1982 ACCESSORIES
BY TOYOTA

EXTERIOR ACCESSORIES

Spice up your Toyota's exterior with exciting accessories designed for good looks and convenience. You'll find these options are practical investments for years to come.

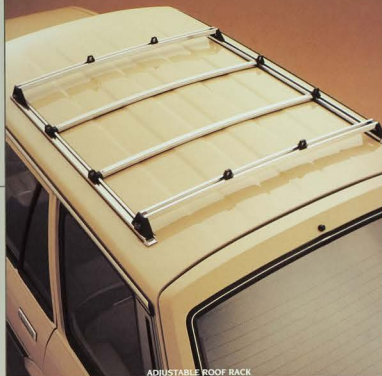

Shadow® Louvers (for Corolla Sport Coupe, Corolla Liftback, Celica and Celica Supra) give your Toyota a sporty appearance and have practical advantages too. The louvers provide shade to help minimize use of your air conditioner, reduce glare and help retard carpet and upholstery fading. Hidden support bars hold up the louvers for convenient window cleaning. All Shadow Louvers have a durable black semi-gloss finish.

Trim Rings add style and flair to your wheels. They're made of stainless steel with a patented retention system and are available for most vehicles with 13" and 14" styled steel wheels.

Adjustable Roof Rack lets you carry additional cargo. The rack has adjustable rails and tie-downs for various size loads. This rack fits Sedans, Coupes, Liftbacks and Wagons. Toyota also offers a Ski Rack (not pictured) that attaches to this roof rack to carry your skis and poles to the slopes.

Rear Deck Rack (for Corolla Tercel Sedans, Corolla Sedans and Corona Sedan) has contemporary styling and adds extra cargo space. The rack is made to resist rust and has adjustable tie-downs for various size loads.

Fixed Basket Roof Rack (for Corolla, Corona and Cressida Wagons and Corolla Liftback) adds to your Toyota's carrying capacity. The rack has classic fixed-stanchion styling and is made to resist rust.

INTERIOR ACCESSORIES

From the floors to the cargo compartment, your Toyota dealer can help you add a personal touch to your interior. All of the accessories pictured here are quality products designed for good looks and long life—just like your Toyota.

Floor Mats help keep your Toyota's wall-to-wall carpeting in showroom condition. Floor mats offer inexpensive carpet protection by guarding against soil and moisture stains. You can choose carpeted or rubber floor mats.

Carpeted floor mats feature plush velour pile with latex backing for a rich appearance, good protection and added insulation. The mats are easy to clean. Carpeted floor mats are available for all Toyota car models in sets of four (fronts and rears), or for Toyota Trucks in sets of two (fronts only).

Rubber floor mats give you the perfect blend of carpet protection and economy. They're easy to clean—just remove and hose them off. Rubber floor mats are available for all Toyota cars in sets of four (fronts and rears), or for Toyota Trucks in sets of two (fronts only).

Cargo Covers (for Starlet, Corolla Tercel Deluxe Liftback, Corolla Deluxe Liftback and Celica Liftback) keep your valuables or luggage out of sight when stowed in your Toyota Liftback.

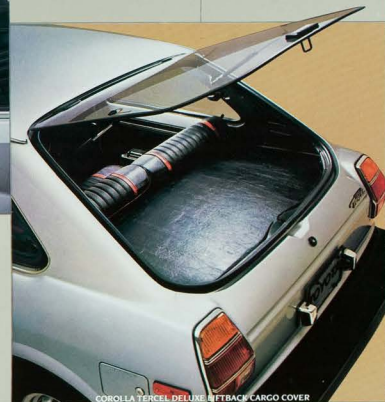

They're made of rich, textured vinyl for easy cleaning and long life. Appropriate colors are available by model line.

RUBBER FLOOR MAT COLORS

CARPETED FLOOR MAT COLORS

Rubber floor mats are available in the following colors: black, blue, beige, burgundy or dark brown. (Burgundy and dark brown rubber floor mats are not available for Trucks.)
 Carpeted floor mats are available in a variety of colors to let you match or add contrast to your Toyota's interior. Choose black, blue, beige, burgundy, terra cotta or dark brown.

