GMC TRUCK S-15 JIMMY – Puts More Zest In Life!

GMC TRUCK
IT'S NOT JUST A TRUCK ANYMORE.

Sierra Classic 4-WD S-15 Jimmy shown with available equipment. Tires are supplied by various manufacturers.

S-15 JIMMY GIVES YOU MORE!

When you say you crave a compact utility sport truck with more style, more performance, more space, more versatility — you're describing a GMC S-15 Jimmy! Heading for a remote campsite? — brawny 4-wheel drive S-15 Jimmy can carry four adults and plenty of provisions. Or, with the available rear bench seat folded flat, there's 2-passenger seating and up to 67.2 cubic feet of space atop a flat load floor over 68 inches long. If you'll never need 4-WD, there's a sturdy, 2-WD S-15 Jimmy sport runabout eager to take you across town or across the country.

BETTER THAN EVER FOR 1987!

Since its debut, S-15 Jimmy has earned enthusiastic public applause; thanks to GM's ongoing improvement policy, 1987 S-15 Jimmy is an even better value. The standard Tech IV and the available V6 engines have new features that afford impressive performance and reliability. New standard and available Delco Freedom batteries have higher capacities for '87 as does the standard Delcotron generator. One new exterior color is included in the solid color paint palette. Sunshine striping — formerly available only for S-15 Pickups — is introduced

for S-15 Jimmy. And, the tailgate applique for Sierra Classic and Gypsy Sport models is restyled.

NEW TIMBERLINE PACKAGE

Select available new Timberline package and your 4-WD S-15 Jimmy will stand out in any crowd! Distinctive black and gold Custom Two-Tone paint scheme is accented by a special stripe decal. The package also includes gold-painted cast-aluminum wheels; black chrome grille trim; deep-tinted quarter windows; and special gold nameplates on the fenders. See your GMC Truck Dealer for further details.

COMMITMENT PLUS QUALITY GMC TRUCKS

Commitment Plus is one of the most complete joint sales and service customer satisfaction programs available for light-duty trucks today. It offers the following benefits:

- a thorough new-vehicle inspection
- one full tank of fuel
- complimentary 3000-mile maintenance service including oil change and oil filter at no extra charge.

GMC Truck and GMC Dealerships are truly committed to making GMC Light Duty Trucks easy to live with. Our customers' total satisfaction is indeed our goal!

Applies to retail sales only.

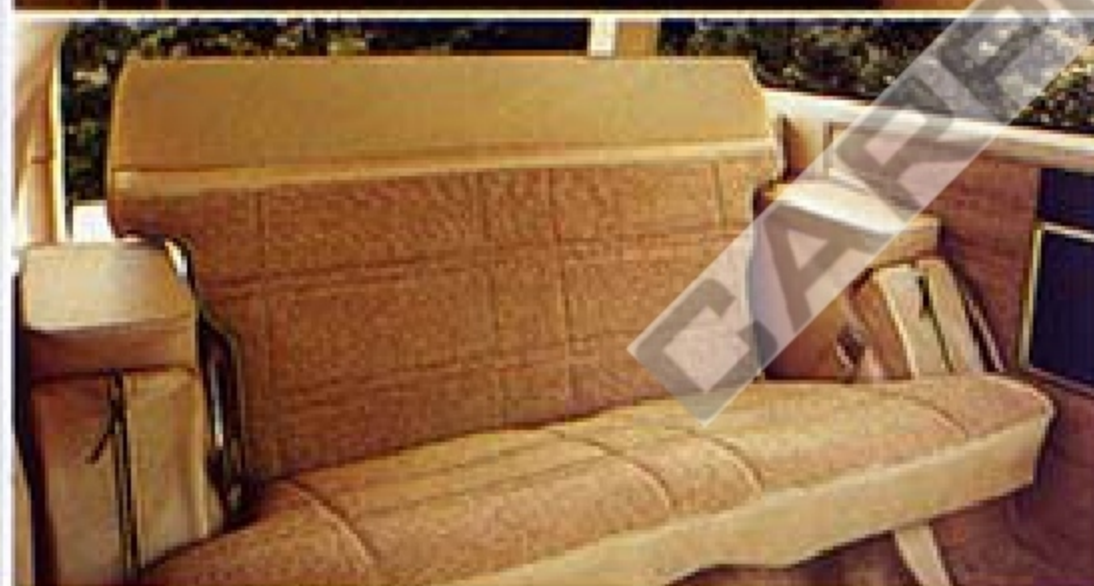

2-WD Sierra Classic S-15 Jimmy shown with available equipment

GMC TRUCK SOPHISTICATED INTERIOR

...TOUGH TRUCK MUSCLE

Sierra Classic interior with Special Custom Cloth seat trim.

