# TOYOTA VANS

# THE VAN FOR MORE REASONS

The Toyota Van: it's the multi-purpose vehicle that gives you more. It's more versatile than a station wagon, is as comfortable as a family sedan, and is compact enough to sleep in the garage.

The LE and Deluxe Vans are as easy to drive as a car, and offer comfort for as many as seven adults with still more room in the back for all your gear.

And, for 1986, there's even more power. In fact, with its new 2.2 liter standard engine, no other vehicle in its class has more power.

But the Toyota Van is more than just a passenger vehicle: with the quick-release middle and rear seats removed, you have over 149 cubic feet to haul up to 1505 pounds of cargo\*.

The luxurious Van LE's standard features include: variable assist power rack-and-pinion steering with a tilt steering wheel, AM/FM/MPX receiver, cut-pile carpeting, and power door locks.

For even more comfort and convenience, the Van LE can be equipped with an optional Captain's Chair Package, dual air conditioning, cooler/ice maker,\*\* dual sunroofs, and more.

Whether you need the LE or Deluxe Van for family transportation, or the rugged Cargo Van for your personal or business needs, you've got more reasons for choosing Toyota Vans.

With its aerodynamic—almost futuristic—styling and fashionable interior, your Toyota Van is ready to deliver you to the most exclusive spot in town. It turns heads and gathers admiring glances wherever it goes.

## ... THE TEAM VAN

From school to the playing field to club meetings, the Van gets a 7-man team there and back in comfort and style with plenty of room in the back for equipment.

DELUXE VAN

# MORE POWER. MORE SPACE.

With plenty of power and space, the Toyota Cargo Van is proving to buyers all over the United States that it's the up-to-date way to move more cargo more economically. That's why commercial fleet buyers, RV customizers, and independent business people have taken to the Van in a big way.

No other vehicle in its class has more power than the 1986 Toyota Van. Its fuel-efficient\* 2.2 liter electronically fuel-injected standard engine produces 101 horsepower.

With the new flat floor in the Cargo Van, you have 187.2 cubic feet of cargo room. Even with the optional passenger seat up front, you have 153.3 cubic feet of cargo room—more than any other small van. And it's all usable space, with the flat floor making loading and unloading easy.

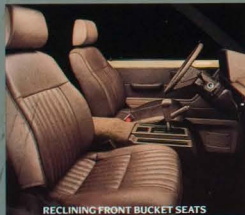

The new Cargo Van is engineered to really pull its weight; it has an 1845 lb. capacity,\*\* thanks to a special heavy-duty leaf spring rear suspension.

Day in and day out, the Toyota Cargo Van delivers more work on the job, reliably and economically.

Who could ask for anything more!

# MORE MUSCLE ON THE JOB

CARGO VAN

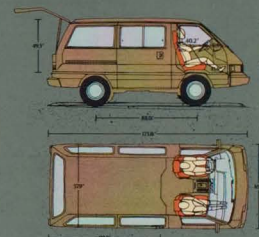

Got a heavy load to haul? Just pull up in a Toyota Cargo Van and load the bulkiest boxes through its large rear swing-up hatch or sliding side door; stack them on the flat cargo floor that gives you full use of the standard 1872 cubic feet of space; and don't worry about the weight: high-strength rear leaf springs support up to 1845 pounds\*. Now, move it out briskly with 101 horsepower from a new electronically fuel-injected 2.2 liter engine. No other vehicle in its class has more standard horsepower.

With a turning radius of only 15.1 feet, you'll maneuver the Cargo Van more easily through dense city traffic. And its compact size lets you slip into parking places a regular van must pass by. To make the job easier, there's new rack-and-pinion steering with optional variable power assist and an optional 4-speed automatic overdrive transmission. A 5-speed manual overdrive transmission is standard.

FLAT CARGO FLOOR

The Van's compact size, sophisticated suspension, and tight-turning radius give it the handling characteristics and maneuverability of a passenger car. Independent front tor-

sion bar suspension and rugged leaf springs help give it a smooth stable ride. A load-sensing proportioning valve automatically distributes hydraulic pressure between the front disc/rear drum brakes to help avoid wheel lock-up. Underneath, there's a ladder-type "double-Y" steel frame for added stiffness and durability.

For truly cost-effective operation, the Cargo Van has a lot going for it. There's computer-directed electronic fuel injection, fully transistorized ignition, and platinum-tipped spark plugs that last for 60,000 miles—the longest service interval in the industry. Oil changes are recommended only every 10,000 miles and tune-ups every 60,000 miles.

