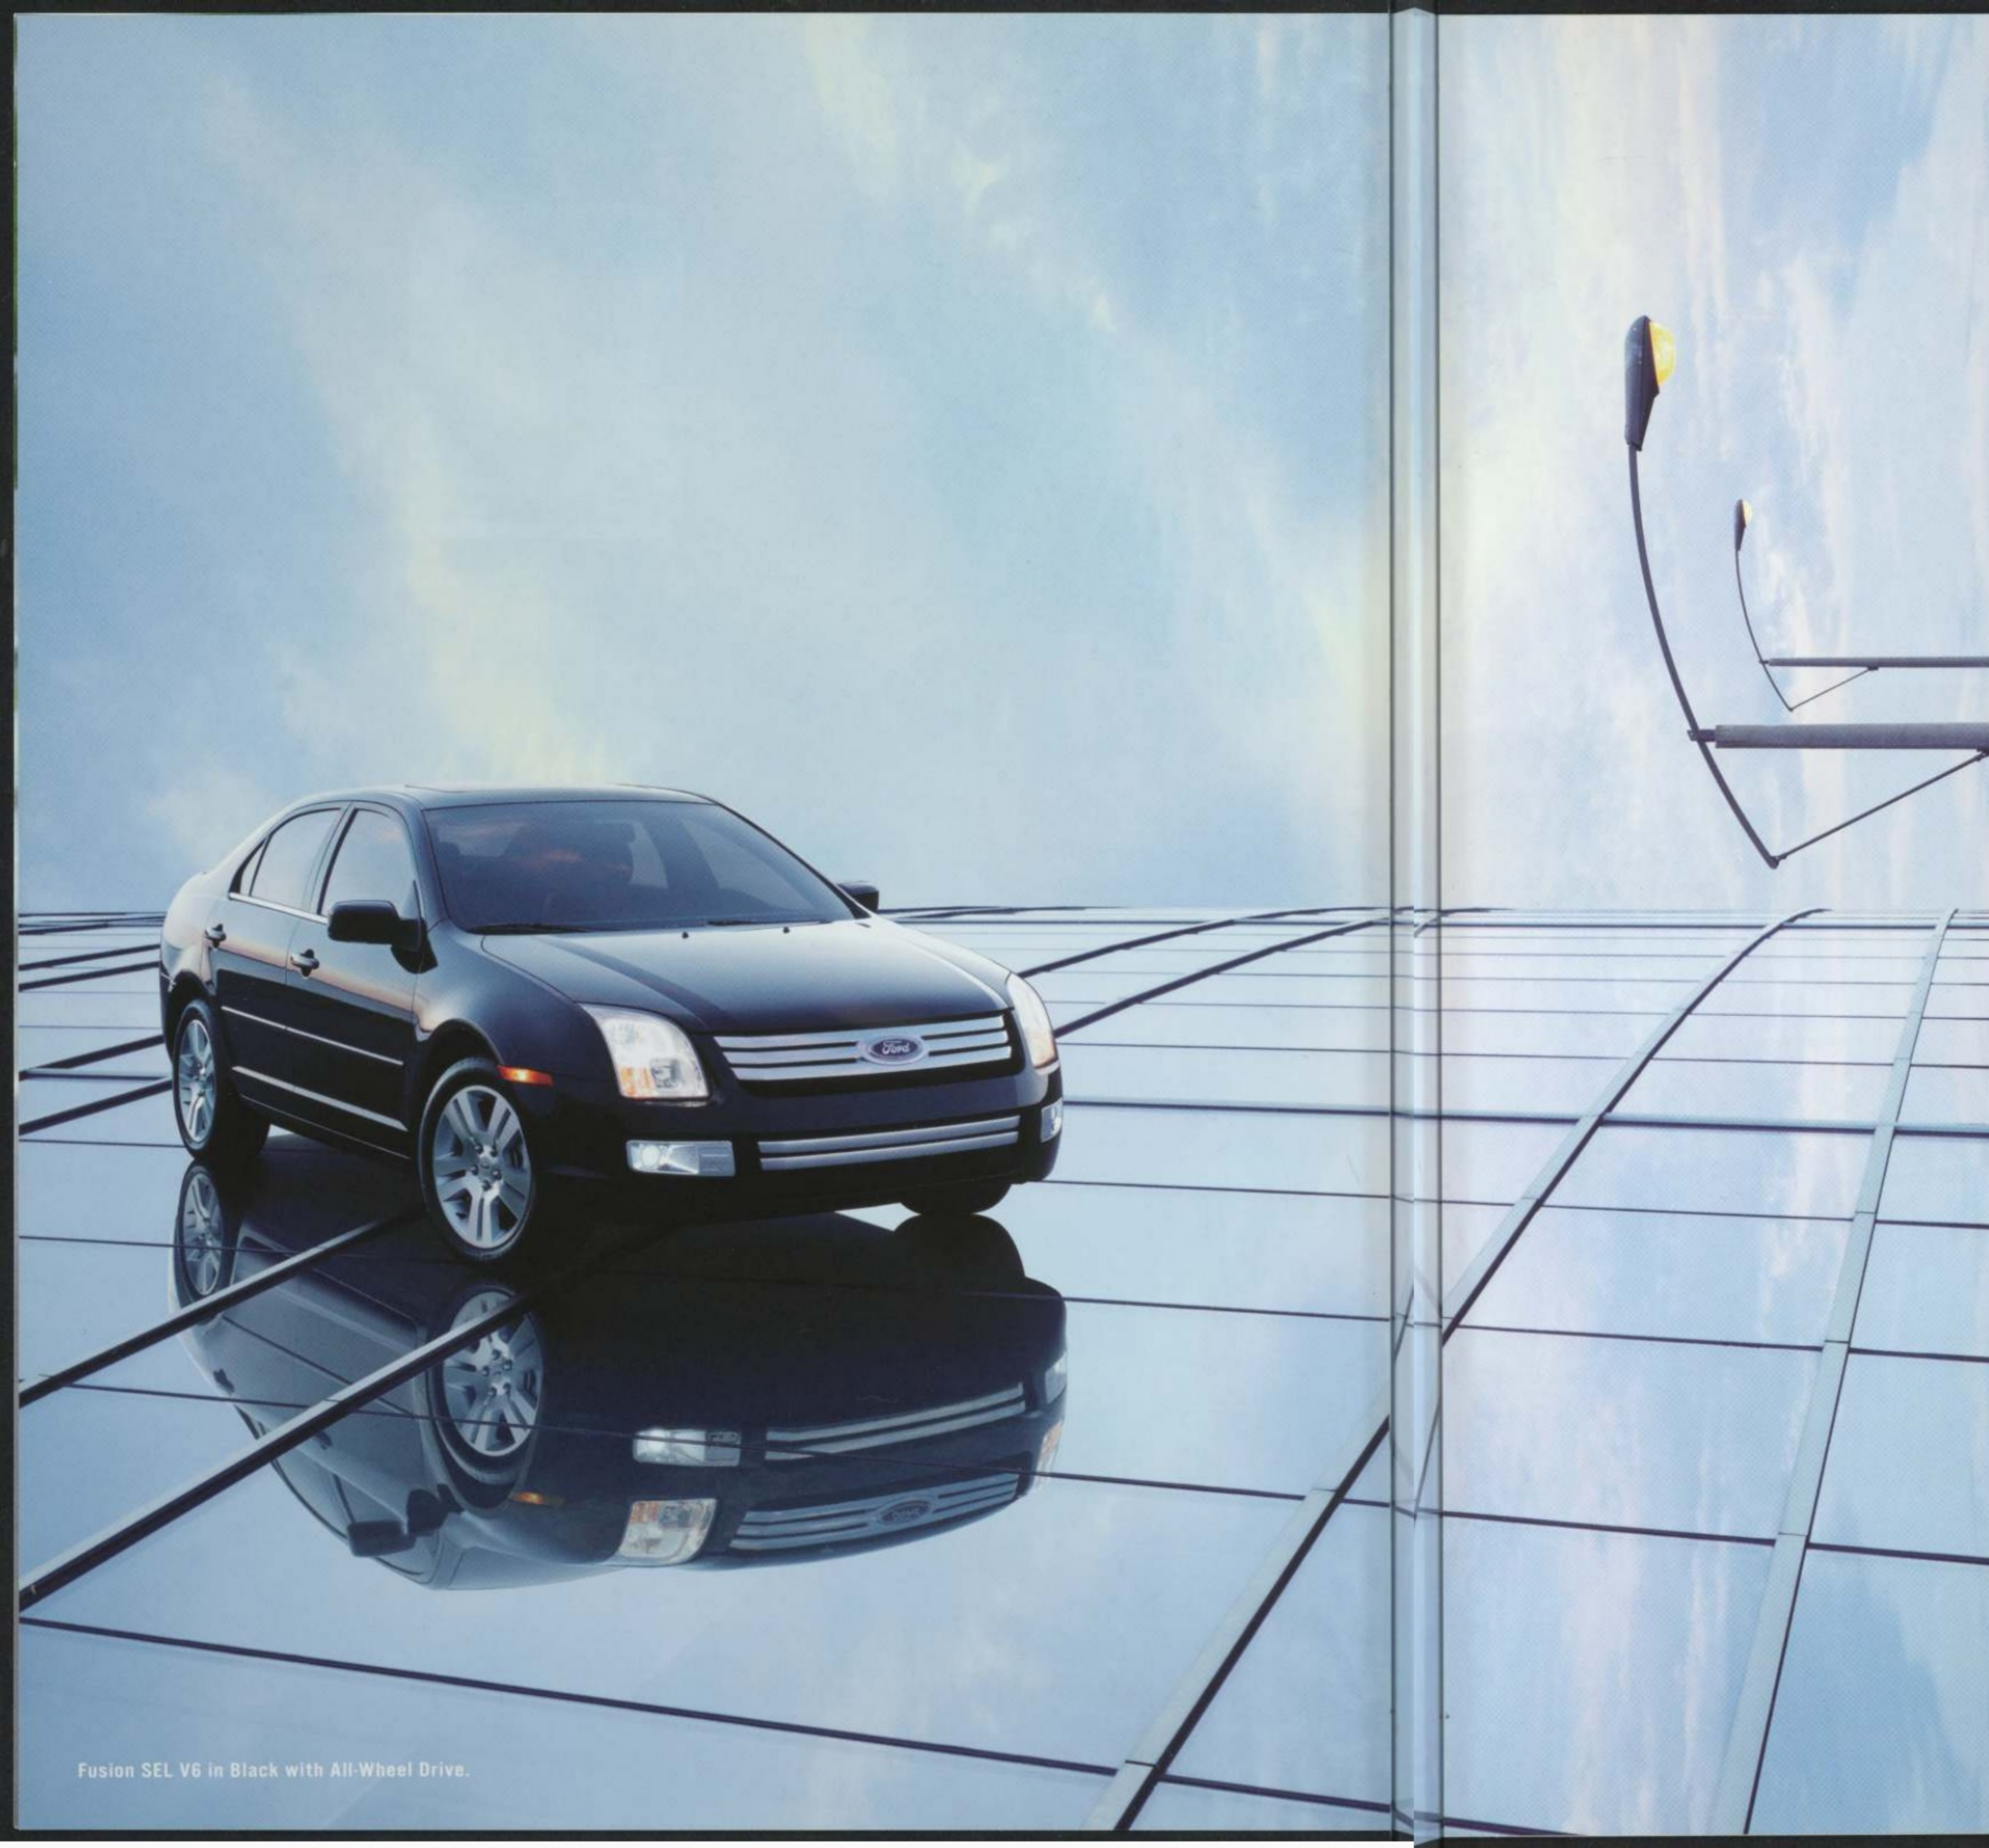

That's the conclusion of more than 63,000 drivers whose responses named the 2006 Ford Fusion "Most Appealing Midsize Car" in the J.D. Power and Associates 2006 APEAL StudySM – the measure of owner satisfaction with the design, content, layout and performance of their new vehicles. Its muscular good looks, stylish interior, smart functionality, thrilling acceleration and agile handling carried the day. Proving that it's the total package that makes Fusion most appealing of all.

Agile Fusion holds the corners and powers through the straightaways with incredible finesse – and loads of fun. Now with an available, class-exclusive** All-Wheel-Drive system, it never sacrifices performance, come rain or shine.

Protective You'll find 3 standard airbag systems: driver and passenger dual-stage front airbags, front-seat side airbags, and even side-curtain airbags that inflate to cover the side windows for enhanced head protection for outboard passengers.

Attractive A striking 3-bar chrome grille is anchored by multi-element halogen headlamps. Deco-inspired taillamps make an equally strong impression. SEL models offer contrast stitching on optional leather-trimmed seats – the perfect finishing touch.