Gypsy interior shown with tweed-pattern Deluxe Cloth trim on available rear seat

S-15 Jimmy high-tech instrument panel

One easy step up takes you from the humdrum outside world into a sophisticated interior appointed for your pleasure and convenience.

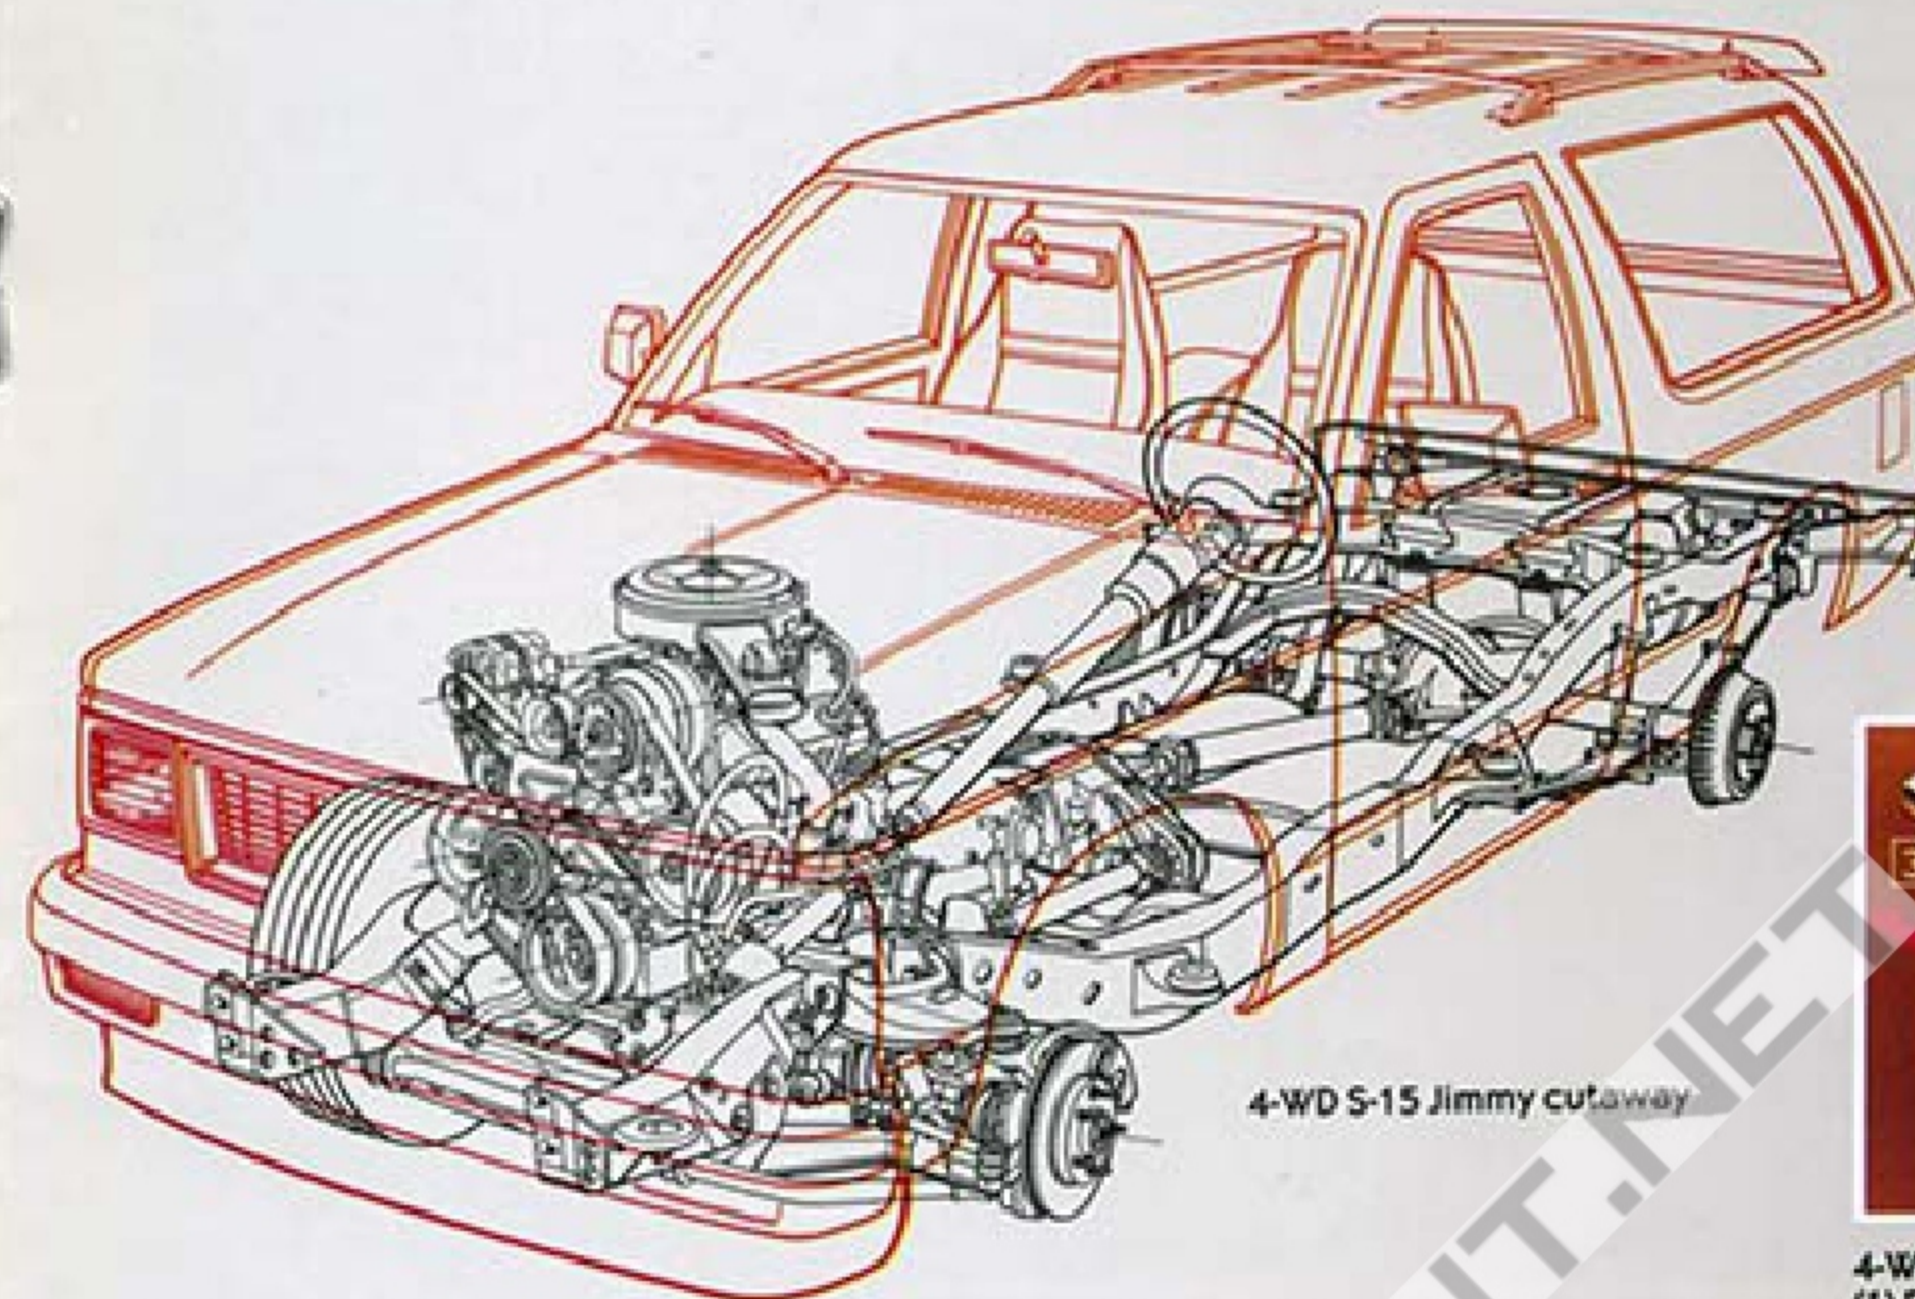

Your own good taste will dictate the interior decor. S-15 Jimmy offers a choice of standard Sierra or available Sierra Classic and Gypsy trim plus a large selection of vinyl, cloth, or sheepskin seat upholstery. For a one-of-a-kind look, you might select the new-for-1987 sporty Vaquero upholstery which includes genuine leather seat coverings; available with Sierra Classic or Gypsy Sport trim, or with the new Timberline package (see page 2).

Passenger comfort and convenience are prime considerations. High-back bucket seats, ergonomically shaped and full-foam cushioned for firm support, adjust fore and aft for individual legroom. The standard deluxe heater/ventilation system and strategically placed insulation help maintain a comfortable level of temperature and sound. Two sliding sunshades control glare.