GREAT GEAR FOR ON AND OFF-ROAD

From rear bumpers to truck bed side-wall liners, here's a selection of tough, quality accessories that can make on or off-roading a little easier. You'll find all of these accessories are available from your Toyota dealer.

Chrome Step Bumper adds a traditional yet stylish look and towing capabilities to your 4x4 or 4x2 truck. All you add is a tow ball. This bumper is rugged and made to last. Also available in silver baked enamel finish.

Chrome Oval Tube Bumper gives your truck a streamlined appearance while adding rear protection. This bumper is constructed of aircraft quality aluminum with a mono-coque design for lightness and strength. For towing, this bumper can be fitted with a Toyota approved straight hitch for 4x2 trucks or a Toyota 4" drop hitch for 4x4 trucks.

Black Oval Tube Bumper provides a contemporary look for your 4x4 or 4x2 truck and features the same design and construction as the chrome oval tube bumper above. The bumper (shown with Toyota approved optional 4" drop hitch) comes with a semi-gloss black baked enamel finish.

Straight Tow Hitch adds towing capability to your 4x2 truck. Tow hitches are available from your Toyota dealer for tube bumper styles pictured here.

Sliding Rear Window with tinted glass provides easy rear access and ventilation for both highway driving and off-roading. Two center sliding sections open toward the sides.

Right Hand Mirror provides additional rearward visibility. The charcoal gray finish adds a sporty touch to your truck.

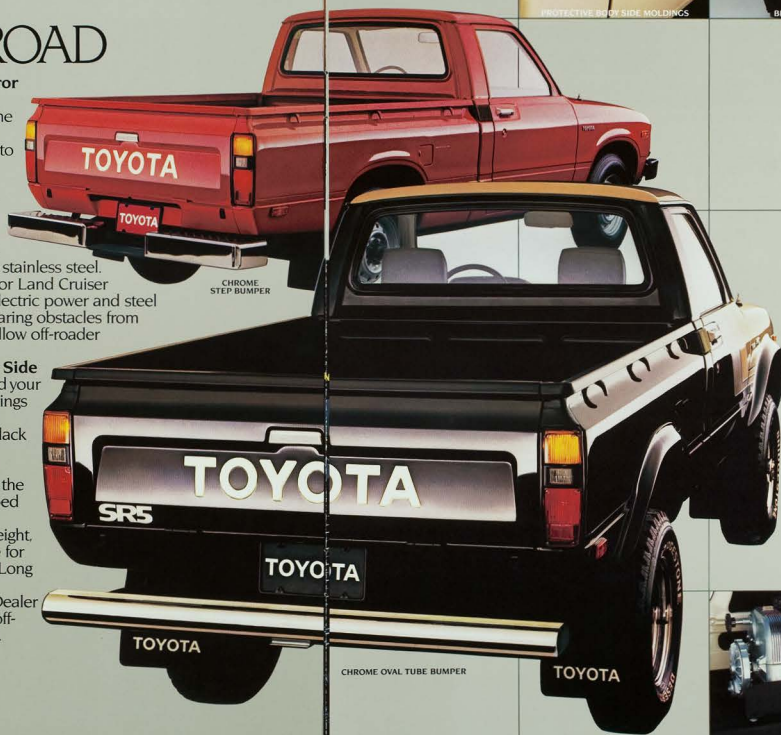

Deluxe Truck Mirrors offer wide-area visibility. The mirror body and swing-away arm are made of heavy-duty stainless steel.

Electric Winch (for Land Cruiser Hardtop only) has electric power and steel cable. Handy for clearing obstacles from trails or helping a fellow off-roader out of a soft spot.

Protective Body Side Moldings help guard your truck against door dings from other vehicles. Available in matte black finish.

Truck Side-wall Liner helps protect the walls of your truck bed from scratches and dings. They're lightweight, sturdy, and available for both Standard and Long Bed Trucks.

See your Toyota Dealer for all your on and off-road trucking needs.

