

1992 GMC TRUCK.

# YUKON

# COMMITMENT PLUS:

## A CUSTOMER SATISFACTION PROGRAM AS DISTINCTIVE AS THE YUKON ITSELF.

**O**ur goal is to make your new Yukon the most rewarding truck you've ever owned. We want you to be satisfied with the service, care and consideration of your GMC Truck dealer. To that end, we and the more than 2400 GMC Truck dealers have developed Commitment Plus. Among its benefits to you:

- Roadside assistance — available to you 24 hours a day. Dialing a 1 (800) number gives you access to emergency services such as towing, tire change assistance, locksmith services, and more for as long as you own your Yukon.
- Keeping in touch with you throughout your ownership with one thought in mind... complete customer satisfaction.
- Complimentary 3000-mile inspection and maintenance service, including oil and oil filter change.
- A complimentary full tank of fuel upon delivery.

See your GMC Truck dealer for full details on this important additional benefit of GMC Truck ownership. Applies to retail sales only.

# 1992 GMC TRUCK. YUKON

## THE NEWEST EDITION OF GMC TRUCK E X P E R I E N C E

**A**s a company whose only business is trucks, and has been for over 80 years, we know more than most about what a truck should be. And, more important, what a truck can be. **A** case in point is our 1992 Yukon — a full-size, 4x4 sport utility so improved over anything else like it,\* even its name is new. With its powerful standard V8 and new lower stance, Yukon establishes new standards in off-road poise and precision. **O**n the road, Yukon is even more of a revelation. The ride is smooth and stable, the handling quick and agile. **I**t's thoughtful and luxurious. Now, turn the page and get comfortable with our new Yukon. **A**nd the advantages that come from the strength of experience.

\*Excluding other GM products

**On Cover.** Yukon SLE shown with Sport Package (BYP) in Conventional 2-Tone of Brilliant Blue and Quicksilver Metallics, with available equipment.

**At left.** Yukon. For all of its sophisticated engineering, it evokes the rugged outdoors and the proud legacy of GMC Truck achievement.

THE STRENGTH OF EXPERIENCE.

# WHAT MAKES YUKON A GMC TRUCK INSIDE

## NEW LEVELS OF ROOM, COMFORT, LUXURY, RIDE AND HANDLING.

Technically, our new Yukon is a full-size, 4X4 sport utility vehicle. Yet, it's so sophisticated in engineering and well-rounded in design that it can be just about anything you want it to be. Around town it's nimble, agile and delightful to drive. On the highway, you enjoy a taut, firm ride usually reserved for large, expensive touring sedans.

Inside, Yukon is a luxury vehicle that treats its passengers as comfortably as it treats the driver. The seats - front and back - are wide and well-bolstered, with a new cushion suspension system for a

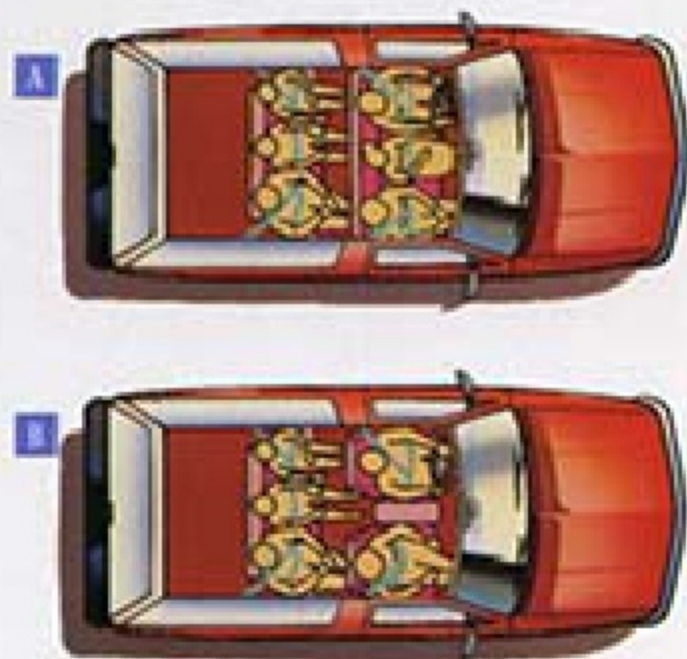

smoother, well-mannered ride. Compared to its predecessor, Yukon has improved leg, hip and shoulder room, both front and rear. Glass area is increased by 30 percent for better driving sightlines and to enhance passenger viewing of the surrounding sights.