Housekeeping is easy; front- and rear-seat travelers will find a wealth of places to tuck away maps and small packages. Locking glove compartment,

underdash parcel tray, and front door pockets are standard; in Sierra Classic and Gypsy, zippered storage pockets are included with the available rear bench seat. A floor-mounted console with locking storage compartment, available for Sierra and Sierra Classic, is included in Gypsy Sport.

Beauty, comfort, convenience, and exciting drivability; obviously this is no ordinary truck. Just study the chart on the back cover and notice the uncommonly long list of luxury equipment that is standard on GMC S-15 Jimmy.

4-WD S-15 Jimmy cutaway

One hand on the floor-mounted lever shifts from 2 WHEEL to 4 HIGH and back again at any speed

4-WD Front-Axle Differential (1) Power comes from transfer case. (2) In 4-WD, locking sleeve engages right side of axle transmitting power to both front wheels. (3) In 2-WD, sleeve is disengaged for front freewheeling efficiency.

The cutaway picture gives you a look at the rugged foundation supporting your handsome S-15 Jimmy. The tough carbon steel full frame is hot-wax coated to resist corrosion. And, in '87 a new, special wax-base coating replaces the paint on the two-stage rear springs and Salisbury axle as an added protection from corrosive road salt, water, and mud.

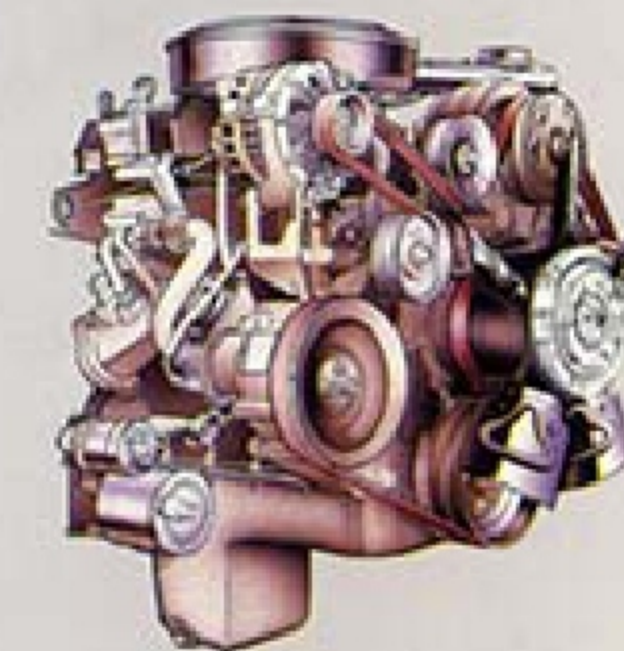

Other strong features are double-wall construction used in the hood, cowl, windshield pillars, front fenders, rear side panels, and tailgate. Also, one-piece fabrication of major body panels for structural rigidity, includes rear quarter panels, wheelhouses, door- and tailgate-opening frames.

New Delco Freedom batteries are lightweight with a newly designed flattop case and feature greater cold cranking power in both standard and available applications to improve cold-weather starting. See back cover for details.

New Serpentine single-belt accessory drive system replaces the former multiple V-belts in both S-15 engines for reduced belt wear. A spring-loaded tensioner automatically keeps the belt in adjustment throughout its long life.

2.8 LITER V6 AVAILABLE ENGINE
An Electronic Fuel Injected engine with greater horsepower and torque capacity available for S-15 Jimmy when more performance is desired. In '87, automation in various assembly procedures results in improved engine integrity.

2.5 LITER TECH IV ENGINE
The zesty in-line 4-cylinder Electronic Fuel Injection engine is standard for S-15 Jimmy. For '87, new high-flow ports in the cylinder head, and a redesigned intake manifold combine to improve fuel and airflow characteristics. This engine includes a new lightweight Delcotron generator with higher 85-amp rating.

Available 2.8 Liter V6 engine

NEW GM-CAMS MAINTENANCE SYSTEM

GM-CAMS represents a computerized automotive maintenance system, with emphasis on diagnostics. The technician's terminal at your participating GMC Truck Dealership, connected to your gasoline engine vehicle's on-board computer, interacts with a comprehensive computer network. That, in turn, is supported by the continuously updated master data base of the GM Information Center. In effect, GM's total diagnostic and repair resources stand ready to help with your individual vehicle problems, should they occur.