GENUINE TOYOTA PARTS AND ACCESSORIES

On these pages you'll find Genuine Toyota Parts and Accessories to help you keep cool and comfortable in all weather, see better at night, and keep your Toyota in top condition. Genuine Toyota Parts and Accessories are made of quality materials and components to assure long-lasting dependability and satisfaction.

Genuine Toyota Air Conditioners provide all-season comfort. In warm weather, you'll appreciate the quick cool-down. During cooler months, your air conditioner can be used with the heater/defroster to quickly dehumidify the interior and defog the windshield. Each unit is designed to fit properly and to work in perfect harmony with your vehicle's engine to avoid overloading or overheating. Increase your year-round comfort and add to the resale value of your vehicle at trade-in time with a genuine Toyota air conditioner from your Toyota dealer.

Tungsten Halogen Sealed Beam Headlamps offer you higher candlepower for improved night visibility. Featuring about 25% higher candlepower, these headlamps illuminate the road in a more natural spectrum of light. These headlamps are standard equipment on many models.

Block Heater is designed to fit all Toyota engines. This 110-volt electric plug-in heater keeps engine coolant temperature about 55°F higher than the outside temperature for easier cold weather start-ups, reduced battery drain and shorter idling time. It's handy for diesels.

Your Toyota dealer has a full line of Genuine Toyota Parts. You can buy these replacement

parts and have them installed or do it yourself. Genuine Toyota Parts are backed by Toyota's long-standing reputation for quality.

Spark Plugs with unique U-groove high efficiency electrode will help keep your Toyota running at its best. Available for all Toyota models and now most other imports.

Oil Filter features double filtering element to help keep the oil in your Toyota free of contaminants. Available for all models.

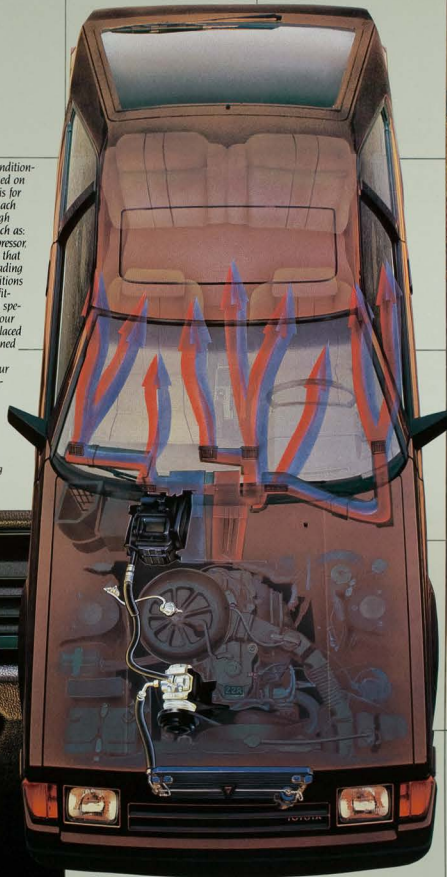

Maintenance-Free Battery delivers fast, dependable starts and insures long life. Five sizes are available for all Toyota models and most domestic and import vehicles.

Air Filter with triple filtering element helps protect your Toyota's engine from airborne particles. Available for all models.

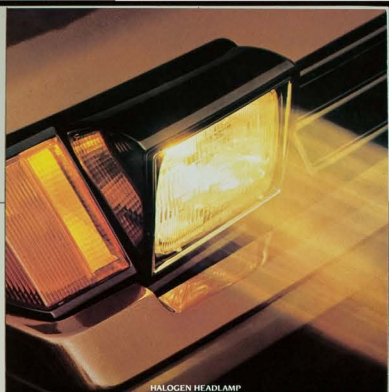

Genuine Toyota air conditioning systems are designed on a model by model basis for maximum efficiency. Each system incorporates high quality components such as: an efficient relay compressor, an electronic computer that prevents engine overloading under all driving conditions plus integrated hoses, fittings and ductwork all specifically designed for your vehicle. Strategically placed vents circulate conditioned air for the maximum comfort of you and your passengers. All air conditioning controls are within easy reach. For long-lasting dependable comfort in all seasons, equip your Toyota with a genuine Toyota air conditioning system.

