

THE HOLDEN

CAPRICE

SERIES II

CAPRICE BY HOLDEN. THE UNRIVALLED SEAT OF POWER

Australia's world-class luxury car is a portrait of commanding presence.

The Caprice Series II embodies the very best in technological resources, quality control and superb craftsmanship from Holden.

The rich woodgrain style finishes and leather upholstery and trim are matched by the intelligence of on-board computers and 'smart' electronic systems which maximise driving performance.

Independent Rear Suspension provides greater driver control and a more comfortable ride. Perfectly matched to this is the new, automatic load levelling suspension which adjusts to optimum ground clearance even when fully loaded or towing, maintaining Caprice's renowned ride and handling characteristics.

There's also the reassurance of driver and front passenger airbags.

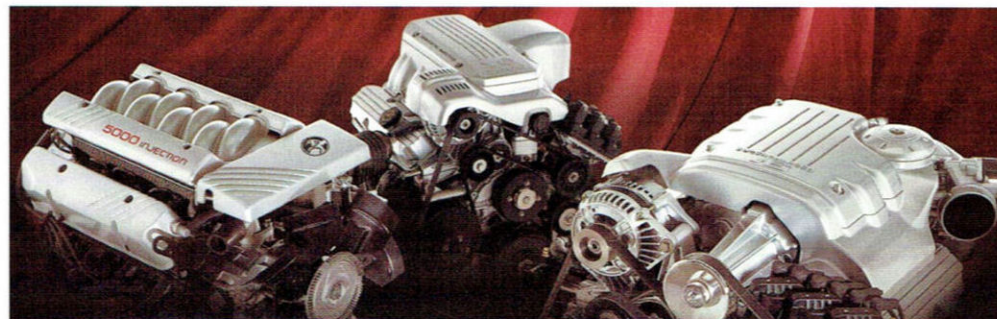

The road speed sensitive Variatronic power steering ensures superior 'road feel'.

Monitoring and constantly analysing every kilometre is the impressive nine function trip computer while cabin comfort is maintained by the climate control air conditioning.

An additional privilege of ownership is the Luxury Edge customer satisfaction program,

providing a comprehensive portfolio of warranties and roadside assistance.

Redesigned front seats with electronic adjustment offer precise positioning and a memory setting for three drivers. While the 12 speaker, 10 stack CD sound system envelops the cabin in concert hall acoustics. Rear seat occupants can relax with remote stereo controls in the overhead console, and the choice of headphones for personal listening.

TOTAL LUXURY COMES WITH SOME POWERFUL OPTIONS.

Caprice Series II comes with a standard cold air intake V8, as well as the option of the smooth, progressive power of the exciting, new Supercharged V6 engine.

Two further options are the high performance V8 and economical ECOTEC V6.

City traffic or open highway cruising, the luxurious Caprice Series II leads by example.

For more information on the taste of luxury, see your nearest Holden Dealer, or call 1800 035 464 for a brochure.