*Ford Fusion received the highest numerical score among midsize cars in the proprietary J.D. Power and Associates 2006 U.S. Automotive Performance, Execution and Layout StudySM. Study based responses from 63,807 U.S. new vehicle owners, measuring 251 models and measures opinions of consumers after 90 days of ownership. Proprietary study results are based on experiences and perceptions of consumers surveyed in February–May 2006. Your experiences may vary. Visit jdpower.com. **Midsize Sedan class (100–103 cu. ft. passenger volume non-premium). Excluding Mazda6.

Fusion SEL V6 in Black with All-Wheel Drive.

AWD = unexpected traction

When the pavement gives way to gravel, wet leaves or ice, you won't have to give up...performance, that is. Fusion offers class-exclusive All-Wheel Drive (optional on V6 models) to provide confidence in unpredictable situations.

Active Using a series of sophisticated sensors, Fusion's AWD system can detect any wheel slip, then jump into action to correct the situation by shifting power to the individual wheel that has traction. Some other systems only shift power from back to front or front to rear. Fusion is more discriminating.

Instantaneous Fusion's amazing AWD system monitors vehicle conditions – and driver inputs – 100 times a second. Then it reacts to shift power between wheels to maintain the best traction. If necessary, the system can even change the engine speed if it's too fast for the situation. And it all works so quickly and seamlessly, you'll never know it's happening. Fast *and* intelligent.

Independent front suspension

Connected An advanced chassis design with 4-wheel independent suspension, and power rack-and-pinion steering create your direct link to the road. With handling this responsive, you might think Fusion is reading your mind.

Efficient A standard 160-hp I-4 engine and 5-speed manual transmission deliver outstanding fuel economy [10.1L/100 km city; 6.9L/100 km hwy (28 mpg city/41 hwy.)] and all the kick you need for fun behind the wheel. Of course, if 221 hp is your idea of a good time, step up to the Fusion V6 teamed with a 6-speed automatic transmission – technology usually reserved for much more expensive cars.

Fusion SE in Tungsten Silver Metallic with SE Sport Appearance Package.

Struts your style

For a unique twist on Fusion style, add the available SE Sport Appearance Package. But take note: With a price like this, everyone will want it. So we'll tell you first, we're reserving it for select colours: Black, Tungsten Silver or Redfire. Shhh, it'll be our little secret.

Mysterious Here's the scoop on this intriguing package: a black chrome grille and standard fog lamps seated in colour-keyed bezels. And the rubber rides on 17" aluminum wheels with black-painted pockets.

Red hot Current owners told us that Fusion + red = one hot combo. So we went with it. Inside, the SE Sport Appearance Package takes the standard Charcoal Black cloth interior and adds even more sizzle: It's highlighted with red cloth accents, then finished with high-contrast red stitching on the seats, steering wheel and centre console. Plus, the radio surround is treated to a unique brushed-aluminum face.

Unique brushed-aluminum accent

Unique red contrast stitching

Ingenious interior

As you'd expect, Fusion has all the essentials, including fashionable cloth seating and an intuitive driver-oriented layout. But the details make all the difference. Depending on the model, carbon fibre, woodgrain appliqué or piano black trim accents the instrument panel. An AM/FM/single-CD audio system with MP3 capability and 4 speakers delivers crystal-clear sound. SEL (left) turns up the sophistication with its elegant chrome-ringed analog clock, a premium sound system with a 6-disc in-dash CD changer, and even more driver-friendly features.

Thoroughly tuned An available audio input jack allows you to spin your own mix with any compatible player. Fusion is available with a SIRIUS Satellite Radio receiver and a prepaid 6-month subscription. Enjoy your choice of digital programming including commercial-free music, world-class sports, news, talk and entertainment. Get SIRIUS: visit www.sirius.com.

See your Ford of Canada Dealer or contact SIRIUS at 1-888-539-7474 for more information.

SIRIUS
SATELLITE RADIO
THE BEST RADIO ON RADIO™

Two-tiered centre console

Over 425 litres (15 cu. ft.) of unexpected trunk space

Generously equipped A standard tilt/telescoping steering wheel includes cruise control and secondary audio controls (SEL temperature controls shown). The available Electronic Automatic Temperature Control (SEL model) lets you set it and forget it. And on cold mornings, optional heated seats chase off the chill. The 60/40 split-folding rear seat opens with just a tug.