AUTOSOUND SYSTEMS

Imagine a radio with a back-lit face panel that illuminates key controls to

end fumbling in the dark. Or one that automatically tunes in your favorite program at the precise moment it begins. These and other technologically advanced sound components are available now and can be professionally installed by your Toyota dealer, your complete Sound Source.

All genuine Toyota stereo radios pictured here feature from 40 to 80 watts of power; pre-set station buttons and technologically advanced circuitry for clear reception, interference suppression and reduced noise and static, including: Automatic Separation Control, Automatic Treble Control, Pulse Noise Limiting and Soft Muting circuits.

Electronic Tuning AM/FM/MPX Tuner with Auto-Reverse Cassette Deck Model 1621 and separate 7-Band Graphic Equalizer Power Amplifier Model 1701 (for Corolla 4-speaker system). Tuner features a micro-processor computer circuit which provides frequency synthesized "auto-controlled" electronic tuning with a digital frequency display, leather-touch buttons to pre-set ten stations; seek, scan and manual tuning; noise muting for all switches and controls. Cassette deck has locking fast forward and rewind, Dolby® noise reduction, normal and CrO₂ metal tape capability and separate Bass and Treble controls. Equalizer/Power Amplifier features 7 separate frequency bands for individual tone control and 2-band output power level displays.

Model 1621 (Tuner/Cassette)

Frequency response

FM 30 Hz to 15,000 Hz (± 3 dB)
40 Hz to 12,500 Hz (± 3 dB)
CrO₂/Metal Tape 40 Hz to 10,500 Hz (± 3 dB)

Model 1701 (Equalizer) 4-Channel Amplifier

Power output 10 watts per channel into 4 OHMS from 20 Hz to 15,000 Hz at 1.0% THD
20 watts per channel maximum

(NOTE: Model 1621 and Model 1701 must be used together)

A genuine Toyota auto-reverse cassette deck can be added to any

radio on these pages. Our cassette decks feature precision tape transport mechanisms; LTM "lifetime metal" alloy tape head; twin flywheels for stable speed in both directions; an anti-rolling system to absorb road shocks and prevent tape damage; and dual galvanometer speed sensing system for clear sound.

MODEL 1621 ELECTRONIC TUNER/CASSETTE AND MODEL 1701 EQUALIZER/AMPLIFIER FOR COROLLA (SHOWN)

MODEL 1221 RADIO AND MODEL 1801 CASSETTE FOR ALL COROLLA MODELS

AM/FM/MPX Stereo Radio Model 1221 (for all Corolla models) is designed for 2-speaker systems and features five pre-set stations, special circuitry for clear reception and reduced noise and two separate amplifiers with 40 watts total output.

Power output 10 watts per channel into 4 OHMS from 20 Hz to 10,000 Hz at 1.0% THD
20 watts per channel maximum
30 Hz to 15,000 Hz (± 3 dB)

Frequency response (FM)

Auto-Reverse Cassette Tape Player Model 1801 (for all Corolla models) is designed for 2-speaker systems and makes a perfect companion to the radio above. Unit features auto-reverse locking fast forward and rewind, tone control, balance control, loudness compensation switch and a precision tape transport mechanism.

Frequency response 60 Hz to 12,500 Hz (± 3 dB)

AM/FM/MPX Radio Model 1321 (for Corolla models) features six pushbuttons (4 FM, 2 AM), built-in noise and static suppression circuitry, back-lit control display, separate "equalizer-type" Bass and Treble controls and loudness compensation circuit.

Power output

10 watts per channel into 4 OHMS from 20 Hz to 10,000 Hz at 1.0% THD
20 watts per channel maximum
30 Hz to 15,000 Hz (± 3 dB)

Frequency response (FM)

Auto-Reverse Cassette Deck Model 025 (for Corolla 4-speaker system; Celica and Celica Supra) plays normal and CrO₂ metal tapes. Features auto-reverse, Dolby® noise reduction, electronic speed sensing, a rugged "anti-rolling" mechanism to absorb road shocks.

