GET THE 4RUNNER FEELING!

BUCKLEUP. IT'S A GOOD FEELING!
Safety experts say. Buckle up!" Here's why:
Generally the safest place in a collision is inside your vehicle. Seat belts can help keep you there.
Small children should be provided with a child restraint system dynamically tested to meet federal standards. Select such a

restraint system carefully.
The seat belts in the 1985 Toyota
Akunners are designed to meet or exceed
all government requirements, and engi-neered for maximum comfort
Familiarize yourself with the operation
of your Toyota's seat belts, and remember:
buckle up...it's a good feeling!

OUALITY PARTS & SERVICE

CUALITY PARTS & SERVICE.
Every new 4Runner is built to stringent
quality standards and is covered by Toyotas
2-year/24000-mile limited powertrain
warranty. Nearly 1100 Toyota dealers. WANT
nationwide can help you keep that FEELING
Toyota feeling.

SPIRITED ADVENTURER

The Toyota 4Runner is a new kind of sport utility vehicle. With its interior comfort, rugged 4-wheel drive performance, and aggressive styling, 4Runner moves from outback trails to city streets with ease.

The high-torque 24 liter SOHC engine with 116 horsepower and Electronic Fuel Injection is the most powerful of any small

sport utility vehicle. Couple this with an efficient 5-speed overdrive transmission, and youve got plenty of power for off-road running. Economical operation* and a 122-gallon gas tank give 4Runner SRS an extended cruising range for both highway and high-country touring.

Toyota's 4-wheel drive engineering is

proven dependable, proven tough. The sure-footed traction of 4-wheel drive, combined with the highest minimum running ground clearance of any small sport utility vehicle, makes the 4Runner a leader in off-road excitement.

The 4Runner has a forged-steel front tow hook and steel skid plates under the fuel tank and transfer case. There's also a rugged steel roll bar, semi-padded on the SR5. The 4Runner SR5 has roomy, comfort-

The 4Runner SRS has roomy, comfortable seating for five. A passenger seat walk-in device makes rear seat access and exit easy. You'll find lots of cargo space to hold all sorts of gear and equipment, too. Split rear seatbacks can be folded flat, providing

over 61/2 feet of room.

With its many convenience features the ARunner gets you across rough terrain in comfort. Its protective rear top is removable, to let in the sunshine. A power-operated rear window is standard. For ultimate convenience. 4Runner SRS has a rear window defogger, and offers a Power Package that includes Cruise Control, power door windows, and more.

When the spirit of adventure moves you, move out in the 1985 Toyota 4Runner. It can chase down your wildest dreams.

*See EPA mileage statement on back cover Shown with optional equipment. See Features chart on back cover for details.