Secondary steering wheel-mounted controls

Electronic Automatic Temperature Control (Standard on SEL)

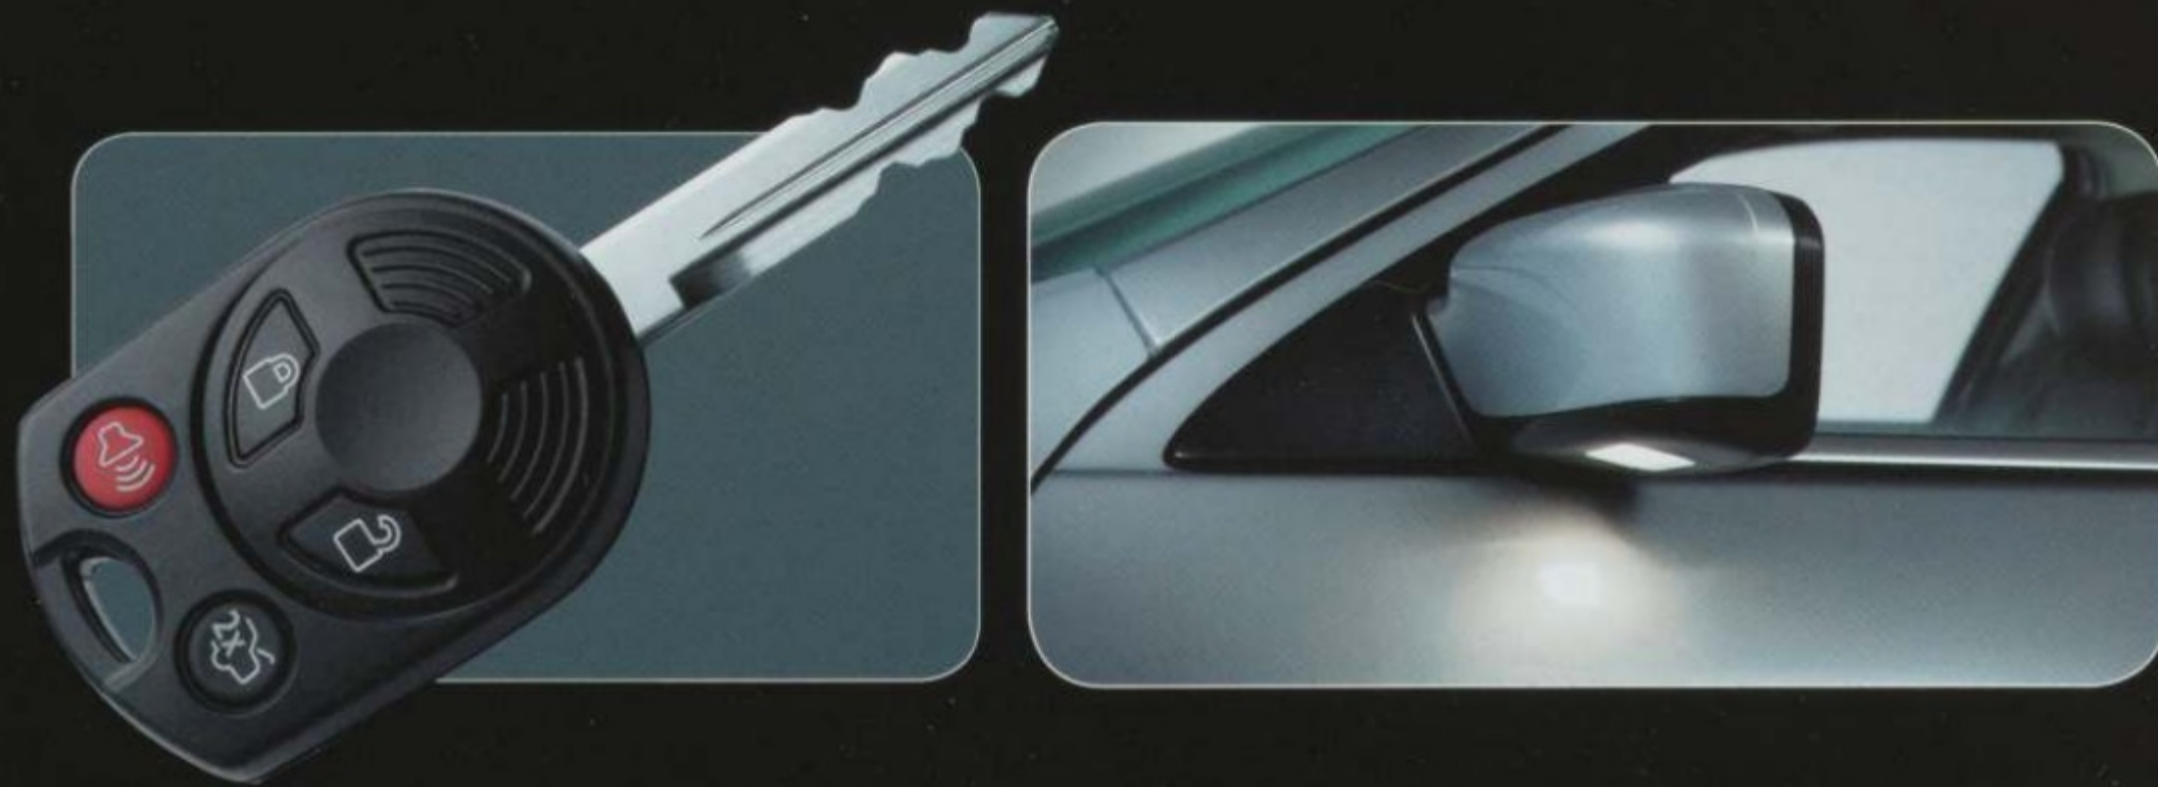

60/40 split-folding rear seat

At the forefront

Some of the world's most advanced safety technology is standard equipment on Fusion. A 4-wheel Anti-lock Brake System (ABS) with Electronic Brakeforce Distribution (EBD) is included, along with electronic Traction Control on V6 models. Front and rear crumple zones, side-intrusion door beams and safety-cage construction help direct impact forces away from occupants. A full complement of standard airbags – driver and front-passenger airbags, front-seat side airbags, and full-length side-curtain airbags – is on guard. The Personal Safety System® manages airbag deployment and regulates safety belts, while lower anchors and tether anchors provide proper attachment points for child-safety seats. Ford is constantly working on safety systems, and whatever comes next, you'll soon see it here.

Secure Fusion's security features aren't just smart, they're convenient. Remote keyless entry and a panic button are integrated right on the key that's also encoded with billions of security codes by the standard SecuriLock® passive anti-theft system each time you turn off the engine. An illuminated entry system lights the vehicle interior whenever you unlock, and SEL adds security approach lamps on the sideview mirrors (above right). From the battery saver that prevents power drain to child-safety rear door locks, Fusion has you covered.

Decisions, decisions

Since every Fusion is a model of style and function, complemented by its bold stance, virtual design, advanced technology, responsive handling, quiet ride and a host of standard safety systems, it all comes down to 2 exceptional choices. How difficult can it be?