Frequency response Normal Tape 40 Hz to 12,500 Hz (± 3 dB)
40 Hz to 10,500 Hz (± 3 dB)
CrO₂/Metal Tape 40 Hz to 10,500 Hz (± 3 dB)

MODEL 1421 PROGRAMMABLE RADIO FOR COROLLA AND MODEL 025 CASSETTE FOR COROLLA, CELICA, CELICA SUPRA

Programmable Electronic Tuning AM/FM/MPX Radio Model 1421 (for Corolla 4-speaker system) automatically tunes in a pre-selected station at a pre-set time. Features include digital frequency display with channel indicator and back-lit control display showing key controls;

microprocessor computer circuit; leather-touch buttons to pre-set ten stations; latest sound enhancement and noise suppression circuitry; separate "equalizer-type" Bass and Treble controls; loudness compensation circuit; and 80 watts total output power.

Power output 10 watts per channel into 4 OHMS from 20 Hz to 10,000 Hz at 1.0% THD
20 watts per channel maximum
30 Hz to 15,000 Hz (± 3 dB)

Frequency response (FM)

SOUND IDEAS FOR YOUR ENJOYMENT

Toyota is your source for a total sound system. Great care is taken from initial design to insure that all Toyota radios, cassette units and speakers sound right, fit right and complement your vehicle's interior. Toyota cassette units are quality built with precision drive mechanisms that will stand the roughest daily driving and still deliver great sound. Toyota's full-range speakers work in perfect harmony with radios and cassette units to deliver clean, crisp sound.

Your Toyota dealer is the source for correct sound system installation. Toyota optimum design connectors quickly and correctly integrate sound units into your vehicle's wiring. Toyota sound unit support hardware holds each unit precisely and securely in place.

Your Toyota dealer has a wide variety of quality radios and cassette players to choose from. For great sound and correct installation, go to the Sound Source—your Toyota dealer.

Electronic Tuning Radio Model 040 (for all Truck models) features fluorescent digital frequency display, micro-processor computer tuning system with seek and manual modes, leather-touch buttons to pre-set ten stations, Automatic Treble Control circuit and two separate amplifiers.

Power output 10 watts per channel, into 4 OHMS
from 20 Hz to 10,000 Hz at 10% THD
20 watts per channel maximum

Frequency response (FM) 30 Hz to 15,000 Hz (± 3 dB)

Cassette Player with Auto-Reverse Model 253 (for Starlet, Corolla Tercel and Truck models) features auto-reverse, locking belt forward and rewind, normal and CrO₂ metal tape capability, "LTM" (lifetime metal) alloy tape head, noise muting for switches and controls, and advanced design precision tape transport mechanism for trouble-free operation.

Power output 4 watts per channel, into 4 OHMS
from 150 Hz to 25,000 Hz at 10% THD
8 watts per channel maximum

Frequency response Normal Tape 60 Hz to 14,000 Hz (± 3 dB)
CrO₂/Metal Tape 60 Hz to 16,500 Hz (± 3 dB)

MODEL 040 ELECTRONIC TUNING RADIO FOR ALL TRUCK MODELS AND MODEL 253 CASSETTE FOR STARLET, COROLLA TERCEL, TRUCK (SHOWN IN TOYOTA TRUCK)

MODEL 111 RADIO FOR STARLET, COROLLA TERCEL AND MODEL 253 CASSETTE FOR STARLET, COROLLA TERCEL, TRUCK

AM/FM/MPX Radio Model 111 (for Starlet and Corolla Tercel) has five pre-set station buttons, special circuitry for clear reception and noise suppression, Automatic Treble Control and 16 watts output power capability.

Power output 3 watts per channel, into 4 OHMS from 100 Hz to 10,000 Hz at 10% THD
8 watts per channel maximum

Frequency response (FM) 30 Hz to 15,000 Hz (± 3 dB)

Cassette Player with Auto-Reverse Model 253 (for Starlet, Corolla Tercel and Truck models) is the perfect companion for the Model 111 radio described above. Features include auto-reverse, locking belt forward and rewind, normal and CrO₂ metal tape capability, "LTM" (lifetime metal) alloy tape head, noise muting for switches and controls, and advanced design precision tape transport mechanism for trouble-free operation.

