INTERIOR FEATURES: Serialization plate • Unique two-tone leather-trimmed captain's chairs with power driver seat and manual driver and passenger lumbar • Flow-through console with unique accent-color lid and leather-wrapped shifter • Unique cluster/center stack/door-panel accents • Leather-trimmed steering wheel with cruise control

F-150

MIDBOX STORAGE SYSTEM

MidBox mounts between the cab and pickup box to provide 26.3 cu. ft. of versatile, secure storage. It's accessible from both sides of the vehicle, and is keyed to the driver door key. Steel construction, heavy-duty latches and beefy locks offer secure storage of equipment and supplies.

KEY FEATURES: Double-paneled construction with tough, corrosion-resistant powder-coated steel panels • Heavy-duty door seals for optimum weather resistance • Standard pass-thru storage • Optional upgrades and add-ons are available separately

AVAILABILITY: Optional as a ship-thru package on Regular Cab and SuperCab models

Order Code: RPO 55M (MidBox Prep Package)

Ship-thru Code: 31A/D9K

For more information, contact SVE Fleet at (877) 374-5559 or visit www.svefleet.com

SVE Commercial Products warrants the MidBox for 3 years/36,000 miles. Please contact SVE Commercial Products for additional warranty and certification information.

A. BASE SYSTEM

F-150

ALL-NEW CLASS-LEADING CARGO MANAGEMENT SYSTEM

This new, optional system boasts 600-lbs.-per-cleat strength (2 cleats per rail maximum) — that's best-in-class¹ cleat strength and more than double the rating of any factory-installed competitor. Plus, it's loaded with innovative features and options that other systems don't offer.

- A** BASE SYSTEM: 2 DUAL-CHANNEL SIDE RAILS — 4 CLEATS. Cleats unlock with a single pull-and-twist of a knob, and lock in place every 3.5".
- B** OPTIONAL LOAD BARS (2) attach to the cleats with a single click. Dual-channel side rails can allow multiple installations to slide past one another depending on the configuration. T-channels in Load Bars accept standard roof-rack accessories for carrying work materials, or bikes, skis, etc., up to a maximum load of 100 lbs. OPTIONAL FRONT HEADER BAR (not shown, available separately) bolts in at the front of the bed. It's also just as strong as the side rails, accepting 2 cleats with a maximum load of 600 lbs. per cleat.
- C** OPTIONAL BED DIVIDER clips onto the cleats, is fully adjustable and installs or removes easily. It has T-channels to accept accessories, and will retain loads up to 400 lbs. on the floor of the cargo box.
- D** OPTIONAL STORAGE BINS (2) are strong, light, portable and can hold a hefty load. Sliding mounts allow positioning anywhere along the side rail. The bins open with the push of a button and can be locked with the vehicle ignition key. Double-wall construction and drain plugs even let you use these optional bins as coolers.

CARGO MANAGEMENT BASE SYSTEM FEATURES: Corrosion-resistant aluminum and composite construction • 2 dual-channel side rails • 4 adjustable cleats

AVAILABILITY: Optional on all trim levels with 6.5' Styleside box only.
Order Code: 68M MSRP: Starting at \$190 (Base System)

OPTIONAL ACCESSORIES: Load Bars (2) • Front Header Bar • Bed Divider
• Storage Bins (2)

¹Class is Traditional Full-size Pickups under 8500 lbs. GVWR and priced below \$38,000.