SE Fusion SE has a wealth of great standard features: your choice of 4-cylinder or 6-cylinder engines, dual exhaust (with V6), 6-way power driver's seat, tilt/telescoping steering wheel with cruise and audio controls, AM/FM single-CD/MP3 audio system, body-colour power heated sideview mirrors, 16" wheels and more.

Fusion SE below right in Black.

SEL In addition to the standard features found on SE, the SEL model includes: 6-speed automatic transmission (with V6), dual exhaust with chrome tips (with V6), unique centre console appliqué, analog clock with chrome bezel, Electronic Automatic Temperature Control, leather-wrapped steering wheel with cruise, audio and climate controls, auto-dimming rearview mirror, 17" aluminum wheels and more.

Fusion SEL below left in Alloy Metallic with optional equipment.

SPECIFICATIONS

STANDARD FEATURES

MECHANICAL

Anti-lock Brake System (ABS)
 Front-wheel drive
 Power 4-wheel disc brakes
 Power rack-and-pinion steering

2007 FORD FUSION

By now, you've concluded that this car has a lot going for it. But don't just take our word. J.D. Power asked 63,000 real drivers for their opinions, and in its inaugural year, they ranked Fusion "Most Appealing Midsize Car" in the J.D. Power and Associates 2006 APEAL Study.*

*Ford Fusion received the highest numerical score among midsize cars in the proprietary J.D. Power and Associates 2006 U.S. Automotive Performance, Execution and Layout Study.™ Study based responses from 63,607 U.S. new vehicle owners, measuring 251 models and measures opinions of consumers after 90 days of ownership. Proprietary study results are based on experiences and perceptions of consumers surveyed in February-May 2006. Your experiences may vary. Visit jdpower.com.