Up front, Yukon is available with a 40/60 split bench seat or high-back buckets and a 6-way power driver's side seat adjuster. There's an available combination of front and rear bench seating that makes Yukon the first full-size 4X4 sport utility that can comfortably accommodate six adults.\* Whether it's a trip to the mall or a weekend of fishing, Yukon has features that make it even more pleasant than before: standard lift glass/drop tailgate that makes loading and

unloading easier. Stowage compartments. Rear cargo coat hooks and floor-mounted tiedowns. There're even clever, extending sun visors. Available rear window washer/wiper and defogger and electric power outside rearview mirrors add the sort of contemporary convenience you'll find in luxury cars.

Yet, for all its refined smoothness, comfort and convenient fittings, Yukon also comes with a full measure of the truck strengths, power and capabilities you'd expect from GMC Truck. Which means the best parts of our 1992 Yukon are still to come, on the following pages.

\*Excluding other GM Products.

At right. Yukon interior with highback reclining bucket seats with inboard and outboard folding armrests in Blue Custom Cloth trim (includes floor and roof consoles).

Below Right. Available analog instrumentation, with tachometer, shown with available (UM6) electronically tuned AM/FM stereo radio with seek/scan, stereo cassette tape player and digital clock. A CD player may be added as a dealer installed option. Ask for details.

A 6-passenger, with front 40/60 split bench and folding, full-width rear bench.

B 5-passenger, with rear, folding full-width bench and two front lowback bucket seats, with roof and floor consoles. Right-hand easy-entry standard. (Highback bucket seats also available.)

# WHAT MAKES YUKON A GMC TRUCK OUTSIDE

## INCREASED TOWING AND OFF-ROAD CAPABILITIES; THE SAFETY OF 4-WHEEL ANTI-LOCK BRAKING.

When you take your first look at the new Yukon, we believe you'll share our pride in its sleek, contemporary and aerodynamic new lines. Typically with GMC Truck, however, what's underneath is even more attractive. Compared to other full-size 4x4 sport utilities, Yukon's stance is longer and lower for dramatic improvements in both on- and off-road driving ease and control.\* The longer wheelbase, for example, allows Yukon to ride even more smoothly than its predecessor, even while towing 7000 lbs., when properly equipped,\*\* a 1000-pound higher weight maximum than ever before.

Independent front upper and lower wishbone control arms, combined with torsion bars backed up by heavy-duty 32mm shocks both front and rear, tuned with the rear leaf springs,

help smooth Yukon's ride— isolating and countering road harshness and irregularities. This is a suspension that provides improved tracking, stability and control.

Standard, also, with Yukon is 4-wheel anti-lock braking, a system designed to help protect you and your passengers from unexpected and sometimes perilous driving situations. This system modulates the brakes when a wheel begins to lock, so that steering control is maintained, even under adverse driving conditions.

And, with Yukon's standard Insta-Trac 4-wheel traction, you can shift from 2 HIGH to 4 HIGH and back again at any speed. With just a move of the lever. There's no getting out of your Yukon in bad weather to lock or unlock hubs.

Experience for yourself new levels of on- and off-road precision, comfort and luxury. In a whole new class of full-size, 4x4 sport utility vehicles.

\* Excludes other GM products.  
\*\* Includes weight of trailer, passengers, cargo and equipment on truck and trailer.

1. Standard torsion bar front suspension.
2. Standard 5.7L V8 with Electronic Fuel Injection develops 210 SAE net horsepower at 4000 RPM; 300 lb-ft net torque at 2800 RPM.
3. High-strength steel frame with boxed front section for extra torsional rigidity.
4. Smooth-shifting standard 5-speed manual transmission, with OD.

\*\* Includes weight of trailer, passengers, cargo and equipment on truck and trailer.

**Y**our GMC Truck dealer can make it easy for you to buy or lease your new GMC vehicle through GMAC. With GMAC and most other financing sources, the entire transaction can be handled right in the showroom.  While buying gives you the traditional advantages of ownership, leasing offers other advantages. With GMAC leasing you can drive up to 15,000 miles a year without penalty. At the end of the lease, you have the option of purchasing your vehicle at an amount determined at the inception of the lease.

## IMPORTANT: A WORD ABOUT THIS CATALOG.

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Also, tires shown in illustrations are supplied by various manufacturers. Since some information may have changed since the time of printing, please check with your GMC Truck dealer for complete details.

