

### Toyota's Economy-Size Family Wagon

Toyota Crown Station Wagon

Toyota Crown Utility Wagon

Toyota Crown Wagon has been built to satisfy the growing demands of you and your family.

Whether it be for daily shopping, work and errands, or just family errands,

the wagon will provide that extra something you desire.

For comfort, two power windows and 11 speakers plus everything you'll need before, just the same with the interior.

Handsome interior—dramatic instrument panel in glass-enclosed dash.

Full-coverage leather or vinyl interior with much of the dash.

Customizable vinyl upholstery easy with seat cover made quickly detachable to afford seat cover when desired.

Amplifier, cassette, and 11 speakers, in plenty of space.

Crown Wagon's platform is 1,300 mm (51 1/8") wide for 1,200 mm (47 1/4") long (52 1/2") long (52 1/2") long with the rear seat folded down, and has a flat floor completely covered with a seat. Rear gate is fully opening for easy loading and access. Six power windows in standard. Rear window regulator is of the

type. Door window is self-padded. Inside door handles are made of the nylon, and made to allow finger-actuating. Rear window gauges have been glass-enclosed for safety and water resistance. Standard instrument is on all models. Speed, with alternative speed available options. Four

speaking horn set, and four speakers are provided. The wagon is powered by Toyota's smooth-running 1900 cc engine. Together with Toyota's engine, overdrive and overdrive-activated brake, ensuring better operation in transit.

### TOYOTA CROWN Pickup

All gauges and features are incorporated in this new Toyota Crown Pickup—power car window, power car windows, power car mirror. The engine is Toyota's reliable 1900 cc, in more efficient and economical loading of your cargo. Cab interior has the same handsome appearance of the Crown Wagon. Cargo box has deep reinforced steel floor and double walls to provide greater strength and rigidity. Four independent coils will assure you of comfortable ride under any road conditions. Rear progressive lower coil spring automatically in the cargo weight will assure you of getting maximum ride.
