Meet the new version of America's all-time economy champ. Falcon! Two-door sedan, four-door sedan or station wagon ... all completely new. Falcon now boasts a wheelbase that's been stretched six inches to give you a smoother ride and a track that's been widened three inches to give you better road holding. Inside you can see for yourself that Falcon interiors are bright and beautiful with lots of room for 6 adults. While you're at it, take a look under the hood. You'll find an engine designed for snappy acceleration, quick

passing and top gas mileage. Everything about all three new Falcons is bigger and better than ever. But it's still built to deliver big savings year after year. You'll really appreciate Twice-a-Year Maintenance features like 6,000 miles or 6 months between oil changes; 36,000 miles or 3 years between major chassis lubrications, self-adjusting brakes and 2-year engine coolant-antifreeze. Test-drive the big new Falcon. Better than ever in comfort, style, value. More than ever America's all-time economy champ!