Power output 4 watts per channel, into 4 OHMS from 150 Hz to 25,000 Hz at 10% THD
8 watts per channel maximum

Frequency response Normal Tape 60 Hz to 14,000 Hz (± 3 dB)
CrO₂/Metal Tape 60 Hz to 16,500 Hz (± 3 dB)

MODEL 020 RADIO FOR ALL TRUCK MODELS

AM/FM/MPX Radio Model 020 (for Trucks) features five pre-set station buttons and the latest circuitry for clear reception and noise reduction, including dual gate metal oxide semiconductor held effect transistors in FM tuner to enhance reception during constantly changing driving conditions.

Power output 3 watts per channel into 4 OHMS
from 100 Hz to 15,000 Hz at 10% THD
8 watts per channel maximum

Frequency response (FM) 30 Hz to 15,000 Hz (± 3 dB)

AM/FM Stereo Cassette Model 161 (for Starlet, Corolla Tercel, Corolla and Corona) combines the best features of an AM/FM radio and a cassette deck into one compact in-dash unit. Features include: five pre-set station buttons; one convenient control for On/Off, Volume and left/right Balance; the latest sound enhancement technology including INQ (Impulse Noise Quieting) Switch that helps reduce ignition and electrical interference noise; ATC (Automatic Treble Control) that automatically lowers Treble to reduce high end noise interference; ASC (Automatic Stereo Separation Control) that helps keep FM stereo broadcasts noise-free; Soft Muting Circuit which reduces static between stations when tuning; MOS-FET & Keyed AGC (Automatic Gain Control) to help prevent interference from strong signals and cross-modulation from adjacent stations during constantly changing car reception; and Toyota's exclusive HX (High Expand) noise reduction circuit which boosts Treble response to provide a wide range of clear, clear music; Repeatback that automatically repeats play after rewind; locking fast forward and rewind; 4-way balance control.

Power output 4 watts per channel into 4 OHMS
all 10% THD & 5 watts per channel
maximum

Frequency response
Radio 30 to 15,000 Hz (± 3dB)
Cassette 80 to 10,000 Hz (± 3dB)

AM/FM Stereo with Auto-Reverse Cassette Model 190 (for Starlet, Corolla Tercel, Corolla and Corona) contains all of the features of the Model 161 plus these outstanding features: Dolby® noise reduction to reduce tape hiss; Dolby NR indicator; Metal CrO₂ switch and a hard permalloy tape head that lets you play CrO₂ "metal" or normal tapes; precision Auto-Reverse

mechanism that automatically reverses at tape end, or use the Program Selector Buttons to instantly change direction of tape; illuminated cassette door for quick and easy tape insertion during night driving; separate Bass and Treble controls to adjust highs and lows to your liking; Tape Direction Indicators; locking Fast Forward and Rewind Buttons; separate Eject Button to instantly stop tape and pop out cassette for easy removal.

Power output 4 watts per channel into 4 OHMS
all 10% THD & 5 watts per channel
maximum

Frequency response
Radio 30 to 15,000 Hz (± 3dB)
Cassette 40 to 12,500 Hz (± 3dB)

High Quality Speaker Set Model 051 (for Starlet, Corolla Tercel and Corolla rear speaker applications) offers you great sound with convenient installation. The speaker set contains two speakers with 25 watt power handling capability, full range frequency response, dual cone design and attractive metallic mesh grilles. Model 051 speakers can be combined with the AM/FM stereo cassette radios shown on this page and the Corolla four speaker radios described in this brochure. These speakers can be mounted in the rear deck, as shown in the Corolla SR5 Hardtop at the far right. A special enclosure is also available for the Model 051 speaker that allows it to be conveniently and attractively mounted in any Corolla Tercel Liftback as shown at the upper right.

Specifications
Speaker size 5" hole, 4" cone diameter
Rated power (nominal) 10 watts
Rated power (maximum) 25 watts
Effective frequency range 85-15,000 Hz