ENGINE TECHNICAL DATA

DISPLACEMENT/TYPE	2.5 LITER (151 CID) L4	2.8 LITER (173 CID) V6

SAE Net Torque (lb/ft) @ RPM	130 @ 3200	150 @ 2200

A WORD ABOUT ENGINES

GMC Trucks are equipped with engines produced at facilities operated by GM car and truck groups, subsidiaries, or affiliated companies worldwide.

GMC AVAILABLE EQUIPMENT

TRUCK

Comfortilt steering wheel

Power door locks and power windows

Air deflector

Cast aluminum wheels (4-WD only)

Rally wheels (2-WD only)

Wheel trim rings

Deadweight trailer hitch

Reclining seat back (standard on Gypsy Sport). Back is adjustable.

Delco AM/FM stereo radio with cassette deck, seek/scan, digital clock

Electronic speed control

Outside spare tire carrier

PAINT SCHEMES

Solid Color paint with 6-stripe Rally decal

Special Two-Tone scheme

Custom Two-Tone scheme

Sport Two-Tone scheme with moldings

Solid Color paint (see back cover) is standard on all models except Gypsy Sport. Available 4-stripe lower decal (Sierra only), 4-stripe Sunshine upper decal, or 6-stripe Rally upper decal can be ordered with Solid Color paint.

Available Custom Two-Tone paint scheme for all models includes coordinated upper decal stripe to separate upper primary color from lower secondary color, but available 4-stripe Sunshine striping may be specified.

Available Special Two-Tone paint scheme for all models except Gypsy Sport extends middle secondary color around to front and rear of vehicle. Black body side moldings and bright wheel opening moldings are included on Sierra models (standard on Sierra Classic).

Available Sport Two-Tone (standard on Gypsy Sport) extends lower secondary color around to front and rear bumpers. Includes 4-stripe lower decal on Sierra models.

CCA = Cold Cranking Amps 1 - At ground, each 2 - Tire chains should not be used with available P235/75R15 tires, as they may cause damage to the vehicle

GMC S-15 Jimmy offers a large selection of available accessories. See back cover and check with your GMC Dealer for desired equipment not in this catalog. (Some items may require the purchase of other options.)

TRAILERING

Properly equipped, an S-15 Jimmy can move up to 8500 lb Gross Combination Weight — that includes everything going down the road (truck, trailer, passengers, cargo, and equipment on truck and trailer). The chart at right shows the maximum allowable Gross Combination Weight Rating (GCWR) based on all standard and available engines and rear axle ratios for S-15 Jimmy with an automatic transmission.

To help you properly equip your S-15 Jimmy for trailering, you can order from the factory either a Light- or Heavy-Duty Trailering Special Equipment package. The Light-Duty package (Z79) is designed for trailers with a maximum weight of 2000 lb; included is a deadweight-type trailer hitch and 5-lead trailer wiring harness. For heavier trailers (up to 5000 lb maximum weight) the Heavy-Duty package (Z82) is recommended; this package includes a weight-distributing platform hitch and 7-lead trailer wiring harness.

For complete details about recommendations and requirements for heavy-duty or light-duty trailering, ask your GMC Dealer for a 1987 Trailering Guide.

GROSS COMBINATION WEIGHT RATING BY ENGINE AND AXLE RATIO

ENGINE	GROSS COMBINATION WEIGHT RATING (lb)				
	6000	6500	7000	7500	8500
2.5L L4 GAS (LN8)	3.73	4.11			
2.8L V6 GAS (LL2)			3.42	3.73	3.73+
				4.11	

+ Available only on 2-wheel drive models with RPO KCA engine oil cooler

IMPORTANT! A WORD ABOUT THIS CATALOG: We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information you'll find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available as factory-installed options, as dealer accessories, and as specialized equipment from various independent suppliers at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, and models. Check with your GMC Dealer for complete information.

A WORD ABOUT ASSEMBLY, COMPONENTS, AND OPTIONAL EQUIPMENT IN THESE GMC PRODUCTS: The GMC Trucks described in this brochure are assembled at facilities of General Motors Corporation operated by General Motors. These vehicles incorporate thousands of different components produced by car and truck groups and various component divisions of GM and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety, and fuel economy

requirements, or for other reasons, to produce GMC products with different components or differently sourced components than initially scheduled. All such components have been approved for use in GMC products and will provide the quality performance associated with the GMC name.

With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your truck is built. Your dealer receives advice regarding the current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your truck includes the optional equipment you ordered, or if there are changes, that they are acceptable to you.

These vehicles also are available under the Chevrolet nameplate as the Series S-10 Blazer.

A WORD ABOUT UPDATED SERVICE INFORMATION: GMC Truck & Bus Operation regularly sends its dealers useful service bulletins about GMC Truck products. GMC Truck & Bus Operation monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.