## A WORD ABOUT ENGINES.

GMC Truck models are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

## A WORD ABOUT ASSEMBLY OF GMC TRUCK MODELS.

GMC Truck models are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. GMC Truck models incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC Truck models with different or differently sourced components than originally

scheduled. All such components have been approved for use in GMC Truck models and will provide the quality performance associated with the GMC Truck name. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

## A WORD ABOUT UPDATED SERVICE INFORMATION.

GMC Truck Division regularly sends its dealers useful bulletins about GMC Truck products. GMC Truck Division monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1 (800) 551-4123.

## A WORD ABOUT CORROSION PROTECTION.

GMC Truck models are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles. See your dealer for terms and conditions of the limited warranty. Application of additional rust inhibiting materials is not required under the corrosion coverage.

**B**ecause it's a GMC Truck, your new Yukon comes with many significant benefits: the security of 4-wheel anti-lock brakes. From its comprehensive Bumper to Bumper Plus warranty to its long list of standard safety features, your new Yukon is also one of the best protected trucks in our history. We invite you to read about these important benefits.

## 1992 GMC TRUCK SAFETY FEATURES

**OCCUPANT PROTECTION:** Manual lap/shoulder safety belts, outboard front and rear seat positions  Manual lap safety belts, center front/rear seat positions, where applicable  Energy absorbing steering column  Energy absorbing instrument panel  Energy absorbing seat back tops, front  Interlocking door latches  Safety armrests  Inertia-locking, folding front seat backs

- Break-away manual day/night inside rearview mirror
- Security door locks and door retention components.
- Laminated windshield glass.
- Tempered safety glass side windows and rear windows.

### ACCIDENT AVOIDANCE:

- Four-wheel anti-lock brake system  Brake system with dual master cylinder and warning light  Safety road wheel rims  Side marker lamps and reflectors  Parking lamps that illuminate with headlamps  Four-way hazard warning flashers  Back-up lamps  Directional signal control with lane change feature  Windshield washer, defroster and multi-speed wipers  Outside left and right rearview mirrors  Starter safety switch  Dual action hood latch  Low glare finish on inside windshield moldings, wiper arms and blades, metallic steering wheel surfaces  Dual sun visors  Illuminated

- heater and defroster controls  Tires with built-in tread wear indicators  Audible brake lining wear indicators, w/disc brakes  Pressure relief fuel system.

## 1992 GMC TRUCK WARRANTY

Your new Yukon is protected by one of the most comprehensive warranties in the industry: GM's Bumper to Bumper Plus. The entire vehicle (except tires, which are covered by their manufacturer) is warranted for repairs, including parts and labor, to correct defects in materials or workmanship for 3 years or 36,000 miles. This warranty is transferrable and covers towing to the nearest GM dealer should towing be necessary. In addition, any body sheet metal rust-through is covered for 6 years or 100,000

miles. There is no deductible for rust-through repairs. See your GMC Truck dealer for terms of this limited warranty.

## LOW MAINTENANCE

Another benefit of your new Yukon is its low required maintenance. Traditional engine tuneups, for example, are virtually eliminated. Depending on your type of driving, oil changes are recommended only every 6 months or 7,500 miles. Be sure to read the owner's manual for the complete maintenance schedule for your vehicle and type of driving you do.  Finally, the benefits of your new GMC Yukon extend beyond the truck itself. See the back cover of this catalog for highlights of GMC Truck's Commitment Plus and new Roadside Assistance Program.

# COMMITMENT PLUS:

## A CUSTOMER SATISFACTION PROGRAM AS DISTINCTIVE AS THE YUKON ITSELF.

**O**ur goal is to make your new Yukon the most rewarding truck you've ever owned. We want you to be satisfied with the service, care and consideration of your GMC Truck dealer. To that end, we and the more than 2400 GMC Truck dealers have developed Commitment Plus. Among its benefits to you:

- Roadside assistance — available to you 24 hours a day. Dialing a 1 (800) number gives you access to emergency services such as towing, tire change assistance, locksmith services, and more for as long as you own your Yukon.
- Keeping in touch with you throughout your ownership with one thought in mind... complete customer satisfaction.
- Complimentary 3000-mile inspection and maintenance service, including oil and oil filter change.
- A complimentary full tank of fuel upon delivery.

See your GMC Truck dealer for full details on this important additional benefit of GMC Truck ownership. Applies to retail sales only.