And there's more: full instrumentation, Flo-thru ventilation, a center console with storage area, and a

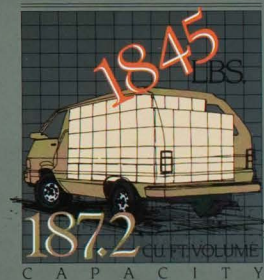

3-way adjustable driver's seat that fully reclines. Also, there's a full array of options: analog quartz clock, dual air conditioning, AM/FM/MPX receiver and cassette sound system, tilt steering wheel, and a front Passenger Seat Package. Choose the optional Converter, Convenience, or Luxury Packages to complete your Cargo Van. See the Features chart for details.

More muscle, more versatility, more durability. That's the Toyota Cargo Van.

# MORE FOR THE ROAD

## MORE PERFORMANCE

**MORE POWER**  
All Toyota Vans feature a new powerful 2.2 liter engine with electronic fuel injection (EFI), producing 101 hp to give you quick acceleration and economical highway cruising.

**QUICK AND NIMBLE**  
With its wide track, short wheelbase, and variable assist power rack-and-pinion steering, the Van is easy to handle. Its tight turning circle makes it maneuverable in traffic, in the market parking lot, or at the construction site.

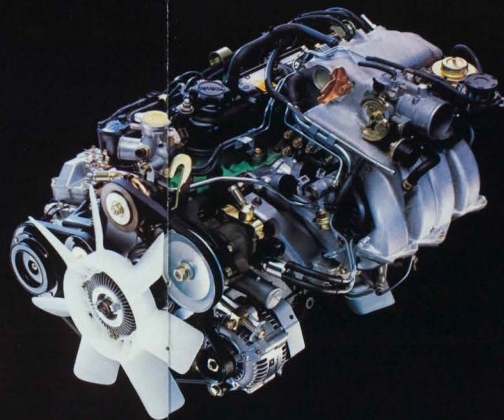

**MORE ECONOMY**  
Both the 5-speed manual overdrive transmission (standard in the Deluxe and Cargo Vans) and the 4-speed automatic overdrive transmission (standard on the Van LE and optional on Deluxe and Cargo Vans) help stretch every drop of fuel\*

CARGO VAN REAR LEAF SPRINGS

**MORE LOAD**  
The Cargo Van has a special heavy-duty leaf spring rear suspension for up to 1845 lbs. of cargo.\*\* A ladder-type 'double Y' steel frame adds torsional rigidity and structural strength to all Vans.

\*\*Including occupants, equipment and cargo with 5-speed manual overdrive transmission. 1825 lbs. when equipped with 4-speed automatic overdrive transmission.

AERODYNAMIC PROFILE

**STREAMLINED STYLE**  
The Van's eye-pleasing aerodynamic styling includes a large front air dam for better control of air flow. Its drag coefficient of only .40 lets it slip through the wind as efficiently as many family sedans.

# THE TOYOTA TOUCH

What is the Toyota Touch? It's an obligation. And a commitment to you. When you purchase a Toyota car, truck, or van, we want you to derive more satisfaction and receive more value than anyone else can give you. Toyota dealers are committed to providing the extra effort, the special touch, that you deserve when you buy a Toyota.

The Toyota Touch begins with design and engineering that combine innovation, performance, reliability, styling, and economy in every Toyota. Our ongoing goal is to be the best in automotive technology.

The Toyota Touch means using advanced manufacturing techniques, including the most creative use of robotics, to ensure that the Toyota you purchase is in superb condition when you take delivery.

According to surveys of Toyota owners, the Toyota Touch has tangible value. Toyota cars receive the highest rating among small cars for having the lowest incidence of recurring problems after one year of ownership.\* Toyota trucks and vans lead their class for owner satisfaction and

are unsurpassed for excellence of condition at delivery, according to owners surveyed after one year of ownership.\*\*

But the Toyota Touch means more than product excellence. The Toyota Touch means that you come first, and that it's our commitment to make sure that you are well satisfied with your total ownership experience.

We give you a 12-month/12,500-mile product warranty that states, every Toyota is tested and inspected at every stage of manufacture and is also covered by Toyota's limited powertrain warranty of 2 years/24,000 miles. But our commitment is even stronger than that.

The Toyota Touch is our way of doing business with you. It means that every step of the way, from your first visit or phone call to a Toyota dealer—through purchase and delivery—to after-sales service, we're committed to your satisfaction.
